**Department Recommendation**

**Background** *(Explain the need for the procurement below.)*

Phase one of Trolley Park was constructed with low level seat wall lighting for pathways only, making the remainder of the park quite dark in the evening. Also, the play structure is in full sun throughout the summer making its surface quite hot for the children to play on. This project, the second phase of Trolley Park, will provide much needed shade to the play structure and additional lighting for the park.
