BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

This neighborhood is being served by undersized and aging water mains. Several of the lots are served by water mains located in easements in the backyards. These undersized and aging water mains tend to have frequent failures disrupting service to the customer. This project will install new larger water mains and services in the street right-of-way and abandon the existing water mains. In addition, each lot will be transferred to the new water mains and services.
