I. ABOUT SOURCEWELL

A. SOURCEWELL

Sourcewell is a State of Minnesota local government unit and service cooperative created under the laws of the State of Minnesota (Minnesota Statutes Section 123A.21) that facilitates a competitive public solicitation and contract award process for the benefit of its 50,000+ participating entities across the United States and Canada. Sourcewell's solicitation process complies with State of Minnesota law and policies, conforms to Canadian trade agreements, and results in cooperative purchasing solutions from which Sourcewell's Participating Entities procure equipment, products, and services.

Cooperative purchasing provides participating entities and suppliers increased administrative efficiencies and the power of combined purchasing volume that result in overall cost savings. At times, Sourcewell also partners with other purchasing cooperatives to combine the purchasing volume of their membership into a single solicitation and contract expanding the reach of contracted suppliers' potential pool of end users.

Sourcewell uses a website-based platform, the Sourcewell Procurement Portal, through which all proposals to this RFP must be submitted.

B. USE OF RESULTING CONTRACTS

In the United States, Sourcewell's contracts are available for use by:

- Federal and state government entities;
- Cities, towns, and counties/parishes;
- Education service cooperatives;
- K-12 and higher education entities;
- Tribal government entities;
- Some nonprofit entities; and
- Other public entities.

In Canada, Sourcewell's contracts are available for use by:

- Provincial and territorial government departments, ministries, agencies, boards, councils, committees, commissions, and similar agencies;
- Regional, local, district, and other forms of municipal government, municipal organizations, school boards, and publicly-funded academic, health, and social service entities referred to as MASH sector (this should be construed to include but not be limited to the Cities of Calgary, Edmonton, Toronto, Ottawa, and Winnipeg), as well as any corporation or entity owned or controlled by one or more of the preceding entities;
- Crown corporations, government enterprises, and other entities that are owned or controlled by these entities through ownership interest;

- Members of the Rural Municipalities of Alberta (RMA) and their represented Associations: MASH (municipalities, academic institutions, schools and hospitals) and MUSH (municipalities, universities, schools and hospitals) sectors, and other governmental agencies eligible to use the Sourcewell contracts. MASH and MUSH sector refers to regional, local, district or other forms of municipal government, school boards, publicly-funded academic, health and social service entities, as well as any corporation or entity owned or controlled by one or more of the preceding entities, including but not limited to represented associations, Saskatchewan Association of Rural Municipalities ("SARM"), Association of Manitoba Municipalities ("AMM"), Local Authorities Services/Association of Municipalities Ontario ("LAS/AMO", excluding the cities of Toronto and Ottawa), Nova Scotia Federation of Municipalities ("NSFM"), Federation of Prince Edward Island Municipalities ("FPEIM"), Municipalities Newfoundland Labrador ("MNL"), Union of New Brunswick Municipalities ("UNBM"), North West Territories Association of Communities ("NWTAC") and their members. RMA Participants may include all not-for-profit agencies for Canadian provinces and territories.

For a listing of current United States and Canadian Participating Entities visit Sourcewell's website (note: there is a tab for each country): <https://www.sourcewell-mn.gov/sourcewell-for-vendors/agency-locator>.

Participating Entities typically access contracted equipment, products, or services through a purchase order issued directly to the contracted supplier. A Participating Entity may request additional terms or conditions related to a purchase. Use of Sourcewell contracts is voluntary and Participating Entities retain the right to obtain similar equipment, products, or services from other sources.

To meet Participating Entities' needs, Sourcewell broadly publishes public notice of all solicitation opportunities, including this RFP. In the United States each state-level procurement department receives notice for possible re-posting.

Proof of publication will be available at the conclusion of the solicitation process.

II. SOLICITATION DETAILS

A. SOLUTIONS-BASED SOLICITATION

This RFP and contract award process is a solutions-based solicitation; meaning that Sourcewell is seeking equipment, products, or services that meet the general requirements of the scope of this RFP and that are commonly desired or are required by law or industry standards.

B. REQUESTED EQUIPMENT, PRODUCTS, OR SERVICES

It is expected that proposers will offer a wide array of equipment, products, or services at lower prices and with better value than what they would ordinarily offer to a single government entity, a school district, or a regional cooperative.

1. Sourcewell is seeking proposals for Roadway Maintenance Equipment, including, equipment, attachments, accessories, and related technology designed or primarily intended for use in the maintenance of road and highway surfaces, such as:
 - a. Asphalt recyclers and reclaimers;
 - b. Patchers, seal coaters, crack sealers, and mastic and adhesive melters;
 - c. Chip spreaders, asphalt brooms, and pavement grinding or grooving equipment; and,
 - d. Pavement marking application and removal equipment.
2. This solicitation should NOT be construed to include:
 - a. Road construction equipment.
3. This solicitation does not include those equipment, products, or services covered under categories included in contracts currently maintained by Sourcewell:
 - a. Sewer Vacuum, Hydro-Excavation, and Street Sweeper Equipment, with Related Accessories and Supplies (RFP #122017)
 - b. Public Utility Equipment with Related Accessories and Supplies (RFP #012418)
 - c. Snow and Ice Handling Equipment, Supplies, and Accessories (RFP #080818)
 - d. Trailers with Related Equipment, Accessories, and Services (RFP #121918)
 - e. Heavy Construction Equipment with Related Accessories, Attachments, and Supplies (RFP #032119)
 - f. Medium Duty and Compact Construction Equipment with Related Attachments, Accessories, and Supplies (RFP #040319)
 - g. Portable Construction Equipment with Related Accessories and Attachments (RFP #041719)
 - h. Equipment Rental with Related Services (RFP #062320)
 - i. Road Right-of-Way Maintenance Equipment (RFP #070821)
 - j. Roadway Paving Equipment (RFP #TBD)

Proposers may include related equipment, accessories, and services to the extent that these solutions are complementary to the equipment, products, or service(s) being proposed.

Generally, the solutions for Participating Entities are turn-key solutions, providing a combination of equipment, products and services, delivery, and installation to a properly operating status. However, equipment or products only solutions may be appropriate for

situations where Participating Entities possess the ability, either in-house or through local third-party contractors, to properly install and bring to operation the equipment or products being proposed.

Sourcewell prefers suppliers that provide a sole source of responsibility for the equipment, products, and services provided under a resulting contract. If proposer is including the equipment, products, and services of its subsidiary entities, the proposer must also identify all included subsidiaries in its proposal. If proposer requires the use of distributors, dealers, resellers, or subcontractors to provide the equipment, products, or services, the proposal must address how the equipment, products or services will be provided to Participating Entities, and describe the network of distributors, dealers, resellers, and/or subcontractors that will be available to serve Participating Entities under a resulting contract.

Sourcewell desires the broadest possible selection of equipment, products, and services being proposed over the largest possible geographic area and to the largest possible cross-section of Sourcewell current and future Participating Entities.

C. REQUIREMENTS

It is expected that proposers have knowledge of all applicable industry standards, laws, and regulations and possess an ability to market and distribute the equipment, products, or services to Participating Entities.

1. Safety Requirements. All items proposed must comply with current applicable safety or regulatory standards or codes.
2. Deviation from Industry Standard. Deviations from industry standards must be identified with an explanation of how the equipment, products, and services will provide equivalent function, coverage, performance, and/or related services.
3. New Equipment and Products. Proposed equipment and products must be for new, current model; however, proposer may offer certain close-out equipment or products if it is specifically noted in the Pricing proposal.
4. Delivered and operational. Unless clearly noted in the proposal, equipment and products must be delivered to the Participating Entity as operational.
5. Warranty. All equipment, products, supplies, and services must be covered by a warranty that is the industry standard or better.

D. ANTICIPATED CONTRACT TERM

Sourcewell anticipates that the term of any resulting contract(s) will be four years, with an optional one year extension that may be offered based on the best interests of Sourcewell and its Participating Entities.

E. ESTIMATED CONTRACT VALUE AND USAGE

Based on past volume of similar contracts, the estimated annual value of all transactions from contracts resulting from this RFP are anticipated to be USD \$15 Million; therefore, proposers are expected to propose volume pricing. Sourcewell anticipates considerable activity under the contract(s) awarded from this RFP; however, sales and sales volume from any resulting contract are not guaranteed.

F. MARKETING PLAN

Proposer's sales force will be the primary source of communication with Participating Entities. The proposer's Marketing Plan should demonstrate proposer's ability to deploy a sales force or dealer network to Participating Entities, as well as proposer's sales and service capabilities. It is expected that proposer will promote and market any contract award.

G. ADDITIONAL CONSIDERATIONS

1. Contracts will be awarded to proposers able to best meet the need of Participating Entities. Proposers should submit their complete line of equipment, products, or services that are applicable to the scope of this RFP.
2. Proposers should include all relevant information in its proposal, since Sourcewell cannot consider information that is not included in the proposal. Sourcewell reserves the right to verify proposer's information and may request clarification from a proposer, including samples of the proposed equipment or products.
3. Depending upon the responses received in a given category, Sourcewell may need to organize responses into subcategories in order to provide the broadest coverage of the requested equipment, products, or services to Participating Entities. Awards may be based on a subcategory.
4. A proposer's documented negative past performance with Sourcewell or its Participating Entities occurring under a previously awarded Sourcewell contract may be considered in the evaluation of a proposal.

III. PRICING

A. REQUIREMENTS

All proposed pricing must be:

1. Either Line-Item Pricing or Percentage Discount from Catalog Pricing, or a combination of these:
 - a. **Line-item Pricing** is pricing based on each individual product or services. Each line must indicate the proposer's published "List Price," as well as the "Contract Price."
 - b. **Percentage Discount from Catalog or Category** is based on a percentage discount from a catalog or list price, defined as a published Manufacturer's Suggested Retail Price

(MSRP) for the products or services. Individualized percentage discounts can be applied to any number of defined product groupings. Proposers will be responsible for providing and maintaining current published MSRP with Sourcewell, and this pricing must be included in its proposal and provided throughout the term of any Contract resulting from this RFP.

2. The proposer's not to exceed price. A not to exceed price is the highest price for which equipment, products, or services may be billed to a Participating Entity. However, it is permissible for suppliers to sell at a price that is lower than the contracted price.
3. Stated in U.S. and Canadian dollars (as applicable).
4. Clearly understandable, complete, and fully describe the total cost of acquisition (e.g., the cost of the proposed equipment, products, and services delivered and operational for its intended purpose in the Participating Entity's location).

Proposers should clearly identify any costs that are NOT included in the proposed product or service pricing. This may include items such as installation, set up, mandatory training, or initial inspection. Include identification of any parties that impose such costs and their relationship to the proposer. Additionally, proposers should clearly describe any unique distribution and/or delivery methods or options offered in the proposal.

B. ADMINISTRATIVE FEES

Proposers are expected to pay to Sourcewell an administrative fee in exchange for Sourcewell facilitating the resulting contracts. The administrative fee is normally calculated as a percentage of the total sales to Participating Entities for all contracted equipment, products, or services made during a calendar quarter, and is typically one percent (1%) to two percent (2%). In some categories, a flat fee may be an acceptable alternative.

IV. CONTRACT

Proposers awarded a contract will be required to execute a contract with Sourcewell (see attached template). Only those modifications the proposer indicates in its proposal will be available for discussion. Much of the language in the Contract reflects Minnesota legal requirements and cannot be altered. Numerous and/or onerous exceptions that contradict Minnesota law may result in the proposal being disqualified from further review and evaluation.

To request a modification to the template Contract, a proposer must submit the Exceptions to Terms, Conditions, or Specifications table with its proposal. Only those exceptions noted at the time of the proposal submission will be considered.

Exceptions must:

1. Clearly identify the affected article and section.
2. Clearly note the requested modification; and as applicable, provide requested alternative language.

Unclear requests will be automatically denied.

Only those exceptions that have been accepted by Sourcewell will be included in the contract document provided to the awarded supplier for signature.

If a proposer receives a contract award resulting from this solicitation it will have up to 30 days to sign and return the contract. After that time, at Sourcewell's sole discretion, the contract award may be revoked.

V. RFP PROCESS

A. PRE-PROPOSAL CONFERENCE

Sourcewell will hold an optional, non-mandatory pre-proposal conference via webcast on the date and time noted in the Solicitation Schedule for this RFP and on the Sourcewell Procurement Portal. The purpose of this conference is to allow potential proposers to ask questions regarding this RFP and Sourcewell's competitive contracting process. Information about the webcast will be sent to all entities that have registered for this solicitation opportunity through their Sourcewell Procurement Portal Supplier Account. Pre-proposal conference attendance is optional.

B. QUESTIONS REGARDING THIS RFP AND ORAL COMMUNICATION

All questions regarding this RFP must be submitted through the Sourcewell Procurement Portal. The deadline for submission of questions is found in the Solicitation Schedule and on the Sourcewell Procurement Portal. Answers to questions will be issued through an addendum to this RFP. Repetitive questions will be summarized into a single answer and identifying information will be removed from the submitted questions.

All questions, whether specific to a proposer or generally related to the RFP, must be submitted using this process. Do not contact individual Sourcewell staff to ask questions or request information as this may disqualify the proposer from responding to this RFP. Sourcewell will not respond to questions submitted after the deadline.

C. ADDENDA

Sourcewell may modify this RFP at any time prior to the proposal due date by issuing an addendum. Addenda issued by Sourcewell become a part of the RFP and will be delivered to potential proposers through the Sourcewell Procurement Portal. Sourcewell accepts no liability in connection with the delivery of any addenda.

Before a proposal will be accepted through the Sourcewell Procurement Portal, all addenda, if any, must be acknowledged by the proposer by checking the box for each addendum. It is the responsibility of the proposer to check for any addenda that may have been issued up to the solicitation due date and time.

If an addendum is issued after a proposer submitted its proposal, the Sourcewell Procurement Portal will WITHDRAW the submission and change the proposer's proposal status to INCOMPLETE. The proposer can view this status change in the "MY BIDS" section of the Sourcewell Procurement Portal Supplier Account. The proposer is solely responsible to check the "MY BIDS" section of the Sourcewell Procurement Portal Supplier Account periodically after submitting its proposal (and up to the Proposal Due Date). If the proposer's proposal status has changed to INCOMPLETE, the proposer is solely responsible to:

- i) make any required adjustments to its proposal;
- ii) acknowledge the addenda; and
- iii) ensure the re-submitted proposal is received through the Sourcewell Procurement Portal no later than the Proposal Due Date and time shown in the Solicitation Schedule above.

D. PROPOSAL SUBMISSION

Proposer's complete proposal must be submitted through the Sourcewell Procurement Portal no later than the date and time specified in the Solicitation Schedule. Any other form of proposal submission, whether electronic, paper, or otherwise, will not be considered by Sourcewell. **Late proposals will not be considered.** It is the proposer's sole responsibility to ensure that the proposal is received on time.

It is recommended that proposers allow sufficient time to upload the proposal and to resolve any issues that may arise. The time and date that a proposal is received by Sourcewell is solely determined by the Sourcewell Procurement Portal web clock.

In the event of problems with the Sourcewell Procurement Portal, follow the instructions for technical support posted in the portal. It may take up to 24 hours to respond to certain issues.

Upon successful submission of a proposal, the Sourcewell Procurement Portal will automatically generate a confirmation email to the proposer. If the proposer does not receive a confirmation email, contact Sourcewell's support provider at support@bidsandtenders.ca.

To ensure receipt of the latest information and updates via email regarding this solicitation, or if the proposer has obtained this solicitation document from a third party, the onus is on the proposer to create a Sourcewell Procurement Portal Supplier Account and register for this solicitation opportunity.

Within the Sourcewell Procurement Portal, all proposals must be digitally acknowledged by an authorized representative of the proposer attesting that the information contained in the proposal is true and accurate. By submitting a proposal, proposer warrants that the information provided is true, correct, and reliable for purposes of evaluation for potential contract award. The submission of inaccurate, misleading, or false information is grounds for disqualification from a contract award and may subject the proposer to remedies available by law.

E. GENERAL PROPOSAL REQUIREMENTS

Proposals must be:

- In substantial compliance with the requirements of this RFP or it will be considered nonresponsive and be rejected.
- Complete. A proposal will be rejected if it is conditional or incomplete.
- Submitted in English.

Any and all costs incurred in responding to this RFP will be borne by the proposer.

F. PROPOSAL WITHDRAWAL

Prior to the proposal deadline, a proposer may withdraw its proposal.

G. OPENING

The Opening of proposals will be conducted electronically through the Sourcewell Procurement Portal. A list of all proposers will be made publicly available in the Sourcewell Procurement Portal after the Proposal Due Date, but no later than the Opening time listed in the Solicitation Schedule.

To view the list of proposers, verify that the Sourcewell Procurement Portal opportunities list search is set to "All" or "Closed." The solicitation status will automatically change to "Closed" after the Proposal Due Date and Time.

Question 2:

In reference to the pricing that needs to be submitted, should we be submitting two price lists? One for Canadian customers and one for US customers? Please provide guidance as to how you want the pricing submitted in both currencies.

Answer 2:

In the competitive process, Sourcewell will not advise a proposer on the content of the proposal. It is left to the discretion of each proposer to determine and propose the pricing approach that aligns with their business methods and satisfies all the

requirements of RFP Article III - Pricing. Proposals are evaluated based on the criteria stated in the RFP.

3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

9	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	<p>PB Loader Corporation began operation in 1954 with the invention of the PB Front Loader and the pothole patcher and emulsion systems in the 1960's for use in Road Asphalt Maintenance.</p> <p>As a family founded and run company, relationships in business are at the center of what PB Loader stands for and is reflected in day-to-day operations. PB believes in making a quality product which their customers can rely on year-in and year-out. PB does not believe in a one-size-fits-all approach. PB custom configures and engineers products to meet the exact needs of their customers. When a customer chooses PB they know they are going to be able to rely on quality construction materials assembled by experienced professionals. PB stands behind their products with not only a successful network of dealers but also production, engineering, and sales staff who are available for troubleshooting and repair.</p> <p>PB Loader has found that conducting business in an honest and attentive way, providing a quality, proven product, and listening to their customers are the best business practices possible. When you call PB with a question they listen and act. It is in this way that PB Loader continues to be synonymous with reliability in their industry and the world over.</p> <p>When we joined Sourcewell nine years ago, we found that their philosophy and values fell in line with the core values of PB Loader. From this, we have adopted Sourcewell as our company's predominate method of procurement. We wholeheartedly believe the present and future of government procurement lies with cooperative purchasing and Sourcewell, along with PB, leading the field.</p>

We expect growth by continuing to broaden our offering of additional road maintenance manufacturers and equipment beyond our asphalt patchers and front loaders. We have experienced substantial growth over the last five years, which has resulted in more than doubling the size of our company. We know this is due to our commitment to excellence in the marketplace as well as utilizing the Sourcewell contract. PB is privately held and for this reason we cannot release financial statements and do not have SEC filings. Please see attached reference letters from our financial institution, vendors, and dealers.</p>
12	What is your US market share for the solutions that you are proposing?	<p>Loader – 100% market share. We typically have high market share in the West and some in the southern states. Overall, we represent approximately 60% of the market throughout North America.</p> <p>Since our last contract we have even better representation. We are committed to find local dealers who can serve our customers.</p>
13	What is your Canadian market share for the solutions that you are proposing?	We represent 40% of the Canadian market with our asphalt patchers and it continues to be an area of growth.
14	Has your business ever petitioned for bankruptcy protection? If so, explain in detail.	No, we have never petitioned for bankruptcy protection.
15	How is your organization best described: is it a manufacturer, a distributor/dealer/reseller, or a service provider? 21	List any state, provincial, or cooperative purchasing contracts that you hold. What is the annual sales volume for each of these contracts over the past three years?	PB holds an HGAC contract. 22	List any GSA contracts or Standing Offers and Supply Arrangements (SOSA) that you hold. What is the annual sales volume for each of these contracts over the past three years?	Our product offering is rarely sold to the federal government except for a few military air bases and national parks. 26	Dealer network or other distribution methods.	<p>PB Loader sells through a network of dealers throughout North America. It is our belief that utilizing local dealers provides the best customer service for our end users. Please see attached dealer list and map.</p> <p>We currently have 29 dealers totaling 44 branch locations in the US and Canada, totaling 148 dealer salespeople. Of that total, we have four (4) dealers with eight (8) branches in Canada. All our US dealers and their branches have received training from our staff on Sourcewell procurement and we are looking forward to doing the same with Canoe in Canada.</p> <p>Our sales team regularly visits our dealers to ensure they are trained on our product and the Sourcewell contract. We support many of our dealers' local trade shows and events. We are very active and encourage our dealers to be active in trade organizations such as APWA, MSA, RSFMA, NAPA, and others. These events are excellent opportunities to inform our government customers about Sourcewell procurement of our products.</p>	*
27	Service force.	<p>The above-mentioned dealer network employs factory trained parts and service representatives at their branches. These dealers typically handle other large municipal equipment like PB Loader. Because of this they have invested in service tooling at many of their locations, such as overhead cranes, mobile service trucks, and very capable shop facilities.</p> <p>The PB Loader sales team provides service support by being the first point of contact for customer questions on the operation and product usage.</p> <p>We provide an initial delivery training and for added value, free training for the life of the unit. We also provide support for customers who provide their own service and a reimbursement program for customers who are required to do their own warranty work.</p>	*
28	Describe the ordering process. If orders will be handled by distributors, dealers or others, explain the respective roles of the Proposer and others.	<p>Quotes are generated by the inside sales department at PB Loader using Sourcewell pricing. Members will generate a purchase order directly to PB or one of our authorized dealers. Once received, an order confirmation is generated to ensure accuracy of the order. Regular updates are provided as the unit progresses through the manufacturing process. Final delivery is done by PB or our dealers and includes training. Once payment is received, it is recorded, and placed on our Sourcewell quarterly reports.</p>	*

29	Describe in detail the process and procedure of your customer service program, if applicable. Include your response-time capabilities and commitments, as well as any incentives that help your providers meet your stated service goals or promises.	<p>PB Loader's business philosophy is to provide superior quality in customer service which means quick response times and resolving issues to the customer's satisfaction. We require our dealers to provide immediate service to our customers. Many of our dealers offer multi-year service plans. We also offer multi-year warranty plans supported by our dealers.</p> <p>We also have a free lifetime replacement program for our manuals and all instruction/safety decals.</p> <p>PB Loader provides phone/video technical support to both dealers and end users. This is supported by our engineering/sales teams.</p> <p>When we are contacted with a service/warranty issue, a ticket is created within our MRP system and an email is sent company wide. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	<p>Sourcewell is integrated and promoted heavily into our sales process.</p> <p>A key part of our strategy is making sure our dealer network is promoting Sourcewell as our primary method to purchase PB products. This is accomplished during all sales calls to every dealer and at customer demonstrations with dealer management and sales personnel. We want it known that PB is synonymous with Sourcewell. We help convey this message by displaying the Sourcewell logo on all demonstration vehicles and apparel.</p> <p>We have committed to display the Sourcewell logo everywhere possible: media, ads, promotional items, website, trade show displays, our office, dealer branch locations, and company sales vehicles.</p> <p>The most important part of our strategy is having direct conversations with end user agencies on the value of utilizing Sourcewell for not only purchasing PB products but other products from Sourcewell vendors. We believe the more they utilize Sourcewell contract procurement, the more Sourcewell and PB will grow together. Through our own sales staff and more than 100 dealer salespeople these conversations occur daily.</p>
36	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	<p>We have begun the process of implementing a new forward-thinking social media and metadata program along with the redevelopment of our website. This began with signing a long-term contract with a respected digital marketing firm who will partner with us to develop and distribute a continuous campaign of all our social media, digital marketing, and website.</p> <p>Social media posts will include trade shows, industry events, customer demonstrations, new unit deliveries to satisfied customers, product upgrades, and new features. The campaign will include purchasing advertising banners on industry sites as well as an extensive GoogleAds.</p> <p>Each post and banner will include a Sourcewell presence, which is another way to make PB and Sourcewell synonymous. We are excited for the roll-out of the new e-purchase vendor showcase of which we will take full advantage.</p>
37	In your view, what is Sourcewell's role in promoting contracts arising out of this RFP? How will you integrate a Sourcewell-awarded contract into your sales process?	<p>Being a current vendor, the Sourcewell contract is already integrated into our sales process, utilized, and promoted heavily. Many of our dealers are very familiar with the contract, because of us and the other manufacturers they represent who are also vendors of Sourcewell.</p> <p>We believe that Sourcewell provides the initial platform for member agencies and should work directly with awarded vendors to promote increased membership. We feel Sourcewell should provide consulting on the legal requirements for members to use corporate purchasing.</p> <p>The sales integration process and Sourcewell becoming the primary method for our customers to purchase PB products began nine years ago with our first contract. We were believers in the beginning that Sourcewell and cooperative purchasing would be the future of government procurement. We have made every effort to make it our future as well. As stated in the previous two questions we laid out our overall marketing strategy for Sourcewell and are committed to continually evolve and improve that strategy as new ideas come to the forefront.</p>
38	Are your products or services available through an e-procurement ordering process? If so, describe your e-procurement system and how governmental and educational customers have used it.	<p>We often see e-advertising as becoming more prevalent in our industry. We have noticed many new customers have sought our website on the internet. Because of the high technical nature, unlimited customizations, and dollar value of our products, particularly being integrated with a chassis, a standard e-procurement system is inadequate to meet the needs of our customers. For these reasons we sell with a hands-on approach with our local dealer network which includes writing lengthy technical specs and doing 3-D layout drawings of the products. It is our belief that one size does not fit all therefore our products are custom designed and configured to meet the needs of our customers exactly. E-procurement is not a robust enough of a process to fulfill our customers' needs. We are, however, looking forward to the roll-out of the new e-purchase vendor showcase of which we will take full advantage.</p>

39	Describe any product, equipment, maintenance, or operator training programs that you offer to Sourcewell participating entities. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	<p>We offer free operator training and maintenance training onsite when the end user puts the unit into service. We also provide free follow-up training for the lifetime of the unit conducted by our own factory trained staff and/or dealers. It is our business philosophy to ensure that our customers can effectively and safely use our products. Also, we provide free manuals, and instructional/safety decals for the life of the unit.</p> <p>We have a dedicated person at the factory that customers can call for any kind of troubleshooting or operational advice. This in addition to the sales staff that can also provide this service. There are instructional videos, blueprints, and other digital materials that can be sent to the customers as learning tools. Several times a year we provide patcher training school which we encourage Sourcewell members to attend.</p>
40	Describe any technological advances that your proposed products or services offer.	<p>We like to be in the forefront of the technological advances within the municipal and truck equipment industries. We have incorporated options for the latest in back up sensor technology and cameras on our equipment. We strive to make our units the safest in the industry and have adapted standard automotive technology to road maintenance equipment which we have seen few others accomplish. We have updated numerous hydraulic and control systems to more efficient components that integrate with the advanced chassis ECM programming and chip sets. This is accomplished through our engineering department working directly with chassis manufacturers.</p>
41	Describe any "green" initiatives that relate to your company or to your products or services, and include a list of the certifying agency for each.	<p>To our knowledge, there are not any green agencies that certify our type of product (Pothole Patchers). However, our standard pothole patcher is heated by LPG which is an environmentally friendly fuel. We also offer an electric heated unit which is powered by an onboard generator on current chassis.</p> <p>We have begun to work closely with several electric chassis manufacturers so that we can be on the forefront of the technology and offer fully electric road maintenance equipment.</p> <p>As a company we feel our carbon footprint is important with our products and how we operate. We are completing a new facility wide conversion to highly efficient LED lighting. We also have several recycling programs for steel, cardboard, e-waste, among others. Within the next few years, we are planning a solar program initiative which will significantly reduce our footprint.</p>
42	Identify any third-party issued eco-labels, ratings or certifications that your company has received for the equipment or products included in your Proposal related to energy efficiency or conservation, life-cycle design (cradle-to-cradle), or other green/sustainability factors.	<p>We do not know of any third parties that label road maintenance equipment specifically. As stated in question 41, the company is committed to developing green practices internally by utilizing energy efficiencies which will make us far more sustainable in the future.</p>
43	Describe any Women or Minority Business Entity (WMBE), Small Business Entity (SBE), or veteran owned business certifications that your company or hub partners have obtained. Upload documentation of certification (as applicable) in the document upload section of your response.	<p>PB Loader is not accredited as a WMBE or SBE. However, we work with several hub partners:</p> <p>Cicero Brothers (SBE) Westcoast Materials (SBE, DVBE) Main Street Materials (SBE)</p>
44	What unique attributes does your company, your products, or your services offer to Sourcewell participating entities? What makes your proposed solutions unique in your industry as it applies to Sourcewell participating entities?	<p>Quality and Customer Service have distinguished us as an industry leader and will continue to do so in the future. It is our business philosophy to stand by our products and customers. We want every customer to feel completely satisfied with the product and the service they receive over the product's lifetime. By listening to our customers and responding to their needs expeditiously we ensure their complete satisfaction.</p> <p>What makes our products unique is that we do not believe in the one size fits all solution; agencies have very different needs because of their geographic locations, agency size, and other demographics. For this reason, we offer by far the largest selection of models and sizes with our products. But more importantly, we offer hundreds of options and will custom build additional features based off the customer's needs.</p> <p>We believe in making it easy for our customers to purchase our products. We do this by first listening to their requirements and from there develop a detailed layout drawing. This allows our customer and their crews a great opportunity to design their own unit and know what they are getting before they purchase. On this contract we offer complete turnkey solutions with our products integrated with chassis so the customer can issue one PO to one vendor and have one point of contact.</p> <p>We have a large and dedicated dealer network whose goal is to support their local markets. In turn, we provide our dealers the support to do this as well as offering support directly to the end user. Even though PB sells through dealers, we believe that it is our responsibility to ensure the end user is completely satisfied.</p>

Table 9A: Warranty

Describe in detail your manufacturer warranty program, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your warranty materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
45	Do your warranties cover all products, parts, and labor?	Yes, our warranty covers all products, parts, and labor. In some cases, freight as well. It is our commitment to solve all warranty issues to the complete satisfaction of our customers.	*
46	Do your warranties impose usage restrictions or other limitations that adversely affect coverage?	No, our warranty does not have any usage restriction or other limitations. It is important to PB Loader that on the rare occasion there is a manufacturer defect, it is rectified immediately.	*
47	Do your warranties cover the expense of technicians' travel time and mileage to perform warranty repairs?	PB or the authorized dealer will cover travel time and mileage for any Sourcewell members warranty claim.	*
48	Are there any geographic regions of the United States or Canada (as applicable) for which you cannot provide a certified technician to perform warranty repairs? How will Sourcewell participating entities in these regions be provided service for warranty repair?	In regions where we do not have a certified technician, we offer over the phone technical support. If a problem is not resolved we may send a PB Loader technician to fix unit or utilize local third-party repair shops. Either PB or our dealer network can provide a technician who will travel to all geographic locations in US and Canada. Many repairs don't require a certified technician and third-party shops can be utilized when appropriate.	*
49	Will you cover warranty service for items made by other manufacturers that are part of your proposal, or are these warranties issues typically passed on to the original equipment manufacturer?	Yes, we will cover all items sold by PB Loader including those components manufactured by others. We believe this provides the best customer service to the end user.	*
50	What are your proposed exchange and return programs and policies?	Customers can return and exchange parts within 30 days without a restocking fee, but pay return freight. After 30 days, there is a 25% restocking fee, but in appropriate cases this may be waived. We wish to ensure customer satisfaction.	*
51	Describe any service contract options for the items included in your proposal.	PB Loader offers starter spare parts kits and a base refurbish package for our pothole patching products. We also offer extended warranty packages on the contract.	*

Table 9B: Performance Standards or Guarantees

Describe in detail your performance standards or guarantees, including conditions and requirements to qualify, claims procedure, and overall structure. You may upload representative samples of your performance materials (if applicable) in the document upload section of your response in addition to responding to the questions below.

Line Item	Question	Response *	
52	Describe any performance standards or guarantees that apply to your services	We make every effort to track the original promised delivery at time of quotation and actual delivery performance. We use this information to notify our customers of any deviation from the original quoted delivery.	*
53	Describe any service standards or guarantees that apply to your services (policies, metrics, KPIs, etc.)	We utilize a KPI system that tracks turn around time for part sales. It is imperative to get parts to the customer to minimize their down time.	*

Table 10: Payment Terms and Financing Options

Line Item	Question	Response *	
54	Describe your payment terms and accepted payment methods?	Our payment terms are Net 30. Check, ACH, and wire transfer are all acceptable forms of payment. We accept Visa and MasterCard for parts sales. We do not have a processing fee.	*
55	Describe any leasing or financing options available for use by educational or governmental entities.	For any customers seeking finance or leasing options, we partner with NCL Government Capital.	*
56	Describe any standard transaction documents that you propose to use in connection with an awarded contract (order forms, terms and conditions, service level agreements, etc.). Upload a sample of each (as applicable) in the document upload section of your response.	Each standard Sourcewell transaction starts with a Quote Request Form and detailed dimensional forms. Once a purchase order is received, an Order Confirmation Form is generated.	*
57	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	We accept P-card payments with no additional processing fee.	*

Table 11: Pricing and Delivery

Provide detailed pricing information in the questions that follow below. Keep in mind that reasonable price and product adjustments can be made during the term of an awarded Contract as described in the RFP, the template Contract, and the Sourcewell Price and Product Change Request Form.

Line Item	Question	Response *	
58	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	See the attached Price Catalog for all our products being offered, which include their SKUs, MSRP, and Sourcewell discounts. We are offering a 10% discount off MSRP on the entirety of our catalog except for chassis. Chassis will be offered at a 5% discount off MSRP.	*
59	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	We are offering a 10% discount off MSRP on the entirety of our catalog except for chassis. Chassis will be offered at a 5% discount off MSRP.	*
60	Describe any quantity or volume discounts or rebate programs that you offer.	In an addition to the initial 10% discount to Sourcewell members, we also offer a 3% quantity discount for orders of six (6) or more units excluding chassis.	*
61	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "nonstandard options". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	We like to approach sourced items in one of two ways. First, if they are customer specific, we will add them to the contract just for that customer, so it makes repeat purchasing easier. The second method is to supply a cost plus a percentage quote for these specialty items.	*
62	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	We like to approach sourced items in one of two ways. First, if they are customer specific, we will add them to the contract just for that customer, so it makes repeat purchasing easier. The second method is to supply a cost plus a percentage quote for these specialty items.	*
63	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	Shipping and delivery are an additional cost. The amount depends on the size of the product and where it is going. We quote market rate.	*
64	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	For Canada, we contact truck freight brokers who specialize in crossing the border. We and our dealers are very familiar with the USMCA processes. For Alaska, Hawaii and offshore deliveries, our dealers have freight brokers that handle the complete process. We have regularly shipped to all these locations. This is nothing out of the ordinary for us.	*
65	Describe any unique distribution and/or delivery methods or options offered in your proposal.	Our units are built as turnkey work ready products, so they can be delivered directly to the end user and are ready for operation.	*

Table 12: Pricing Offered

Line Item	The Pricing Offered in this Proposal is: *	Comments
66	c. better than the Proposer typically offers to GPOs, cooperative procurement organizations, or state purchasing departments.	To encourage Sourcewell sales we offer the best pricing to its members compared to any other pricing models.

Table 13: Audit and Administrative Fee

Line Item	Question	Response *	
67	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed Contract with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing, that the Vendor reports all sales under the Contract each quarter, and that the Vendor remits the proper administrative fee to Sourcewell. Provide sufficient detail to support your ability to report quarterly sales to Sourcewell as described in the Contract template.	It is mandatory for our dealers to request a Sourcewell quote and provide member entity information. From this, a quote number is assigned and is tracked through the sales process. Each purchase order we receive from our dealer or end user is cross checked with a quote number to identify it as a Sourcewell order. This ensures that all Sourcewell orders make it on the quarterly report and a dealer cannot sell an Sourcewell product without our knowledge.	*
68	If you are awarded a contract, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the contract.	Since we have been an awarded vendor for two contracts, we have established historical metrics. We track the Sourcewell sales dollars within our total sales dollars. We also track the Sourcewell units and product types produced within our total units produced. We track Sourcewell quotes generated within the total number of quotes generated and the conversion rate to orders of Sourcewell quotes. We analyze this performance to grow our success with the Sourcewell contract.	*
69	Identify a proposed administrative fee that you will pay to Sourcewell for facilitating, managing, and promoting the Sourcewell Contract in the event that you are awarded a Contract. This fee is typically calculated as a percentage of Vendor's sales under the Contract or as a per-unit fee; it is not a line-item addition to the Member's cost of goods. (See the RFP and template Contract for additional details.)	Our current contract has a fee of 2%. We would like to continue this with the new contract for our entire catalog including chassis.	*

Addenda, Terms and Conditions**PROPOSER AFFIDAVIT AND ASSURANCE OF COMPLIANCE**

I certify that I am the authorized representative of the Proposer submitting the foregoing Proposal with the legal authority to bind the Proposer to this Affidavit and Assurance of Compliance:

1. The Proposer is submitting this Proposal under its full and complete legal name, and the Proposer legally exists in good standing in the jurisdiction of its residence.
2. The Proposer warrants that the information provided in this Proposal is true, correct, and reliable for purposes of evaluation for contract award.
3. The Proposer, including any person assisting with the creation of this Proposal, has arrived at this Proposal independently and the Proposal has been created without colluding with any other person, company, or parties that have or will submit a proposal under this solicitation; and the Proposal has in all respects been created fairly without any fraud or dishonesty. The Proposer has not directly or indirectly entered into any agreement or arrangement with any person or business in an effort to influence any part of this solicitation or operations of a resulting contract; and the Proposer has not taken any action in restraint of free trade or competitiveness in connection with this solicitation. Additionally, if Proposer has worked with a consultant on the Proposal, the consultant (an individual or a company) has not assisted any other entity that has submitted or will submit a proposal for this solicitation.
4. To the best of its knowledge and belief, and except as otherwise disclosed in the Proposal, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest. An organizational conflict of interest exists when a vendor has an unfair competitive advantage or the vendor's objectivity in performing the contract is, or might be, impaired.
5. The contents of the Proposal have not been communicated by the Proposer or its employees or agents to any person not an employee or legally authorized agent of the Proposer and will not be communicated to any such persons prior to Due Date of this solicitation.
6. If awarded a contract, the Proposer will provide to Sourcewell Participating Entities the equipment, products, and services in accordance with the terms, conditions, and scope of a resulting contract.
7. The Proposer possesses, or will possess before delivering any equipment, products, or services, all applicable licenses or certifications necessary to deliver such equipment, products, or services under any resulting contract.
8. The Proposer agrees to deliver equipment, products, and services through valid contracts, purchase orders, or means that are acceptable to Sourcewell Members. Unless otherwise agreed to, the Proposer must provide only new and first-quality products and related services to Sourcewell Members under an awarded Contract.
9. The Proposer will comply with all applicable provisions of federal, state, and local laws, regulations, rules, and orders.
10. The Proposer understands that Sourcewell will reject RFP proposals that are marked "confidential" (or "nonpublic," etc.), either substantially or in their entirety. Under Minnesota Statutes Section 13.591, subdivision 4, all proposals are considered nonpublic data until the evaluation is complete and a Contract is awarded. At that point, proposals become public data. Minnesota Statutes Section 13.37 permits only certain narrowly defined data to be considered a "trade secret," and thus nonpublic data under Minnesota's Data Practices Act.
11. Proposer its employees, agents, and subcontractors are not:
 1. Included on the "Specially Designated Nationals and Blocked Persons" list maintained by the Office of Foreign Assets Control of the United States Department of the Treasury found at: <https://www.treasury.gov/ofac/downloads/sdnlist.pdf>;
 2. Included on the government-wide exclusions lists in the United States System for Award Management found at: <https://sam.gov/SAM/>; or
 3. Presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from programs operated by the State of Minnesota; the United States federal government or the Canadian government, as applicable; or any Participating Entity. Vendor certifies and warrants that neither it nor its principals have been convicted of a criminal offense related to the subject matter of this solicitation.

☒ By checking this box I acknowledge that I am bound by the terms of the Proposer's Affidavit, have the legal authority to submit this Proposal on behalf of the Proposer, and that this electronic acknowledgment has the same legal effect, validity, and enforceability as if I had hand signed the Proposal. This signature will not be denied such legal effect, validity, or enforceability solely because an electronic signature or electronic record was used in its formation. - Jason Thompson, President, PB Loader Corporation

The Proposer declares that there is an actual or potential Conflict of Interest relating to the preparation of its submission, and/or the Proposer foresees an actual or potential Conflict of Interest in performing the contractual obligations contemplated in the bid.

EXHIBIT C

City's Insurance and Indemnity

Exhibit C

Insurance and Indemnity

INDEMNIFICATION

To the furthest extent allowed by law, VENDOR shall indemnify, hold harmless and defend CITY and each of its officers, officials, employees, agents and volunteers from any and all loss, liability, fines, penalties, forfeitures, costs and damages (whether in contract, tort or strict liability, including but not limited to personal injury, death at any time and property damage) incurred by CITY, VENDOR or any other person, and from any and all claims, demands and actions in law or equity (including reasonable attorney's fees, litigation expenses and cost to enforce this agreement), arising or alleged to have arisen directly or indirectly out of performance of this Contract. VENDOR'S obligations under the preceding sentence shall apply regardless of whether CITY or any of its officers, officials, employees, agents or volunteers are passively negligent, but shall not apply to any loss, liability, fines, penalties, forfeitures, costs or damages caused by the active or sole negligence, or the willful misconduct, of CITY or any of its officers, officials, employees, agents or volunteers.

If VENDOR should subcontract all or any portion of the work to be performed under this Contract, VENDOR shall require each subcontractor to indemnify, hold harmless and defend CITY and each of its officers, officials, employees, agents and volunteers in accordance with the terms of the preceding paragraph.

This section shall survive termination or expiration of this Contract.

INSURANCE REQUIREMENTS

(a) Throughout the life of this Agreement, VENDOR shall pay for and maintain in full force and effect all insurance as required herein with an insurance company(ies) either (i) admitted by the California Insurance Commissioner to do business in the State of California and rated no less than "A-VII" in the Best's Insurance Rating Guide, or (ii) as may be authorized in writing by CITY'S Risk Manager or his/her designee at any time and in his/her sole discretion. The required policies of insurance as stated herein shall maintain limits of liability of not less than those amounts stated therein. However, the insurance limits available to CITY, its officers, officials, employees, agents and volunteers as additional insureds, shall be the greater of the minimum limits specified therein or the full limit of any insurance proceeds to the named insured.

(b) If at any time during the life of the Agreement or any extension, VENDOR or any of its subcontractors fail to maintain any required insurance in full force and effect, all services and work under this Agreement shall be discontinued immediately, and all payments due or that become due to VENDOR shall be withheld until notice is received by CITY that the required insurance has been restored to full force and effect and that the premiums therefore have been paid for a period satisfactory to CITY. Any failure to maintain the required insurance shall be sufficient cause for CITY to terminate this Agreement. No action taken by CITY pursuant to this section shall in any way relieve VENDOR of its responsibilities under this Agreement. The phrase "fail to maintain any required insurance" shall include, without limitation, notification received by CITY that an

insurer has commenced proceedings, or has had proceedings commenced against it, indicating that the insurer is insolvent.

(c) The fact that insurance is obtained by VENDOR shall not be deemed to release or diminish the liability of VENDOR, including, without limitation, liability under the indemnity provisions of this Agreement. The duty to indemnify CITY shall apply to all claims and liability regardless of whether any insurance policies are applicable. The policy limits do not act as a limitation upon the amount of indemnification to be provided by VENDOR. Approval or purchase of any insurance contracts or policies shall in no way relieve from liability nor limit the liability of VENDOR, vendors, suppliers, invitees, contractors, sub-contractors, subcontractors, or anyone employed directly or indirectly by any of them.

1. PRODUCTS LIABILITY INSURANCE: VENDOR shall maintain, and provide the City of Fresno with verification of, manufacturer's products liability insurance policy in excess of \$1,000,000 by providing a certificate of insurance on said Bid Item(s) equipment. Certificates shall be issued by an insurance company meeting the requirements to conduct business in the state of California. City of Fresno is required to be an additional insured with primary and non- contributory coverage in favor of the City on this General Liability Policy.

If the scope of work includes delivery and/or installation, the requirements below apply in addition to the above requirements.

Coverage shall be at least as broad as:

1. The most current version of Insurance Services Office (ISO) Commercial General Liability Coverage Form CG 00 01, providing liability coverage arising out of your business operations. The Commercial General Liability policy shall be written on an occurrence form and shall provide coverage for "bodily injury," "property damage" and "personal and advertising injury" with coverage for premises and operations (including the use of owned and non-owned equipment), products and completed operations, and contractual liability (including, without limitation, indemnity obligations under the Agreement) with limits of liability not less than those set forth under "Minimum Limits of Insurance."

2. The most current version of ISO *Commercial Auto Coverage Form CA 00 01, providing liability coverage arising out of the ownership, maintenance or use of automobiles in the course of your business operations. The Automobile Policy shall be written on an occurrence form and shall provide coverage for all owned, hired, and non-owned automobiles or other licensed vehicles (Code 1- Any Auto).

3. Workers' Compensation insurance as required by the State of California and Employer's Liability Insurance.

MINIMUM LIMITS OF INSURANCE

VENDOR shall procure and maintain for the duration of the contract, and for 5 years thereafter, insurance with limits of liability not less than those set forth below. However, insurance limits available to CITY, its officers, officials, employees, agents and

volunteers as additional insureds, shall be the greater of the minimum limits specified herein or the full limit of any insurance proceeds available to the named insured:

1. COMMERCIAL GENERAL LIABILITY

- (i) \$1,000,000 per occurrence for bodily injury and property damage;
- (ii) \$1,000,000 per occurrence for personal and advertising injury;
- (iii) \$2,000,000 aggregate for products and completed operations; and,
- (iv) \$2,000,000 general aggregate applying separately to the work performed under the Agreement.

2. COMMERCIAL AUTOMOBILE LIABILITY

\$1,000,000 per accident for bodily injury and property damage.

3. Workers' Compensation Insurance as required by the State of California with statutory limits and EMPLOYER'S LIABILITY with limits of liability not less than:

- (i) \$1,000,000 each accident for bodily injury;
- (ii) \$1,000,000 disease each employee; and,
- (iii) \$1,000,000 disease policy limit.

UMBRELLA OR EXCESS INSURANCE

In the event VENDOR purchases an Umbrella or Excess insurance policy(ies) to meet the "Minimum Limits of Insurance," this insurance policy(ies) shall "follow form" and afford no less coverage than the primary insurance policy(ies). In addition, such Umbrella or Excess insurance policy(ies) shall also apply on a primary and non-contributory basis for the benefit of the CITY, its officers, officials, employees, agents and volunteers.

DEDUCTIBLES AND SELF-INSURED RETENTIONS

VENDOR shall be responsible for payment of any deductibles contained in any insurance policy(ies) required herein and VENDOR shall also be responsible for payment of any self-insured retentions.

OTHER INSURANCE PROVISIONS/ENDORSEMENTS

- (i) All policies of insurance required herein shall be endorsed to provide that the coverage shall not be cancelled, non-renewed, reduced in coverage or in limits except after thirty (30) calendar days written notice has been given to CITY, except ten (10) days for nonpayment of premium. VENDOR is also responsible for providing written notice to the CITY under the same terms and conditions. Upon issuance by the insurer, broker, or agent of a notice of cancellation, non-renewal, or reduction in coverage or in limits, VENDOR shall furnish CITY with a new certificate and applicable endorsements for such policy(ies). In the event any policy is due to expire during the work to be performed for CITY, VENDOR shall provide a new certificate, and applicable

endorsements, evidencing renewal of such policy not less than fifteen (15) calendar days prior to the expiration date of the expiring policy.

(ii) The Commercial General and Automobile Liability insurance policies shall be written on an occurrence form.

(iii) The Commercial General and Automobile Liability insurance policies shall be endorsed to name City, its officers, officials, agents, employees and volunteers as an additional insured all ongoing and completed operations. Additional Insured endorsements under the General Liability policy must be as broad as that contained in ISO Forms: GC 20 10 11 85 or both CG 20 10 & CG 20 37.

(iv) The Commercial General and Automobile Liability insurance shall contain, or be endorsed to contain, that VENDOR'S insurance shall be primary to and require no contribution from the City. Primary and Non Contributory language under the General Liability policy must be as broad as that contained in ISO Form CG 20 01 04 13. These coverages shall contain no special limitations on the scope of protection afforded to City, its officers, officials, employees, agents and volunteers.

(v) Should any of these policies provide that the defense costs are paid within the Limits of Liability, thereby reducing the available limits by defense costs, then the requirement for the Limits of Liability of these policies will be twice the above stated limits.

(vi) All insurance policies required herein shall contain, or be endorsed to contain, a waiver of subrogation as to CITY, its officers, officials, agents, employees and volunteers.

PROVIDING OF DOCUMENTS

VENDOR shall furnish CITY with all certificate(s) and applicable endorsements effecting coverage required herein. All certificates and applicable endorsements are to be received and approved by the CITY'S Risk Manager or his/her designee prior to CITY'S execution of the Agreement and before work commences. All non-ISO endorsements amending policy coverage shall be executed by a licensed and authorized agent or broker. Upon request of CITY, VENDOR shall immediately furnish CITY with a complete copy of any insurance policy required under this Agreement, including all endorsements, with said copy certified by the underwriter to be a true and correct copy of the original policy. This requirement shall survive expiration or termination of this Agreement. All subcontractors working under the direction of VENDOR shall also be required to provide all documents noted herein.

SUBCONTRACTORS

If VENDOR subcontracts any or all of the services to be performed under this Agreement, VENDOR shall require, at the discretion of the CITY Risk Manager or designee, subcontractor(s) to enter into a separate Side Agreement with the City to provide required indemnification and insurance protection. Any required Side Agreement(s) and associated insurance documents for the subcontractor must be reviewed and preapproved by CITY Risk Manager or designee. If no Side Agreement is required, VENDOR will be solely responsible for ensuring that its subcontractors maintain insurance coverage at levels no less than those required by applicable law and is customary in the relevant industry.
