#### Briefly explain why are you interested in serving on this board or commission?

I am interested in serving on this commission because I am excited that women can have a voice that will impact Fresno. As a first generation Hispanic/Native American woman of color, this is a huge opportunity for me to learn more about local government and how I can make positive changes that will influence society and culture in Fresno for the greater good. I am a single mother to four children, which includes two young ladies named Jasmine and April. It is important for them to see the aspects of government that create the realities, and for them to see how women have an impact and partnership with everything around them in order for us all to be stronger and safer. To me, serving on this commission will be an homage to all the women that have come before me that didn't have the opportunity to make a change on a larger scale. As we move into a new way of living after Covid, I feel it is very important for us to stay connected as women, women of color and to become mentors to future generations to keep striving for excellence and equality while maintaining safety and unity.

## Educational background, Schools Attended, Degrees and Certifications
