**RE: SW1B – Second Boring Subcontractor**

Mr. Norgaard,

In accordance with California Public Contract Code Section 4100-4114 Garney is providing notice to replace a listed subcontractor with an alternate subcontractor for a portion of the work in which they were listed.

Garney has received the attached letter from Pacific Boring, the listed boring subcontractor for the Project. Pacific Boring is unable to provide the necessary resources to complete the project in the requested timeframe.

In order to complete the project within the necessary timeframes as requested by the City, Garney intends to contract with Pipe Jacking Trenchless, Inc to provide the second boring crew and resources. Pipe Jacking Trenchless will perform two 54" bores in substitution of Pacific Boring. Pacific Boring will perform all other contract work in which they were originally listed.

**Second Boring Subcontractor:**

Name: Pipe Jacking Trenchless, Inc.  
Address: 5486 Industrial Pkwy. San Bernardino, A 92407  
Work to be Performed: 54" Bores  
California State License #: 1018405

Please let me know if you have any questions on the replacement of Pacific Boring with Pipe Jacking Trenchless for two 54" bores on this project.

Respectfully,

Garney Construction,
