**CONDITIONS TO BE AGREED TO BY ALL PERSONS
MAKING APPLICATION FOR DEMOLITION PERMIT**

Any person requesting an application for a Demolition Permit shall agree to comply with section 11-218, DEBRIS AND EXCAVATIONS, of the Fresno Municipal Code:

Section 11-218. DEBRIS AND EXCAVATIONS.

It shall be the duty of any person to whom a permit issued for demolition or for the removal of any building, or any section or portion of any building pursuant to the provisions of this article, and of any person leasing, owning, or occupying or controlling any lot or parcel of ground from which a building is removed or demolished to remove all weeds, concrete or stone foundations, flat concrete, concrete patios, masonry walls, garage floors, driveways, and similar structures and all loose, miscellaneous, and useless material, from such lot or parcel of ground, and to properly cap the sanitary sewer house connection, and to properly fill or otherwise protect all basements, cellars, septic tanks, wells, and other excavations, and said lot or parcel shall be left level and in condition to be disked for control of weeds.

It shall be also understood that if any trees are allowed to remain, limbs shall be kept trimmed to provide a minimum clearance of 10 feet above the adjacent ground level to allow for diskling as described in FMC section 11-218.

I hereby certify that on this 2nd day of August, 20 21 I have read, understand, and agree to abide by the provisions of the above statement.

REQUIREMENTS FOR PEDESTRIAN PROTECTION

When "h" is less than or equal to 8 feet:

- And "d" is 5 feet or more: No Protection is required.
(Table 3306.1 of 2013 California Building Code)
- And "d" is less than 5 feet: Provide a substantially constructed railing or fence not less than 42 inches in height between the walkway and the building, and sufficient to direct pedestrians around construction areas.
(Section 3306.4 of 2013 California Building Code)

When "h" is greater than 8 feet:

- And "d" is 5 feet or more but greater than $\frac{1}{2}$ the height: No Protection is required.
(Table 3306.1 of 2013 California Building Code)
- And "d" is 5 feet or more; but between $\frac{1}{4}$ and $\frac{1}{2}$ the height: Provide a solid fence or barrier a minimum 8 feet in height, placed on the side of the walkway nearest the construction. Barriers shall extend the entire length of the construction site. Openings in barriers shall be protected by doors which are normally kept closed.
(Table 3306.1 and Section 3306.5 of 2013 California Building Code)
- And "d" is 5 feet or more; but more than $\frac{1}{4}$ the height: Provide a solid fence or barrier and covered walkway. The covered walkway shall have a clear height of 8 feet measured from the floor surface to the canopy overhead. Adequate lighting shall be provided at all times.
(Table 3306.1 and Section 3306.7 of 2013 California Building Code)
- And "d" is less than 5 feet: Provide a solid fence or barrier and covered walkway. The covered walkway shall have a clear height of 8 feet measured from the floor surface to the canopy overhead. Adequate lighting shall be provided at all times.
(Table 3306.1 and Section 3306.7 of 2013 California Building Code)

All barriers shall be designed to conform to the requirements of section 3306.5 and 3306.6 of the 2013 California Building Code.

All covered walkways shall be designed to conform to the requirements of section 3306.7 of the 2013 California Building Code.

WASTE MANAGEMENT PLAN (WMP) FOR CONSTRUCTION AND DEMOLITION DEBRIS

TERMS AND CONDITIONS

- Per 2016 CALGreen, 65% of all C&D debris generated must be recycled.
- This project shall generate the least amount of waste possible by planning and ordering carefully, following all proper storage and handling procedures to reduce broken and damaged materials and reusing materials whenever possible. The majority of the waste that is generated on this jobsite will be diverted from the landfill and recycled for other use.
- Only approved Non-exclusive Franchise Haulers may be hired to collect and transport trash or C&D materials off the jobsite.
- You must keep all receipts and/or weight tickets from your project to be provided with the final Waste Diversion Log to City staff prior to or at the time of final inspection and occupancy.
- A Waste Management Plan (WMP) (Part 1) must be submitted and approved before to a building permit will be issued. The WMP serves as acknowledgment that 65% of all C&D debris generated must be recycled.
- A Subcontractor Acknowledgement Form (Part 2) must be completed for each subcontractor that comes on site to document that they have read and understand the conditions of the Waste Management Plan for the project. Waste prevention and recycling activities will be discussed at meetings with all subcontractors. As each subcontractor comes on site, the WMP coordinator will present him/her with a copy of the WMP, and provide a tour of the jobsite to identify materials to be salvaged and the procedures for handling jobsite debris.
- A Waste Diversion Log/Report (Part 3) with all supporting weight tickets must be completed and submitted to the City upon completion of the project. The Waste Diversion Log/Report will identify the total waste generated for both construction and demolition, the corresponding weight for each material type, total recycled and non-recycled waste, and percentage of recycled waste (min. 65%).
- The WMP, Acknowledgement Form, and Waste Diversion Forms must be kept on the jobsite for the duration of the project. City Inspection staff may review the documentation and jobsite anytime during construction to monitor compliance.
- Universal Waste: Non-residential additions and alterations to a building or tenant space shall require verification that Universal Waste items such as fluorescent lamps and ballasts and mercury containing thermostats are disposed of properly and diverted away from landfills.
- Resource List of approved C&D haulers:
