BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The Department of Transportation/Fresno Area Express (FAX) owns and operates 1,481 bus stops outfitted with varying degrees of amenities. Majority of these locations have limited access to electrical power or communication cables required to power modern amenities such as digital displays. Solar powered digital displays equipped with cellular provides a means to easily deploy and install display signs at any location. These displays will allow FAX to inform its ridership of route information, arrival time, departure time, city announcements, and emergency announcements.

DEPARTMENT CONCLUSIONS AND RECOMMENDATION:

Award a contract in the amount of \$ _____
to _____
as the lowest responsive and responsible bidder.

Remarks:

Reject all bids. Reason: The products bid does not meet the specifications of the solicitation. Specifically, the dimensions of the E-link signage do not conform to the minimum requirements listed and based on the product data sheets the product cannot be mounted in fashion that is desirable to Fresno Area Express.
