---

Each bidder has agreed to allow the City sixty-four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Division at the latest by Wednesday, September 16, 2015, 5:00 P.M.

The Engineer's Estimate for this expenditure is \$2,490,000. The contract price is 22.2% below the Engineer's Estimate.

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

In conjunction with the Downtown Revitalization Planning, the Collection System Maintenance work group performed an inspection of the Downtown sewer systems. The goals of these inspections were to evaluate the structural and capacity handling condition of all the downtown sewer pipes. The investigation was done using Closed Circuit Television (CCTV). Through this investigation some pipes were found to have structural deficiencies such as cracks and voids and some were found to be past the design useful life and undersized per the City Standard design requirements. These identified areas need to be rehabilitated or removed and replaced.

The Chinatown rehabilitation project is the third project rehabilitating downtown sewers. This project consists of the rehabilitation of 8553 LF of 8" to 24" diameter sewer pipes. These pipes range in ages from 47 to 125 years old.
