**Not Applicable**

**BACKGROUND OF PROJECT** (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The Headworks Building at the Facility houses the preliminary treatment processes of the wastewater treatment plant. Significant structural degradations have been noted at the concrete staircase structure at the south side of the building and at various locations around the perimeter walls of the building. If left unaddressed, there will be continued degradation of the structural integrity of the Headworks building.

The Project entails the necessary repairs to the Headworks Building structural components.
