

RESOLUTION NO. _____

A RESOLUTION OF THE COUNCIL OF THE CITY OF FRESNO, CALIFORNIA SUBMITTING TO CITY VOTERS A BALLOT MEASURE RELATING TO RESOLUTION NOS. 2013-143 AND 2013-144 THAT ADOPTED THE FOUR YEAR WATER RATE PLAN, FOR THE NOVEMBER 4, 2014 GENERAL ELECTION

WHEREAS, on August 15, 2013, the City Council of the City of Fresno adopted Resolution Nos. 2013-143 and 2013-144 adopting the Four Year Water Rate Plan; and

WHEREAS, on June 25, 2014, the City Clerk (Elections Official) received an Initiative Petition to repeal Resolution Nos. 2013-143 and 2013-144; and

WHEREAS, after a prima facie review by the City Clerk, the Initiative Petition was deemed filed on June 27, 2014; and

WHEREAS, the Fresno County Clerk/Registrar of Voters examined the petition signatures against the records of registration and submitted the findings of the verification process to the City Clerk; and

WHEREAS, the City Clerk issued a Certificate of Sufficiency for the Initiative Petition as required under the Elections Code; and

WHEREAS, the Council has determined to submit the ordinance to the City voters.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Fresno as follows:

SECTION 1. The Council submits to the electors of the City of Fresno, at its general municipal election to be consolidated with the statewide general election to be held on November 4, 2014, a ballot measure to repeal Resolution Nos. 2013-143 and 2013-144, that adopted the Four Year Water Rate Plan. The Council acknowledges that the consolidated election will be held and conducted in the manner prescribed in Elections Code Section 10418.

SECTION 2. The question to be submitted to the voters with respect to the ballot measure shall be printed on the election ballot with the title and in the form set forth as follows:

1 of 3

Date Adopted:

Date Approved:

Effective Date:

City Attorney Approval: 

Resolution No.

CITY OF FRESNO'S FOUR YEAR WATER RATE PLAN. Shall the ordinance repealing Resolution Nos. 2013-143 and 2013-144 on the Four Year Water Rate Plan be adopted, and return the water rates to those previously in effect, and reduce the funding available to the City to operate, maintain, and improve the City's water supply, treatment, and distribution facilities in accordance with regulatory requirements for public health and safety?	Yes
	No

SECTION 3. The following constitutes the synopsis of the measure to be voted on for purposes of meeting the publication requirements of Election Code Section 12111:

MEASURE TO BE VOTED ON

CITY OF FRESNO'S FOUR YEAR WATER RATE PLAN

This measure repeals the Four Year Water Rate Plan adopted by City Council on August 15, 2013, after a majority protest hearing, following 45 days mailed notice, to which less than 0.4 % of the City's water customers protested the rates. The Rate Plan is based on a study of the City's water system plans, future planned capital improvement projects, and projected systems operations and maintenance by an independent rate-making consultant. The repeal of Resolution Nos. 2013-143 and 2013-144 that established the Four Year Water Rate Plan will return the water rates to those in effect prior to its adoption, thereby reducing funding to maintain and improve the City's water utility to address drought, groundwater quality and supply problems, and other costs. The measure does not limit the City Council's power to set new rates in the future.

SECTION 4. The full text of the measure to be submitted to the voters is attached as Exhibit A. The ordinance without the attachments, shall be printed in the Sample Ballot and Voters Pamphlet. The full text of the measure is not required to be printed in the Sample Ballot and Voters Pamphlet. However, the full text of the measure shall be made available at the Office of the Fresno County Clerk/Registrar of Voters and the Office of the Fresno City Clerk.

SECTION 5. The City Clerk shall file a certified copy of this resolution with the Fresno County Elections Office on or before August 8, 2014.

SECTION 6. The Fresno County Clerk/Registrar of Voters shall give the appropriate notices for the election and shall conduct the election pursuant to appropriate provisions of state law.

SECTION 7. The City shall reimburse the County of Fresno for the above-mentioned services performed by the Fresno County Clerk/Registrar of Voters, upon presentation of the bill to the City.

SECTION 8. The City Attorney shall prepare an impartial analysis of the measure in accordance with Elections Code Section 9280.

SECTION 9. Arguments in favor or against the proposed measure are permissible and shall be filed with the Fresno County Clerk/Registrar in accordance with Elections Code Section 9280 and file it with the Fresno County Clerk/Registrar of Voters.

SECTION 9. Passage of this measure requires 50% plus 1 vote.

EXHIBIT A

INITIATIVE MEASURE TO BE SUBMITTED DIRECTLY TO THE VOTERS

The City Attorney has prepared the following title and summary of the chief purpose and points of the proposed measure:

Title: INITIATIVE MEASURE TO REPEAL CITY OF FRESNO'S FOUR-YEAR WATER RATE PLAN AND RELATED WATER FEES

Summary: A "yes" vote on this measure would repeal water rates to be charged over four years that the Fresno City Council adopted on August 15, 2013, and cause the rates to return to what the Council adopted in 2008. The City Council adopted the 2013 water rates to pay for increased costs to provide adequate water that is safe to drink. The increased costs are caused by changes in state and federal drinking water standards, depletion of ground water, costs of maintenance and repairs to old water pipes and other parts of the water system, and the necessity to build a surface water treatment plant. If the current rates are repealed, the City Council could impose higher rates again. However, it would delay the City's work to repair and improve the water system.

TO THE HONORABLE CLERK OF THE CITY OF FRESNO:

We, the undersigned, registered, qualified voters of California, residents of the City of Fresno, hereby propose an ordinance relating to water rates, and petition you to immediately submit this initiative to the City Council for adoption without alteration, or in the alternative, for submission to the voters of the City of Fresno at a special election pursuant to Elections Code section 9214, or the jurisdiction's next regular election for which it qualifies. The proposed ordinance reads as follows:

The people of the City of Fresno do ordain as follows:

SECTION 1. STATEMENT OF FINDINGS

A. The City of Fresno conducted a Proposition 218 process for increasing water rates charged to City and County residents who receive City water services. The process was flawed in that the materials provided by the City did not adequately inform all ratepayers of the actual impact of the increased rates and involved a burdensome procedure that had the effect of denying all ratepayers a reasonable opportunity to protest.

B. The new increased water rates schedule includes perplexing and irrational calculations based on a combination of how water is used, standby charge, pipe size and water meter volume.

C. The revenue from the new increased water rates is set to pay for over \$410 million in new projects and will cause the City to borrow of over \$320 million - more than doubling the debt the City owes for the current water system.

D. A big part of this rate increase is for the payment of the new debt, causing the ratepayer's water bill to nearly triple by the middle of 2016.

E. Over two-thirds of the cost of the new projects is on the City's southeast side where the City's Draft 2035 General Plan calls for urbanization of prime agricultural land within 20 years. Apparently this water rate increase scheme is designed to allow the City to significantly expand its boundaries and promote urban sprawl.

F. Virtually all residents are concerned about assuring that we have a healthy and reliable water supply and have supported efforts to provide it. However, any increases in water rates must be reasonably based on actual costs to achieve such a goal, and requiring current ratepayers to foot the bill to benefit future urban development that exceeds the actual cost of providing current service is unreasonable and burdensome to the current ratepayers. Also, they expect that the City will not punish them for a reasonable use of water to maintain the needs of their businesses, families and their landscapes.

SECTION 2. STATEMENT OF PURPOSE

The voters of the City of Fresno desire to repeal the recent water rate increase in accordance with Section 3 of Article XIII C of the Constitution of the State of California. Further, the people of the City of Fresno, and on behalf of ratepayers outside of the City who receive their water services from the City, desire that the City repeal these unsound and unfair rates, and call on the City to undertake a new, sincere and comprehensive look at adopting water rates that reflect the City's legitimate costs of providing water service without creating huge new debt obligations and subsidizing future development and other non-water related City endeavors.

Any future rate setting process should respect the participation of all ratepayers by (a) providing

INITIATIVE MEASURE TO BE SUBMITTED DIRECTLY TO THE VOTERS

impartial, accurate information regarding the impact of the proposed new rates; (b) providing all ratepayers a reasonable opportunity to participate and does not have the affect of suppressing ratepayer/voter involvement; (c) respecting the rights of all non-City residents of Fresno County who have no representation in the rate-setting process; (d) be cognizant of the impact of any rate increase on businesses and families, particularly to the large number of fixed and low income households in this community; and (e) adopting rates that are rational and justified by the City's operational costs related to

delivery of water services, and infrastructure maintenance and improvement needs.

SECTION 3. REPEAL WATER RATE INCREASES

In accordance with Section 3 of Article XIII C of the Constitution of the State of California, the People of the City of Fresno hereby repeal the water rates adopted by the City Council on August 15, 2013:

A. Resolution number 2013-143 is hereby repealed.

The full text of Resolution 2013-143 is attached.

B. Resolution number 2013-144 is hereby repealed.

The full text of Resolution 2013-144 is attached.

Notice of Intent to Circulate Petition

Notice is hereby given by the persons whose names appear hereon of their intention to circulate the petition within the City of Fresno for the purpose of repealing recent water rate increases. A statement of the reasons of the proposed action as contemplated in the petition is as follows:

On August 15, 2013, the Fresno City Council passed, with the Mayor agreeing, a series of water rate increases that will take effect each year for the next 3 years that are outrageously high and punitive to most households and businesses that are connected to Fresno's water system. For example, one rate will rise over 450%.

On June 27, 2013, the Council authorized Proposition 218 protest notices be mailed, declaring the new proposed rate increases, only to property owners and not tenant ratepayers. In the City of Fresno this clearly eliminated a significant number of ratepayer customers from the Proposition 218 notice and protest process.

Besides failing to provide a meaningful opportunity for expression of protest by the elimination of the tenant notice the process was additionally flawed because it also relied on inaccurate data, minimized the scope of rate increases, and adopted rates that are confusing and irrational and obviously structured to justify further indebteding the City, in part, to bankroll urban sprawl.

The new water rates do not reflect the needs and resources of ratepayers and far exceed the rates necessary to cover the City's costs of providing water service and maintaining infrastructure.

Increasing the per capita debt for the City's water system by more than double is risky and foolhardy during these uncertain times. It creates too big of a burden on any individual utility customer, particularly in a City that has a large number of households with fixed, low and poverty level incomes.

The people of the City of Fresno, and on behalf of ratepayers outside of the City who receive their water services from the City, desire that the City repeal these unsound and unfair rates, and call on the City to undertake a new, sincere and comprehensive look at adopting water rates that reflect the City's legitimate costs of providing water service without creating huge new debt obligations and subsidizing future development and other non-water related City endeavors.

RESOLUTION NO. 2013-143

A RESOLUTION OF THE COUNCIL OF THE CITY OF FRESNO, CALIFORNIA, RATIFYING THE PROPOSITION 218 PROCESS ACCORDING TO CALIFORNIA CONSTITUTION ARTICLE XIID AND ADOPTING A FOUR YEAR WATER RATE PLAN

WHEREAS, on June 27, 2013, the Department of Public Utilities presented their Report to the City Council, and the City Council directed staff to initiate the Proposition 218 process on the proposed water rates, as outlined in the Report; and

WHEREAS, on June 28, 2013, staff mailed the Notice of Public Hearing to all property owners served by the Department of Public Utilities, as required by Proposition 218 (Cal. Const. Art. XIID, § 6);

WHEREAS, the Notice of Public Hearing instructed property owners on how to file a protest on the proposed water rates, in accordance with California Constitution Article XIID; and

WHEREAS, the proposed water rates will be used to fund capital projects, debt obligations, reserves, and costs for operating and maintaining current service levels within the service areas; and

WHEREAS, the proposed water rates are supported by the "Water Utility Financial Plan and Rates Study" ("Fee Study") which is on file at City Hall in the City Clerk's Office.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Fresno that based upon the information and testimony presented at the Public Hearing of August 15, 2013, Council hereby:

- 1. Finds that insufficient written protests were presented to prevent the proposed water rates from being imposed; and**
- 2. Finds the four year water rates set forth in the Notice of Public Hearing, to take effect on September 17, 2013, July 1, 2014, July 1, 2015 and July 1, 2016, are supported by the Fee Study which is incorporated herein; and**
- 3. Ratifies the Proposition 218 process and adopts the water rates recommended by the Department of Public Utilities, as set forth in the Notice of Public Hearing mailed to all property owners; and**

4. Directs staff to update the Master Fee Schedule during the annual budget process, in accordance with the effective rates adopted as part of this Resolution.

**CITY OF FRESNO
MASTER FEE SCHEDULE
AMENDMENT DETAIL
DEPARTMENT OF PUBLIC UTILITIES
WATER DIVISION**

Introduction

The Water Division contracted with Municipal Financial Services in June 2010 to conduct a comprehensive water rate study. The broad objective of the study was initially to review the short-term revenue requirements of the City of Fresno's Water Enterprise for FY 2012 to FY 2016 through the implementation of cost of service rate methodologies. Subsequently, the rate study was revised to fund water system funding requirements for FY 2014 through FY 2017 and the Water Utility Financial Plan And Rates Study Final Report (Rate Study) was completed in March 2013. The study was based upon a comprehensive review of the City of Fresno's financial and budgetary reports; water system plans; billing information, such as customer classes and current usage data; future planned capital improvements projects; bond covenants; projected system operations and maintenance and any other information deemed applicable.

Following is a summary of how the recommended changes to water service rates were developed. A table showing the proposed rates is also attached.

Rate Setting Process

The study was conducted using the following steps of analysis:

1. **Revenue Requirements** - The amount of revenue required from water rates is dependent upon producing sufficient revenue to meet the following three funding requirements:
 - Cover all operational and maintenance (O&M), capital & debt service expend (net of non-rate revenue)
 - Maintain a prudent level of fund balances
 - Satisfaction of debt service coverage covenants
2. **Cost-of-Service** - Allocates the revenue requirements to the various customer classes of service in a fair and equitable manner
3. **Rate-Design** - Considers both the level and structure of the rate design to collect the distributed revenue requirements from each class of service

Revenue Requirements

The water system revenue requirements are comprised of five basic categories:

Operational and Maintenance Expenses - In FY 2014, the City's O&M expenditures are budgeted at \$48.3 million. O&M expenditures include costs, such as labor, chemicals, power, water purchases, parts, equipment, contract repair, etc. These costs continue to rise due to negotiated labor contract increases; inflationary increases for goods and services; maintaining compliance with more stringent state and federal water treatment regulations; operation and maintenance of new facilities and water system components; and repair and maintenance of old, failing infrastructure.

The Rate Study also considered the projection of O&M expenditure increases beyond FY 2014, as a factor in developing future rate increases. These increases increased to \$55.6 million per year in FY 2017, which include a three 3% annual inflation factor.

CITY OF FRESNO MASTER FEE SCHEDULE AMENDMENT DETAIL

Capital Improvements Funded From Rates - The City has developed a comprehensive Water Capital Improvement Program (CIP) to address current and future water system needs. These projected costs include a three percent annual inflation factor due to anticipated increases in construction costs over time. This inflation rate is a conservative estimate and ensures that the City has adequate resources reserved to complete the necessary projects. These projects are required to reverse the declining water table, replace aging infrastructure, meet regulatory requirements and meet operational demands.

CIP project expenditures planned for FY 14 through FY 17 as recommended in the Metro Plan total approximately \$410 million and are summarized in the following categories along with the total expenditures for each category:

- SE Surface Water Treatment Facility (SWTF)-\$226.6M
- Water Main Renewal-\$55.3M
- SE SWTF Transmission Pipelines-\$49.6M
- Water Well Construction-\$32.8M
- T4 Downtown Tank & Booster Pump Station-\$9.7M
- City Recharge Basins-\$7.1M
- Water Main Extensions-\$6.4M
- Downtown Water System Upgrades-\$4.1M
- 19 other water capital projects-\$17.9M

The CIP is to be funded through a combination of system revenues and bond financing. Approximately 79% (\$325 million) of the \$410 million is projected to be funded by debt financing. Bond issuances are scheduled for 2014 and 2016. The remaining expenditures are funded from "pay-as-you-go" revenues from water rates. The Division will continue to pursue grant and low-interest loan opportunities, but for purposes of this study, no revenues were assumed from these sources.

Debt Service - The City's existing annual debt service principal and interest payments are approximately \$15.5 million for three bonds, three low-interest state loans, one no-interest state loan and one loan through the Fresno Irrigation District. New debt service principal and interest payments are projected to approximate \$3.3 million in FY 2014 for a total of \$19.0 million. Total debt service beginning in FY 2017, is projected to be approximately \$42.0 million per year if the two bond issuances are made in 2014 and 2016.

Debt Service Coverage Ratio Requirements - As a condition of bond issuances, the City must make rate covenants to fix, prescribe and collect rates, fees and charges for the Water System each fiscal year, which will at least yield Net Revenues equal to at least 125% of the estimated Debt Service. The proposed rate increases are designed to meet this requirement. Projected ratios during the study period vary from 1.47 in FY 2014 to 1.53 in FY 2017.

Enterprise Fund Target Balance - A target fund balance (reserves) was developed for the enterprise fund to provide for levels of working capital that will enable the City to adjust to unexpected changes in accounts receivable from ratepayers and pay for unexpected increases in O&M expenses and emergency capital costs. The working capital component of the target fund balance is based on 45 days of annual O&M expenses. A second component is based five percent of annual O&M expenses for pumping power and source of supply. The third component is a fixed amount for emergency capital expenditures not budgeted as part of the capital improvement program. The total enterprise fund target balance in FY 2013 is \$15.0 million and increases to \$17.3 million in FY 2017.

CITY OF FRESNO MASTER FEE SCHEDULE AMENDMENT DETAIL

Cost of Service Methodology

The key steps in the process of determining cost-of-service water rates include:

1. Determining, as part of the 5-year financial planning process, total system revenue requirement from water
2. Forecasting water demand for the total system, and for each customer rate class;
3. Assigning the revenue requirement from water rates to functional cost categories such as supply, treatment,
4. Classifying the revenue requirement from water rates based on the engineering design and/or operational
5. Determining the revenue requirement from water rates for specific customer rate classes by assigning them the
6. The final step in the ratemaking process is rate design. This is the process of developing a combination of fixed

Recommended Rate Structure

The total amount of revenue required from charges is allocated between amounts to be recovered from meter service charges and from the quantity charge. This is accomplished by first allocating costs to two functional cost categories – those that are independent of the amount of water use (for example, billing, collection, meter reading, fire protection) and those that are dependent on the amount of water use (source of supply, treatment, storage,

Monthly Meter Service Charge – The development of recommended meter service charges based on cost of service principles involves allocating revenue requirements that are independent of water use among three categories of costs and dividing those dollar amounts by the projected number of meters or equivalent meters. The total percent for the monthly meter service charge is recommended at 34% and is allocated among the following three cost components:

- Accounts: 13.4% - costs that include, but are not limited to, meter reading, billing, customer accounting, customer service and collecting expenses.
- Domestic use: 14.0% - costs that include, but are not limited to, the maintenance and capital costs related to meters and services that provide water for domestic use (potable water and irrigation water).
- Fire service: 6.6% - costs that includes, but is not limited to, public fire hydrants and related branch mains and valves.

Quantity Charge - The development of recommended quantity charges based on cost of service principles is based on allocating revenue requirements related to the source of supply and production of water and dividing that dollar amount by the projected amount of water use. The percent of revenue required from rates to be recovered from quantity charges is 66%. Note that these percentages are completely dependent on assumptions of projected water use for each customer class (see revenue projection section). A major change in the proposed revised rate structure is to replace the current two different quantity charges (SFR and Customers Other than SFR) with a single quantity charge applicable to all customers.

Other Major Changes in Rate Structure - It is recommended that the City adopt the following additional changes in the rate structure:

1. Create a separate set of meter charges for irrigation meters (delete fire protection component).
2. Eliminate allowance for Senior Citizens. The cost of service based meter charges and quantity charges for FY 13 onward do not have an allowance for senior citizen customers. The allowance for senior citizen customers included in the current and projected residential flat charges will phase out when all residential customers are converted to metered billing.
3. Restructure fire service meter service charges to include the account and fire service components and exclude the domestic component.
4. Adjust fire meter service charges for private hydrants and for meter sizes 4 inch and smaller to the same rated capacity.
5. Reassign travel meter charges to the same 3 inch meter rated capacity.

CITY OF FRESNO MASTER FEE SCHEDULE AMENDMENT DETAIL

6. **Delete Other Miscellaneous Residential Flat Rate Charges** - Currently there are other miscellaneous charges that are applicable to residential customers with flat charges. The other charges are for Charges for Additional Living Units, Air Conditioning / Refrigeration Units and Discharge Water into a Dry Well. These charges will be eliminated as they become obsolete due to the implementation of utility bills based on metered water use.

7. **Eliminate Water Treatment Charge, Fluoridation Charges** - This Program affected approximately 4,950 customers and was projected to recover approximately \$271,000. As of July 1st, 2013, the program was ended and therefore, this rate will be eliminated and the associated revenue not included in the rate plan.

Prior Backflow Prevention Program Fee Amendments - It should be noted that the charges for this program have already been amended. During FY 2013, the City Council approved the change to have the City no longer test and certify backflow devices and to instead require customers with backflow devices to certify those devices on an annual basis using private (non-City) testing service providers. City estimates of the annual cost to implement the revised Backflow Prevention Program are \$262,000 and the new monthly fee of \$3.00 per month/per device has already been adopted by the City Council and is in the MFS.

Revenue Projections

In FY 2014, the proposed 25% increase in revenue from rates is estimated to generate \$72 million in annual customer user charges. This is based upon a projection of water usage by customers and the projected growth in the number and type of service connections and any proposed rate increases. Water use projections in this study are intended to be slightly lower than what would be expected under usual weather conditions and realistic development scenarios to help insure that sufficient revenues are generated. This estimate is divided between the following two categories of water service accounts:

- **Single-Family Residential** - The conversion of SFR accounts from unmetered to metered connections was mostly completed in FY 2013. Without a history of metered usage for a fully metered system and the impacts of projected water conservation, certain estimates had to be made. For purposes of this rate study, it is projected that SFR accounts with metered connections will use 18 HCF/month (on an average annual basis). This is based on estimating prior SFR flat rate usage by subtracting metered usage and estimated losses from total water production, using the recent short-term SFR metered usage and factoring in a conservation percentage. The number of residential accounts is approximately 110,000 and projected to grow by an average of about 730 per year during the study period. The total estimated revenue from both monthly service and usage charges is \$41.8 million.

- **Nonresidential Accounts** - These accounts are categorized as either commercial, irrigation, private fire service and travel meters with subcategories for commercial, schools, industrial, municipal and multiple family. The current number of active domestic, irrigation, private fire service and travel meter accounts is approximately 22,200. Approximately 72% are domestic accounts with the remainder irrigation (14%) and private fire service (14%). Travel meters number about 130. The total number of domestic, irrigation, and private fire service is projected to increase by about 110 per year for the study period. The estimated water usage for these accounts is based on prior year experience as these customers have been metered for many years. For the rate study, water use is projected to remain flat with increased use from new connections offset by conservation. The total estimated revenue from both monthly service and usage charges is \$30.2 million.

CITY OF FRESNO MASTER FEE SCHEDULE AMENDMENT DETAIL

Rate Recommendation

To accomplish the objectives established by the evaluation criteria it is recommended that the following increases for revenue from rates be adopted in the MFS:

Fiscal Year	% Increase	Effective Date
2014	25%	17-Sep-13
2015	25%	1-Jul-14
2016	8%	1-Jul-15
2017	8%	1-Jul-16

See also attached rate table. The future rate increases are the maximum amount to be increased and will be reconsidered each fiscal year.

TO: MAYOR ASHLEY SWEARENGIN
FROM: YVONNE SPENCE, CMC City Clerk, FRESNO CA

SUBJECT: TRANSMITTAL OF COUNCIL ACTION FOR APPROVAL OR VETO

At the Council meeting of 8/15/2013, Council adopted the attached Resolution No. 2013-144 entitled **514th amendment to the Master Fee Schedule Resolution 80-420 to adjust water fees in the Public Utilities Water Fee Section, Item No. 5:00 p.m. c.** by the following vote:

Ayes	:	Baines, Brand, Brandau, Caprioglio, Xiong
Noes	:	Olivier, Quintero
Absent	:	None
Abstain	:	None

Please indicate either your formal approval or veto by completing the following sections and executing and dating your action. Please file the completed memo with the Clerk's office on or before August 26, 2013. In computing the ten day period required by Charter, the first day has been excluded and the tenth day has been included unless the 10th day is a Saturday, Sunday, or holiday, in which case it has also been excluded. Failure to file this memo with the Clerk's office within the required time limit shall constitute approval of the ordinance, resolution or action, and it shall take effect without the Mayor's signed approval.

Thank you.

APPROVED/NO RETURN:

VETOED for the following reasons: (Written objections are required by Charter; attach additional sheets if necessary.)
