U.S. patent, copyright or trademark. For the purposes of this section, "Participate and Share in the Costs" means Contractor will assist the County in the defense of the claim, to the extent agreed to by the parties, except that Contractor shall be solely responsible for any and all costs adjudged in a successful Claim against the County.

- 3.9.2 Remedial Measures: If software becomes, or Contractor reasonably believes use of software may become, the subject of a Claim, Contractor may, at its own expense and option: (i) procure for County the right to continue use of the Product; (ii) replace or modify the software; or to the extent that neither (i) nor (ii) are deemed commercially practicable, (iii) refund to County a pro-rated portion of the applicable fees for software based on a linear depreciation monthly over 10 year useful life, in which case County will cease all use of software and return it to Contractor.

3.9.2.1 Exceptions: Contractor will have no defense or indemnity obligation for any Claim based on: (i) modifications by someone other than Contractor; (ii) software has been modified by Contractor in accordance with County-provided specifications or instructions; (iii) use or combination by the County of software with Third Party Products, open source or freeware technology; (iv) Third Party Products, open source or freeware technology; (v) a product that is used or located by County in a country other than the country in which or for which it was supplied by Contractor; (vi) possession or use of a product after Contractor has informed County of modifications or changes required to avoid such Claim and offered to implement those modifications or changes, if such Claim would have been avoided by implementation of Contractor's suggestions and to the extent County did not provide Contractor with a reasonable opportunity to implement Contractor's suggestions; or (vii) the amount of revenue or profits earned or other value obtained by the use of Products, or the amount of use of the Products. "Third Party Products" means any products made by a party other than Contractor, and may include, without limitation, products ordered by County from third parties. However, components of Contractor branded Products are not Third Party Products if they are both: (i) embedded in Third Party Products (i.e., not recognizable as standalone items); and (ii) not identified as separate items on Contractor's price list, quotes, order specifications forms or Documentation.

- 3.9.3 The foregoing states Contractor's entire liability, and County's sole and exclusive remedy except as provided at law or equity, with respect to any infringement or misappropriation of any intellectual property rights of another party.

  - 3.10.3.7 Any other circumstance in which Maricopa County is entitled to access or use the applicable deposit materials (including, but not limited to, the source code) under the express terms of any agreement between Contractor and Maricopa County.
- 3.10.4 Upon Maricopa County taking possession of the source code, Maricopa County hereby agrees as follows:
- 3.10.4.1 Maricopa County accepts full and total responsibility for the safekeeping of the source code. Maricopa County agrees that such source code shall be subject to the restrictions of transfer, sale, and reproduction placed on the software itself as stated in the software license signed by all parties.
  - 3.10.4.2 Maricopa County agrees to only use source code related to applications for which they own a license. There will be source from other applications in the archive.

**SERIAL 180233-RFP****ATTACHMENT D****US COMMUNITIES REQUIREMENTS****I. SUPPLIER QUALIFICATIONS****Commitments**

U.S. Communities views the relationship with an awarded Supplier as an opportunity to provide maximum benefit to both the Participating Public Agencies and to the Supplier.

The successful foundation of the partnership requires commitments from both U.S. Communities and the Supplier. U.S. Communities requires the Supplier to make the four commitments set forth below (Corporate, Pricing, Economy, Sales) to ensure that Supplier is providing the highest level of public benefit to Participating Public Agencies:

**(a) Corporate Commitment.**

(i) The pricing, terms and conditions of the Master Agreement shall, at all times, be Supplier's primary contractual offering of Products and Services to Public Agencies. All of Supplier's direct and indirect marketing and sales efforts to Public Agencies shall demonstrate that the Master Agreement is Supplier's primary offering and not just one of Supplier's contract options.

(ii) Supplier's sales force (including inside, direct and/or authorized dealers, distributors and representatives) shall always present the Master Agreement when marketing Products or Services to Public Agencies.

(iii) Supplier shall advise all Public Agencies that are existing customers of Supplier as to the pricing and other value offered through the Master Agreement.

(iv) Upon authorization by a Public Agency, Supplier shall transition such Public Agency to the pricing, terms and conditions of the Master Agreement.

(v) Supplier shall ensure that the U.S. Communities program and the Master Agreement are actively supported by Supplier's senior executive management.

(vi) Supplier shall provide a national/senior management level representative with the authority and responsibility to ensure that the Supplier's Commitments are maintained at all times. Supplier shall also designate a lead referral contact person who shall be responsible for receiving communications from U.S. Communities concerning new Participating Public Agency registrations and for ensuring timely follow-up by Supplier's staff to requests for contact from Participating Public Agencies. Supplier shall also provide the personnel necessary to implement and support a supplier-based internet web page dedicated to Supplier's U.S. Communities program and linked to U.S. Communities' website and shall implement and support such web page.

(vii) Supplier shall demonstrate in its procurement solicitation response and throughout the term of the Master Agreement that national/senior management fully supports the U.S. Communities program and its commitments and requirements. National/Senior management is defined as the executive(s) with companywide authority.

(viii) Where Supplier has an existing contract for Products and Services with a state, Supplier shall notify the state of the Master Agreement and transition the state to the pricing, terms and conditions of the Master Agreement upon the state's request. Regardless of whether the state decides to transition to the Master Agreement, Supplier shall primarily offer the Master Agreement to all Public Agencies located within the state.

**SERIAL 180233-RFP****(b) Pricing Commitment.**

(i) Supplier represents to U.S. Communities that the pricing offered under the Master Agreement is the lowest overall available pricing (net to purchaser) on Products and Services that it offers to Public Agencies. Supplier's pricing shall be evaluated on either an overall project basis or the Public Agency's actual usage for more frequently purchased Products and Services.

(ii) Contracts Offering Lower Prices. If a pre-existing contract and/or a Public Agency's unique buying pattern provide one or more Public Agencies a lower price than that offered under the Master Agreement, Supplier shall match that lower pricing under the Master Agreement and inform the eligible Public Agencies that the lower pricing is available under the Master Agreement. If an eligible Public Agency requests to be transitioned to the Master Agreement, Supplier shall do so and report the Public Agency's purchases made under the Master Agreement going forward. The price match only applies to the eligible Public Agencies. Below are three examples of Supplier's obligation to match the pricing under Supplier's contracts offering lower prices.

(A) Supplier holds a state contract with lower pricing that is available to all Public Agencies within the state. Supplier would be required to match the lower state pricing under the Master Agreement and make it available to all Public Agencies within the state.

(B) Supplier holds a regional cooperative contract with lower pricing that is available only to the ten cooperative members. Supplier would be required to match the lower cooperative pricing under the Master Agreement and make it available to the ten cooperative members.

(C) Supplier holds a contract with an individual Public Agency. The Public Agency contract does not contain any cooperative language and therefore other Public Agencies are not eligible to utilize the contract. Supplier would be required to match the lower pricing under the Master Agreement and make it available only to the individual Public Agency.

(iii) Deviating Buying Patterns. Occasionally U.S. Communities and Supplier may interact with a Public Agency that has a buying pattern or terms and conditions that considerably deviate from the normal Public Agency buying pattern and terms and conditions, and causes Supplier's pricing under the Master Agreement to be higher than an alternative contract held by Supplier. This could be created by a unique end-user preference or requirements. In the event that this situation occurs, Supplier may address the issue by lowering the price under the Master Agreement on the item(s) causing the large deviation for that Public Agency. Supplier would not be required to lower the price for other Public Agencies.

(iv) Supplier's Options in Responding to a Third Party Procurement Solicitation. While it is the objective of U.S. Communities to encourage Public Agencies to piggyback on to the Master Agreement rather than issue their own procurement solicitations, U.S. Communities recognizes that for various reasons some Public Agencies will issue their own solicitations. The following options are available to Supplier when responding to a Public Agency solicitation:

(A) Supplier may opt not to respond to the procurement solicitation. Supplier may make the Master Agreement available to the Public Agency as a comparison to its solicitation responses.

(B) Supplier may respond with the pricing, terms and conditions of the Master Agreement. If Supplier is awarded the contract, the sales would be reported as sales under the Master Agreement.

**SERIAL 180233-RFP**

(C) If competitive conditions require pricing lower than the standard Master Agreement pricing, Supplier may submit lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales would be reported as sales under the Master Agreement. Supplier would not be required to extend the lower price to other Public Agencies.

(D) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement. If awarded a contract, Supplier shall still be bound by all obligations set forth in this Section 3.3, including, without limitation, the requirement to continue to advise the awarding Public Agency of the pricing, terms and conditions of the Master Agreement.

(E) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement and if an alternative response is permitted, Supplier may offer the pricing under the Master Agreement as an alternative for consideration.

(c) **Economy Commitment.** Supplier shall demonstrate the benefits, including the pricing advantage, of the Master Agreement over alternative options, including competitive solicitation pricing and shall proactively offer the terms and pricing under the Master Agreement to Public Agencies as a more effective alternative to the cost and time associated with such alternate bids and solicitations.

(d) **Sales Commitment.** Supplier shall market the Master Agreement through Supplier's sales force or dealer network that is properly trained, engaged and committed to offering the Master Agreement as Supplier's primary offering to Public Agencies. Supplier's sales force compensation and incentives shall be greater than or equal to the compensation and incentives earned under other contracts to Public Agencies.

(i) **Supplier Sales.** Supplier shall be responsible for proactive sales of Supplier's Products and Services to Public Agencies and the timely follow-up to sales leads identified by U.S. Communities. Use of product catalogs, targeted advertising, direct mail, online marketing and other sales initiatives are encouraged. All of Supplier's sales materials targeted towards Public Agencies shall include the U.S. Communities logo. U.S. Communities hereby grants to Supplier, during the term of this Agreement, a non-exclusive, revocable, non-transferable, license to use the U.S. Communities name, trademark, and logo solely to perform its obligations under this Agreement, and for no other purpose. Any goodwill, rights, or benefits derived from Supplier's use of the U.S. Communities name, trademark, or logo shall inure to the benefit of U.S. Communities. U.S. Communities shall provide Supplier with its logo and the standards to be employed in the use of the logo. **ARTICLE I****GENERAL TERMS AND CONDITIONS**

1.1 The Master Agreement, attached hereto as Exhibit A and incorporated herein by reference as though fully set forth herein, and the terms and conditions contained therein shall apply to this Agreement except as expressly changed or modified by this Agreement.

1.2 U.S. Communities shall be afforded all of the rights, privileges and indemnifications afforded to Lead Public Agency under the Master Agreement, and such rights, privileges and indemnifications shall accrue and apply with equal effect to U.S. Communities under this Agreement including, without limitation, Supplier's obligation to provide insurance and indemnifications to Lead Public Agency.

1.3 Supplier shall perform all duties, responsibilities and obligations required under the Master Agreement.

**SERIAL 180233-RFP**

1.4 U.S. Communities shall perform all of its duties, responsibilities and obligations as administrator of purchases under the Master Agreement as set forth herein, and Supplier acknowledges that U.S. Communities shall act in the capacity of administrator of purchases under the Master Agreement.

1.5 With respect to any purchases made by Lead Public Agency or any Participating Public Agency pursuant to the Master Agreement, U.S. Communities (a) shall not be construed as a dealer, re-marketer, representative, partner, or agent of any type of Supplier, Lead Public Agency or such Participating Public Agency, (b) shall not be obligated, liable or responsible (i) for any orders made by Lead Public Agency, any Participating Public Agency or any employee of Lead Public Agency or a Participating Public Agency under the Master Agreement, or (ii) for any payments required to be made with respect to such order, and (c) shall not be obligated, liable or responsible for any failure by a Participating Public Agency to (i) comply with procedures or requirements of applicable law or ordinance, or (ii) obtain the due authorization and approval necessary to purchase under the Master Agreement. U.S. Communities makes no representations or guaranties with respect to any minimum purchases required to be made by Lead Public Agency, any Participating Public Agency, or any employee of Lead Public Agency or a Participating Public Agency under the Master Agreement.

**ARTICLE II****TERM OF AGREEMENT**

2.1 This Agreement is effective as of \_\_\_\_\_ and shall terminate upon termination of the Master Agreement or any earlier termination in accordance with the terms of this Agreement, provided, however, that the obligation to pay all amounts owed by Supplier to U.S. Communities through the termination of this Agreement and all indemnifications afforded by Supplier to U.S. Communities shall survive the term of this Agreement.

**ARTICLE III****REPRESENTATIONS AND COVENANTS**

3.1 U.S. Communities views the relationship with Supplier as an opportunity to provide benefits to the Lead Public Agency, Public Agencies and Supplier. The successful foundation of the relationship requires certain representations and covenants from both U.S. Communities and Supplier.

3.2 U.S. Communities' Representations and Covenants.

(a) Marketing. U.S. Communities shall proactively market the Master Agreement to Public Agencies using resources such as a network of major sponsors including the National League of Cities (NLC), National Association of Counties (NACo), United States Conference of Mayors (USCM), and the Association of School Business Officials (ASBO) (collectively, the "Founding Co-Sponsors") and individual national, regional and state-level sponsors. In addition, the U.S. Communities staff shall make best efforts to enhance Supplier's marketing efforts through meetings with Public Agencies, participation in key events and tradeshow and other marketing activity such as advertising, articles and promotional campaigns.

(b) Training and Knowledge Management Support. U.S. Communities shall provide support for the education, training and engagement of Supplier's sales force as provided herein. Through its staff (each, a "Program Manager") and collectively, the "Program Managers"), U.S. Communities shall, with scheduling assistance from Supplier, conduct training sessions and conduct calls jointly with Supplier to Public Agencies. U.S. Communities shall also provide Supplier with access to U.S. Communities' private intranet website which provides presentations, documents and information to assist Supplier's sales force in effectively promoting the Master Agreement.

3.3 Supplier's Representations and Covenants. Supplier hereby represents and covenants as follows in order to ensure that Supplier is providing the highest level of public benefit to Participating Public Agencies (such

**SERIAL 180233-RFP**

representations and covenants are sometimes referred to as “Supplier’s Commitments” and are comprised of the Corporate Commitment, Pricing Commitment, Economy Commitment and Sales Commitment):

(a) **Corporate Commitment.**

(i) The pricing, terms and conditions of the Master Agreement shall, at all times, be Supplier’s primary contractual offering of Products and Services to Public Agencies. All of Supplier’s direct and indirect marketing and sales efforts to Public Agencies shall demonstrate that the Master Agreement is Supplier’s primary offering and not just one of Supplier’s contract options.

(ii) Supplier’s sales force (including inside, direct and/or authorized dealers, distributors and representatives) shall always present the Master Agreement when marketing Products or Services to Public Agencies.

(iii) Supplier shall advise all Public Agencies that are existing customers of Supplier as to the pricing and other value offered through the Master Agreement.

(iv) Upon authorization by a Public Agency, Supplier shall transition such Public Agency to the pricing, terms and conditions of the Master Agreement.

(v) Supplier shall ensure that the U.S. Communities program and the Master Agreement are actively supported by Supplier’s senior executive management.

(vi) Supplier shall provide a national/senior management level representative with the authority and responsibility to ensure that the Supplier’s Commitments are maintained at all times. Supplier shall also designate a lead referral contact person who shall be responsible for receiving communications from U.S. Communities concerning new Participating Public Agency registrations and for ensuring timely follow-up by Supplier’s staff to requests for contact from Participating Public Agencies. Supplier shall also provide the personnel necessary to implement and support a supplier-based internet web page dedicated to Supplier’s U.S. Communities program and linked to U.S. Communities’ website and shall implement and support such web page.

(vii) Supplier shall demonstrate in its procurement solicitation response and throughout the term of the Master Agreement that national/senior management fully supports the U.S. Communities program and its commitments and requirements. National/Senior management is defined as the executive(s) with companywide authority.

(viii) Where Supplier has an existing contract for Products and Services with a state, Supplier shall notify the state of the Master Agreement and transition the state to the pricing, terms and conditions of the Master Agreement upon the state’s request. Regardless of whether the state decides to transition to the Master Agreement, Supplier shall primarily offer the Master Agreement to all Public Agencies located within the state.

(b) **Pricing Commitment.**

(i) Supplier represents to U.S. Communities that the pricing offered under the Master Agreement is the lowest overall available pricing (net to purchaser) on Products and Services that it offers to Public Agencies. Supplier’s pricing shall be evaluated on either an overall project basis or the Public Agency’s actual usage for more frequently purchased Products and Services.

(ii) **Contracts Offering Lower Prices.** If a pre-existing contract and/or a Public Agency’s unique buying pattern provide one or more Public Agencies a lower price than that offered under the Master Agreement, Supplier shall match that lower pricing under the Master Agreement and inform the eligible Public Agencies that the lower pricing is available under the Master Agreement. If an eligible Public Agency requests to be transitioned to the Master Agreement, Supplier shall do so and report the Public Agency’s purchases made under the Master Agreement going forward. The price match only applies to the eligible Public Agencies. Below are three examples of Supplier’s obligation to match the pricing under Supplier’s contracts offering lower prices.

**SERIAL 180233-RFP**

(A) Supplier holds a state contract with lower pricing that is available to all Public Agencies within the state. Supplier would be required to match the lower state pricing under the Master Agreement and make it available to all Public Agencies within the state.

(B) Supplier holds a regional cooperative contract with lower pricing that is available only to the ten cooperative members. Supplier would be required to match the lower cooperative pricing under the Master Agreement and make it available to the ten cooperative members.

(C) Supplier holds a contract with an individual Public Agency. The Public Agency contract does not contain any cooperative language and therefore other Public Agencies are not eligible to utilize the contract. Supplier would be required to match the lower pricing under the Master Agreement and make it available only to the individual Public Agency.

(iii) Deviating Buying Patterns. Occasionally U.S. Communities and Supplier may interact with a Public Agency that has a buying pattern or terms and conditions that considerably deviate from the normal Public Agency buying pattern and terms and conditions, and causes Supplier's pricing under the Master Agreement to be higher than an alternative contract held by Supplier. This could be created by a unique end-user preference or requirements. In the event that this situation occurs, Supplier may address the issue by lowering the price under the Master Agreement on the item(s) causing the large deviation for that Public Agency. Supplier would not be required to lower the price for other Public Agencies.

(iv) Supplier's Options in Responding to a Third Party Procurement Solicitation. While it is the objective of U.S. Communities to encourage Public Agencies to piggyback on to the Master Agreement rather than issue their own procurement solicitations, U.S. Communities recognizes that for various reasons some Public Agencies will issue their own solicitations. The following options are available to Supplier when responding to a Public Agency solicitation:

(A) Supplier may opt not to respond to the procurement solicitation. Supplier may make the Master Agreement available to the Public Agency as a comparison to its solicitation responses.

(B) Supplier may respond with the pricing, terms and conditions of the Master Agreement. If Supplier is awarded the contract, the sales would be reported as sales under the Master Agreement.

(C) If competitive conditions require pricing lower than the standard Master Agreement pricing, Supplier may submit lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales would be reported as sales under the Master Agreement. Supplier would not be required to extend the lower price to other Public Agencies.

(D) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement. If awarded a contract, Supplier shall still be bound by all obligations set forth in this Section 3.3, including, without limitation, the requirement to continue to advise the awarding Public Agency of the pricing, terms and conditions of the Master Agreement.

(E) Supplier may respond to the procurement solicitation with pricing that is higher (net to buyer) than the pricing offered under the Master Agreement and if an alternative response is permitted, Supplier may offer the pricing under the Master Agreement as an alternative for consideration.

(c) Economy Commitment. Supplier shall demonstrate the benefits, including the pricing advantage, of the Master Agreement over alternative options, including competitive solicitation pricing and shall proactively offer the terms and pricing under the Master Agreement to Public Agencies as a more effective alternative to the cost and time associated with such alternate bids and solicitations.

**SERIAL 180233-RFP**

(d) **Sales Commitment.** Supplier shall market the Master Agreement through Supplier's sales force or dealer network that is properly trained, engaged and committed to offering the Master Agreement as Supplier's primary offering to Public Agencies. Supplier's sales force compensation and incentives shall be greater than or equal to the compensation and incentives earned under other contracts to Public Agencies.

(i) **Supplier Sales.** Supplier shall be responsible for proactive sales of Supplier's Products and Services to Public Agencies and the timely follow-up to sales leads identified by U.S. Communities. Use of product catalogs, targeted advertising, direct mail, online marketing and other sales initiatives are encouraged. All of Supplier's sales materials targeted towards Public Agencies shall include the U.S. Communities logo. U.S. Communities hereby grants to Supplier, during the term of this Agreement, a non-exclusive, revocable, non-transferable, license to use the U.S. Communities name, trademark, and logo solely to perform its obligations under this Agreement, and for no other purpose. Any goodwill, rights, or benefits derived from Supplier's use of the U.S. Communities name, trademark, or logo shall inure to the benefit of U.S. Communities. U.S. Communities shall provide Supplier with its logo and the standards to be employed in the use of the logo. During the term of the Agreement, the Supplier shall provide U.S. Communities with its logo and the standards to be employed in the use of the logo for purposes of reproducing and using Supplier's name and logo in connection with the advertising, marketing and promotion of the Master Agreement to Public Agencies. Supplier shall assist U.S. Communities by providing camera-ready logos and by participating in related trade shows and conferences. At a minimum, Supplier's sales initiatives shall communicate that (i) the Master Agreement was competitively solicited by the Lead Public Agency, (ii) the Master Agreement provides the Supplier's best overall pricing and value to eligible agencies, (iii) there is no cost to Participating Public Agencies, and (iv) the Master Agreement is a non-exclusive contract.

(ii) **Branding and Logo Compliance.** Supplier shall be responsible for complying with the U.S. Communities branding and logo standards and guidelines. Prior to use by Supplier, all U.S. Communities related marketing material must be submitted to U.S. Communities for review and approval.

(iii) **Sales Force Training.** Supplier shall train its national sales force on the Master Agreement and U.S. Communities program. U.S. Communities shall be available to train on a national, regional or local level and generally assist with the education of sales personnel.

(iv) **Participating Public Agency Access.** Supplier shall establish the following communication links to facilitate customer access and communication:

(A) A dedicated U.S. Communities internet web-based homepage that is accessible from Supplier's homepage or main menu navigation containing:

- (1) U.S. Communities standard logo with Founding Co-Sponsors logos;
- (2) Copy of original procurement solicitation;
- (3) Copy of Master Agreement including any amendments;
- (4) Summary of Products and Services pricing;
- (5) Electronic link to U.S. Communities' online registration page; and
- (6) Other promotional material as requested by U.S. Communities.

(B) A dedicated toll-free national hotline for inquiries regarding U.S. Communities.

(C) A dedicated email address for general inquiries in the following format: uscommunities@(name of supplier).com.

(v) **Electronic Registration.** Supplier shall be responsible for ensuring that each Public Agency has completed U.S. Communities' online registration process prior to processing the Public Agency's first sales order.

**SERIAL 180233-RFP**

(vi) Supplier's Performance Review. Upon request by U.S. Communities, Supplier shall participate in a performance review meeting with U.S. Communities to evaluate Supplier's performance of the covenants set forth in this Agreement.

(vii) Supplier Content. Supplier may, from time to time, provide certain graphics, media, and other content to U.S. Communities (collectively "Supplier Content") for use on U.S. Communities websites and for general marketing and publicity purposes. During the term of the Agreement, Supplier hereby grants to U.S. Communities and its affiliates a non-exclusive, worldwide, free, transferrable, license to reproduce, modify, distribute, publically perform, publically display, and use Supplier Content in connection with U.S. Communities websites and for general marketing and publicity purposes, with the right to sublicense each and every such right. Supplier warrants that: (a) Supplier is the owner of or otherwise has the unrestricted right to grant the rights in and to Supplier Content as contemplated hereunder; and (b) the use of Supplier Content and any other materials or services provided to U.S. Communities as contemplated hereunder will not violate, infringe, or misappropriate the intellectual property rights or other rights of any third party

3.4 Breach of Supplier's Representations and Covenants. The representations and covenants set forth in this Agreement are the foundation of the relationship between U.S. Communities and Supplier. If Supplier is found to be in violation of, or non-compliance with, one or more of the representations and covenants set forth in this Agreement, Supplier shall have ninety (90) days from the notice of default to cure such violation or non-compliance and, if Supplier fails to cure such violation or non-compliance within such notice period, it shall be deemed a cause for immediate termination of the Master Agreement at Lead Public Agency's sole discretion or this Agreement at U.S. Communities' sole discretion.

3.5 Indemnity. Supplier hereby agrees to indemnify and defend U.S. Communities, and its parent companies, subsidiaries, affiliates, shareholders, member, manager, officers, directors, employees, agents, and representatives from and against any and all claims, costs, proceedings, demands, losses, damages, and expenses (including, without limitation, reasonable attorney's fees and legal costs) of any kind or nature, arising from or relating to, any actual or alleged breach of any of Supplier's representations, warranties, or covenants in this Agreement.

**ARTICLE IV****PRICING AUDITS**

4.1 Supplier shall, at Supplier's sole expense, maintain an accounting of all purchases made by Lead Public Agency and Participating Public Agencies under the Master Agreement. U.S. Communities and Lead Public Agency each reserve the right to audit the accounting for a period of three (3) years from the time such purchases are made. This audit right shall survive termination of this Agreement for a period of one (1) year from the effective date of termination. U.S. Communities shall have the authority to conduct random audits of Supplier's pricing that is offered to Participating Public Agencies at U.S. Communities' sole cost and expense. Notwithstanding the foregoing, in the event that U.S. Communities is made aware of any pricing being offered to three (3) or more Participating Public Agencies that is materially inconsistent with the pricing under the Master Agreement, U.S. Communities shall have the ability to conduct a reasonable audit of Supplier's pricing at Supplier's sole cost and expense during regular business hours upon reasonable notice. U.S. Communities may conduct the audit internally or may engage a third-party auditing firm on a non-contingent basis. Supplier shall solely be responsible for the cost of the audit. In the event of an audit, the requested materials shall be provided in the format and at the location where kept in the ordinary course of business by Supplier.

**ARTICLE V****FEES & REPORTING**

5.1 Administrative Fees. Supplier shall pay to U.S. Communities a monthly administrative fee based upon the total sales price of all purchases shipped and billed pursuant to the Master Agreement, excluding taxes, in

**SERIAL 180233-RFP**

the amount of two percent (2%) of aggregate purchases made during each calendar month (individually and collectively, "Administrative Fees"). Supplier's annual sales shall be measured on a calendar year basis. All Administrative Fees shall be payable in U.S. Dollars and shall be made by wire to U.S. Communities, or its designee or trustee as may be directed in writing by U.S. Communities. Administrative Fees shall be due and payable within thirty (30) days of the end of each calendar month for purchases shipped and billed during such calendar month. U.S. Communities agrees to pay to Lead Public Agency five percent (5%) of all Administrative Fees received from Supplier to help offset Lead Public Agency's costs incurred in connection with managing the Master Agreement nationally.

5.2 Sales Reports. Within thirty (30) days of the end of each calendar month, Supplier shall deliver to U.S. Communities an electronic accounting report, in the format prescribed by Exhibit B, attached hereto, summarizing all purchases made under the Master Agreement during such calendar month ("Sales Report"). All purchases indicated in the Sales Report shall be denominated in U.S. Dollars. All purchases shipped and billed pursuant to the Master Agreement for the applicable calendar month shall be included in the Sales Report. Submitted reports shall be verified by U.S. Communities against its registration database. Any data that is inconsistent with the registration database shall be changed prior to processing. U.S. Communities reserves the right upon reasonable advance notice to Supplier to change the prescribed report format to accommodate the distribution of the Administrative Fees to its program sponsors and state associations.

5.3 Exception Reporting/Sales Reports Audits. U.S. Communities or its designee may, at its sole discretion, compare Supplier's Sales Reports with Participating Public Agency records or other sales analysis performed by Participating Public Agencies, sponsors, advisory board members or U.S. Communities staff. If there is a material discrepancy between the Sales Report and such records or sales analysis as determined by U.S. Communities, U.S. Communities shall notify Supplier in writing and Supplier shall have thirty (30) days from the date of such notice to resolve the discrepancy to U.S. Communities' reasonable satisfaction. Upon resolution of the discrepancy, Supplier shall remit payment to U.S. Communities' trustee within fifteen (15) calendar days. Any questions regarding an exception report should be directed to U.S. Communities in writing to [reporting@uscommunities.org](mailto:reporting@uscommunities.org). If Supplier does not resolve the discrepancy to U.S. Communities' reasonable satisfaction within thirty (30) days, U.S. Communities shall have the right to engage outside services to conduct an independent audit of Supplier's reports. Supplier shall solely be responsible for the cost of the audit.

5.4 Online Reporting. Within forty-five (45) days of the end of each calendar month, U.S. Communities shall provide online reporting to Supplier containing Supplier's sales reporting for such calendar month. Supplier shall have access to various reports through the U.S. Communities intranet website. Such reports are useful in resolving reporting issues and enabling Supplier to better manage its Master Agreement.

5.5 Usage Reporting. Within thirty (30) days of the end of each contract year, Supplier shall deliver to U.S. Communities an electronic usage report of all sales under the Master Agreement, including:

- (i) Supplier's Product Number
- (ii) Product Description
- (iii) Manufacturer Name
- (iv) Manufacturer Number
- (v) Unit of Measure
- (vi) U.S. Communities Price
- (vii) Number of times ordered
- (viii) Units sold
- (ix) Sales by Manufacturer

5.6 Supplier's Failure to Provide Reports or Pay Administrative Fees. Failure to provide a Sales Report or pay Administrative Fees within the time and in the manner specified herein shall be regarded as a material breach under this Agreement and if not cured within thirty (30) days of written notice to Supplier, shall be deemed a cause for termination of the Master Agreement at Lead Public Agency's sole discretion or this Agreement at U.S. Communities' sole discretion. All Administrative Fees not paid within thirty (30) days of the end of the previous calendar month shall bear interest at the rate of one and one-half percent (1.5%) per month until paid in full.

**SERIAL 180233-RFP****ARTICLE VI****MISCELLANEOUS**

6.1 Entire Agreement. This Agreement supersedes any and all other agreements, either oral or in writing, between the parties hereto with respect to the subject matter hereof, and no other agreement, statement, or promise relating to the subject matter of this Agreement which is not contained herein shall be valid or binding.

6.2 Assignment.

(a) Supplier. Neither this Agreement nor any rights or obligations hereunder shall be assignable by Supplier without prior written consent of U.S. Communities, and any assignment without such consent shall be void.

(b) U.S. Communities. This Agreement and any rights or obligations hereunder may be assigned by U.S. Communities in U.S. Communities' sole discretion, to an existing or newly established legal entity that has the authority and capacity to perform U.S. Communities' obligations hereunder.

6.3 Notices. All reports, notices or other communications given hereunder shall be delivered by first-class mail, postage prepaid, or overnight delivery requiring signature on receipt to the addresses as set forth below. 6.4 Severability. If any provision of this Agreement shall be deemed to be, or shall in fact be, illegal, inoperative or unenforceable, the same shall not affect any other provision or provisions herein contained or render the same invalid, inoperative or unenforceable to any extent whatever.

6.5 Waiver. Any failure of a party to enforce, for any period of time, any of the provisions under this Agreement shall not be construed as a waiver of such provisions or of the right of said party thereafter to enforce each and every provision under this Agreement.

6.6 Counterparts. This Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

6.7 Modifications. This Agreement may not be effectively amended, changed, modified, altered or terminated without the prior written consent of the parties hereto.

6.8 Governing Law; Arbitration. This Agreement will be governed by and interpreted in accordance with the laws of the State of California without regard to any conflict of laws principles. Any dispute, claim, or controversy arising out of or relating to this Agreement or the breach, termination, enforcement, interpretation or validity thereof, including the determination of the scope or applicability of this dispute resolution clause, shall be determined by arbitration in Walnut Creek, California, before one (1) arbitrator. The arbitration shall be administered by JAMS pursuant to its Comprehensive Arbitration Rules and Procedures. Judgment on the award may be entered in any court having jurisdiction. This clause shall not preclude parties from seeking provisional

remedies in aid of arbitration from a court of appropriate jurisdiction. The prevailing party will be entitled to recover its reasonable attorneys' fees and arbitration costs from the other party. The arbitration award shall be final and binding. Each party commits that prior to commencement of arbitration proceedings, the parties shall submit the dispute to JAMS for mediation. The parties will cooperate with JAMS and with one another in selecting a mediator from JAMS panel of neutrals, and in promptly scheduling the mediation proceedings. The parties covenant that they will participate in the mediation in good faith, and that they will share equally in its costs. The mediation will be conducted by each party designating a duly authorized officer or other representative to represent the party with the authority to bind the party, and that the parties agree to exchange informally such information as is reasonably necessary and relevant to the issues being mediated. All offers, promises, conduct, and statements, whether oral or written, made in the course of the mediation by any of the parties, their agents, employees, experts, and attorneys, and by the mediator or any JAMS employees, are confidential, privileged, and inadmissible for any purpose, including impeachment, in any arbitration or other proceeding involving the parties, provided that evidence that is otherwise admissible or discoverable shall not be rendered inadmissible or non-discoverable as a result of its use in the mediation. If the dispute is not resolved within thirty (30) days from the date of the submission of the dispute to mediation (or such later date as the parties may mutually agree in writing), the administration of the arbitration shall proceed. The mediation may continue, if the parties so agree, after the appointment of the arbitrator. Unless otherwise agreed by the parties, the mediator shall be disqualified from serving as arbitrator in the case. The pendency of a mediation shall not preclude a party from seeking provisional remedies in aid of the arbitration from a court of appropriate jurisdiction, and the parties agree not to defend against any application for provisional relief on the ground that a mediation is pending.

6.9 Successors and Assigns. This Agreement shall inure to the benefit of and shall be binding upon U.S. Communities, Supplier and any successor and assign thereto; subject, however, to the limitations contained herein.

SERIAL 180233-RFP

**EXHIBIT 12****ORACLE SOFTWARE TERMS AND CONDITIONS****ORACLE SOFTWARE PROGRAMS AND/OR SERVICES  
US COMMUNITIES SUPPLEMENTAL TERMS AND CONDITIONS v041818**

THESE ORACLE SOFTWARE PROGRAM AND/OR SERVICES US COMMUNITIES ("USC") SUPPLEMENTAL TERMS AND CONDITIONS ("SOFTWARE STCs") SHALL APPLY TO THE ORACLE SOFTWARE PROGRAMS AND/OR SERVICES THAT YOU ORDER FROM THE CONTRACT HOLDER (THE "CONTRACTOR"). THESE SOFTWARE STCs SHALL TAKE PRECEDENCE OVER ANY CONFLICTING TERMS IN ANY NON-ORACLE ORDER OR ORDERING DOCUMENTATION. THESE SOFTWARE STCs ARE CONSIDERED PART OF THE SCHEDULE OF SUPPLIES/SERVICES IN YOUR ORDER TO THE CONTRACTOR.

**A. Definitions**

"You" and "Your" refers to the ordering activity that has ordered programs, and/or services from an authorized distributor ("Contractor") under the contract.

The term "ancillary programs" refers to third party materials specified in the program documentation which may only be used for the purposes of installing or operating the programs with which the ancillary programs are delivered.

The term "contract" refers to the Contractor's US Communities contract.

The term "program documentation" refers to the program user manual and program installation manuals.

The term "programs" refers to the software products owned or distributed by Oracle which you have ordered, program documentation, and any program updates acquired through technical support.

The term "services" refers to annual technical support services which you have ordered.

**B. Rights Granted**

Upon Contractor's acceptance of your order, you have the non-exclusive, non-assignable, royalty free, perpetual (unless otherwise specified in your order with Contractor), limited right to use the programs and receive any services you ordered solely for your internal ordering activity operations and subject to the terms of these, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You may allow your agents and contractors (including, without limitation, outsourcers) to use the programs for this purpose and you are responsible for their compliance with these Software STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation in such use. For programs that are specifically designed to allow your customers and suppliers to interact with you in the furtherance of your internal business operations, such use is allowed.

**SERIAL 180233-RFP****C. Ownership and Restrictions**

Oracle or its licensors retain all ownership and intellectual property rights to the programs. Oracle retains all ownership and intellectual property rights to anything developed by Oracle and delivered under your order resulting from services. You may make a sufficient number of copies of each program for your licensed use and one copy of each program media.

Third party technology that may be appropriate or necessary for use with some Oracle programs is specified in the program documentation. Such third party technology is licensed to you under the terms of the third party technology license agreement specified in the program documentation and not under the terms of the contract or these Software STCs.

You may not:

- use the programs in a rental, timesharing, subscription service, hosting or outsourcing capacity;
- remove or modify any program markings or any notice of Oracle's or its licensors' proprietary rights;
- make the programs or materials resulting from the services available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted for the specific program license or materials from the services you have acquired);
- cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the programs (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by programs), operating system or integrated software; or
- disclose results of any program benchmark tests.

**D. Warranties, Disclaimers and Exclusive Remedies**

For the sake of clarity, this is the Oracle manufacturer's warranty; nevertheless, it shall be accessed by you through the Contractor.

Oracle warrants that a program licensed to you will operate in all material respects as described in the applicable program documentation for one year from delivery (i.e. via physical shipment or electronic download). You must notify Oracle of any program warranty deficiency within one year from delivery. **ORACLE DOES NOT GUARANTEE THAT THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED, OR THAT ORACLE WILL CORRECT ALL PROGRAM ERRORS.**

Oracle also warrants that services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any services warranty deficiencies within 90 days from performance of the deficient services.

**FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE: (A) THE CORRECTION OF PROGRAM ERRORS THAT CAUSE BREACH OF THE WARRANTY; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT SUCH BREACH IN A COMMERCIALY REASONABLE MANNER YOU MAY END YOUR PROGRAM LICENSE AND RECOVER THE FEES PAID TO ORACLE FOR THE PROGRAM LICENSE DISTRIBUTED TO YOU; OR (B) THE REPERFORMANCE OF THE DEFICIENT SERVICES PROVIDED BY ORACLE; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THOSE SERVICES AND RECOVER THE FEES PAID TO ORACLE FOR THE DEFICIENT SERVICES PROVIDED BY ORACLE TO YOU.**

**SERIAL 180233-RFP**

TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS WITH RESPECT TO THE ABOVE ITEMS, INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

**E. Technical Support**

Technical support consists of annual technical support services you may have ordered or will order for the programs, including support renewals. Support must be ordered pursuant to a valid End User License Agreement such as these Software STCs. Bug fixes, security fixes and any updates received shall be provided under the terms of the license agreement that You accepted upon ordering the programs.

If ordered, annual technical support (including first year and all subsequent years) for programs is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported programs during the period for which technical support has been ordered. You should review the policies prior to entering into an order for the applicable services. You may access the current version of the technical support policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request. Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your SULS fee for the first renewal year should you renew SULS for the same number of licenses for the same programs as contained in the original order; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the program is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you decide to purchase technical support at a later date. Technical support for programs is effective upon shipment of tangible media or upon the effective date of the order if shipment of tangible media is not required.

Invoices for technical support services shall be submitted by Contractor on a quarterly basis (unless otherwise specified in the order) after the completion of such period.

Notwithstanding anything in Oracle's technical support policies to the contrary, you may discontinue technical support at the end of any current technical support term and, at any time thereafter, reinstate technical support by executing an order for such services with Contractor. If you decide to reinstate technical support, you must pay a reinstatement fee. The reinstatement fee shall be the amount that would have been paid by the ordering activity for the past support period had technical support not lapsed. In addition to the reinstatement fee described in the preceding sentence, you must pay the technical support fee for the new support period. This technical support fee for the new support period is computed as follows: (i) if technical support lapsed, then the technical support fee for a twelve month support period shall be the last annual technical support fee you paid for the relevant program; (ii) if you never acquired technical support for the relevant program, then the annual technical support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

**SERIAL 180233-RFP****F. Intellectual Property Indemnification**

If someone makes a claim against you or Oracle ("Recipient" which may refer to you or Oracle depending upon which party received the Material), that any information, design, specification, instruction, software, data, or material ("Material") furnished by either you or Oracle ("Provider", which may refer to you or Oracle depending on which party provided the Material), and used by the Recipient infringes its intellectual property rights (including U.S. or foreign patent, trademark and copyright), the Provider will indemnify the Recipient against the claim to the extent permitted by law if the Recipient does the following:

- o notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim;
- o gives the Provider control of the defense, with input from Recipient, and any settlement negotiations; and
- o gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund any fees the Recipient may have paid for it. If you are the Provider and such return materially affects Oracle's ability to meet its obligations under the relevant order (e.g., impairs Oracle's ability to perform due to a work statement, schedule or cost impact), then Oracle may, at its option and upon 30 days prior written notice, request termination of the order. The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient, or if the Recipient continues to use the applicable Material after the end of the license to use that Material. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Oracle. Oracle will not indemnify you for infringement caused by your actions against any third party if the Oracle program(s) as delivered to you and used in accordance with the terms of the order and the Software STCs would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify you for any infringement claim that is based on: (1) a patent that you were made aware of prior to the effective date of your order with Contractor (pursuant to a claim, demand, or notice); or (2) your actions prior to the effective date of your order with Contractor.

This section provides Your and Oracle's exclusive remedy for any infringement claims or damages.

**G. NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. CONTRACTOR'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO AN ORDER ISSUED PURSUANT TO THESE SOFTWARE STCs, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID CONTRACTOR UNDER THE RELEVANT ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF PROGRAMS, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID CONTRACTOR FOR**

1. You may not assign orders or give or transfer the programs and/or any services or an interest in them to another individual or entity. If you grant a security interest in the programs and/or any services deliverables, the secured party has no right to use or transfer the programs and/or any services deliverables, and if you decide to finance your acquisition of programs and/or any services, you will follow Oracle's policies regarding financing which are at <http://oracle.com/contracts>. The foregoing shall not be construed to limit the rights you may otherwise have with respect to the Linux operating system, third party technology or separate works licensed under open source or similar license terms.

2. In entering into an order under the contract, you agree and acknowledge that you have not relied on the future availability of any program or updates. However, (a) if you order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the relevant order, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to you for any program licensed under the order, per the terms of these Software STCs.

**3. Accessibility**

The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as 'Section 508') effective as of June, 2001, or the Revised version in Appendix A (known as 'Revised Section 508') effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Templates (VPAT) available at [www.oracle.com/us/corporate/accessibility](http://www.oracle.com/us/corporate/accessibility) for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at [accessible\\_ww@oracle.com](mailto:accessible_ww@oracle.com). In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS is available at <http://www.fcc.gov/cgb/consumerfacts/trs.html>, and a list of telephone numbers is available at <https://www.fcc.gov/general/telecommunications-relay-services-directory>. International hearing-impaired customers should use the TRS at +1.605.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the availability of VPATs. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Oracle products provided under these Software STCs.

**4. Internet Protocol version 6 (IPv6).**

Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at [oracle.com](http://oracle.com). Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance

**SERIAL 180233-RFP**

with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Oracle products provided under these Software STCs.

5. Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the programs. You agree that such export laws govern your use of the programs (including technical data), and any services deliverables provided under your order, and you agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, program, and/or materials resulting from services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology.

6. Oracle, as the owner of the intellectual property of the program licensed and the technical support services, is a third party beneficiary of the contract and the orders for Oracle products issued pursuant to the contract, but does not assume any of the Oracle authorized reseller's obligations thereunder.

7. The Uniform Computer Information Transactions Act does not apply to these Software STCs nor any order placed pursuant to them.

8. You understand that the Contractor and Oracle's business partners, including any third party firms retained by you to provide computer consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not bound by any acts of any such entity, unless the entity is providing services as an Oracle subcontractor under an engagement ordered directly with Oracle.

9. You may order trial programs, or Oracle may include additional programs with your order with Contractor which you may use for trial, non-production purposes only. You may not use the trial programs to provide or attend third party training on the content and/or functionality of the programs. You have 30 days from the delivery date to evaluate these programs. If you decide to use any of these programs after the 30-day trial period, you must obtain a license for such programs from Oracle or an authorized distributor. If you decide not to obtain a license for any program after the 30 day trial period, you will cease using and delete any such programs from your computer systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these programs.

10. Unless otherwise agreed in an order, upon 45 days written notice, and no more than once annually, Contractor may audit your use of the programs. You agree to cooperate with Contractor's audit, provide reasonable assistance and access to information and permit Contractor to report the audit results to Oracle. Any such audit shall not unreasonably interfere with your normal business operations. Contractor shall comply with reasonable security and safety rules, policies, and procedures ("security rules") while performing any such audit, provided that such security rules are applicable to the performance of the audit; you make such security rules available to Contractor prior to the commencement of the audit; and such security rules do not modify or amend the terms and conditions of the contract or the applicable order. You shall be responsible for paying any underpaid fees related to use of the programs. Contractor may assign its right to audit your use of the programs to Oracle. Contractor may assign its right to audit your use of the programs to Oracle. If the Contractor assigns its right to audit your use of the programs to Oracle, then Oracle shall not be responsible for any costs incurred by either you or Contractor in cooperating with the audit.

**SERIAL 180233-RFP**

11. Upon termination of a program license, you are required to discontinue use and destroy or return to the Contractor all copies of the programs and program documentation associated with the terminated license.

12. Source code maybe delivered as part of the standard delivery for particular programs; all such source code is subject to the terms of these Software STCs, including the Oracle License Definitions and Rules, the applicable order, the contract and the applicable program documentation.

13. Programs and service deliverables are not designed for or specifically intended for use in nuclear facilities or other hazardous applications. You agree that it is Your responsibility to ensure safe use of Products and Service Offerings deliverables in such applications.

14. For software (i) that is part of Programs, Operating Systems, Integrated Software or Integrated Software Options (or all four) and (ii) that You receive from Oracle in binary form and (iii) that is licensed under an open source license that gives You the right to receive the source code for that binary, You may obtain a copy of the applicable source code from <https://oss.oracle.com/sources/> or <http://www.oracle.com/goto/opensourcecode>. If the source code for such software was not provided to You with the binary, You may also receive a copy of the source code on physical media by submitting a written request pursuant to the instructions in the "Written Offer for Source Code" section of the latter website.

15. Oracle's Applications Licensing Table in effect as of the effective date of your order and is incorporated herein as Exhibit B. You may access the current version of the Applications Licensing Table at <http://oracle.com/contracts>.

16. Oracle's License Definitions and Rules are incorporated herein and attached hereto as Exhibit A.

17. If any document incorporated by reference into these Software STCs, including the License Definitions and Rules and terms included and/or referenced therein, contains a provision (a) allowing for the automatic termination of your license rights or technical support services; or (b) allowing for the automatic renewal of services and/or fees, then, such terms shall not apply.

The term "Third Party Content" means all software, data, text, images, audio, video, photographs and other content and material, in any format, that are obtained or derived from third party sources outside of Oracle that You may access through, within, or in conjunction with Your use of, the Services. Examples of Third Party Content include data feeds from social network services, rss feeds from blog posts, Oracle data marketplaces and libraries, dictionaries, and marketing data. Third party content includes third-party sourced materials accessed or obtained by Your use of the Services or any Oracle-provided tools.

The term "Users" means for Services, those employees, contractors, and end users, as applicable, authorized by You or on Your behalf to use the Services in accordance with these Cloud STCs and Your order. For Services that are specifically designed to allow Your clients, agents, customers, suppliers, or other third parties to access the Services to interact with You, such third parties will be considered "Users" subject to the terms of these Cloud STCs and Your order.

The term "Your Content" means all software, data (including Personal Data as that term is defined in the Data Processing Agreement), text, images, audio, video, photographs, non-Oracle or third party applications, and other content and material, in any format, provided by You or any of Your Users that is stored in, or run on or through, the Services. Services under these Cloud STCs, Oracle Software,

**SERIAL 180233-RFP**

other Oracle products and services, and Oracle intellectual property, and all derivative works thereof, do not fall within the meaning of the term "Your Content". Your content includes any Third Party Content that is brought by You into the Services, by Your use of the Services or any Oracle provided tools.

**B. Use of Services**

Upon Contractor's acceptance of Your order, Oracle will make the Oracle services listed in Your order (the "Services") available to You pursuant to these Cloud STCs and Your order. Except as otherwise stated in these Cloud STCs or Your order, You have the non-exclusive, worldwide, limited right to use the Services during the period defined in Your order (the "Service Period"), solely for Your internal business operations. You may allow Your Users to use the Services for this purpose and You are responsible for Your Users' compliance with these Cloud STCs and the order.

The Service Specifications describe and govern the Services. During the Services Period, Oracle may update the Services and Service Specifications (with the exception of the Data Processing Agreement as described below) to reflect changes in, among other things, laws, regulations, rules, technology, industry practices, patterns of system use, and availability of Third Party Content. Oracle updates to the Services or Service Specifications will not materially reduce the level of performance, functionality, security or availability of the Services during the Services Period of Your order.

You may not, and may not cause or permit others to: (a) use the Services to harass any person; cause damage or injury to any person or property; publish any material that is false, defamatory, harassing or obscene; violate privacy rights; promote bigotry, racism, hatred or harm; send unsolicited bulk e-mail, junk mail, spam or chain letters; infringe property rights; or otherwise violate applicable laws, ordinances or regulations; (b) perform or disclose any benchmarking or availability testing of the Services; (c) perform or disclose any performance or vulnerability testing of the Services without Oracle's prior written approval, or perform or disclose network discovery, port and service identification, vulnerability scanning, password cracking or remote access testing of the Services; or (d) use the Services to perform cyber currency or crypto currency mining ((a) through (d) collectively, the "Acceptable Use Policy"). In addition to other rights that Oracle has in these Cloud STCs and Your order, Oracle has the right to take remedial action if the Acceptable Use Policy is violated, and such remedial action may include removing or disabling access to material that violates the policy.

**C. Ownership Rights and Restrictions**

You and Your licensors retain all ownership and intellectual property rights in and to Your Content. Oracle or its licensors retain all ownership and intellectual property rights to the Services, derivative works thereof, and to anything developed or delivered by or on behalf of Oracle under Your order.

You may have access to Third Party Content through use of the Services. Unless otherwise stated in Your order, all ownership and intellectual property rights in and to Third Party Content and the use of such content is governed by separate third party terms between You and the third party.

You grant Oracle the right to host, use, process, display and transmit Your Content to provide the Services pursuant to and in accordance with these Cloud STCs and Your order. You have sole responsibility for the accuracy, quality, integrity, legality, reliability, and appropriateness of Your Content, and for obtaining all rights related to Your Content required by Oracle to perform the Services.

You may not, and may not cause or permit others to: (a) modify, make derivative works of, disassemble, decompile, reverse engineer, reproduce, republish, download or copy any part of the Services (including data structures or similar materials produced by programs); (b) access or use the Services to build or support, directly or indirectly, products or services competitive to Oracle; or (c) license, sell, transfer, assign, distribute, outsource, permit timesharing or service bureau use of, commercially exploit, or make available the Services to any third party except as permitted by these Cloud STCs or Your order.

**SERIAL 180233-RFP****D. Term and Termination**

Services shall be provided for the Services Period defined in Your order, unless earlier suspended or terminated in accordance with these Cloud STCs. These Cloud STCs will continue to govern any order for the duration of the Services Period of such order.

If You order Services that are designated in the Service Specifications or Your order as Services that will be automatically extended, such Services will NOT automatically be extended for an additional Services Period of the same duration. To extend the Services, You must provide Contractor with written notice no later than thirty (30) days prior to the end of the applicable Services Period of Your intention to renew such Services and You execute an order modification or enter into a new order to renew such Services. The preceding sentence shall not apply if Contractor provides You with written notice no later than ninety (90) days prior to the end of the applicable Services Period of its intention not to renew such Services.

Oracle may suspend Your or Your Users' access to, or use of, the Services if Oracle believes that (a) there is a significant threat to the functionality, security, integrity, or availability of the Services or any content, data, or applications in the Services; (b) You or Your Users are accessing or using the Services to commit an illegal act; or (c) there is a violation of the Acceptable Use Policy. When reasonably practicable and lawfully permitted, Oracle will provide You with advance notice of any such suspension. Oracle will use reasonable efforts to re-establish the Services promptly after Oracle determines that the issue causing the suspension has been resolved. During any suspension period, Oracle will make Your Content (as it existed on the suspension date) available to You. Any suspension under this paragraph shall not excuse You from Your obligation to make payments under these Cloud STCs or Your order.

If Oracle, the Contractor, or You breach a material term of Your order, including these Cloud STCs, and fails to correct the breach within 30 days of written specification of the breach, then a nonbreaching party may terminate the order under which the breach occurred. If Contractor terminates the order as specified in the preceding sentence, You must pay within thirty (30) days all amounts that have accrued prior to such termination, as well as all sums remaining unpaid for the Services under such order plus related taxes and expenses. Except for nonpayment of fees, the nonbreaching parties may agree in their sole discretion to extend the thirty (30) day period for so long as the breaching party continues reasonable efforts to cure the breach. You agree that if You are in default under Your order or Your contract (including these Cloud STCs) with Contractor, You may not use those Services ordered.

You may terminate the Contract or Your order at any time without cause by giving Contractor 30 days' prior written notice of such termination. Termination of the Contract will not affect orders that are outstanding at the time of termination. Those orders will be performed according to their terms as if the Contract and these Cloud STCs were still in full force and effect. However, those orders may not be renewed or extended subsequent to termination of the Contract.

For a period of no less than 60 days after the end of the Services Period of an order, Oracle will make Your Content (as it existed at the end of the Services Period) available for retrieval by You. At the end of such 60-day retrieval period, and except as may be required by law, Oracle will delete or otherwise render unrecoverable any of Your Content that remains in the Services. Oracle's data deletion practices are described in more detail in the Service Specifications.

Provisions in these Cloud STCs that survive termination or expiration of the Contract are those relating to limitation of liability, indemnification, payment and others which by their nature are intended to survive.

**E. Fees and Taxes**

Fees paid for Services performed are non-refundable, except as provided in these Cloud STCs or Your order. Fees for Services offerings are invoiced in arrears of the service performance. Fees for Services listed in an order are exclusive of taxes and expenses.

**SERIAL 180233-RFP**

You agree and acknowledge that You have not relied on the future availability of any services, programs or updates in executing Your order; however, the preceding does not relieve Oracle of its obligation during the Services Period to deliver services that You have ordered per the terms of these Cloud STCs.

**F. Nondisclosure**

By virtue of Your order and these Cloud STCs, Oracle, the Contractor and You may disclose to each other information that is confidential ("Confidential Information"). Confidential information shall be limited to the terms and pricing under these Cloud STCs and Your order, Your Content residing in the Services, and all information clearly identified as confidential at the time of disclosure.

A party's Confidential Information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; or (d) is independently developed by the other party.

Subject to applicable law, Oracle, the Contractor and You each agree not to disclose each other's Confidential Information to any third party other than as set forth in the following sentence for a period of five years from the date of the disclosing party's disclosure of the Confidential Information to the receiving party; however, Oracle will protect the confidentiality of Your Content residing in the Services for as long as such information resides in the Services. Each party may disclose Confidential Information only to those employees, agents or subcontractors who are required to protect it against unauthorized disclosure in a manner no less protective than required under these Cloud STCs, and each party may disclose the other party's Confidential Information in any legal proceeding or to a governmental entity as required by law. Oracle will protect the confidentiality of Your Content resident in the Services in accordance with the Oracle security practices defined as part of the Service Specifications applicable to Your order.

The parties acknowledge and agree that You and these Cloud STCs are subject to applicable freedom of information or open records law. Should You receive a request under such law for Oracle's Confidential Information, You agree to give Oracle adequate prior notice of the request and before releasing Oracle's Confidential Information to a third party, in order to allow Oracle sufficient time to seek injunctive relief or other relief against such disclosure.

**G. Protection of Your Content**

In order to protect Your Content provided to Oracle as part of the provision of the Services, Oracle will comply with the following:

- a. the relevant Oracle privacy policies applicable to the Services ordered, available at <http://www.oracle.com/us/legal/privacy/overview/index.html>; and
- b. the applicable administrative, physical, technical and other safeguards, and other applicable aspects of system and content management, available at <http://www.oracle.com/us/corporate/contracts/cloud-services/index.html>.

To the extent Your Content includes Personal Data (as that term is defined in the Data Processing Agreement), Oracle will furthermore comply with the applicable version of the *Oracle Data Processing Agreement for Oracle Cloud Services* (the "Data Processing Agreement"), unless stated otherwise in Your order. The version of the Data Processing Agreement applicable to Your order (a) is available at <http://www.oracle.com/dataprocessingagreement> and is incorporated herein by reference, and (b) will remain in force during the Services Period of Your order. In the event of any conflict between the terms of the Data Processing Agreement and the terms of the Service Specifications (including any applicable Oracle privacy policies), the terms of the Data Processing Agreement shall take precedence.

You are responsible for (a) any required notices, consents and/or authorizations related to Your provision of, and Oracle's processing of, Your Content (including any Personal Data) as part of the Services, (b) any

**SERIAL 180233-RFP**

security vulnerabilities, and the consequences of such vulnerabilities, arising from Your Content, including any viruses, Trojan horses, worms or other harmful programming routines contained in Your Content, and (c) any use by You or Your Users of the Services in a manner that is inconsistent with the terms of these Cloud STCs. You may disclose or transfer, or instruct Oracle to disclose or transfer in writing, Your Content to a third party, and upon such disclosure or transfer, Oracle is no longer responsible for the security, integrity or confidentiality of such content outside of Oracle.

Unless otherwise specified in Your order (including in the Service Specifications), Your Content may not include any sensitive or special data that imposes specific data security or data protection obligations on Oracle in addition to or different from those specified in the Service Specifications. If available for the Services, You may purchase additional services from us (e.g., Oracle Payment Card Industry Compliance Services) designed to address specific data security or data protection requirements applicable to such sensitive or special data You seek to include in Your Content.

**H. Warranties, Disclaimers and Exclusive Remedies**

For the sake of clarity, this is Oracle's warranty; nevertheless, it shall be accessed by You through the Contractor.

Oracle warrants that during the Services Period, Oracle will perform Services using commercially reasonable care and skill in all material respects as described in the Service Specifications. If the Services provided to You were not performed as warranted, You must promptly provide written notice to Oracle that describes the deficiency in the Services (including, as applicable, the service request number notifying Oracle of the deficiency in the Services).

ORACLE DOES NOT WARRANT THAT THE SERVICES WILL BE PERFORMED ERROR-FREE OR UNINTERRUPTED, THAT ORACLE WILL CORRECT ALL SERVICE ERRORS, OR THAT THE SERVICES WILL MEET YOUR REQUIREMENTS OR EXPECTATIONS. ORACLE IS NOT RESPONSIBLE FOR ANY ISSUES RELATED TO THE PERFORMANCE, OPERATION OR SECURITY OF THE SERVICES THAT ARISE FROM YOUR CONTENT OR THIRD PARTY CONTENT OR SERVICES PROVIDED BY THIRD PARTIES.

FOR ANY BREACH OF THE SERVICES WARRANTY, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE THE CORRECTION OF THE DEFICIENT SERVICES THAT CAUSED THE BREACH OF THE WARRANTY, OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE DEFICIENCY IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THE DEFICIENT SERVICES AND ORACLE WILL REFUND TO CONTRACTOR THE FEES FOR THE DEFICIENT SERVICES THAT CONTRACTOR PAID TO ORACLE FOR THE PERIOD OF TIME DURING WHICH THE SERVICES WERE DEFICIENT, AND CONTRACTOR WILL IN TURN REFUND TO YOU THE FEES FOR THE DEFICIENT SERVICES THAT YOU PAID TO CONTRACTOR FOR THE PERIOD OF TIME DURING WHICH THE SERVICES WERE DEFICIENT.

TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS INCLUDING FOR SOFTWARE, HARDWARE, SYSTEMS, NETWORKS OR ENVIRONMENTS OR FOR MERCHANTABILITY, SATISFACTORY QUALITY AND FITNESS FOR A PARTICULAR PURPOSE.

**I. Limitation of Liability**

IN NO EVENT SHALL YOU, THE CONTRACTOR, ORACLE OR ANY PARTY'S AFFILIATES BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, EXEMPLARY OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF REVENUE, PROFITS (EXCLUDING FEES UNDER YOUR ORDER), SALES, DATA, DATA USE, GOODWILL, OR REPUTATION. CONTRACTOR'S MAXIMUM LIABILITY FOR ALL DAMAGES ARISING OUT OF OR RELATED TO YOUR ORDER, WHETHER IN CONTRACT, TORT OR OTHERWISE, SHALL IN NO EVENT EXCEED, IN THE AGGREGATE, THE TOTAL AMOUNTS ACTUALLY PAID TO CONTRACTOR FOR THE SERVICES UNDER YOUR ORDER IN THE TWELVE (12) MONTH PERIOD IMMEDIATELY PRECEDING THE

**SERIAL 180233-RFP**

**EVENT GIVING RISE TO SUCH LIABILITY LESS ANY REFUNDS OR CREDITS RECEIVED BY YOUR FROM CONTRACTOR UNDER SUCH ORDER.**

**IN NO EVENT SHALL THE AGGREGATE LIABILITY OF ORACLE AND ORACLE'S AFFILIATES ARISING OUT OF OR RELATED TO THESE CLOUD STCS OR YOUR ORDER, WHETHER IN CONTRACT, TORT OR OTHERWISE EXCEED THE TOTAL AMOUNTS ACTUALLY PAID TO ORACLE FOR THE SERVICES UNDER YOUR ORDER IN THE TWELVE (12) MONTH PERIOD IMMEDIATELY PRECEDING THE EVENT GIVING RISE TO SUCH LIABILITY LESS ANY REFUNDS OR CREDITS RECEIVED BY CONTRACTOR FROM ORACLE UNDER SUCH ORDER.**

**J. Intellectual Property Indemnification**

If a third party makes a claim against You or Oracle ("Recipient" which may refer to You or Oracle depending upon which party received the Material), that any information, design, specification, instruction, software, service, data, hardware, or material (collectively "Material") furnished by either You or Oracle ("Provider" which may refer to You or Oracle depending on which party provided the Material) and used by the Recipient infringes the third party's intellectual property rights, the Provider, at the Provider's sole cost and expense will, to the extent not prohibited by law, defend the Recipient against the claim and indemnify Recipient from the damages, liabilities, costs and expenses awarded by the court to the third party claiming infringement or the settlement agreed to by the Provider if Recipient does the following:

- a. notifies the Provider promptly in writing, not later than 30 days after Recipient receives notice of the claim (or sooner if required by applicable law);
- b. gives the Provider sole control of the defense and any settlement negotiations; and
- c. gives the Provider the information, authority, and assistance Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated a third party's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund the fees the Recipient may have paid for such Material. If such return materially affects Oracle's ability to meet its obligations under the relevant order, then Oracle may upon 30 days prior written notice, terminate the order. If such Material is third party technology and the terms of the third party license do not allow Oracle to terminate the license, then Oracle may, upon 30 days' prior written notice, end the Services associated with such Material and refund any unused, prepaid fees for such Services.

The Provider will not indemnify the Recipient if the Recipient (a) alter the Material or use it outside the scope of use identified in the Provider's user documentation or Service Specifications, or (b) uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon Material not furnished by the Provider. Oracle will not indemnify You to the extent that an infringement claim is based on third Party Content or any Material from a third party portal or other source that is accessible or make available to Your within or by the Services (e.g. a social media post from a third party blog or forum, a third party Web page accessed via a hyperlink, marketing data from a third party data providers, etc.

**This Section J provides the parties' exclusive remedy for any infringement claims or damages.**

**K. Third Party Content, Services and Websites**

The Services may enable You to link to, transmit Your Content or Third Party Content to, or otherwise access, third parties' web sites, platforms, content, products, services, and information ("Third Parties Services"). Oracle does not control and is not responsible for Third Party Services. You are solely responsible for complying with the terms of access and use of Third Party Services, and if Oracle accesses

**SERIAL 180233-RFP**

or uses any Third Party Services on Your behalf to facilitate performance of the Services, You are solely responsible for ensuring that such access and use, including through passwords, credentials or tokens issued or otherwise made available to You, is authorized by the terms of access and use for such services. If You transfer or cause the transfer of Your Content or Third Party Content from the Services to a Third Party Service or other location, that transfer constitutes a distribution by You and not by Oracle.

Any Third Party Content Oracle makes accessible is provided on an "as-is" and "as available" basis without any warranty of any kind. You acknowledge and agree that Oracle is not responsible for, and has no obligation to control, monitor, or correct, Third Party Content. Oracle disclaims all liabilities arising from or related to Third Party Content.

You acknowledge that: (i) the nature, type, quality and availability of Third Party Content may change at any time during the Services Period, and (ii) features of the Services that interoperate with third parties such as Facebook™, YouTube™ and Twitter™, etc., depend on the continuing availability of such third parties' respective application programming interfaces (APIs). Oracle may update, change or modify the Services under the Contract, as a result of a change in, or unavailability of, such Third Party Content, Third Party Services or APIs. If any third party ceases to make its Third Party Content or APIs available on reasonable terms for the Services, as determined by Oracle in its sole discretion, Oracle may cease providing access to the affected Third Party Content or third party services without any liability to You or the Contractor. Any changes to Third Party Content, Third Party Services or APIs, including their unavailability, during the Services Period does not affect Your obligations under the Contract, these Cloud STCs or the applicable order, and You will not be entitled to any refund, credit or other compensation due to any such changes.

**L. Service Monitoring, Analyses and Oracle Software**

Oracle continuously monitors the Services to facilitate Oracle's operation of the Services; to help resolve Your service requests; to detect and address threats to the functionality, security, integrity, and availability of the Services as well as any content, data, or applications in the Services; and to detect and address illegal acts or violations of the Acceptable Use Policy. Oracle monitoring tools do not collect or store any of Your Content residing in the Services, except as needed for such purposes. Oracle does not monitor, and does not address issues with, non-Oracle software provided by You or any of Your Users that is stored in, or run on or through, the Services. Information collected by Oracle monitoring tools (excluding Your Content) may also be used to assist in managing Oracle's product and service portfolio, to help Oracle address deficiencies in its product and service offerings, and for license management purposes.

Oracle may (i) compile statistical and other information related to the performance, operation and use of the Services, and (ii) use data from the Services in aggregated form for security and operations management, to create statistical analyses, and for research and development purposes (clauses (i) and (ii) are collectively referred to as "Service Analyses"). Oracle may make Service Analyses publicly available; however, Service Analyses will not incorporate Your Content, Personal Data or Confidential Information in a form that could serve to identify You or any individual. Oracle retains all intellectual property rights in Service Analyses.

Oracle may provide You with the ability to obtain certain Oracle Software for use with the Services. If Oracle provides Oracle Software to You and does not specify separate terms for such software, then such Oracle Software is provided as part of the Services and You have the non-exclusive, worldwide, limited right to use such Oracle Software, subject to the terms of these Cloud STCs and Your order (except for separately licensed elements of the Oracle Software, which separately licensed elements are governed by the applicable separate terms), solely to facilitate Your use of the Services. You may allow Your Users to use the Oracle Software for this purpose, and You are responsible for their compliance with the license terms. Your right to use Oracle Software will terminate upon the earlier of Oracle's notice (by web posting or otherwise) or the end of these Services associated with the Oracle Software. Notwithstanding the foregoing, if Oracle Software is licensed to You under separate terms, then Your use of such software is governed by the separate terms. Your right to use any part of the Oracle Software that is licensed under

**SERIAL 180233-RFP**

the separate terms is not restricted in any way by these Cloud STCs.

**M. Export**

Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the Services. Such export laws govern Your use of the Services (including technical data) and any services deliverables provided under Your order, and You and Oracle each agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, software programs and/or materials resulting from Services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology.

You acknowledge that the Services are designed with capabilities for You and Your Users to access the Services without regard to geographic location and to transfer or otherwise move Your Content between the Services and other locations such as User workstations. You are solely responsible for the authorization and management of User accounts across geographic locations, as well as export control and geographic transfer of Your Content.

**N. Force Majeure**

Neither You, Contractor, nor Oracle shall be responsible for failure or delay of performance if caused by: an act of war, hostility, or sabotage; act of God; pandemic; electrical, internet, or telecommunication outage that is not caused by the obligated party; government restrictions (including the denial or cancelation of any export, import or other license); or other event outside the reasonable control of the obligated party. All parties will use reasonable efforts to mitigate the effect of a force majeure event. If such event continues for more than 30 days, either You, Contractor, or Oracle may cancel unperformed Services and affected orders upon written notice. This Section does not excuse any party's obligation to take reasonable steps to follow its normal disaster recovery procedures or Your obligation to pay for the Services.

**O. Assignment**

You may not assign Your order or give or transfer the Services, or an interest in the Services, to another individual or entity.

**P. Other**

1. Oracle is an independent contractor, and each party agrees that no partnership, joint venture, or agency relationship exists between You and Oracle or between Contractor and Oracle.
2. Oracle's business partners and other third parties, including any third parties with which the Services have integrations or that are retained by You to provide consulting services, implementation services or applications that interact with the Services, are independent of Oracle and are not Oracle's agents. Oracle is not liable for, bound by, or responsible for any problems with the Services or Your Content arising due to any acts of any such business partner or third party, unless the business partner or third party is providing Services as Oracle's subcontractor on an engagement ordered under these Cloud STCs and, if so, then only to the same extent as Oracle would be responsible for Oracle's resources under these Cloud STCs. The Contract (including these Cloud STCs) and Your order is entered exclusively between You and the Contractor. While Oracle has no contractual relationship with You, Oracle is a third-party beneficiary of the Contract (including these Cloud STCs) and Your order.
3. Any notice required under your order shall be provided to the other party, and Oracle, in writing. Oracle may give notices applicable to Oracle's Services customers by means of a general notice on the Oracle portal for the Services, and notices specific to You by electronic mail to Your e-mail address on record in Oracle's account information or by written communication sent by first class mail or pre-paid post to Your address on record in Oracle's account information.

**SERIAL 180233-RFP**

4. If any term of these Cloud STCs is found to be invalid or unenforceable, the remaining provisions will remain effective and such term shall be replaced with another term consistent with the purpose and intent of these Cloud STCs.
5. Except for actions for nonpayment or breach of Oracle's proprietary rights, no action, regardless of form, arising out of or relating to these Cloud STCs may be brought by any party more than two years after the cause of action has accrued.
6. Prior to entering into an order governed by these Cloud STCs, You are solely responsible for determining whether the Services meet Your technical, business or regulatory requirements. Oracle will cooperate with Your efforts to determine whether use of the standard Services are consistent with those requirements. Additional fees may apply to any additional work performed by Oracle or changes to the Services. You remain solely responsible for Your regulatory compliance in connection with Your use of the Services.
7. Upon forty-five (45) days written notice and no more than once every twelve (12) months, Oracle may audit Your compliance with the terms of these Cloud STCs and Your order. You agree to cooperate with Oracle's audit and to provide reasonable assistance and access to information. Any such audit shall not unreasonably interfere with Your normal business operations. Oracle shall comply with reasonable security and safety rules, policies, and procedures ("security rules") while performing any such audit, provided that (i) such security rules are applicable to the performance of the audit; (ii) You make such security rules available to Oracle prior to the commencement of the audit; and (iii) such security rules do not modify or amend the terms and conditions of these Cloud STCs or the applicable order(s). You shall be responsible for paying the additional fees related to use of the Services in excess of Your rights.
8. The Uniform Computer Transactions Act does not apply to these Cloud STCs nor any order placed pursuant to them.
9. The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as 'Section 508') effective as of June, 2001, or the Revised version in Appendix A (known as 'Revised Section 508') effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Templates (VPAT) available at [www.oracle.com/us/corporate/accessibility](http://www.oracle.com/us/corporate/accessibility) for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at [accessible\\_ww@oracle.com](mailto:accessible_ww@oracle.com). In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS is available at <http://www.fcc.gov/cgb/consumerfacts/trs.html>, and a list of telephone numbers is available at <https://www.fcc.gov/general/telecommunications-relay-services-directory>. International hearing-impaired customers should use the TRS at +1.605.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the availability of VPATs. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Services provided under these Cloud STCs.

**SERIAL 180233-RFP**

10. Internet Protocol version 6 (IPv6). Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the Contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at oracle.com. Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements, requirements or any other such representations regarding or related to IPv6 shall apply to the Oracle products and services to be delivered pursuant to these Cloud STCs.
11. If any document incorporated by reference into these Cloud STCs contains a provision (a) allowing for the automatic termination of Your Services; or (b) allowing for the automatic renewal of Services and/or fees, then such terms shall not apply.

**SERIAL 180233-RFP****EXHIBIT 14****ORACLE HARDWARE TERMS AND CONDITIONS****ORACLE HARDWARE US COMMUNITIES SUPPLEMENTAL TERMS AND CONDITIONS v041818**

THESE ORACLE HARDWARE, PROGRAMS AND SERVICES US COMMUNITIES ("USC") SUPPLEMENTAL TERMS AND CONDITIONS ("HARDWARE STCs") SHALL APPLY TO THE ORACLE HARDWARE, PROGRAMS AND/OR SERVICES THAT YOU ORDER FROM THE CONTRACT HOLDER (THE "CONTRACTOR"). THESE HARDWARE STCs SHALL TAKE PRECEDENCE OVER ANY CONFLICTING TERMS IN ANY NON-ORACLE ORDER OR ORDERING DOCUMENTATION. THESE HARDWARE STCs ARE CONSIDERED PART OF THE SCHEDULE OF SUPPLIES/SERVICES IN YOUR ORDER TO THE CONTRACTOR.

**A. Definitions**

"You" and "Your" refers to the ordering activity that has ordered programs, hardware and/or services from an authorized distributor ("Contractor") under the contract.

The term "ancillary programs" refers to third party materials specified in the program documentation which may only be used for the purposes of installing or operating the programs with which the ancillary programs are delivered.

The term "contract" refers to the Contractor's US Communities contract.

The term "integrated software" is defined as software embedded in the hardware which is essential to hardware functionality (e.g., firmware).

The term "integrated software options" refers to software or programmable code embedded in, installed on, or activated on the hardware that requires one or more unit licenses that You must separately order. Such separate order will set forth the fees for the integrated software options You are ordering. Not all hardware contains integrated software options; please refer to the Oracle Integrated Software Options License Definitions, Rules and Metrics accessible at <http://oracle.com/contracts> (the "Integrated Software Options License Rules") for the specific integrated software options that may apply to specific hardware. Oracle reserves the right to designate new software features as integrated software options in subsequent releases and that designation will be specified in the applicable documentation and in the Integrated Software Options License Rules.

The term "operating system" refers to the software that manages hardware for programs and other software.

The term "products" refers to programs, hardware, integrated software and operating system.

The term "program documentation" refers to the program user manual and program installation manuals.

The term "programs" refers to the software products, owned or distributed by Oracle, which you have ordered, including program documentation, and any program updates acquired through technical support.

The term "services" refers to technical support services which you have ordered.

The term "hardware" refers to the hardware equipment, including components, options and spare parts.

The term "hardware documentation" refers to the hardware specifications, user manuals, and installation manuals. Hardware documentation is delivered with the hardware and/or provided online.

**SERIAL 180233-RFP****B. Hardware Composition**

Your hardware order consists of the following items: operating system (as defined in your configuration), integrated software and all hardware equipment (including components, options and spare parts) specified on the applicable order. The hardware equipment or parts of it may be new or like new.

**C. Rights Granted**

Upon Contractor's acceptance of your order, you have the non-exclusive, non-assignable, royalty free, perpetual (unless otherwise specified in your order with Contractor), limited right to use the programs and receive any services you ordered solely for your internal ordering activity operations and subject to the terms of these Hardware STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You may allow your agents and contractors (including, without limitation, outsourcers) to use the programs for this purpose and you are responsible for their compliance with these Hardware STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation in such use. For programs that are specifically designed to allow your customers and suppliers to interact with you in the furtherance of your internal business operations, such use is allowed.

You have the right to use the operating system delivered with the hardware subject to the terms of the license agreement(s) delivered with the hardware. Current versions of the license agreement(s) are located at <http://oracle.com/contracts>. You are licensed to use the operating system and any operating system updates acquired through technical support only as incorporated in, and as part of the hardware.

You have the limited, non-exclusive, royalty free, non-transferable, non-assignable right to use integrated software options that You separately order subject to the terms of these Hardware STCs, the applicable documentation and the Integrated Software Options License Rules; the Integrated Software Options License Rules are incorporated in and made a part of these Hardware STCs. You are licensed to use those integrated software options and any integrated software options updates acquired through technical support only as incorporated in, and as part of, the hardware. To fully understand Your license right to any integrated software options that You separately order, You need to review the Integrated Software Options License Rules. In the event of any conflict between the Hardware STCs and the Integrated Software Options License Rules, the Integrated Software Options License Rules shall take precedence.

You have the limited, non-exclusive, royalty free, non-assignable right to use integrated software delivered with the hardware subject to the terms of these Hardware STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You are licensed to use such integrated software and any integrated software updates acquired through technical support only as incorporated in, and as part of the hardware.

The operating system and/or integrated software may include separate works, identified in a readme file, notice file, or the applicable documentation, which are licensed under open source or similar license terms; your rights to use the operating system and integrated software under such terms are not restricted in any way by these Hardware STCs. The appropriate terms associated with such separate works can be found in the readme files, notice files or in the documentation accompanying the operating system and integrated software.

For GPLv2, LGPLv2.1, GPLv3 and LGPLv3 licensed code received by you as binaries on physical media, if you would like to receive a copy of the source code ("source code") on media via postal service, submit your written request at <http://oss.oracle.com/systems-opensourcecode>. Alternatively, you can mail your written request to Oracle Corporation, Attn: VP of Legal, Development and Engineering, 500 Oracle Parkway, MS-50P10, Redwood Shores, CA 94065. Your request should include the name and version number of the product, your name, your company name (if applicable), your return mailing address, and your email address. Certain source distributions require a fee for physical media. Should this be the case, you will be sent details on the cost and payment procedure via email. Your request must be sent within three (3) years of the date of Oracle's last delivery of the

**SERIAL 180233-RFP**

applicable product. This offer only applies if you received your operating system and/or integrated software on physical media.

The hardware shall be installed in the country that you specify as the delivery location on your purchasing document or when your purchasing document does not indicate a ship to address, the location specified in the order.

**D. Ownership and Restrictions**

Oracle or its licensors retain all ownership and intellectual property rights to the programs, the operating system, and integrated software. Oracle or its licensors retain all intellectual property rights to the hardware. Oracle retains all ownership and intellectual property rights to anything developed by Oracle and delivered under your order resulting from services. Unless otherwise stated in your order with Contractor, title to hardware, excluding the operating system, integrated software and any other programs, and risk of loss or damages to the hardware will pass from Oracle upon delivery in accordance with the relevant Incoterms 2010. Title to and ownership of the programs, the operating system and integrated software shall not pass to you or to a third party; title to and ownership of the programs, the operating system and integrated software shall remain with Oracle. You may make a sufficient number of copies of each program for your licensed use and one copy of each program media.

Third party technology that may be appropriate or necessary for use with some Oracle programs is specified in the program documentation or readme files or notice files. The parties acknowledge that the terms of the contract or these Hardware STCs do not apply to such third party technology.

The hardware is not specifically designed, manufactured, or intended for use as parts, components, or assemblies for the planning, construction, maintenance, or operation of a nuclear facility. Use of the hardware for these purposes is prohibited.

You acknowledge that to operate certain hardware your facility must meet a minimum set of requirements as described in the hardware documentation. Such requirements may change from time to time, as communicated by Oracle to you in the applicable hardware documentation.

You may not:

- use the programs in a rental, timesharing, subscription service, hosting or outsourcing capacity;
- remove or modify any program or hardware markings or any notice of Oracle's or its licensors' proprietary rights;
- remove any copyright notices or labels on the operating system or integrated software;
- make the programs, operating system, integrated software or materials resulting from the services available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted for the specific program license, operating system, integrated software or materials from the services you have acquired);
- cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the operating system, integrated software, or programs (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by programs), operating system or integrated software;
- make copies of the operating system or integrated software except for archival purposes, to replace a defective copy, or for program verification; or
- disclose results of any program and/or hardware benchmark tests.

**E. Warranties, Disclaimers and Exclusive Remedies**

For the sake of clarity, this is the Oracle manufacturer's warranty; nevertheless, it shall be accessed by you through the Contractor.

Oracle warrants that a program licensed to you will operate in all material respects as described in the applicable program documentation for one year from delivery (i.e. via physical shipment or electronic

**SERIAL 180233-RFP**

download). You must notify Oracle of any program warranty deficiency within one year from delivery. **ORACLE DOES NOT GUARANTEE THAT (i) THE HARDWARE PRODUCTS, (ii) OPERATING SYSTEM AND INTEGRATED SOFTWARE, AND (iii) THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED, OR THAT ORACLE WILL CORRECT ALL HARDWARE PRODUCTS, OPERATING SYSTEM AND INTEGRATED SOFTWARE, AND PROGRAM ERRORS.**

Oracle provides a limited warranty ("Oracle Hardware Warranty") for (i) the hardware, (ii) the operating system and the integrated software and the integrated software options, and (iii) the operating system media, the integrated software media and the integrated software options media ("media", and (i), (ii) and (iii) collectively, "Hardware Items"). Oracle warrants that the hardware will be free from, and using the operating system and integrated software and integrated software options will not cause in the hardware, material defects in materials and workmanship for one year from the date the hardware is delivered to You. Oracle warrants that the media will be free from material defects in materials and workmanship for a period of 90 days from the date the media is delivered to You. You may access a more detailed description of the Oracle Hardware Warranty at <http://www.oracle.com/us/support/policies/index.html> ("Warranty Web Page"). Any changes to the Oracle Hardware Warranty specified on the Warranty Web Page will not apply to hardware or media ordered prior to such change. The Oracle Hardware Warranty applies only to hardware and media that have been (1) manufactured by or for Oracle, and (2) sold by Oracle (either directly or by an Oracle-authorized distributor). The hardware may be new or like new. The Oracle Hardware Warranty applies to hardware that is new and hardware that is like-new which has been remanufactured and certified for warranty by Oracle.

Oracle hardware products may be new or like new. The Oracle Hardware Warranty applies to hardware products that are new and hardware products that are like-new which have been remanufactured and certified for warranty by Oracle.

You may access a more detailed description of the limited hardware warranty at <http://www.oracle.com/us/support/policies/index.html> ("the warranty web page"). Any changes to the hardware warranty details specified on the warranty web page will not apply to hardware ordered prior to such change.

Parts or components which are replaced under the applicable warranty may not be new. Title in all defective parts which are removed from the hardware under applicable warranty shall transfer back to Oracle.

No warranty will apply to the hardware products, operating system, integrated software or media which has been:

- i. modified, altered or adapted without Oracle's written consent (including modification or removal of the Oracle/Sun serial number tag on the hardware);

- x. used remotely to facilitate any activities in the countries referenced in (viii) and (ix) above; or
- xi. purchased from any entity other than Oracle or an Oracle authorized reseller.

**SERIAL 180233-RFP**

This Oracle Hardware Warranty does not apply to normal wear of the hardware products or media. The Oracle Hardware Warranty is extended only to the original purchaser or original lessee of the hardware product and may be void in the event that title to the hardware product is transferred.

Oracle also warrants that services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any services warranty deficiencies within 90 days from performance of the deficient services.

To the extent not addressed in your order for the Hardware Products and media to which this Oracle Hardware Warranty applies, the following Limitations apply:

NEITHER ORACLE NOR YOU WILL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE ARISING OUT OF OR RELATED TO THIS WARRANTY HOWEVER THEY ARISE, WHETHER IN CONTRACT OR TORT, OR OTHERWISE.

YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY FOR BREACH OF WARRANTY SHALL BE: (A) THE REPAIR OR, AT ORACLE'S OPTION AND EXPENSE, REPLACEMENT OF THE DEFECTIVE PRODUCT, OR IF SUCH REPAIR OR REPLACEMENT IS NOT REASONABLY ACHIEVABLE, THE REFUND OF THE FEES PAID TO ORACLE FOR THE DEFECTIVE PRODUCT; OR (B) THE REPERFORMANCE OF THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS; OR, (C) IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE DEFICIENCY IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS AND RECOVER THE FEES YOU PAID TO ORACLE FOR THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS. TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

**F. Technical Support**

Technical support consists of annual technical support services you may have ordered or will order for the programs and/or hardware, including support renewals. Support must be ordered pursuant to a valid End User License Agreement such as these Hardware STCs. With respect to technical support for software products, bug fixes, security fixes and any updates received shall be provided under the terms of the license agreement that You accepted upon ordering the programs.

If ordered, annual technical support (including first year and all subsequent years) for programs is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported programs during the period for which technical support has been ordered. You should review the policies prior to entering into an order for the applicable services. You may access the current version of the technical support policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request. Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your SULS fee for the first renewal year should you renew SULS for the same number of licenses for the same programs as contained in the original order; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the program is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you

**SERIAL 180233-RFP**

decide to purchase technical support at a later date. Technical support for programs is effective upon shipment of tangible media or upon the effective date of the order if shipment of tangible media is not required.

If ordered, Oracle Hardware and Systems Support (including first year and all subsequent years) is provided under Oracle's Hardware and Systems Support Policies in effect at the time the services are provided. You agree to cooperate with Oracle and provide the access, resources, materials, personnel, information, and consents that Oracle may require in order to perform the services. The Oracle Hardware and Systems Support Policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of services provided during the period for which Oracle Hardware and Systems Support has been ordered. You should review the policies prior to entering into an order. You may access the current version of the Oracle Hardware and Systems Support Policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request.

Oracle Hardware and Systems Support acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your Oracle Hardware and Systems Support fee for the first renewal year should you renew Oracle Hardware and Systems Support for the same systems and same configurations as contained in the original order; your Oracle Hardware and Systems Support fee for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the hardware is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you decide to purchase technical support at a later date. Technical support for hardware is effective upon delivery of hardware or upon the effective date of the order if shipment of hardware is not required.

Invoices for technical support services shall be submitted by Contractor on a quarterly basis (unless otherwise specified in the order) after the completion of such period.

Notwithstanding anything in Oracle's technical support policies or Oracle's Hardware and Systems Support Policies to the contrary, you may discontinue support at the end of any current support term and, at any time thereafter, reinstate support by executing an order for such services with Contractor. If you decide to reinstate such support, you must pay a reinstatement fee. The reinstatement fee shall be the amount that would have been paid by the ordering activity for the past support period had such support not lapsed. In addition to the reinstatement fee described in the preceding sentence, you must pay the support fee for the new support period quarterly in arrears in accordance with the order. This technical support fee for the new support period is computed as follows: (i) if support lapsed, then the support fee for a twelve month support period shall be the last annual support fee you paid for the relevant program and/or hardware system; (ii) if you never acquired technical support for the relevant program and/or hardware system, then the annual support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program and/or hardware system per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

**G. Intellectual Property Indemnification**

If someone makes a claim against you or Oracle ("Recipient" which may refer to you or Oracle depending upon which party received the Material) that any information, design, specification, instruction, software, data, hardware or material ("Material") furnished by either you or Oracle ("Provider" which may refer to you or Oracle depending on which party provided the Material) and used by the Recipient infringes its intellectual property rights (including U.S. or foreign patent, trademark and copyright), the Provider will indemnify the Recipient against the claim to the extent permitted by law if the Recipient does the following:

**SERIAL 180233-RFP**

- notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim;
- Gives the Provider control of the defense, with input from Recipient, and any settlement negotiations; and
- Gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material. If you are the Provider and such return materially affects Contractor's ability to meet its obligations under the relevant order (e.g., impairs Contractor's ability to perform due to a work statement, schedule or cost impact), then Contractor may, at its option and upon 30 days prior written notice, request termination of the order. The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient, or if the Recipient continues to use the applicable Material after the end of the license to use that Material. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Oracle. Oracle will not indemnify you for infringement caused by your actions against any third party if the Oracle program(s) as delivered to you and used in accordance with the terms of the order and these Hardware STCs would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify you for any infringement claim that is based on: (1) a patent that you were made aware of prior to the effective date of your order with Contractor (pursuant to a claim, demand, or notice); or (2) your actions prior to the effective date of your order with Contractor.

Notwithstanding the provisions of the paragraph above and with respect to hardware only, if Oracle believes or it is determined that the hardware (or portion thereof) may have violated a third party's intellectual property rights, Oracle may choose to either replace or modify the hardware (or portion thereof) to be non-infringing (while substantially preserving its utility or functionality) or obtain a right to allow for continued use, or if these alternatives are not commercially reasonable, Oracle may remove the applicable hardware (or portion thereof) and refund the net book value.

In the event that the Material is Separately Licensed Third Party Technology and the associated Separate Terms do not allow termination of the license, in lieu of ending the license for the Material, Oracle may end the license for, and require return of, the program associated with that Separately Licensed Third Party Technology and shall refund any program license fees You may have paid to Oracle for the program

For claims related to hardware, if you are a current subscriber to Oracle technical support services for the operating system (e.g., Oracle Premier Support for Systems, Oracle Premier Support for Operating Systems or Oracle Linux Premier Support), then for the period of time for which you are/were a subscriber to the applicable Oracle technical support services (i) the phrase "Material" under this section shall include the operating system and the integrated software and (ii) the phrase "program(s)" in this section is replaced by the phrase "program(s) or the operating system or integrated software (as applicable)" (i.e., Oracle will not indemnify you for your use of the operating system and/or integrated software when you are/were not a subscriber to the applicable Oracle technical support services). Notwithstanding the foregoing, with respect solely to the Oracle Linux operating system, Oracle will not indemnify you for Materials that are not part of the Oracle Linux covered files as defined at <http://www.oracle.com/us/support/library/enterprise-linux-indemnification-069347.pdf>.

**SERIAL 180233-RFP**

This section provides your and Oracle's exclusive remedy for any infringement claims or damages.

H. NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. CONTRACTOR'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO AN ORDER ISSUED PURSUANT TO THESE HARDWARE STCs, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID CONTRACTOR UNDER THE RELEVANT ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF PROGRAMS, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID CONTRACTOR FOR THE DEFICIENT PROGRAM, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES GIVING RISE TO THE LIABILITY.

I. Other

1. You may not assign orders or give or transfer the programs, the operating system, the integrated software and/or any services or an interest in them to another individual or entity. If you grant a security interest in the programs, the operating system, the integrated software and/or any services deliverables, the secured party has no right to use or transfer the programs, the operating system, the integrated software and/or any services deliverables, and if you decide to finance your acquisition of hardware, programs and/or any services, you will follow Oracle's policies regarding financing which are at <http://oracle.com/contracts>. The foregoing shall not be construed to limit the rights you may otherwise have with respect to the Linux operating system, third party technology or separate works licensed under open source or similar license terms.

2. In entering into an order under the contract, you agree and acknowledge that you have not relied on the future availability of any hardware, program or updates. However, (a) if you order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the relevant order, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to you for any program licensed under the order, per the terms of these Hardware STCs.

3. Accessibility

The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as 'Section 508') effective as of June, 2001, or the Revised version in Appendix A (known as 'Revised Section 508') effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Templates (VPAT) available at [www.oracle.com/us/corporate/accessibility](http://www.oracle.com/us/corporate/accessibility) for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at [accessible\\_ww@oracle.com](mailto:accessible_ww@oracle.com). In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS is available at <http://www.fcc.gov/cgb/consumerfacts/trs.html>, and a list of telephone numbers is available at <https://www.fcc.gov/general/telecommunications-relay-services-directory>. International hearing-impaired customers should use the TRS at +1.605.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the

**SERIAL 180233-RFP**

availability of VPATs. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Oracle products provided under these Hardware STCs.

**4. Internet Protocol version 6 (IPv6)**

Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at oracle.com. Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements, requirements or any other such representations regarding or related to IPv6 shall apply to the Oracle products and services to be delivered pursuant to these Hardware STCs.

5. Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the programs and hardware (including any integrated software and operating system(s)). You agree that such export laws govern your use of the programs (including technical data), hardware (including any integrated software and operating system(s)) and any services deliverables provided under your order, and you agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, program, hardware (including any integrated software and operating system(s)) and/or materials resulting from services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology. You shall include the following notice on packing lists, commercial invoices, shipping documents and other documents involved in the transfer, export or re-export of the programs and hardware (including any integrated software and operating system(s)): "These commodities, technology, software, or hardware (including any integrated software and operating system(s)) were exported in accordance with U.S. Export Administration Regulations and applicable export laws. Diversion contrary to applicable export laws is prohibited."
6. Oracle, as the owner of the intellectual property of the program licenses and the technical support services, is a third party beneficiary of the contract and the orders for Oracle products issued pursuant to the contract, but does not assume any of the Oracle authorized reseller's obligations thereunder.
7. The Uniform Computer Information Transactions Act does not apply to these Hardware STCs nor any order placed pursuant to them.
8. You understand that the Contractor and Oracle's business partners, including any third party firms retained by you to provide computer consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not bound by any acts of any such entity, unless the entity is providing services as an Oracle subcontractor under an engagement ordered directly with Oracle.
9. You may order trial programs, or Oracle may include additional programs with your order with Contractor which you may use for trial, non-production purposes only. You may not use the trial programs to provide or attend third party training on the content and/or functionality of the programs. You have 30 days from the delivery date to evaluate these programs. If you decide to use any of these programs after the 30-day trial period, you must obtain a license for such programs from Oracle or an authorized distributor. If you decide not to obtain a license for any program after the 30 day trial period, you will cease using and delete any such programs from your computer

**SERIAL 180233-RFP**

systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these programs.

10. Oracle may include additional programs on the hardware (e.g., Exadata Storage Server software). You are not authorized to use those programs unless you have a license specifically granting you the right to do so; however, you may use programs for trial, non-production purposes for up to 30 days from the date of delivery provided that such use is subject to the terms for trial programs in the contract, including these Hardware STCs.
11. Unless otherwise agreed in an order, upon 45 days written notice and no more than once annually, Oracle may audit your use of the programs. You agree to cooperate with Oracle's audit, provide reasonable assistance and access to information. Any such audit shall not unreasonably interfere with your normal business operations. Oracle shall comply with reasonable security and safety rules, policies, and procedures ("security rules") while performing any such audit, provided that such security rules are applicable to the performance of the audit; you make such security rules available to Oracle prior to the commencement of the audit; and such security rules do not modify or amend the terms and conditions of the contract or the applicable order. You shall be responsible for paying any underpaid fees related to use of the programs. Contractor may assign its right to audit your use of the programs to Oracle. If the Contractor assigns its right to audit your use of the programs to Oracle, then Oracle shall not be responsible for any costs incurred by either you or Contractor in cooperating with the audit.
12. Upon termination of a program license, you are required to discontinue use and destroy or return to the Contractor all copies of the programs and program documentation associated with the terminated license.
13. Source code may be delivered as part of the standard delivery for particular programs, operating system or integrated software; all such source code is subject to the terms of these Hardware STCs, including the Oracle License Definitions and Rules, the applicable order, the contract and the applicable program documentation.
14. Oracle's Applications Licensing Table in effect as of the effective date of your order and is incorporated herein as Exhibit B. You may access the current version of the Applications Licensing Table at <http://oracle.com/contracts>.
15. Oracle's License Definitions and Rules are incorporated herein and attached hereto as Exhibit A. Oracle's Integrated Software Options License Definitions, Rules and Metrics are incorporated herein as Exhibit C. Terms for Oracle Solaris are incorporated herein as Exhibit D.
16. If any provision herein or document incorporated by reference into these Hardware STCs, including the License Definitions and Rules and terms included and/or referenced therein, contains a provision (a) allowing for the automatic termination of your technical support services; or (b) allowing for the automatic renewal of services and/or fees, then, such terms shall not apply.
17. Products and Service Offerings deliverables are not designed for or specifically intended for use in nuclear facilities or other hazardous applications. You agree that it is Your responsibility to ensure safe use of Products and Service Offerings deliverables in such applications.

Contractor's duty to defend, indemnify, and hold harmless the County, its agents, representatives, agents, officers, directors, officials, and employees shall arise in connection with any claim, damage, loss, or expense that is attributable to bodily injury, sickness, disease, death or injury to, impairment of, or destruction of tangible property, including loss of use resulting there from, caused by negligent acts, errors, omissions, or mistakes in the performance of this Contract, but only to the extent caused by the negligent acts or omissions of the Contractor, a subcontractor, any one directly or indirectly employed by them, or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss, or expense is caused in part by a party indemnified hereunder.

The amount and type of insurance coverage requirements set forth herein will in no way be construed as limiting the scope of the indemnity in this paragraph.

The scope of this indemnification does not extend to the sole negligence of County.

**SERIAL 180233-RFP**

misconduct, or other fault of the indemnitor, its officers, officials, agents, employees, or volunteers.

**6.2 INFRINGEMENT DEFENSE INDEMNIFICATION:**

6.2.1 Defense and Indemnity: Contractor shall defend, Participate and Share in the Cost, as defined below, in the full defense of the County against any Claim, as defined below, and will indemnify and hold harmless the County as provided for in this Section for any judgments, settlements and court awarded attorney's fees resulting from a Claim where the claimant is adjudged the successful party in the Claim. Contractor's obligations under this Section are conditioned on the following: (i) County promptly notifies Contractor of the Claim in writing upon being made aware of the Claim; (ii) County gives Contractor lead authority and County being control of the defense and (if applicable) settlement of the Claim, provided that County's legal counsel may participate in such defense and settlement, at County's expense, and (iii) County provides all information and assistance reasonably requested by Contractor to handle the defense or settlement of the Claim. For purposes of this Section, "Claim" means any cause of action in a third party action, suit or proceeding against County alleging that Contractor software, or its upgrades, modifications, or revisions, as of its delivery date under this Contract, infringes a valid U.S. patent, copyright or trademark. For the purposes of this section, "Participate and Share in the Costs" means Contractor will assist the County in the defense of the claim, to the extent agreed to by the parties, except that Contractor shall be solely responsible for any and all costs adjudged in a successful Claim against the County.

6.2.2 Remedial Measures: If software becomes, or Contractor reasonably believes use of software may become the subject of a Claim, Contractor may, at its own expense and option: (i) procure for County the right to continue use of the Product; (ii) replace or modify the software; or to the extent that neither (i) nor (ii) are deemed commercially practicable, (iii) refund to County a pro-rated portion of the applicable fees for software based on a linear depreciation monthly over 10 year useful life, in which case County will cease all use of software and return it to Contractor.

6.2.2.1 Exceptions: Contractor will have no defense or indemnity obligation for any Claim based on: (i) modifications by someone other than Contractor; (ii) software has been modified by Contractor in accordance with County-provided specifications or instructions; (iii) use or combination by the County of software with Third Party Products, open source or freeware technology; (iv) Third Party Products, open source or freeware technology; (v) a product that is used or located by County in a country other than the country in which or for which it was supplied by Contractor; (vi) possession or use of a product after Contractor has informed County of modifications or changes required to avoid such Claim and offered to implement those modifications or changes, if such Claim would have been avoided by implementation of Contractor's suggestions and to the extent County did not provide Contractor with a reasonable opportunity to implement Contractor's suggestions; or (vii) the amount of revenue or profits earned or other value obtained by the use of Products, or the amount of use of the Products. "Third Party Products" means any products made by a party other than Contractor, and may include, without limitation, products ordered by County from third parties. However, components of Contractor branded Products are not Third Party Products if they are both: (i) embedded in Third Party Products (i.e., not recognizable as standalone items); and (ii) not identified as separate items on Contractor's price list, quotes, order specifications forms or documentation.

6.2.3 The foregoing states Contractor's entire liability, and County's sole and exclusive remedy except as provided at law or equity, with respect to any infringement or misappropriation of any intellectual property rights of another party.

**SERIAL 180233-RFP****6.3 SOURCE CODE ESCROW REQUIREMENT (IF APPLICABLE):**

- 6.3.1 The Contractor shall provide all source code and any updates or fixes for the Contractor Commercial off the Shelf (“COTS”) application software that Maricopa County has purchased from Contractor for safekeeping with a mutually acceptable escrow agent within thirty (30) days of award. The software source deposited with the escrow agent will be a snapshot of all source code maintained by Contractor in the form of a Microsoft Visual Source Safe Archive. In this way, as beneficiary of the escrow agreement between Contractor and escrow agent, Maricopa County will have access to all source code of the products that they license for all versions of the software. Furthermore, the escrowed code shall include all code specifically developed for Maricopa County including, but not limited to: interfaces, Extraction-Transformation-Loading (ETL) routines for data conversion, and all custom code. Upon taking possession of the source code, Maricopa County will have the right to use the source for products that they license in the versions currently installed on the System or any subsequent versions in the archive. Contractor will make a deposit of the Source Safe Archive with the escrow agent upon the release of version release or once every six (6) months, whichever occurs first.
- 6.3.2 Maricopa County hereby agrees to pay the yearly standard fee for a beneficiary of the source code.
- 6.3.3 Maricopa County shall have access to the source code in the event any of the following circumstances:
- 6.3.3.1 the sale, assignment, or transfer to any third party of any of Contractor’s rights in the licensed product (or any portion thereof) if such sale, assignment, or transfer would prevent Contractor from fully performing any of its obligations under any agreement with Maricopa County;
- 6.3.3.2 Contractor becomes insolvent or commits any affirmative act of insolvency, or generally fails to pay, or admits in writing its inability to pay, debts as they become due, makes a general assignment for the benefit of creditors, files a voluntary petition of bankruptcy, suffers or permits the appointment of a receiver for its business or assets, becomes subject to any proceeding under, or case in, any bankruptcy or insolvency law, or Contractor takes any action to authorize, or in the furtherance of, any of the foregoing;
- 6.3.3.3 Contractor discontinues providing full support and maintenance services for the licensed product in accordance with its obligations pursuant to any agreement with Maricopa County;
- 6.3.3.4 Contractor has ceased to do business or improperly refuses to provide any services pursuant to any agreement with Maricopa County;
- 6.3.3.5 Contractor has breached (and if subject to a cure period, has not cured such breach within such period) any material term or condition of any agreement with Maricopa County;
- 6.3.3.6 Any change of control of Contractor or Contractor’s parent company, where such party is acquired, directly or indirectly, in a single transaction or series of related transactions, or all or substantially all of the assets of such party are acquired by any entity, or such party is merged with or into another entity to form a new entity; or
- 6.3.3.7 Any other circumstance in which Maricopa County is entitled to access or use the applicable deposit materials (including, but not limited to, the source code) under the express terms of any agreement between Contractor and Maricopa County.

**SERIAL 180233-RFP**

6.3.4 Upon Maricopa County taking possession of the source code, Maricopa County hereby agrees as follows:

6.3.4.1 Maricopa County accepts full and total responsibility for the safekeeping of the source code. Maricopa County agrees that such source code shall be subject to the restrictions of transfer, sale, and reproduction placed on the software itself as stated in the software license signed by all parties.

6.3.4.2 Maricopa County agrees to only use source code related to applications for which they own a license. There will be source from other applications in the archive.

6.3.4.3 Maricopa County agrees, if so ordered by a court of competent jurisdiction, to compensate Contractor for any and all damages Contractor suffers, to include reasonable attorney's fees, resulting directly or indirectly from, but not limited to, the mishandling, misuse, or theft of the source code, regardless of intent, or the absence thereof, by Maricopa County, its employees, agents and third-party contractors.

6.3.4.4 No license under any trademark, patent, copyright, or any other intellectual property right, is either granted or implied by the disclosure of the source code to Maricopa County. The Contractor's disclosure of the source code to Maricopa County shall not constitute any representation, warranty, assurance, guarantee or inducement by the Contractor to Maricopa County of any kind, and, in particular, with respect to the non-infringement of trademarks, patents, copyrights, or any other intellectual property rights, or other rights of third persons or of Contractor.

6.3.4.5 Contractor will not be responsible for maintaining the source code. Furthermore, Contractor will not be liable for any consequences related to the use of source code modified by Maricopa County.

6.4 **INSURANCE:**

6.4.1 Contractor, at Contractor's own expense, shall purchase and maintain the herein stipulated minimum insurance from a company or companies duly licensed by the State of Arizona and possessing a current A.M. Best, Inc. rating of B++. In lieu of State of Arizona licensing, the stipulated insurance may be purchased from a company or companies, which are authorized to do business in the State of Arizona, provided that said insurance companies meet the approval of County. The form of any insurance policies and forms must be acceptable to County.

6.4.2 All insurance required herein shall be maintained in full force and effect until all work or service required to be performed under the terms of the Contract is satisfactorily completed and formally accepted. Failure to do so may, at the sole discretion of County, constitute a material breach of this Contract.

### ORACLE SOFTWARE STANDART TERMS AND CONDITIONS FOR PRODUCTS AND SERVICES:

#### ORACLE SOFTWARE PROGRAMS AND/OR SERVICES US COMMUNITIES SUPPLEMENTAL TERMS AND CONDITIONS v041818

THESE ORACLE SOFTWARE PROGRAM AND/OR SERVICES US COMMUNITIES ("USC") SUPPLEMENTAL TERMS AND CONDITIONS ("SOFTWARE STCs") SHALL APPLY TO THE ORACLE SOFTWARE PROGRAMS AND/OR SERVICES THAT YOU ORDER FROM THE CONTRACT HOLDER (THE "CONTRACTOR"). THESE SOFTWARE STCs SHALL TAKE PRECEDENCE OVER ANY CONFLICTING TERMS IN ANY NON-ORACLE ORDER OR ORDERING DOCUMENTATION. THESE SOFTWARE STCs ARE CONSIDERED PART OF THE SCHEDULE OF SUPPLIES/SERVICES IN YOUR ORDER TO THE CONTRACTOR.

##### A. Definitions

"You" and "Your" refers to the ordering activity that has ordered programs, and/or services from an authorized distributor ("Contractor") under the contract.

The term "ancillary programs" refers to third party materials specified in the program documentation which may only be used for the purposes of installing or operating the programs with which the ancillary programs are delivered.

The term "contract" refers to the Contractor's US Communities contract.

The term "program documentation" refers to the program user manual and program installation manuals.

The term "programs" refers to the software products owned or distributed by Oracle which you have ordered, program documentation, and any program updates acquired through technical support.

The term "services" refers to annual technical support services which you have ordered.

##### B. Rights Granted

Upon Contractor's acceptance of your order, you have the non-exclusive, non-assignable, royalty free, perpetual (unless otherwise specified in your order with Contractor), limited right to use the programs and receive any services you ordered solely for your internal ordering activity operations and subject to the terms of these, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You may allow your agents and contractors (including, without limitation, outsourcers) to use the programs for this purpose and you are responsible for their compliance with these Software STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation in such use. For programs that are specifically designed to allow your customers and suppliers to interact with you in the furtherance of your internal business operations, such use is allowed.

## EXHIBIT C

### C. Ownership and Restrictions

Oracle or its licensors retain all ownership and intellectual property rights to the programs. Oracle retains all ownership and intellectual property rights to anything developed by Oracle and delivered under your order resulting from services. You may make a sufficient number of copies of each program for your licensed use and one copy of each program media.

Third party technology that may be appropriate or necessary for use with some Oracle programs is specified in the program documentation. Such third party technology is licensed to you under the terms of the third party technology license agreement specified in the program documentation and not under the terms of the contract or these Software STCs.

You may not:

- use the programs in a rental, timesharing, subscription service, hosting or outsourcing capacity;
- remove or modify any program markings or any notice of Oracle's or its licensors' proprietary rights;
- make the programs or materials resulting from the services available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted for the specific program, license or materials from the services you have acquired);
- cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the programs (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by programs), operating system or integrated software; or
- disclose results of any program benchmark tests.

### D. Warranties, Disclaimers and Exclusive Remedies

For the sake of clarity, this is the Oracle manufacturer's warranty; nevertheless, it shall be accessed by you through the Contractor.

Oracle warrants that a program licensed to you will operate in all material respects as described in the applicable program documentation for one year from delivery (i.e., via physical shipment or electronic download). You must notify Oracle of any program warranty deficiency within one year from delivery. **ORACLE DOES NOT GUARANTEE THAT THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED, OR THAT ORACLE WILL CORRECT ALL PROGRAM ERRORS.**

Oracle also warrants that services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any services warranty deficiencies within 90 days from performance of the deficient services.

**FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE: (A) THE CORRECTION OF PROGRAM ERRORS THAT CAUSE BREACH OF THE WARRANTY; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT SUCH BREACH IN A COMMERCIALY REASONABLE MANNER YOU MAY END YOUR PROGRAM LICENSE AND RECOVER THE FEES PAID TO ORACLE FOR THE PROGRAM LICENSE DISTRIBUTED TO YOU; OR (B) THE REPERFORMANCE OF THE DEFICIENT SERVICES PROVIDED BY ORACLE; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THOSE SERVICES AND RECOVER THE FEES PAID TO ORACLE FOR THE DEFICIENT SERVICES PROVIDED BY ORACLE TO YOU.**

**EXHIBIT C**

**TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS WITH RESPECT TO THE ABOVE ITEMS, INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.**

**E. Technical Support**

Technical support consists of annual technical support services you may have ordered or will order for the programs, including support renewals. Support must be ordered pursuant to a valid End User License Agreement such as these Software STCs. Bug fixes, security fixes and any updates received shall be provided under the terms of the license agreement that You accepted upon ordering the programs.

If ordered, annual technical support (including first year and all subsequent years) for programs is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported programs during the period for which technical support has been ordered. You should review the policies prior to entering into an order for the applicable services. You may access the current version of the technical support policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request. Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your SULS fee for the first renewal year should you renew SULS for the same number of licenses for the same programs as contained in the original order; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the program is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you decide to purchase technical support at a later date. Technical support for programs is effective upon shipment of tangible media or upon the effective date of the order if shipment of tangible media is not required.

Invoices for technical support services shall be submitted by Contractor on a quarterly basis (unless otherwise specified in the order) after the completion of such period.

Notwithstanding anything in Oracle's technical support policies to the contrary, you may discontinue technical support at the end of any current technical support term and, at any time thereafter, reinstate technical support by executing an order for such services with Contractor. If you decide to reinstate technical support you must pay a reinstatement fee. The reinstatement fee shall be the amount that would have been paid by the ordering activity for the past support period had technical support not lapsed. In addition to the reinstatement fee described in the preceding sentence, you must pay the technical support fee for the new support period. This technical support fee for the new support period is computed as follows: (i) if technical support lapsed, then the technical support fee for a twelve month support period shall be the last annual technical support fee you paid for the relevant program; (ii) if you never acquired technical support for the relevant program, then the annual technical support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

## EXHIBIT C

### F. Intellectual Property Indemnification

If someone makes a claim against you or Oracle ("Recipient" which may refer to you or Oracle depending upon which party received the Material), that any information, design, specification, instruction, software, data, or material ("Material") furnished by either you or Oracle ("Provider", which may refer to you or Oracle depending on which party provided the Material), and used by the Recipient infringes its intellectual property rights (including U.S. or foreign patent, trademark and copyright), the Provider will indemnify the Recipient against the claim to the extent permitted by law if the Recipient does the following:

- o notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim;
- o gives the Provider control of the defense, with input from Recipient, and any settlement negotiations; and
- o gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund any fees the Recipient may have paid for it. If you are the Provider and such return materially affects Oracle's ability to meet its obligations under the relevant order (e.g., impairs Oracle's ability to perform due to a work statement, schedule or cost impact), then Oracle may, at its option and upon 30 days prior written notice, request termination of the order. The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient, or if the Recipient continues to use the applicable Material after the end of the license to use that Material. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Oracle. Oracle will not indemnify you for infringement caused by your actions against any third party if the Oracle program(s) as delivered to you and used in accordance with the terms of the order and the Software STCs would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify you for any infringement claim that is based on: (1) a patent that you were made aware of prior to the effective date of your order with Contractor (pursuant to a claim, demand, or notice); or (2) your actions prior to the effective date of your order with Contractor.

This section provides Your and Oracle's exclusive remedy for any infringement claims or damages.

G. NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. CONTRACTOR'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO AN ORDER ISSUED PURSUANT TO THESE SOFTWARE STCs, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID CONTRACTOR UNDER THE RELEVANT ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF PROGRAMS, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID CONTRACTOR FOR

## EXHIBIT C

### THE DEFICIENT PROGRAM, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES GIVING RISE TO THE LIABILITY.

#### H. Other

1. You may not assign orders or give or transfer the programs and/or any services or an interest in them to another individual or entity. If you grant a security interest in the programs and/or any services deliverables, the secured party has no right to use or transfer the programs and/or any services deliverables, and if you decide to finance your acquisition of programs and/or any services, you will follow Oracle's policies regarding financing which are at <http://oracle.com/contracts>. The foregoing shall not be construed to limit the rights you may otherwise have with respect to the Linux operating system, third party technology or separate works licensed under open source or similar license terms.

2. In entering into an order under the contract, you agree and acknowledge that you have not relied on the future availability of any program or updates. However, (a) if you order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the relevant order, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to you for any program licensed under the order, per the terms of these Software STCs.

#### 3. Accessibility

The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 35 CFR Part 1194 (known as "Section 508") effective as of June, 2001, or the Revised version in Appendix A (known as "Revised Section 508") effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Templates (VPAT) available at [www.oracle.com/us/corporate/accessibility](http://www.oracle.com/us/corporate/accessibility) for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at [accessible\\_wm@oracle.com](mailto:accessible_wm@oracle.com). In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS is available at <http://www.fcc.gov/ogb/consumerfacts/trs.html>, and a list of telephone numbers is available at <https://www.fcc.gov/general/telecommunications-relay-services-directory>. International hearing-impaired customers should use the TRS at +1.605.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the availability of VPATs. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Oracle products provided under these Software STCs.

#### 4. Internet Protocol version 6 (IPv6).

Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at [oracle.com](http://oracle.com). Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance

## EXHIBIT C

with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Oracle products provided under these Software STCs.

5. Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the programs. You agree that such export laws govern your use of the programs (including technical data), and any services/deliverables provided under your order, and you agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, program, and/or materials resulting from services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology.

6. Oracle, as the owner of the intellectual property of the program licensed and the technical support services, is a third party beneficiary of the contract and the orders for Oracle products issued pursuant to the contract, but does not assume any of the Oracle authorized reseller's obligations thereunder.

7. The Uniform Computer Information Transactions Act does not apply to these Software STCs nor any order placed pursuant to them.

8. You understand that the Contractor and Oracle's business partners, including any third party firms retained by you to provide computer consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not bound by any acts of any such entity, unless the entity is providing services as an Oracle subcontractor under an engagement ordered directly with Oracle.

9. You may order trial programs, or Oracle may include additional programs with your order with Contractor which you may use for trial, non-production purposes only. You may not use the trial programs to provide or attend third party training on the content and/or functionality of the programs. You have 30 days from the delivery date to evaluate these programs. If you decide to use any of these programs after the 30-day trial period, you must obtain a license for such programs from Oracle or an authorized distributor. If you decide not to obtain a license for any program after the 30 day trial period, you will cease using and delete any such programs from your computer systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these programs.

10. Unless otherwise agreed in an order, upon 45 days written notice, and no more than once annually, Contractor may audit your use of the programs. You agree to cooperate with Contractor's audit, provide reasonable assistance and access to information and permit Contractor to report the audit results to Oracle. Any such audit shall not unreasonably interfere with your normal business operations. Contractor shall comply with reasonable security and safety rules, policies, and procedures ("security rules") while performing any such audit, provided that such security rules are applicable to the performance of the audit; you make such security rules available to Contractor prior to the commencement of the audit; and such security rules do not modify or amend the terms and conditions of the contract or the applicable order. You shall be responsible for paying any underpaid fees related to use of the programs. Contractor may assign its right to audit your use of the programs to Oracle. Contractor may assign its right to audit your use of the programs to Oracle. If the Contractor assigns its right to audit your use of the programs to Oracle, then Oracle shall not be responsible for any costs incurred by either you or Contractor in cooperating with the audit.

## EXHIBIT C

11. Upon termination of a program license, you are required to discontinue use and destroy or return to the Contractor all copies of the programs and program documentation associated with the terminated license.

12. Source code may be delivered as part of the standard delivery for particular programs; all such source code is subject to the terms of these Software STCs, including the Oracle License Definitions and Rules, the applicable order, the contract and the applicable program documentation.

13. Programs and service deliverables are not designed for or specifically intended for use in nuclear facilities or other hazardous applications. You agree that it is Your responsibility to ensure safe use of Products and Service Offerings deliverables in such applications.

14. For software (i) that is part of Programs, Operating Systems, Integrated Software or Integrated Software Options (or all four) and (ii) that You receive from Oracle in binary form and (iii) that is licensed under an open source license that gives You the right to receive the source code for that binary, You may obtain a copy of the applicable source code from <https://oss.oracle.com/sources/> or <http://www.oracle.com/goto/opensourcecode>. If the source code for such software was not provided to You with the binary, You may also receive a copy of the source code on physical media by submitting a written request pursuant to the instructions in the "Written Offer for Source Code" section of the latter website.

15. Oracle's Applications Licensing Table in effect as of the effective date of your order and is incorporated herein as Exhibit B. You may access the current version of the Applications Licensing Table at <http://oracle.com/contracts>.

16. Oracle's License Definitions and Rules are incorporated herein and attached hereto as Exhibit A.

17. If any document incorporated by reference into these Software STCs, including the License Definitions and Rules and terms included and/or referenced therein, contains a provision (a) allowing for the automatic termination of your licensee rights or technical support services; or (b) allowing for the automatic renewal of services and/or fees, then, such terms shall not apply.

**EXHIBIT C**

**ORACLE LICENSE DEFINITIONS AND RULES v120117**

The following are Oracle's standard License Definitions and Rules, some of which by their very nature may not apply to the Oracle products and services in your order. Nevertheless, the definitions for the terms enumerated herein shall control for the purposes of any order for Oracle products and/or services.

**Compensated Individual:** is defined as an individual whose compensation or compensation calculations are generated by the Programs. The term Compensated Individual includes, but is not limited to, Your employees, contractors, retirees, and any other Person.

**Computer:** is defined as the computer on which the Programs are installed. A Computer license allows You to use the licensed Program on a single specified computer. For the purposes of Computer licenses for the Oracle Health Science Integration Engine Program, a communication point is an interface to an input system (e.g., a clinical laboratory system in a hospital or healthcare setting) or to an output system (e.g., a healthcare data repository).

**5 Concurrent Users:** is defined as five concurrent users where each Concurrent User is an individual who is authorized by You to access the Program concurrently with other individuals at any given time.

**Concurrent Connection:** is defined as each connection to a Serdect/Datalink. A Serdect/Datalink is defined as an interface that renders the Infer software operable for use with Micros Applications.

**Concurrent User:** is defined as each individual that may concurrently use or access the Programs. Concurrent Users shall be only customers or prospective customers of Yours, and shall not be business partners, or employees of Yours.

**Connected Device:** is defined as each unique device (a) that transmits data to or receives data from Oracle application Programs or Oracle cloud services and (b) that does not require any human interaction or human input to execute Oracle application business logic or to update Oracle application tables. Devices include, but are not limited to, sensors, meters, RFID readers, and barcode scanners. Devices may be connected directly to Oracle application Programs or Oracle cloud services, or may be connected indirectly to Oracle application Programs or Oracle cloud services through a gateway device or a third-party communications service. A device may be uniquely identified as being the endpoint of communication of data to or from an Oracle application Program or an Oracle cloud service, or may be uniquely identified by its explicit registry with an Oracle application Program or an Oracle cloud service.

**Connected Instance:** is defined as the configuration between Oracle Policy Automation Connector for Oracle CRM On Demand and the Oracle CRM On Demand instance's web service endpoint. For each Oracle CRM On Demand instance so configured, an additional Connected Instance is required.

**Connector:** is defined as each connector connecting the software product with a third party product. A unique connector is required for each distinct third party product that the software product is required to interface.

**Connector Pack:** is defined as a collection of connectors as specified in the Program Documentation for the applicable Connector Pack. There is no limitation on the number of physical servers on which any of the connectors in the pack may be copied, installed and used.

**COGS Cost of Goods Sold:** is defined as one million U.S. Dollars in the total cost of inventory that a company has sold during their fiscal year. If Cost of Goods Sold is unknown to You then Cost of Goods Sold shall be equal to 75% of total company revenue.

**CPU:** is defined as a chip that contains a collection of one or more cores on which the Program is running. Regardless of the number of cores, each chip counts as 1 CPU.

**Custom Suite User:** is defined as an individual authorized by You to use the application Programs included in the applicable Custom Applications Suite which are installed on a single server or on multiple servers regardless of whether the individual is actively using the Programs at any given time.

**Customer:** is defined as the customer entity specified on Your order. The Programs may not be used or accessed for the business operations of any third party, including but not limited to Your customers, partners, or Your affiliates. There is no limitation on the number of computers on which such Programs may be copied, installed and used.

**Customer Accounts:** is defined as each unique Customer Account, designated by a unique account number, for which the billing information is managed or displayed using the Program, regardless of the number of individual account holders associated with such accounts.

**Oracle Customer Data & Device Retention Service:** is defined as a service for which the description may be found in the Technical Support Policies section (Oracle Hardware and Systems Support Policies) at [www.oracle.com/eshop](http://www.oracle.com/eshop); and which is incorporated by reference.

**Customer Record:** is defined as each unique Customer Record (including contact records, prospect records and records in external data sources) that You may access using the Program.

**10,000 Daily Average Transactions:** is defined as ten thousand unique transactions (including but not limited to sales transactions, return transactions, exchange transactions, loyalty transactions, deal transactions, gift card transactions, inventory transactions, petty cash transactions, and administrative transactions) that are processed by the Program in a single 24 hour period. The daily transaction volume is calculated as the daily average over the prior 12 month period.

**Developer User / Developer/Developer Seat:** is defined as an individual authorized by You to use the Programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the Programs at any given time. With respect to Developer Users only, such users may create, modify, view and interact with the Programs and documentation.

**Disk Drive:** is defined as a spinning media device that stores data accessed by the Program.

**Electronic Order Lines:** is defined as the total number of distinct order lines entered electronically into the Oracle Program from any source (not manually entered by licensed users) during a 12 month period. This includes order lines originating as external EDI/XML transactions and/or sourced from other Oracle and non-Oracle applications. You may not exceed the licensed number of order lines during any 12 month period.

**Employee:** is defined as (i) all of Your full-time, part-time, temporary employees, and (ii) all of Your agents, contractors and consultants who have access to, use, or are tracked by the Programs. The quantity of the licenses required is determined by the number of Employees and not the actual number of users. In addition, if You elect to outsource any business function(s) to another company, the following must be counted for purposes of determining the number of Employees: all of the company's full-time employees, part-time employees, temporary employees, agents, contractors and consultants that (i) are providing the outsourcing services and (ii) have access to, use, or are tracked by the Programs.

**Employee for HCM:** is defined as (i) all of Your full-time, part-time, temporary employees, and (ii) all of Your agents, contractors and consultants who have access to, use, or are tracked by the Programs. All cores on all multicore chips for each licensed Program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle Programs with Standard Edition 2, Standard Edition One or Standard Edition in the product name (with the exception of WebCenter Enterprise Capewa Standard Edition, Java SE Subscription, Java SE Support, Java SE Advanced, and Java SE Suite), a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the Program (other than Standard Edition One Programs or Standard Edition Programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running

the Program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

"Oracle Solaris Programs" refers to the Oracle Solaris operating system and the separately licensed third party technology (as defined below). The Oracle Solaris Programs may contain third party technology. Oracle may provide certain notices to You in Program Documentation, "readme" files or the installation details in connection with such third party technology. Third party technology will be licensed to You either under the terms of the agreement, or if specified in the Program Documentation, "readme" files, or the installation details, under separate license terms ("separate terms") and not under the terms of the agreement ("separately licensed third party technology"). Your rights to use such separately licensed third party technology under the separate terms are not restricted in any way by the agreement. The Oracle Solaris Programs may include or be distributed with certain separately licensed components that are part of Java SE ("Java SE"). Java SE and all components associated with it are licensed to You under the terms of the Oracle Binary Code License Agreement for the Java SE Platform Products, and not under the agreement. A copy of the Oracle Binary Code License Agreement for the Java SE Platform Products can be found at [www.oracle.com/contracts](http://www.oracle.com/contracts).

This subscription is available only for a server that is certified by Oracle and listed on the Hardware Compatibility List (HCL) at <http://www.oracle.com/webfolder/technetwork/hcl/index.html>. You must obtain a subscription license for each socket in the server. The subscription term is effective upon the effective date of the subscription ordering document, unless otherwise stated in Your ordering document. If Your order was placed through the Oracle Store, then the effective date is the date Your order was accepted by Oracle. Oracle Premier Support for Operating System services are provided under the applicable technical support policies in effect at the time the services are provided. At the end of the specified term, You may renew Your subscription, if available, at the then current fees for this subscription.

If Your order specifies "1 - 4 socket server" then You may only use the subscription on a server with not more than 4 sockets. If Your order specifies "6+ socket server" then You may use the subscription for servers with any number of sockets.

**Stream:** is defined as a concurrent backup or restore job to a tape, disk or cloud target. For tape targets (which would be a physical tape drive (e.g., T10000D or LTO6) or a virtual tape drive), each configured tape drive within the Oracle Secure Backup domain must be counted for determining the number of licenses required. For disk targets, each concurrent job defined per Oracle Secure Backup disk pool must be counted for determining the number of licenses required. For Cloud based targets, utilizing the Oracle Secure Backup Cloud Module, each parallel Recovery Manager (RMAN) channel must be counted for determining the number of licenses required.

**Subscriber:** is defined as (a) a working telephone number for all wireline devices; (b) a portable handset or paging device that has been activated by You for wireless communications and paging; (c) a residential drop or a nonresidential device serviced by a cable provider; or (d) a live connected utility meter. The total number of Subscribers is equal to the aggregate of all types of Subscribers. If Your business is not defined in the primary definition of Subscriber above, Subscriber is defined as each U.S. \$1,000 increment of Your gross annual revenue as reported to the SEC in Your annual report or the equivalent accounting or reporting document.

**Suite:** is defined as all the functional software components described in the product documentation.

**Sun Ray Device:** is defined as the Sun Ray computer on which the Program is running.

Examples of tape drive include but are not limited to, Linear Tape Open (LTO), Digital Linear Tape (DLT), Advanced Intelligent Type (AIT), Quarter-Inch Cartridge (QIC), Digital Audio Tape (DAT), and 8mm Helical Scan. For cloud based backups, Oracle counts each parallel stream or Recovery Manager (RMAN) channel as equivalent to a tape drive.

**Tape Library Slot:** is defined as a physical slot location within a tape library where each slot accepts a single tape cartridge.

#### Technical Support

For purposes of the ordering document, technical support consists of annual technical support services You may have ordered for the Programs. If ordered, annual technical support (including first year and all subsequent years) is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated in this agreement, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported Programs during the period for which fees for technical support have been paid. You should review the policies prior to entering into the ordering document for the applicable services. You may access the current version of the technical support policies at <http://oracle.com/contracts>.

Technical support is effective upon the effective date of the ordering document unless otherwise stated in Your order. If Your order was placed through the Oracle Store, the effective date is the date Your order was accepted by Oracle.

Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with Your order may be renewed annually and, if You renew SULS for the same number of licenses for the same Programs, for the first and second renewal years the fee for SULS will not increase by more than 4% over the prior year's fees. If Your order is fulfilled by a member of Oracle's partner Program, the fee for SULS for the first renewal year will be the price quoted to You by Your partner; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees.

If You decide to purchase technical support for any license within a license set, You are required to purchase technical support at the same level for all licenses within that license set. You may discontinue a subset of licenses in a license set only if You agree to terminate that subset of licenses. The technical support fees for the remaining licenses will be priced in accordance with the technical support policies in effect at the time of termination. Oracle's license set definition is available in the current technical support

~~policies. If You decide not to purchase technical support, You may not update any unsupported Program licenses with new versions of the Program.~~

~~**Telephone Number:** is defined as each unique telephone number for which the billing information is managed or displayed using the Program, regardless of the number of individual account holders associated with such telephone numbers.~~

~~**Terabyte:** is defined as a terabyte of computer storage space used by a storage filer equal to one trillion bytes.~~

~~**SB in Total Assets:** is defined as one billion U.S. dollars of Your latest published or internally available "Total Asset Value" as disclosed in Your annual report and/or regulatory filings.~~

~~**Trainee:** is defined as an employee, contractor, student or other person who is being recorded by the Program.~~

~~**Transaction:** is defined as each set of interactions that is initiated by an application user recorded by Oracle Enterprise Manager to capture availability and performance metrics used in calculating service levels. For example, the following set of interactions would represent one transaction: login, search customer, log out.~~

~~**Transaction Services Client:** is defined as a device that is used to receive data from an external source to record a sales transaction (e.g., a device in a coffee shop that is used by customers to enter their sandwich orders). If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end.~~

~~For the purposes of the Oracle Hospitality Symphony Transaction Services Program, devices that are used to send property or revenue center configuration to an external source must be counted as Transaction Services Clients. For example, if a digital signage provider wants to display menu item information (e.g., price, name, etc.) on a menu board behind the counter and the menu board system requests that a device provides a list of the menu items and prices that are available for purchase, then that device must be licensed as Transaction Services Client.~~

~~**UPK Developer:** is defined as an individual authorized by You to use the Programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the Programs at any given time. UPK Developers may create, modify, view and interact with simulations and documentation.~~

~~**UPK Module:** is defined as the functional software component described in the product documentation.~~

~~**Video Wrapper:** is defined as a standardized container that acts as a file system for video assets installed per site. Examples of video wrapper formats include GXF, MXF, OP1A, AVI, Quicktime and LXF.~~

~~**Wireless handset:** is defined as a mobile communications device such as a mobile telephone, PDA, or paging device, that has as primary functions wireless voice communications and data services provided through a service provider.~~

~~**Workstation:** is defined as the client computer from which the Programs are being accessed, regardless of where the Program is installed.~~

#### ~~**Term Designation**~~

~~**1, 2, 3, 4, 5 Year Term:** A Program license specifying a 1, 2, 3, 4 or 5 Year Term shall commence on the effective date of the order and shall continue for the specified period. At the end of the specified period the Program license shall terminate.~~

**Licensing Rules for Oracle Technology Programs and Oracle Business Intelligence Applications**

**Failover:** Subject to the conditions that follow below, Your license for the Programs listed on the US Oracle Technology Price List, which may be accessed at <http://www.oracle.com/us/corporate/pricing/price-list/index.html>, includes the right to run the licensed Program(s) on an unlicensed spare computer in a failover environment for up to a total of ten separate days in any given calendar year (for example, if a failover node is down for two hours on Tuesday and three hours on Friday, it counts as two days). The above right only applies when a number of machines are arranged in a cluster and share one disk array. When the primary node fails, the failover node acts as the primary node. Once the primary node is repaired, You must switch back to the primary node. Once the failover period has exceeded ten days, the failover node must be licensed. In addition, only one failover node per clustered environment is at no charge for up to ten separate days even if multiple nodes are configured as failover. Downtime for maintenance purposes counts towards the ten separate days limitation. When licensing options on a failover environment, the options must match the number of licenses of the associated database. Additionally, when licensing by Named User Plus, the user minimums are waived on one failover node only. Any use beyond the right granted in this section must be licensed separately. In a failover environment, the same license metric must be used for the production and failover nodes when licensing a given clustered configuration.

**Testing:** For the purpose of testing physical copies of backups, Your license for the Oracle Database (Enterprise Edition, Standard Edition or Standard Edition One) includes the right to run the database on an unlicensed computer for up to four times, not exceeding 2 days per testing, in any given calendar year. The aforementioned right does not cover any other data recovery method - such as remote mirroring - where the Oracle Program binary files are copied or synchronized.

You are responsible for ensuring that the following restrictions are not violated:

- Oracle Database Standard Edition 2 may only be licensed on servers that have a maximum capacity of 2 sockets. When used with Oracle Real Application Clusters, Oracle Database Standard Edition 2 may only be licensed on a maximum of 2 one-socket servers. In addition, notwithstanding any provision in Your Oracle license agreement to the contrary, each Oracle Database Standard Edition 2 database may use a maximum of 16 CPU threads at any time. When used with Oracle Real Application Clusters, each Oracle Database Standard Edition 2 database may use a maximum of 8 CPU threads per instance at any time. If You purchase Named User Plus (NUP) licenses, You must maintain a minimum of 10 NUP per server.
- If you are licensing the Oracle database Program, you may not cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of data formats included in or produced by that Program; the foregoing includes a prohibition on reverse engineering of code, data structure, file formats or memory formats included in or produced by that Program or use of any tools or products that have been derived from the reverse engineering of that Program or those data formats.
- Exadata Database In-Memory may only be used on Exadata Database Machines and Oracle Superclusters.
- Exadata Multitenant may only be used on Exadata Database Machines and Oracle Superclusters.
- WebLogic Server Standard Edition does not include WebLogic Server Clustering.
- Business Intelligence Standard Edition One can only be licensed on servers that have the ability to run a maximum of 2 sockets. The data sources for BI Server and BI Publisher are limited to the included Oracle Standard Edition One, one other database, and any number of flat file sources such as CSV, and XLS. You may use Oracle Warehouse Builder Core ETL to pull data from any number of data sources but You must use only the included Oracle Standard Edition One as the target database.
- Informatica PowerCenter and PowerConnect Adapters may not be used on a standalone basis or as a standalone ETL tool. The Informatica PowerCenter and PowerConnect Adapters may be used with any data source provided the target(s) are: (i) the Oracle Business Intelligence applications Programs (excluding Hyperion Enterprise Performance Management Applications), (ii) the underlying platforms on which the Oracle Business Intelligence Extended Edition Program, Oracle Business Intelligence Standard Edition One or associated components of those Business Intelligence applications Programs run, or (iii) a staging database for any of the foregoing. Informatica PowerCenter and PowerConnect Adapters may also be used where the Oracle Business Intelligence applications Programs (excluding Hyperion Enterprise Performance Management Applications) are the source and non-Oracle Business Intelligence application Programs are the target, provided, that users do not use Informatica PowerCenter and PowerConnect Adapters to transform the data.
- With respect to the Java SE Advanced and Java SE Suite Programs, You may not create, modify, or change the behavior of, or authorize Your users to create, modify, or change the behavior of, classes, interfaces, or subpackages that are in any way identified as "java", "javax", "sun" or "oracle" or any variation of the aforementioned naming conventions. The installation and auto-update processes for these Programs transmit a limited amount of data to Oracle (or its service provider) about those specific processes to help Oracle understand and optimize them. Oracle does not associate the data with personally identifiable information. You can find more information about the data Oracle collects at <http://oracle.com/contracts>. Additional copyright notices and license terms applicable to portions of the Programs are set forth at <http://oracle.com/contracts>.

For a list of excluded Programs please review the Applications Licensing Table, which may be accessed at <http://oracle.com/contracts>. Notwithstanding anything above, Oracle Business Intelligence Suite Extended Edition for Oracle Applications may only be used with "eligible" Oracle application Programs that contain "Oracle Fusion Human Capital Management" as a prefix in the Program name provided that the Oracle Fusion Human Capital Management Programs are the only Programs configured to run against the database instance Oracle Business Intelligence Suite Foundation Edition for Oracle Applications may also be used with the Oracle Product Information Management Analytics, Fusion Edition, Oracle Customer Data Management Analytics, Fusion Edition and Oracle Product Lifecycle Analytics Programs. Any use of limited use Programs containing "for Oracle Applications" by other Oracle applications or third party applications is not permitted.
- Oracle BPEL Process Manager Option for Oracle Applications may be used only to enable business processes, workflow interactions and approvals within eligible Oracle Applications. Workflow interactions between eligible Oracle Applications and, other Oracle Applications or third party applications are allowed as long as they are enabled/initiated within the eligible Oracle Applications. Business Processes defined in BPEL are allowed as long as at least one of the services invoked from within the Business Process access an eligible Oracle Application either natively (via Web Services) or via an adapter.
- Oracle Business Intelligence Suite Foundation Edition for Oracle Applications may be used only to perform query, reporting and analysis against a transaction database, data warehouse or an Essbase OLAP cube if: (i) the transaction database is an eligible Oracle Applications transaction database itself or an extension, in whole or in part, of an eligible Oracle Applications transaction database, without transformation (query, reporting and analysis against a transaction database that is not an eligible Oracle Applications transaction database requires a full use license of Oracle Business Intelligence Suite Foundation Edition); or (ii) the data warehouse is a pre-packaged eligible Oracle Applications data warehouse, with any customizations necessary to reflect customizations made in the eligible Oracle Applications, and restricted only to the eligible Oracle Applications sources (query, reporting and analysis against extensions to the data warehouse drawn from source systems not supported by the pre-packaged data warehouse require a full use license of Oracle Business Intelligence Suite Foundation Edition); or (iii) the dimensions of each Essbase OLAP Cube are sourced from eligible Oracle Applications.
- Oracle WebLogic Suite for Oracle Applications may be used only as an embedded runtime for eligible Oracle Applications or to deploy customizations to an eligible Oracle Application. The WebLogic global datasource or one of the WebLogic application datasources must be configured to access the schema of an eligible Oracle Application.

Usage of SOA composites (including but not limited to Rules, Mediator, XSLT transforms, BPEL processes, Spring components, Workflow services and OWSM security policies) is allowed as long as at least one of the services invoked from within each composite accesses an eligible Oracle Application either natively (via Web services) or via an adapter and the invocation is part of a flow that is either initiated or terminated within eligible Oracle Applications. Oracle Service Bus (OSB) usage is allowed as long as each service deployed accesses an eligible Oracle Application either natively (via Web services) or via an adapter.
- Oracle WebCenter Portal for Oracle Applications may be used only to surface eligible Oracle Application(s) and custom applications (collectively, "eligible applications"). Surfacing any third-party applications, including other applications from Oracle, requires a license for Oracle WebCenter Portal. Multiple eligible applications may be surfaced in a single portal instance provided that a WebCenter Portal for Oracle Applications license exists for each eligible application surfaced in the portal. WebCenter Portal for Oracle Applications may be used to integrate the various WebCenter services (e.g., wikis, blogs, and discussions) into an application context, as well as to build out custom workflows and notifications between the eligible application and WebCenter Portal components. The content management features of the Oracle WebCenter Portal for Oracle

Applications Program may be used to store and manage documents created outside of the eligible application provided that such documents are related to the eligible application or to the application context.

- Oracle WebCenter Imaging for Oracle Applications may be used to create and modify imaging searches, to modify pre-packaged imaging application document types, and to create and modify input mappings to imaging applications. Oracle WebCenter Imaging for Oracle Applications may also be used to invoke web service application programming interfaces (API's) from Oracle Application workflows. A license for WebCenter Imaging for Oracle Applications is required to define new document types for the management of images unrelated to a pre-packaged Oracle Applications integration, to develop custom workflows, and to invoke APIs from custom workflows or custom application integrations.
- Oracle Identity and Access Management Suite Plus for Oracle Applications may be used only to perform associated actions for users of and within the eligible Oracle Applications. The Programs may be used to do the following: (1) add, delete, modify, and manage user identities and roles in the eligible Oracle Applications; (2) provide web access management and single sign-on into eligible Oracle Applications; (3) provide data storage or virtualization to data storage of user identities and user identity related information or authentication and authorization policies for eligible Oracle Applications; (4) provide federated single sign-on to eligible Oracle Applications.
- Oracle Coherence Enterprise Edition for Oracle Applications may only be used within the same Java Virtual Machine as the eligible Oracle Application components.
- Oracle GoldenGate for Oracle Applications may only be used with the Oracle supplied integration jobs. Customization of the Oracle supplied integration jobs is allowed if necessitated by (i) customizations of the source application or of the target application or (ii) for performance tuning of the GoldenGate configuration. Oracle GoldenGate for Oracle Applications may not be used (i) for data replication to non-Oracle databases or (ii) by other Oracle applications or (iii) by third party applications for any type of data integration or replication purposes. For the avoidance of doubt, examples of other uses that are not permitted include, but are not limited to, the following: replicating data to non-Oracle databases (including MySQL), adding new source or target schemas, adding unsupported application modules to source or target schemas, supporting other replication topologies (e.g., active-active or multi-master) or adding anything not supplied by Oracle.
- The license for the Hyperion Planning Plus Program includes a limited use license for the Oracle Essbase Plus, Hyperion Financial Reporting and Hyperion Web Analytic Programs. Such limited use license means that the Oracle Essbase Plus, Hyperion Financial Reporting and Hyperion Web Analytic Programs may only be used to access data from the Hyperion Planning Plus Program. The Oracle Data Integrator for Oracle Business Intelligence Program may be used to load data from any data source provided that the target database is the Hyperion Planning Plus Program. Specifically, the Oracle Essbase Plus Program cannot be used to create Essbase cubes that do not contain data used by the Hyperion Planning Plus Program and the Aggregate Storage option component of the Oracle Essbase Plus Program may not be used.
- The license for the Hyperion Profitability and Cost Management Program includes a limited use license for the Oracle Essbase Plus, Hyperion Financial Reporting, Hyperion Web Analysis and Oracle Data Integrator for Business Intelligence Programs. Such limited use license means that the Oracle Essbase Plus, Hyperion Financial Reporting, Hyperion Web Analysis and Oracle Data Integrator for Business Intelligence Programs may only be used to access data from the Hyperion Profitability and Cost Management Program. Specifically, the Oracle Essbase Plus Program cannot be used to create Essbase cubes that do not contain data used by the Hyperion Profitability and Cost Management Program and the Aggregate Storage option component of the Oracle Essbase Plus Program may not be used.

Failover: Subject to the conditions that follow below, Your license for the following Programs: Oracle DIVA Program (Oracle DIVArchive Manager, Oracle DIVArchive Auto Connectivity, Oracle DIVArchive Application Filtering, Oracle DIVArchive Storage Plan Manager, Oracle DIVArchive Export / Import, and Oracle DIVArchive Automatic Data Migration) includes the right to run the licensed Program(s) on an unlicensed spare computer in a failover environment for up to a total of ten separate days in any given calendar year (for example, if a failover node is down for two hours on Tuesday and three hours on Friday, it counts as two days). Once the failover period has exceeded ten days, the failover node must be licensed. Downtime for maintenance purposes counts towards the ten separate days limitation. Any use beyond the right granted in this section must be licensed separately.

**EXHIBIT C**  
**ORACLE SOFTWARE PROGRAMS AND/OR SERVICES US COMMUNITIES SUPPLEMENTAL**  
**TERMS AND CONDITIONS v032819**

**EXHIBIT C**

**ORACLE SOFTWARE PROGRAMS AND/OR SERVICES**  
**US COMMUNITIES SUPPLEMENTAL TERMS AND CONDITIONS v032819**

THESE ORACLE SOFTWARE PROGRAM AND/OR SERVICES US COMMUNITIES ("USC") SUPPLEMENTAL TERMS AND CONDITIONS ("SOFTWARE STCs") SHALL APPLY TO THE ORACLE SOFTWARE PROGRAMS AND/OR SERVICES THAT YOU ORDER FROM THE CONTRACT HOLDER (THE "CONTRACTOR"). THESE SOFTWARE STCs SHALL TAKE PRECEDENCE OVER ANY CONFLICTING TERMS IN ANY NON-ORACLE ORDER OR ORDERING DOCUMENTATION. THESE SOFTWARE STCs ARE CONSIDERED PART OF THE SCHEDULE OF SUPPLIES/SERVICES IN YOUR ORDER TO THE CONTRACTOR.

**A. Definitions**

"You" and "Your" refers to the ordering activity that has ordered programs, and/or services from an authorized distributor ("Contractor") under the contract.

The term "ancillary programs" refers to third party materials specified in the program documentation which may only be used for the purposes of installing or operating the programs with which the ancillary programs are delivered.

The term "contract" refers to the Contractor's US Communities contract.

The term "program documentation" refers to the program user manual and program installation manuals.

The term "programs" refers to the software products owned or distributed by Oracle which you have ordered, program documentation, and any program updates acquired through technical support.

The term "services" refers to annual technical support services which you have ordered.

**B. Rights Granted**

Upon Contractor's acceptance of your order, you have the non-exclusive, non-assignable, royalty free, perpetual (unless otherwise specified in your order with Contractor), limited right to use the programs and receive any services you ordered solely for your internal ordering activity operations and subject to the terms of these, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You may allow your agents and contractors (including, without limitation, outsourcers) to use the programs for this purpose and you are responsible for their compliance with these Software STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation in such use. For programs that are specifically designed to allow your customers and suppliers to interact with you in the furtherance of your internal business operations, such use is allowed.

## EXHIBIT C

### C. Ownership and Restrictions

Oracle or its licensors retain all ownership and intellectual property rights to the programs. Oracle retains all ownership and intellectual property rights to anything developed by Oracle and delivered under your order resulting from services. You may make a sufficient number of copies of each program for your licensed use and one copy of each program media.

Third party technology that may be appropriate or necessary for use with some Oracle programs is specified in the program documentation. Such third party technology is licensed to you under the terms of the third party technology license agreement specified in the program documentation and not under the terms of the contract or these Software STCs.

You may not:

- use the programs in a rental, timesharing, subscription service, hosting or outsourcing capacity;
- remove or modify any program markings or any notice of Oracle's or its licensors' proprietary rights;
- make the programs or materials resulting from the services available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted for the specific program license or materials from the services you have acquired);
- cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the programs (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by programs), operating system or integrated software; or
- disclose results of any program benchmark tests.

### D. Warranties, Disclaimers and Exclusive Remedies

For the sake of clarity, this is the Oracle manufacturer's warranty; nevertheless, it shall be accessed by you through the Contractor.

Oracle warrants that a program licensed to you will operate in all material respects as described in the applicable program documentation for one year from delivery (i.e. via physical shipment or electronic download). You must notify Oracle of any program warranty deficiency within one year from delivery. **ORACLE DOES NOT GUARANTEE THAT THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED, OR THAT ORACLE WILL CORRECT ALL PROGRAM ERRORS.**

Oracle also warrants that services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any services warranty deficiencies within 90 days from performance of the deficient services.

**FOR ANY BREACH OF THE ABOVE WARRANTIES, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE: (A) THE CORRECTION OF PROGRAM ERRORS THAT CAUSE BREACH OF THE WARRANTY; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT SUCH BREACH IN A COMMERCIALY REASONABLE MANNER YOU MAY END YOUR PROGRAM LICENSE AND RECOVER THE FEES PAID TO ORACLE FOR THE PROGRAM LICENSE DISTRIBUTED TO YOU; OR (B) THE REPERFORMANCE OF THE DEFICIENT SERVICES PROVIDED BY ORACLE; OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THOSE SERVICES AND RECOVER THE FEES PAID TO ORACLE FOR THE DEFICIENT SERVICES PROVIDED BY ORACLE TO YOU.**

## EXHIBIT C

TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS WITH RESPECT TO THE ABOVE ITEMS, INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

### E. Technical Support

Technical support consists of annual technical support services you may have ordered or will order for the programs, including support renewals. Support must be ordered pursuant to a valid End User License Agreement such as these Software STCs. Bug fixes, security fixes and any updates received shall be provided under the terms of the license agreement that You accepted upon ordering the programs.

If ordered, annual technical support (including first year and all subsequent years) for programs is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported programs during the period for which technical support has been ordered. You should review the policies prior to entering into an order for the applicable services. You may access the current version of the technical support policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request. Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your SULS fee for the first renewal year should you renew SULS for the same number of licenses for the same programs as contained in the original order; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the program is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you decide to purchase technical support at a later date. Technical support for programs is effective upon shipment of tangible media or upon the effective date of the order if shipment of tangible media is not required.

Invoices for technical support services shall be submitted by Contractor on a quarterly basis (unless otherwise specified in the order) after the completion of such period.

Notwithstanding anything in Oracle's technical support policies to the contrary, you may discontinue technical support at the end of any current technical support term and, at any time thereafter, reinstate technical support by executing an order for such services with Contractor. If you decide to reinstate technical support, you must pay a reinstatement fee. The reinstatement fee shall be the amount that would have been paid by the ordering activity for the past support period had technical support not lapsed. In addition to the reinstatement fee described in the preceding sentence, you must pay the technical support fee for the new support period. This technical support fee for the new support period is computed as follows: (i) if technical support lapsed, then the technical support fee for a twelve month support period shall be the last annual technical support fee you paid for the relevant program; (ii) if you never acquired technical support for the relevant program, then the annual technical support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

## EXHIBIT C

**F. Intellectual Property Indemnification**

If someone makes a claim against you or Oracle ("Recipient" which may refer to you or Oracle depending upon which party received the Material), that any information, design, specification, instruction, software, data, or material ("Material") furnished by either you or Oracle ("Provider", which may refer to you or Oracle depending on which party provided the Material), and used by the Recipient infringes its intellectual property rights (including U.S. or foreign patent, trademark and copyright), the Provider will indemnify the Recipient against the claim to the extent permitted by law if the Recipient does the following:

- o notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim;
- o gives the Provider control of the defense, with input from Recipient, and any settlement negotiations; and
- o gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund any fees the Recipient may have paid for it. If you are the Provider and such return materially affects Oracle's ability to meet its obligations under the relevant order (e.g., impairs Oracle's ability to perform due to a work statement, schedule or cost impact), then Oracle may, at its option and upon 30 days prior written notice, request termination of the order. The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient, or if the Recipient continues to use the applicable Material after the end of the license to use that Material. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Oracle. Oracle will not indemnify you for infringement caused by your actions against any third party if the Oracle program(s) as delivered to you and used in accordance with the terms of the order and the Software STCs would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify you for any infringement claim that is based on: (1) a patent that you were made aware of prior to the effective date of your order with Contractor (pursuant to a claim, demand, or notice); or (2) your actions prior to the effective date of your order with Contractor.

This section provides Your and Oracle's exclusive remedy for any infringement claims or damages.

**G. NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. CONTRACTOR'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO AN ORDER ISSUED PURSUANT TO THESE SOFTWARE STCs, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID CONTRACTOR UNDER THE RELEVANT ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF PROGRAMS, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID CONTRACTOR FOR**

## EXHIBIT C

### THE DEFICIENT PROGRAM, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES GIVING RISE TO THE LIABILITY.

#### H. Other

1. You may not assign orders or give or transfer the programs and/or any services or an interest in them to another individual or entity. If you grant a security interest in the programs and/or any services deliverables, the secured party has no right to use or transfer the programs and/or any services deliverables, and if you decide to finance your acquisition of programs and/or any services, you will follow Oracle's policies regarding financing which are at <http://oracle.com/contracts>. The foregoing shall not be construed to limit the rights you may otherwise have with respect to the Linux operating system, third party technology or separate works licensed under open source or similar license terms.

2. In entering into an order under the contract, you agree and acknowledge that you have not relied on the future availability of any program or updates. However, (a) if you order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the relevant order, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to you for any program licensed under the order, per the terms of these Software STCs.

#### 0. Accessibility

The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as 'Section 508') effective as of June, 2001, or the Revised version in Appendix A (known as 'Revised Section 508') effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Templates (VPAT) available at [www.oracle.com/us/corporate/accessibility](http://www.oracle.com/us/corporate/accessibility) for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at [accessible\\_ww@oracle.com](mailto:accessible_ww@oracle.com). In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS is available at <http://www.fcc.gov/cgb/consumerfacts/trs.html>, and a list of telephone numbers is available at <https://www.fcc.gov/general/telecommunications-relay-services-directory>. International hearing-impaired customers should use the TRS at +1.605.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the availability of VPATs. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Oracle products provided under these Software STCs.

#### 1. Internet Protocol version 6 (IPv6).

Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at [oracle.com](http://oracle.com). Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance

## EXHIBIT C

with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Oracle products provided under these Software STCs.

5. Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the programs. You agree that such export laws govern your use of the programs (including technical data), and any services deliverables provided under your order, and you agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, program, and/or materials resulting from services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology.

6. Oracle, as the owner of the intellectual property of the program licensed and the technical support services, is a third party beneficiary of the contract and the orders for Oracle products issued pursuant to the contract, but does not assume any of the Oracle authorized reseller's obligations thereunder.

7. The Uniform Computer Information Transactions Act does not apply to these Software STCs nor any order placed pursuant to them.

8. You understand that the Contractor and Oracle's business partners, including any third party firms retained by you to provide computer consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not bound by any acts of any such entity, unless the entity is providing services as an Oracle subcontractor under an engagement ordered directly with Oracle.

9. You may order trial programs, or Oracle may include additional programs with your order with Contractor which you may use for trial, non-production purposes only. You may not use the trial programs to provide or attend third party training on the content and/or functionality of the programs. You have 30 days from the delivery date to evaluate these programs. If you decide to use any of these programs after the 30-day trial period, you must obtain a license for such programs from Oracle or an authorized distributor. If you decide not to obtain a license for any program after the 30 day trial period, you will cease using and delete any such programs from your computer systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these programs.

10. Unless otherwise agreed in an order, upon 45 days written notice, and no more than once annually, Contractor may audit your use of the programs. You agree to cooperate with Contractor's audit, provide reasonable assistance and access to information and permit Contractor to report the audit results to Oracle. Any such audit shall not unreasonably interfere with your normal business operations. Contractor shall comply with reasonable security and safety rules, policies, and procedures ("security rules") while performing any such audit, provided that such security rules are applicable to the performance of the audit; you make such security rules available to Contractor prior to the commencement of the audit; and such security rules do not modify or amend the terms and conditions of the contract or the applicable order. You shall be responsible for paying any underpaid fees related to use of the programs. Contractor may assign its right to audit your use of the programs to Oracle. Contractor may assign its right to audit your use of the programs to Oracle. If the Contractor assigns its right to audit your use of the programs to Oracle, then Oracle shall not be responsible for any costs incurred by either you or Contractor in cooperating with the audit.

## EXHIBIT C

11. Upon termination of a program license, you are required to discontinue use and destroy or return to the Contractor all copies of the programs and program documentation associated with the terminated license.

12. Source code maybe delivered as part of the standard delivery for particular programs; all such source code is subject to the terms of these Software STCs, including the Oracle License Definitions and Rules, the applicable order, the contract and the applicable program documentation.

13. Programs and service deliverables are not designed for or specifically intended for use in nuclear facilities or other hazardous applications. You agree that it is Your responsibility to ensure safe use of Products and Service Offerings deliverables in such applications.

14. For software (i) that is part of Programs, Operating Systems, Integrated Software or Integrated Software Options (or all four) and (ii) that You receive from Oracle in binary form and (iii) that is licensed under an open source license that gives You the right to receive the source code for that binary, You may obtain a copy of the applicable source code from <https://oss.oracle.com/sources/> or <http://www.oracle.com/goto/opensourcecode>. If the source code for such software was not provided to You with the binary, You may also receive a copy of the source code on physical media by submitting a written request pursuant to the instructions in the "Written Offer for Source Code" section of the latter website.

15. Oracle's Applications Licensing Table in effect as of the effective date of your order and is incorporated herein as Exhibit A. You may access the current version of the Applications Licensing Table at <http://oracle.com/contracts>.

16. Oracle's License Definitions and Rules are incorporated herein. You may access the current version of the License Definitions and Rules at <http://oracle.com/contracts>.

17. If any document incorporated by reference into these Software STCs, including the License Definitions and Rules and terms included and/or referenced therein, contains a provision (a) allowing for the automatic termination of your license rights or technical support services; or (b) allowing for the automatic renewal of services and/or fees, then, such terms shall not apply.

**EXHIBIT D**  
**ORACLE CLOUD SERVICES TERMS AND CONDITIONS**

**ORACLE CLOUD SERVICES US COMMUNITIES SUPPLEMENTAL TERMS AND CONDITIONS**  
**v041818**

**THESE ORACLE CLOUD SERVICES US COMMUNITIES ("USC") SUPPLEMENTAL TERMS AND CONDITIONS ("CLOUD STCS") SHALL APPLY TO THE ORACLE CLOUD SERVICES THAT YOU ORDER FROM THE CONTRACT HOLDER (THE "CONTRACTOR"). THESE CLOUD STCS SHALL TAKE PRECEDENCE OVER ANY CONFLICTING TERMS IN ANY NON-ORACLE ORDER OR ORDERING DOCUMENTATION. THESE CLOUD STCS ARE CONSIDERED PART OF THE SCHEDULE OF SUPPLIES/SERVICES IN YOUR ORDER TO THE CONTRACT.**

**A. Definitions**

"You" and "Your" refers to the ordering activity that has ordered Oracle Services from an authorized distributor ("Contractor") under the Contract.

The term "Contract" refers to the Contractor's US Communities contract.

The term "Oracle Software" means any software agent, application or tool that Oracle makes available to You for download specifically for the purpose of facilitating Your access to, operation of, and/or use with, the Services.

The term "Program Documentation" refers to the user manuals, help windows, readme files for the Services and any Oracle Software. You may access the documentation online at <http://oracle.com/contracts> or such other address specified by Oracle.

The term "Service Specifications" means the following documents, as applicable to the Services under Your order: (a) the Cloud Hosting and Delivery Policies, the Program Documentation, the Oracle service descriptions, and the Data Processing Agreement described in these Cloud STCs; (b) Oracle's privacy policies; and (c) any other Oracle documents that are referenced in or incorporated into Your order as required by the Contractor. The following do not apply to any non-Cloud Oracle service offerings acquired in Your order, such as professional services: the Cloud Hosting and Delivery Policies, Program Documentation, and the Data Processing Agreement. The following do not apply to any Oracle Software: the Cloud Hosting and Delivery Policies, Oracle service descriptions, and the Data Processing Agreement.

The term "Third Party Content" means all software, data, text, images, audio, video, photographs and other content and material, in any format, that are obtained or derived from third party sources outside of Oracle that You may access through, within, or in conjunction with Your use of, the Services. Examples of Third Party Content include data feeds from social network services, rss feeds from blog posts, Oracle data marketplaces and libraries, dictionaries, and marketing data. Third party content includes third-party sourced materials accessed or obtained by Your use of the Services or any Oracle-provided tools.

The term "Users" means for Services, those employees, contractors, and end users, as applicable, authorized by You or on Your behalf to use the Services in accordance with these Cloud STCs and Your order. For Services that are specifically designed to allow Your clients, agents, customers, suppliers, or other third parties to access the Services to interact with You, such third parties will be considered "Users" subject to the terms of these Cloud STCs and Your order.

The term "Your Content" means all software, data (including Personal Data as that term is defined in the Data Processing Agreement), text, images, audio, video, photographs, non-Oracle or third party applications, and other content and material, in any format, provided by You or any of Your Users that is stored in, or run on or through, the Services. Services under these Cloud STCs, Oracle Software,

## EXHIBIT D

other Oracle products and services, and Oracle intellectual property, and all derivative works thereof, do not fall within the meaning of the term "Your Content". Your content includes any Third Party Content that is brought by You into the Services, by Your use of the Services or any Oracle provided tools.

### B. Use of Services

Upon Contractor's acceptance of Your order, Oracle will make the Oracle services listed in Your order (the "Services") available to You pursuant to these Cloud STCs and Your order. Except as otherwise stated in these Cloud STCs or Your order, You have the non-exclusive, worldwide, limited right to use the Services during the period defined in Your order (the "Service Period"), solely for Your internal business operations. You may allow Your Users to use the Services for this purpose and You are responsible for Your Users' compliance with these Cloud STCs and the order.

The Service Specifications describe and govern the Services. During the Services Period, Oracle may update the Services and Service Specifications (with the exception of the Data Processing Agreement as described below) to reflect changes in, among other things, laws, regulations, rules, technology, industry practices, patterns of system use, and availability of Third Party Content. Oracle updates to the Services or Service Specifications will not materially reduce the level of performance, functionality, security or availability of the Services during the Services Period of Your order.

You may not, and may not cause or permit others to: (a) use the Services to harass any person; cause damage or injury to any person or property; publish any material that is false, defamatory, harassing or obscene; violate privacy rights; promote bigotry, racism, hatred or harm; send unsolicited bulk e-mail, junk mail, spam or chain letters; infringe property rights; or otherwise violate applicable laws, ordinances or regulations; (b) perform or disclose any benchmarking or availability testing of the Services; (c) perform or disclose any performance or vulnerability testing of the Services without Oracle's prior written approval, or perform or disclose network discovery, port and service identification, vulnerability scanning, password cracking or remote access testing of the Services; or (d) use the Services to perform cyber currency or crypto currency mining ((a) through (d) collectively, the "Acceptable Use Policy"). In addition to other rights that Oracle has in these Cloud STCs and Your order, Oracle has the right to take remedial action if the Acceptable Use Policy is violated, and such remedial action may include removing or disabling access to material that violates the policy.

### C. Ownership Rights and Restrictions

You and Your licensors retain all ownership and intellectual property rights in and to Your Content. Oracle or its licensors retain all ownership and intellectual property rights to the Services, derivative works thereof, and to anything developed or delivered by or on behalf of Oracle under Your order.

You may have access to Third Party Content through use of the Services. Unless otherwise stated in Your order, all ownership and intellectual property rights in and to Third Party Content and the use of such content is governed by separate third party terms between You and the third party.

You grant Oracle the right to host, use, process, display and transmit Your Content to provide the Services pursuant to and in accordance with these Cloud STCs and Your order. You have sole responsibility for the accuracy, quality, integrity, legality, reliability, and appropriateness of Your Content, and for obtaining all rights related to Your Content required by Oracle to perform the Services.

You may not, and may not cause or permit others to: (a) modify, make derivative works of, disassemble, decompile, reverse engineer, reproduce, republish, download or copy any part of the Services (including data structures or similar materials produced by programs); (b) access or use the Services to build or support, directly or indirectly, products or services competitive to Oracle; or (c) license, sell, transfer, assign, distribute, outsource, permit timesharing or service bureau use of, commercially exploit, or make available the Services to any third party except as permitted by these Cloud STCs or Your order.

## EXHIBIT D

### D. Term and Termination

Services shall be provided for the Services Period defined in Your order, unless earlier suspended or terminated in accordance with these Cloud STCs. These Cloud STCs will continue to govern any order for the duration of the Services Period of such order.

If You order Services that are designated in the Service Specifications or Your order as Services that will be automatically extended, such Services will NOT automatically be extended for an additional Services Period of the same duration. To extend the Services, You must provide Contractor with written notice no later than thirty (30) days prior to the end of the applicable Services Period of Your intention to renew such Services and You execute an order modification or enter into a new order to renew such Services. The preceding sentence shall not apply if Contractor provides You with written notice no later than ninety (90) days prior to the end of the applicable Services Period of its intention not to renew such Services.

Oracle may suspend Your or Your Users' access to, or use of, the Services if Oracle believes that (a) there is a significant threat to the functionality, security, integrity, or availability of the Services or any content, data, or applications in the Services; (b) You or Your Users are accessing or using the Services to commit an illegal act; or (c) there is a violation of the Acceptable Use Policy. When reasonably practicable and lawfully permitted, Oracle will provide You with advance notice of any such suspension. Oracle will use reasonable efforts to re-establish the Services promptly after Oracle determines that the issue causing the suspension has been resolved. During any suspension period, Oracle will make Your Content (as it existed on the suspension date) available to You. Any suspension under this paragraph shall not excuse You from Your obligation to make payments under these Cloud STCs or Your order.

If Oracle, the Contractor, or You breach a material term of Your order, including these Cloud STCs, and fails to correct the breach within 30 days of written specification of the breach, then a nonbreaching party may terminate the order under which the breach occurred. If Contractor terminates the order as specified in the preceding sentence, You must pay within thirty (30) days all amounts that have accrued prior to such termination, as well as all sums remaining unpaid for the Services under such order plus related taxes and expenses. Except for nonpayment of fees, the nonbreaching parties may agree in their sole discretion to extend the thirty (30) day period for so long as the breaching party continues reasonable efforts to cure the breach. You agree that if You are in default under Your order or Your contract (including these Cloud STCs) with Contractor, You may not use those Services ordered.

You may terminate the Contract or Your order at any time without cause by giving Contractor 30 days' prior written notice of such termination. Termination of the Contract will not affect orders that are outstanding at the time of termination. Those orders will be performed according to their terms as if the Contract and these Cloud STCs were still in full force and effect. However, those orders may not be renewed or extended subsequent to termination of the Contract.

For a period of no less than 60 days after the end of the Services Period of an order, Oracle will make Your Content (as it existed at the end of the Services Period) available for retrieval by You. At the end of such 60-day retrieval period, and except as may be required by law, Oracle will delete or otherwise render unrecoverable any of Your Content that remains in the Services. Oracle's data deletion practices are described in more detail in the Service Specifications.

Provisions in these Cloud STCs that survive termination or expiration of the Contract are those relating to limitation of liability, indemnification, payment and others which by their nature are intended to survive.

### E. Fees and Taxes

Fees paid for Services performed are non-refundable, except as provided in these Cloud STCs or Your order. Fees for Services offerings are invoiced in arrears of the service performance. Fees for Services listed in an order are exclusive of taxes and expenses.

## EXHIBIT D

You agree and acknowledge that You have not relied on the future availability of any services, programs or updates in executing Your order; however, the preceding does not relieve Oracle of its obligation during the Services Period to deliver services that You have ordered per the terms of these Cloud STCs.

### F. Nondisclosure

By virtue of Your order and these Cloud STCs, Oracle, the Contractor and You may disclose to each other information that is confidential ("Confidential Information"). Confidential information shall be limited to the terms and pricing under these Cloud STCs and Your order, Your Content residing in the Services, and all information clearly identified as confidential at the time of disclosure.

A party's Confidential Information shall not include information that: (a) is or becomes a part of the public domain through no act or omission of the other party; (b) was in the other party's lawful possession prior to the disclosure and had not been obtained by the other party either directly or indirectly from the disclosing party; (c) is lawfully disclosed to the other party by a third party without restriction on the disclosure; or (d) is independently developed by the other party.

Subject to applicable law, Oracle, the Contractor and You each agree not to disclose each other's Confidential Information to any third party other than as set forth in the following sentence for a period of five years from the date of the disclosing party's disclosure of the Confidential Information to the receiving party; however, Oracle will protect the confidentiality of Your Content residing in the Services for as long as such information resides in the Services. Each party may disclose Confidential Information only to those employees, agents or subcontractors who are required to protect it against unauthorized disclosure in a manner no less protective than required under these Cloud STCs, and each party may disclose the other party's Confidential Information in any legal proceeding or to a governmental entity as required by law. Oracle will protect the confidentiality of Your Content resident in the Services in accordance with the Oracle security practices defined as part of the Service Specifications applicable to Your order.

The parties acknowledge and agree that You and these Cloud STCs are subject to applicable freedom of information or open records law. Should You receive a request under such law for Oracle's Confidential Information, You agree to give Oracle adequate prior notice of the request and before releasing Oracle's Confidential Information to a third party, in order to allow Oracle sufficient time to seek injunctive relief or other relief against such disclosure.

### G. Protection of Your Content

In order to protect Your Content provided to Oracle as part of the provision of the Services, Oracle will comply with the following:

- a. the relevant Oracle privacy policies applicable to the Services ordered, available at <http://www.oracle.com/us/legal/privacy/overview/index.html>; and
- b. the applicable administrative, physical, technical and other safeguards, and other applicable aspects of system and content management, available at <http://www.oracle.com/us/corporate/contracts/cloud-services/index.html>.

To the extent Your Content includes Personal Data (as that term is defined in the Data Processing Agreement), Oracle will furthermore comply with the applicable version of the *Oracle Data Processing Agreement for Oracle Cloud Services* (the "Data Processing Agreement"), unless stated otherwise in Your order. The version of the Data Processing Agreement applicable to Your order (a) is available at <http://www.oracle.com/dataprocessingagreement> and is incorporated herein by reference, and (b) will remain in force during the Services Period of Your order. In the event of any conflict between the terms of the Data Processing Agreement and the terms of the Service Specifications (including any applicable Oracle privacy policies), the terms of the Data Processing Agreement shall take precedence.

You are responsible for (a) any required notices, consents and/or authorizations related to Your provision of, and Oracle's processing of, Your Content (including any Personal Data) as part of the Services, (b) any

## EXHIBIT D

security vulnerabilities, and the consequences of such vulnerabilities, arising from Your Content, including any viruses, Trojan horses, worms or other harmful programming routines contained in Your Content, and (c) any use by You or Your Users of the Services in a manner that is inconsistent with the terms of these Cloud STCs. You may disclose or transfer, or instruct Oracle to disclose or transfer in writing, Your Content to a third party, and upon such disclosure or transfer, Oracle is no longer responsible for the security, integrity or confidentiality of such content outside of Oracle.

Unless otherwise specified in Your order (including in the Service Specifications), Your Content may not include any sensitive or special data that imposes specific data security or data protection obligations on Oracle in addition to or different from those specified in the Service Specifications. If available for the Services, You may purchase additional services from us (e.g., Oracle Payment Card Industry Compliance Services) designed to address specific data security or data protection requirements applicable to such sensitive or special data You seek to include in Your Content.

### **H. Warranties, Disclaimers and Exclusive Remedies**

For the sake of clarity, this is Oracle's warranty; nevertheless, it shall be accessed by You through the Contractor.

Oracle warrants that during the Services Period, Oracle will perform Services using commercially reasonable care and skill in all material respects as described in the Service Specifications. If the Services provided to You were not performed as warranted, You must promptly provide written notice to Oracle that describes the deficiency in the Services (including, as applicable, the service request number notifying Oracle of the deficiency in the Services).

**ORACLE DOES NOT WARRANT THAT THE SERVICES WILL BE PERFORMED ERROR-FREE OR UNINTERRUPTED, THAT ORACLE WILL CORRECT ALL SERVICE ERRORS, OR THAT THE SERVICES WILL MEET YOUR REQUIREMENTS OR EXPECTATIONS. ORACLE IS NOT RESPONSIBLE FOR ANY ISSUES RELATED TO THE PERFORMANCE, OPERATION OR SECURITY OF THE SERVICES THAT ARISE FROM YOUR CONTENT OR THIRD PARTY CONTENT OR SERVICES PROVIDED BY THIRD PARTIES.**

**FOR ANY BREACH OF THE SERVICES WARRANTY, YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY SHALL BE THE CORRECTION OF THE DEFICIENT SERVICES THAT CAUSED THE BREACH OF THE WARRANTY, OR, IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE DEFICIENCY IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THE DEFICIENT SERVICES AND ORACLE WILL REFUND TO CONTRACTOR THE FEES FOR THE DEFICIENT SERVICES THAT CONTRACTOR PAID TO ORACLE FOR THE PERIOD OF TIME DURING WHICH THE SERVICES WERE DEFICIENT, AND CONTRACTOR WILL IN TURN REFUND TO YOU THE FEES FOR THE DEFICIENT SERVICES THAT YOU PAID TO CONTRACTOR FOR THE PERIOD OF TIME DURING WHICH THE SERVICES WERE DEFICIENT.**

**TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS INCLUDING FOR SOFTWARE, HARDWARE, SYSTEMS, NETWORKS OR ENVIRONMENTS OR FOR MERCHANTABILITY, SATISFACTORY QUALITY AND FITNESS FOR A PARTICULAR PURPOSE.**

### **I. Limitation of Liability**

**IN NO EVENT SHALL YOU, THE CONTRACTOR, ORACLE OR ANY PARTY'S AFFILIATES BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, EXEMPLARY OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF REVENUE, PROFITS (EXCLUDING FEES UNDER YOUR ORDER), SALES, DATA, DATA USE, GOODWILL, OR REPUTATION. CONTRACTOR'S MAXIMUM LIABILITY FOR ALL DAMAGES ARISING OUT OF OR RELATED TO YOUR ORDER, WHETHER IN CONTRACT, TORT OR OTHERWISE, SHALL IN NO EVENT EXCEED, IN THE AGGREGATE, THE TOTAL AMOUNTS ACTUALLY PAID TO CONTRACTOR FOR THE SERVICES UNDER YOUR ORDER IN THE TWELVE (12) MONTH PERIOD IMMEDIATELY PRECEDING THE**

## EXHIBIT D

**EVENT GIVING RISE TO SUCH LIABILITY LESS ANY REFUNDS OR CREDITS RECEIVED BY YOUR FROM CONTRACTOR UNDER SUCH ORDER.**

**IN NO EVENT SHALL THE AGGREGATE LIABILITY OF ORACLE AND ORACLE'S AFFILIATES ARISING OUT OF OR RELATED TO THESE CLOUD STCS OR YOUR ORDER, WHETHER IN CONTRACT, TORT OR OTHERWISE EXCEED THE TOTAL AMOUNTS ACTUALLY PAID TO ORACLE FOR THE SERVICES UNDER YOUR ORDER IN THE TWELVE (12) MONTH PERIOD IMMEDIATELY PRECEDING THE EVENT GIVING RISE TO SUCH LIABILITY LESS ANY REFUNDS OR CREDITS RECEIVED BY CONTRACTOR FROM ORACLE UNDER SUCH ORDER.**

### **J. Intellectual Property Indemnification**

If a third party makes a claim against You or Oracle ("Recipient" which may refer to You or Oracle depending upon which party received the Material), that any information, design, specification, instruction, software, service, data, hardware, or material (collectively "Material") furnished by either You or Oracle ("Provider" which may refer to You or Oracle depending on which party provided the Material) and used by the Recipient infringes the third party's intellectual property rights, the Provider, at the Provider's sole cost and expense will, to the extent not prohibited by law, defend the Recipient against the claim and indemnify Recipient from the damages, liabilities, costs and expenses awarded by the court to the third party claiming infringement or the settlement agreed to by the Provider if Recipient does the following:

- a. notifies the Provider promptly in writing, not later than 30 days after Recipient receives notice of the claim (or sooner if required by applicable law);
- b. gives the Provider sole control of the defense and any settlement negotiations; and
- c. gives the Provider the information, authority, and assistance Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated a third party's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund the fees the Recipient may have paid for such Material. If such return materially affects Oracle's ability to meet its obligations under the relevant order, then Oracle may upon 30 days prior written notice, terminate the order. If such Material is third party technology and the terms of the third party license do not allow Oracle to terminate the license, then Oracle may, upon 30 days' prior written notice, end the Services associated with such Material and refund any unused, prepaid fees for such Services.

The Provider will not indemnify the Recipient if the Recipient (a) alter the Material or use it outside the scope of use identified in the Provider's user documentation or Service Specifications, or (b) uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon Material not furnished by the Provider. Oracle will not indemnify You to the extent that an infringement claim is based on third Party Content or any Material from a third party portal or other source that is accessible or make available to You within or by the Services (e.g. a social media post from a third party blog or forum, a third party Web page accessed via a hyperlink, marketing data from a third party data providers, etc.

**This Section J provides the parties' exclusive remedy for any infringement claims or damages.**

### **K. Third Party Content, Services and Websites**

The Services may enable You to link to, transmit Your Content or Third Party Content to, or otherwise access, third parties' web sites, platforms, content, products, services, and information ("Third Parties Services"). Oracle does not control and is not responsible for Third Party Services. You are solely responsible for complying with the terms of access and use of Third Party Services, and if Oracle accesses

## EXHIBIT D

or uses any Third Party Services on Your behalf to facilitate performance of the Services, You are solely responsible for ensuring that such access and use, including through passwords, credentials or tokens issued or otherwise made available to You, is authorized by the terms of access and use for such services. If You transfer or cause the transfer of Your Content or Third Party Content from the Services to a Third Party Service or other location, that transfer constitutes a distribution by You and not by Oracle.

Any Third Party Content Oracle makes accessible is provided on an "as-is" and "as available" basis without any warranty of any kind. You acknowledge and agree that Oracle is not responsible for, and has no obligation to control, monitor, or correct, Third Party Content. Oracle disclaims all liabilities arising from or related to Third Party Content.

You acknowledge that: (i) the nature, type, quality and availability of Third Party Content may change at any time during the Services Period, and (ii) features of the Services that interoperate with third parties such as Facebook™, YouTube™ and Twitter™, etc., depend on the continuing availability of such third parties' respective application programming interfaces (APIs). Oracle may update, change or modify the Services under the Contract, as a result of a change in, or unavailability of, such Third Party Content, Third Party Services or APIs. If any third party ceases to make its Third Party Content or APIs available on reasonable terms for the Services, as determined by Oracle in its sole discretion, Oracle may cease providing access to the affected Third Party Content or third party services without any liability to You or the Contractor. Any changes to Third Party Content, Third Party Services or APIs, including their unavailability, during the Services Period does not affect Your obligations under the Contract, these Cloud STCs or the applicable order, and You will not be entitled to any refund, credit or other compensation due to any such changes.

### **L. Service Monitoring, Analyses and Oracle Software**

Oracle continuously monitors the Services to facilitate Oracle's operation of the Services; to help resolve Your service requests; to detect and address threats to the functionality, security, integrity, and availability of the Services as well as any content, data, or applications in the Services; and to detect and address illegal acts or violations of the Acceptable Use Policy. Oracle monitoring tools do not collect or store any of Your Content residing in the Services, except as needed for such purposes. Oracle does not monitor, and does not address issues with, non-Oracle software provided by You or any of Your Users that is stored in, or run on or through, the Services. Information collected by Oracle monitoring tools (excluding Your Content) may also be used to assist in managing Oracle's product and service portfolio, to help Oracle address deficiencies in its product and service offerings, and for license management purposes.

Oracle may (i) compile statistical and other information related to the performance, operation and use of the Services, and (ii) use data from the Services in aggregated form for security and operations management, to create statistical analyses, and for research and development purposes (clauses (i) and (ii) are collectively referred to as "Service Analyses"). Oracle may make Service Analyses publicly available; however, Service Analyses will not incorporate Your Content, Personal Data or Confidential Information in a form that could serve to identify You or any individual. Oracle retains all intellectual property rights in Service Analyses.

Oracle may provide You with the ability to obtain certain Oracle Software for use with the Services. If Oracle provides Oracle Software to You and does not specify separate terms for such software, then such Oracle Software is provided as part of the Services and You have the non-exclusive, worldwide, limited right to use such Oracle Software, subject to the terms of these Cloud STCs and Your order (except for separately licensed elements of the Oracle Software, which separately licensed elements are governed by the applicable separate terms), solely to facilitate Your use of the Services. You may allow Your Users to use the Oracle Software for this purpose, and You are responsible for their compliance with the license terms. Your right to use Oracle Software will terminate upon the earlier of Oracle's notice (by web posting or otherwise) or the end of these Services associated with the Oracle Software. Notwithstanding the foregoing, if Oracle Software is licensed to You under separate terms, then Your use of such software is governed by the separate terms. Your right to use any part of the Oracle Software that is licensed under

## EXHIBIT D

the separate terms is not restricted in any way by these Cloud STCs.

### **M. Export**

Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the Services. Such export laws govern Your use of the Services (including technical data) and any services deliverables provided under Your order, and You and Oracle each agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, software programs and/or materials resulting from Services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology.

You acknowledge that the Services are designed with capabilities for You and Your Users to access the Services without regard to geographic location and to transfer or otherwise move Your Content between the Services and other locations such as User workstations. You are solely responsible for the authorization and management of User accounts across geographic locations, as well as export control and geographic transfer of Your Content.

### **N. Force Majeure**

Neither You, Contractor, nor Oracle shall be responsible for failure or delay of performance if caused by: an act of war, hostility, or sabotage; act of God; pandemic; electrical, internet, or telecommunication outage that is not caused by the obligated party; government restrictions (including the denial or cancellation of any export, import or other license); or other event outside the reasonable control of the obligated party. All parties will use reasonable efforts to mitigate the effect of a force majeure event. If such event continues for more than 30 days, either You, Contractor, or Oracle may cancel unperformed Services and affected orders upon written notice. This Section does not excuse any party's obligation to take reasonable steps to follow its normal disaster recovery procedures or Your obligation to pay for the Services.

### **O. Assignment**

You may not assign Your order or give or transfer the Services, or an interest in the Services, to another individual or entity.

### **P. Other**

1. Oracle is an independent contractor, and each party agrees that no partnership, joint venture, or agency relationship exists between You and Oracle or between Contractor and Oracle.
2. Oracle's business partners and other third parties, including any third parties with which the Services have integrations or that are retained by You to provide consulting services, implementation services or applications that interact with the Services, are independent of Oracle and are not Oracle's agents. Oracle is not liable for, bound by, or responsible for any problems with the Services or Your Content arising due to any acts of any such business partner or third party, unless the business partner or third party is providing Services as Oracle's subcontractor on an engagement ordered under these Cloud STCs and, if so, then only to the same extent as Oracle would be responsible for Oracle's resources under these Cloud STCs. The Contract (including these Cloud STCs) and Your order is entered exclusively between You and the Contractor. While Oracle has no contractual relationship with You, Oracle is a third-party beneficiary of the Contract (including these Cloud STCs) and Your order.
3. Any notice required under your order shall be provided to the other party, and Oracle, in writing. Oracle may give notices applicable to Oracle's Services customers by means of a general notice on the Oracle portal for the Services, and notices specific to You by electronic mail to Your e-mail address on record in Oracle's account information or by written communication sent by first class mail or pre-paid post to Your address on record in Oracle's account information.

## EXHIBIT D

4. If any term of these Cloud STCs is found to be invalid or unenforceable, the remaining provisions will remain effective and such term shall be replaced with another term consistent with the purpose and intent of these Cloud STCs.
5. Except for actions for nonpayment or breach of Oracle's proprietary rights, no action, regardless of form, arising out of or relating to these Cloud STCs may be brought by any party more than two years after the cause of action has accrued.
6. Prior to entering into an order governed by these Cloud STCs, You are solely responsible for determining whether the Services meet Your technical, business or regulatory requirements. Oracle will cooperate with Your efforts to determine whether use of the standard Services are consistent with those requirements. Additional fees may apply to any additional work performed by Oracle or changes to the Services. You remain solely responsible for Your regulatory compliance in connection with Your use of the Services.
7. Upon forty-five (45) days written notice and no more than once every twelve (12) months, Oracle may audit Your compliance with the terms of these Cloud STCs and Your order. You agree to cooperate with Oracle's audit and to provide reasonable assistance and access to information. Any such audit shall not unreasonably interfere with Your normal business operations. Oracle shall comply with reasonable security and safety rules, policies, and procedures ("security rules") while performing any such audit, provided that (i) such security rules are applicable to the performance of the audit; (ii) You make such security rules available to Oracle prior to the commencement of the audit; and (iii) such security rules do not modify or amend the terms and conditions of these Cloud STCs or the applicable order(s). You shall be responsible for paying the additional fees related to use of the Services in excess of Your rights.
8. The Uniform Computer Transactions Act does not apply to these Cloud STCs nor any order placed pursuant to them.
9. The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as 'Section 508') effective as of June, 2001, or the Revised version in Appendix A (known as 'Revised Section 508') effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Templates (VPAT) available at [www.oracle.com/us/corporate/accessibility](http://www.oracle.com/us/corporate/accessibility) for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at [accessible\\_ww@oracle.com](mailto:accessible_ww@oracle.com). In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS is available at <http://www.fcc.gov/cgb/consumerfacts/trs.html>, and a list of telephone numbers is available at <https://www.fcc.gov/general/telecommunications-relay-services-directory>. International hearing-impaired customers should use the TRS at +1.605.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the availability of VPATs. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Services provided under these Cloud STCs.

## EXHIBIT D

10. Internet Protocol version 6 (IPv6). Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the Contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at oracle.com. Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements, requirements or any other such representations regarding or related to IPv6 shall apply to the Oracle products and services to be delivered pursuant to these Cloud STCs.
11. If any document incorporated by reference into these Cloud STCs contains a provision (a) allowing for the automatic termination of Your Services; or (b) allowing for the automatic renewal of Services and/or fees, then such terms shall not apply.

## EXHIBIT E

### B. Hardware Composition

Your hardware order consists of the following items: operating system (as defined in your configuration), integrated software and all hardware equipment (including components, options and spare parts) specified on the applicable order. The hardware equipment or parts of it may be new or like new.

### C. Rights Granted

Upon Contractor's acceptance of your order, you have the non-exclusive, non-assignable, royalty free, perpetual (unless otherwise specified in your order with Contractor), limited right to use the programs and receive any services you ordered solely for your internal ordering activity operations and subject to the terms of these Hardware STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You may allow your agents and contractors (including, without limitation, out-sourcers) to use the programs for this purpose and you are responsible for their compliance with these Hardware STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation in such use. For programs that are specifically designed to allow your customers and suppliers to interact with you in the furtherance of your internal business operations, such use is allowed.

You have the right to use the operating system delivered with the hardware subject to the terms of the license agreement(s) delivered with the hardware. Current versions of the license agreement(s) are located at <http://oracle.com/contracts>. You are licensed to use the operating system and any operating system updates acquired through technical support only as incorporated in, and as part of the hardware.

You have the limited, non-exclusive, royalty free, non-transferable, non-assignable right to use integrated software options that You separately order subject to the terms of these Hardware STCs, the applicable documentation and the Integrated Software Options License Rules; the Integrated Software Options License Rules are incorporated in and made a part of these Hardware STCs. You are licensed to use those integrated software options and any integrated software options updates acquired through technical support only as incorporated in, and as part of, the hardware. To fully understand Your license right to any integrated software options that You separately order, You need to review the Integrated Software Options License Rules. In the event of any conflict between the Hardware STCs and the Integrated Software Options License Rules, the Integrated Software Options License Rules shall take precedence.

You have the limited, non-exclusive, royalty free, non-assignable right to use integrated software delivered with the hardware subject to the terms of these Hardware STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You are licensed to use such integrated software and any integrated software updates acquired through technical support only as incorporated in, and as part of the hardware.

The operating system and/or integrated software may include separate works, identified in a readme file, notice file, or the applicable documentation, which are licensed under open source or similar license terms; your rights to use the operating system and integrated software under such terms are not restricted in any way by these Hardware STCs. The appropriate terms associated with such separate works can be found in the readme files, notice files or in the documentation accompanying the operating system and integrated software.

For GPLv2, LGPLv2.1, GPLv3 and LGPLv3 licensed code received by you as binaries on physical media, if you would like to receive a copy of the source code ("source code") on media via postal service, submit your written request at <http://oss.oracle.com/systems-opensourcecode>. Alternatively, you can mail your written request to Oracle Corporation, Attn: VP of Legal, Development and Engineering, 500 Oracle Parkway, MS-50P10, Redwood Shores, CA 94065. Your request should include the name and version number of the product, your name, your company name (if applicable), your return mailing address, and your email address. Certain source distributions require a fee for physical media. Should this be the case, you will be sent details on the cost and payment procedure via email. Your request must be sent within three (3) years of the date of Oracle's last delivery of the

## EXHIBIT E

applicable product. This offer only applies if you received your operating system and/or integrated software on physical media.

The hardware shall be installed in the country that you specify as the delivery location on your purchasing document or when your purchasing document does not indicate a ship to address, the location specified in the order.

### D. Ownership and Restrictions

Oracle or its licensors retain all ownership and intellectual property rights to the programs, the operating system, and integrated software. Oracle or its licensors retain all intellectual property rights to anything developed by Oracle and delivered under your order resulting from services. Unless otherwise stated in your order with Contractor, title to hardware, excluding the operating system, integrated software and any other programs, and risk of loss or damages to the hardware will pass from Oracle upon delivery in accordance with the relevant Incoterms 2010. Title to and ownership of the programs, the operating system and integrated software shall not pass to you or to a third party; title to and ownership of the programs, the operating system and integrated software shall remain with Oracle. You may make a sufficient number of copies of each program for your licensed use and one copy of each program media.

Third party technology that may be appropriate or necessary for use with some Oracle programs is specified in the program documentation or readme files or notice files. The parties acknowledge that the terms of the contract or these Hardware STCs do not apply to such third party technology.

The hardware is not specifically designed, manufactured, or intended for use as parts, components, or assemblies for the planning, construction, maintenance, or operation of a nuclear facility. Use of the hardware for these purposes is prohibited.

You acknowledge that to operate certain hardware your facility must meet a minimum set of requirements as described in the hardware documentation. Such requirements may change from time to time, as communicated by Oracle to you in the applicable hardware documentation.

You may not:

- use the programs in a rental, timesharing, subscription service, hosting or outsourcing capacity;
- remove or modify any program or hardware markings or any notice of Oracle's or its licensors' proprietary rights;
- remove any copyright notices or labels on the operating system or integrated software;
- make the programs, operating system, integrated software or materials resulting from the services available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted for the specific program license, operating system, integrated software or materials from the services you have acquired);
- cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the operating system, integrated software, or programs (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by programs, operating system or integrated software);
- make copies of the operating system or integrated software except for archival purposes, to replace a defective copy, or for program verification; or
- disclose results of any program and/or hardware benchmark tests.

### E. Warranties, Disclaimers and Exclusive Remedies

For the sake of clarity, this is the Oracle manufacturer's warranty; nevertheless, it shall be accessed by you through the Contractor.

Oracle warrants that a program licensed to you will operate in all material respects as described in the applicable program documentation for one year from delivery (i.e. via physical shipment or electronic

**EXHIBIT E**

download). You must notify Oracle of any program warranty deficiency within one year from delivery. **ORACLE DOES NOT GUARANTEE THAT (I) THE HARDWARE PRODUCTS, (II) OPERATING SYSTEM AND INTEGRATED SOFTWARE, AND (III) THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED, OR THAT ORACLE WILL CORRECT ALL HARDWARE PRODUCTS, OPERATING SYSTEM AND INTEGRATED SOFTWARE, AND PROGRAM ERRORS.**

Oracle provides a limited warranty ("Oracle Hardware Warranty") for (i) the hardware, (ii) the operating system and the integrated software and the integrated software options, and (iii) the operating system media, the integrated software media and the integrated software options media ("media", and (i), (ii) and (iii) collectively, "Hardware Items"). Oracle warrants that the hardware will be free from, and using the operating system and integrated software and integrated software options will not cause in the hardware, material defects in materials and workmanship for one year from the date the hardware is delivered to You. Oracle warrants that the media will be free from material defects in materials and workmanship for a period of 90 days from the date the media is delivered to You. You may access a more detailed description of the Oracle Hardware Warranty at <http://www.oracle.com/us/support/policies/index.html> ("Warranty Web Page"). Any changes to the Oracle Hardware Warranty specified on the Warranty Web Page will not apply to hardware or media ordered prior to such change. The Oracle Hardware Warranty applies only to hardware and media that have been (1) manufactured by or for Oracle, and (2) sold by Oracle (either directly or by an Oracle-authorized distributor). The hardware may be new or like new. The Oracle Hardware Warranty applies to hardware that is new and hardware that is like-new which has been remanufactured and certified for warranty by Oracle.

Oracle hardware products may be new or like new. The Oracle Hardware Warranty applies to hardware products that are new and hardware products that are like-new which have been remanufactured and certified for warranty by Oracle.

You may access a more detailed description of the limited hardware warranty at <http://www.oracle.com/us/support/policies/index.html> ("the warranty web page"). Any changes to the hardware warranty details specified on the warranty web page will not apply to hardware ordered prior to such change.

Parts or components which are replaced under the applicable warranty may not be new. Title in all defective parts which are removed from the hardware under applicable warranty shall transfer back to Oracle.

No warranty will apply to the hardware products, operating system, integrated software or media which has been:

- i. modified, altered or adapted without Oracle's written consent (including modification or removal of the Oracle/Sun serial number tag on the hardware);
- ii. maltreated or used in a manner other than in accordance with the relevant documentation;
- iii. repaired by any third party in a manner which fails to meet Oracle's quality standards;
- iv. improperly installed by any party other than Oracle or an authorized Oracle certified installation partner;
- v. used with equipment or software not covered by the warranty, to the extent that the problems are attributable to such use;
- vi. relocated, to the extent that problems are attributable to such relocation;
- vii. used directly or indirectly in supporting activities prohibited by U.S. or other national export regulations;
- viii. used by parties appearing on the most current U.S. export exclusion list;
- ix. relocated to countries subject to U.S. trade embargo or restrictions;
- x. used remotely to facilitate any activities in the countries referenced in (viii) and (ix) above; or
- xi. purchased from any entity other than Oracle or an Oracle authorized reseller.

## EXHIBIT E

This Oracle Hardware Warranty does not apply to normal wear of the hardware products or media. The Oracle Hardware Warranty is extended only to the original purchaser or original lessee of the hardware product and may be void in the event that title to the hardware product is transferred.

Oracle also warrants that services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any services warranty deficiencies within 90 days from performance of the deficient services.

To the extent not addressed in your order for the Hardware Products and media to which this Oracle Hardware Warranty applies, the following Limitations apply:

NEITHER ORACLE NOR YOU WILL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE ARISING OUT OF OR RELATED TO THIS WARRANTY HOWEVER THEY ARISE, WHETHER IN CONTRACT OR TORT, OR OTHERWISE.

YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY FOR BREACH OF WARRANTY SHALL BE: (A) THE REPAIR OR, AT ORACLE'S OPTION AND EXPENSE, REPLACEMENT OF THE DEFECTIVE PRODUCT, OR IF SUCH REPAIR OR REPLACEMENT IS NOT REASONABLY ACHIEVABLE, THE REFUND OF THE FEES PAID TO ORACLE FOR THE DEFECTIVE PRODUCT; OR (B) THE REPERFORMANCE OF THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS; OR, (C) IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE DEFICIENCY IN A COMMERCIALLY REASONABLE MANNER, YOU MAY END THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS AND RECOVER THE FEES YOU PAID TO ORACLE FOR THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS. TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

### F. Technical Support

Technical support consists of annual technical support services you may have ordered or will order for the programs and/or hardware, including support renewals. Support must be ordered pursuant to a valid End User License Agreement such as these Hardware STCs. With respect to technical support for software products, bug fixes, security fixes and any updates received shall be provided under the terms of the license agreement that You accepted upon ordering the programs.

If ordered, annual technical support (including first year and all subsequent years) for programs is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported programs during the period for which technical support has been ordered. You should review the policies prior to entering into an order for the applicable services. You may access the current version of the technical support policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request. Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your SULS fee for the first renewal year should you renew SULS for the same number of licenses for the same programs as contained in the original order; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the program is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement. If you

**EXHIBIT E**

If you decide to purchase technical support at a later date, Technical support for programs is effective upon shipment of tangible media or upon the effective date of the order if shipment of tangible media is not required.

If ordered, Oracle Hardware and Systems Support (including first year and all subsequent years) is provided under Oracle's Hardware and Systems Support Policies in effect at the time the services are provided. You agree to cooperate with Oracle and provide the access, resources, materials, personnel, information, and consents that Oracle may require in order to perform the services. The Oracle Hardware and Systems Support Policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of services provided during the period for which Oracle Hardware and Systems Support has been ordered. You should review the policies prior to entering into an order. You may access the current version of the Oracle Hardware and Systems Support Policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request.

Oracle Hardware and Systems Support acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your Oracle Hardware and Systems Support fee for the first renewal year should you renew Oracle Hardware and Systems Support for the same systems and same configurations as contained in the original order; your Oracle Hardware and Systems Support fee for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the hardware is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you decide to purchase technical support at a later date. Technical support for hardware is effective upon delivery of hardware or upon the effective date of the order if shipment of hardware is not required.

Invoices for technical support services shall be submitted by Contractor on a quarterly basis (unless otherwise specified in the order) after the completion of such period.

Notwithstanding anything in Oracle's technical support policies or Oracle's Hardware and Systems Support Policies to the contrary, you may discontinue support at the end of any current support term and, at any time thereafter, reinstate support by executing an order for such services with Contractor. If you decide to reinstate such support, you must pay a reinstatement fee. The reinstatement fee shall be the amount that would have been paid by the ordering activity for the past support period had such support not lapsed. In addition to the reinstatement fee described in the preceding sentence, you must pay the support fee for the new support period quarterly in arrears in accordance with the order. This technical support fee for the new support period is computed as follows: (i) if support lapsed, then the support fee for a twelve month support period shall be the last annual support fee you paid for the relevant program and/or hardware system; (ii) if you never acquired technical support for the relevant program and/or hardware system, then the annual support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program and/or hardware system per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

**G. Intellectual Property Indemnification**

If someone makes a claim against you or Oracle ("Recipient" which may refer to you or Oracle depending upon which party received the Material) that any information, design, specification, instruction, software, data, hardware or material ("Material") furnished by either you or Oracle ("Provider" which may refer to you or Oracle depending on which party provided the Material) and used by the Recipient infringes its intellectual property rights (including U.S. or foreign patent, trademark and copyright), the Provider will indemnify the Recipient against the claim to the extent permitted by law. If the Recipient does the following:

**EXHIBIT E**

- notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim;
- Gives the Provider control of the defense, with input from Recipient, and any settlement negotiations; and
- Gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material. If you are the Provider and such return materially affects Contractor's ability to meet its obligations under the relevant order (e.g., impairs Contractor's ability to perform due to a work statement, schedule or cost impact), then Contractor may, at its option and upon 30 days prior written notice, request termination of the order. . The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient, or if the Recipient continues to use the applicable Material after the end of the license to use that Material. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Oracle. Oracle will not indemnify you for infringement caused by your actions against any third party if the Oracle program(s) as delivered to you and used in accordance with the terms of the order and these Hardware STCs would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify you for any infringement claim that is based on: (1) a patent that you were made aware of prior to the effective date of your order with Contractor (pursuant to a claim, demand, or notice); or (2) your actions prior to the effective date of your order with Contractor.

Notwithstanding the provisions of the paragraph above and with respect to hardware only, if Oracle believes or it is determined that the hardware (or portion thereof) may have violated a third party's intellectual property rights, Oracle may choose to either replace or modify the hardware (or portion thereof) to be non-infringing (while substantially preserving its utility or functionality) or obtain a right to allow for continued use, or if these alternatives are not commercially reasonable, Oracle may remove the applicable hardware (or portion thereof) and refund the net book value.

In the event that the Material is Separately Licensed Third Party Technology and the associated Separate Terms do not allow termination of the license, in lieu of ending the license for the Material, Oracle may end the license for, and require return of, the program associated with that Separately Licensed Third Party Technology and shall refund any program license fees You may have paid to Oracle for the program.

For claims related to hardware, if you are a current subscriber to Oracle technical support services for the operating system (e.g., Oracle Premier Support for Systems, Oracle Premier Support for Operating Systems or Oracle Linux Premier Support), then for the period of time for which you are/were a subscriber to the applicable Oracle technical support services (i) the phrase "Material" under this section shall include the operating system and the integrated software and (ii) the phrase "program(s)" in this section is replaced by the phrase "program(s) or the operating system or integrated software (as applicable)" (i.e., Oracle will not indemnify you for your use of the operating system and/or integrated software when you are/were not a subscriber to the applicable Oracle technical support services). Notwithstanding the foregoing, with respect solely to the Oracle Linux operating system, Oracle will not indemnify you for Materials that are not part of the Oracle Linux covered files as defined at <http://www.oracle.com/us/support/library/enterprise-linux-indemnification-069347.pdf>.

## EXHIBIT E

This section provides your and Oracle's exclusive remedy for any infringement claims or damages.

H. NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. CONTRACTOR'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO AN ORDER ISSUED PURSUANT TO THESE HARDWARE STCs, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID CONTRACTOR UNDER THE RELEVANT ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF PROGRAMS, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID CONTRACTOR FOR THE DEFICIENT PROGRAM, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES GIVING RISE TO THE LIABILITY.

### I. Other

1. You may not assign orders or give or transfer the programs, the operating system, the integrated software and/or any services or an interest in them to another individual or entity. If you grant a security interest in the programs, the operating system, the integrated software and/or any services deliverables, the secured party has no right to use or transfer the programs, the operating system, the integrated software and/or any services deliverables, and if you decide to finance your acquisition of hardware, programs and/or any services, you will follow Oracle's policies regarding financing which are at <http://oracle.com/contracts>. The foregoing shall not be construed to limit the rights you may otherwise have with respect to the Linux operating system, third party technology or separate works licensed under open source or similar license terms.

2. In entering into an order under the contract, you agree and acknowledge that you have not relied on the future availability of any hardware, program or updates. However, (a) if you order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the relevant order, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to you for any program licensed under the order, per the terms of these Hardware STCs.

### 3. Accessibility

The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as 'Section 508') effective as of June, 2001, or the Revised version in Appendix A (known as 'Revised Section 508') effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Template (VPAT) available at [www.oracle.com/ua/corporate/accessibility](http://www.oracle.com/ua/corporate/accessibility) for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at [accessible\\_ww@oracle.com](mailto:accessible_ww@oracle.com). In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS is available at <http://www.fcc.gov/cgb/consumerfacts/trs.html>, and a list of telephone numbers is available at <https://www.fcc.gov/general/telecommunications-relay-services-directory>. International hearing-impaired customers should use the TRS at +1.805.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the

**EXHIBIT E**

availability of VPATs. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Oracle products provided under these Hardware STCs.

4. **Internet Protocol version 6 (IPv6)**

Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at oracle.com. Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements, requirements or any other such representations regarding or related to IPv6 shall apply to the Oracle products and services to be delivered pursuant to these Hardware STCs.

**MySQL Cluster Carrier Grade Edition Annual Subscription, MySQL Enterprise Edition Annual Subscription and MySQL Standard Edition Annual Subscription:** are defined as the right to use the specified Program(s) in accordance with the applicable license metric and to receive Oracle Software Update License & Support for the specified Program(s) and for MySQL Community Edition for the term specified on the order. MySQL Community Edition refers to MySQL that is licensed under the GPL license. Software Update License & Support for MySQL Community Edition does not include updates of any kind. The subscription term is effective upon the effective date of the subscription ordering document, unless otherwise stated in Your ordering document. If Your order was placed through the Oracle Store, then the effective date is the date Your order was accepted by Oracle. Oracle Software Update License & Support services are provided under the applicable technical support policies in effect at the time the services are provided. You must obtain a subscription license for all servers where MySQL Cluster Carrier Grade Edition, MySQL Enterprise Edition and/or MySQL Standard Edition are deployed. If You obtain Oracle Software Update License & Support services for any servers where MySQL Community Edition is deployed, then You must also purchase a subscription license for all of such servers for which You have obtained Oracle Software Update License & Support services. You may obtain Oracle Software Update License & Support services for the MySQL Community Edition subscription licenses at any level (e.g., at the MySQL Cluster Carrier Grade Edition level, at the MySQL Enterprise Edition level and/or at the MySQL Standard Edition level). At the end of the specified term, You may renew Your subscription, if available, at the then current fees for the applicable subscription. If You choose not to renew Your subscription, Your right to use the Program(s) will terminate and You must de-install all applications, tools, and binaries provided to You under the applicable non-Community Edition license (e.g., the license for MySQL Cluster Carrier Grade Edition, MySQL Enterprise Edition and/or MySQL Standard Edition). If You do not renew a subscription, You will not receive any updates (including patches or subsequent versions) and You may also be subject to reinstatement fees if You later choose to reactivate Your subscription.

**Named User Plus:** is defined as an individual authorized by You to use the Programs which are installed on a single server or multiple servers, regardless of whether the individual is actively using the Programs at any given time. A non human operated device will be counted as a named user plus in addition to all individuals authorized to use the Programs, if such devices can access the

Programs. If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end. Automated batching of data from computer to computer is permitted. You are responsible for ensuring that the named user plus per processor minimums are maintained for the Programs contained in the user minimum table in the licensing rules section; the minimums table provides for the minimum number of named users plus required and all actual users must be licensed.

For the purposes of the following Programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware and Management Pack for WebCenter Suite, only the users of the Program that is being managed/monitored are counted for the purpose of determining the number of Named User Plus licenses required.

With respect to the following Programs: Load Testing, Load Testing Developer Edition, Load Testing Accelerator for Web Services, Load Testing Accelerator for Oracle Database, Load Testing Suite for Oracle Applications and Oracle Test Starter Kit for Utilities (Load Testing), each emulated human user and non human operated device shall be considered as a virtual user and shall be counted for the purpose of determining the number of Named User Plus licenses required.

**Oracle Financing Contract:** is a contract between You and Oracle (or one of Oracle's affiliates) that provides for payments over time of some or all of the sums due under Your order.

**Order Line:** is defined as the total number of order entry line items processed by the Program during a 12 month period. Multiple order entry line items may be entered as part of an individual customer order or quote and may also be automatically generated by the Oracle Configurator. You may not exceed the licensed number of Order Lines during any 12 month period unless You acquire additional Order Line licenses from Oracle.

For the purposes of the Oracle Hospitality Guest Access POS and Device Client Program, a POS Client is a guest access control method that includes, but is not limited to, turnstiles, gates and turn doors that are managed by the Program. For each guest access control method, both entrance and exit points must be counted for the purposes of determining the number of licenses required. For example, each turnstile must be counted as two POS Clients (one for entrance and one for exit).

**Processor:** shall be defined as all processors where the Oracle Programs are installed and/or running. Programs licensed on a processor basis may be accessed by Your internal users (including agents and contractors) and by Your third party users. The number of required licenses shall be determined by multiplying the total number of cores of the processor by a core processor licensing factor specified on the Oracle Processor Core Factor Table which can be accessed at <http://oracle.com/contracts>. All cores on all multicore chips for each licensed Program are to be aggregated before multiplying by the appropriate core processor licensing factor and all fractions of a number are to be rounded up to the next whole number. When licensing Oracle Programs with Standard Edition 2, Standard Edition One or Standard Edition in the product name (with the exception of WebCenter Enterprise Capture Standard Edition, Java SE Subscription, Java SE Support, Java SE Advanced, and Java SE Suite), a processor is counted equivalent to an occupied socket; however, in the case of multi-chip modules, each chip in the multi-chip module is counted as one occupied socket.

For example, a multicore chip based server with an Oracle Processor Core Factor of 0.25 installed and/or running the Program (other than Standard Edition One Programs or Standard Edition Programs) on 6 cores would require 2 processor licenses (6 multiplied by a core processor licensing factor of .25 equals 1.50, which is then rounded up to the next whole number, which is 2). As another example, a multicore server for a hardware platform not specified in the Oracle Processor Core Factor Table installed and/or running

the Program on 10 cores would require 10 processor licenses (10 multiplied by a core processor licensing factor of 1.0 for 'All other multicore chips' equals 10).

For the purposes of the following Program: Oracle Healthcare Data Repository, only the processors on which Internet Application Server Enterprise Edition and Healthcare Transaction Base Programs are installed and/or running must be counted for the purpose of determining the number of licenses required.

For the purposes of the following Programs: iSupport, iStore and Configurator, only the processors on which Internet Application Server (Standard Edition and/or Enterprise Edition) and the licensed Program (e.g., iSupport, iStore and/or Configurator) are running must be counted for the purpose of determining the number of licenses required for the licensed Program; under these licenses You may also install and/or run the licensed Program on the processors where a licensed Oracle Database (Standard Edition and/or Enterprise Edition) is installed and/or running.

For the purposes of the following Programs: Configuration Management Pack for Applications, System Monitoring Plug-in for Non Oracle Databases, System Monitoring Plug-in for Non Oracle Middleware, Management Pack for Non-Oracle Middleware and Management Pack for WebCenter Suite, only the processors on which the Program that is being managed/monitored are running must be counted for the purpose of determining the number of licenses required.

This subscription is available only for a server that is certified by Oracle and listed on the Hardware Compatibility List (HCL) at <http://www.oracle.com/webfolder/technetwork/hcl/index.html>. You must obtain a subscription license for each socket in the server. The subscription term is effective upon the effective date of the subscription ordering document, unless otherwise stated in Your ordering document. If Your order was placed through the Oracle Store, then the effective date is the date Your order was accepted by Oracle. Oracle Premier Support for Operating System services are provided under the applicable technical support policies in effect at the time the services are provided. At the end of the specified term, You may renew Your subscription, if available, at the then current fees for this subscription.

For tape targets (which would be a physical tape drive (e.g., T10000D or LTO6) or a virtual tape drive), each configured tape drive within the Oracle Secure Backup domain must be counted for determining the number of licenses required. For disk targets, each concurrent job defined per Oracle Secure Backup disk pool must be counted for determining the number of licenses required. For Cloud based targets utilizing the Oracle Secure Backup Cloud Module, each parallel Recovery Manager (RMAN) channel must be counted for determining the number of licenses required.

#### **Technical Support**

For purposes of the ordering document, technical support consists of annual technical support services You may have ordered for the Programs. If ordered, annual technical support (including first year and all subsequent years) is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated in this agreement, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported Programs during the period for which fees for technical support have been paid. You should review the policies prior to entering into the ordering document for the applicable services. You may access the current version of the technical support policies at <http://oracle.com/contacts>.

Technical support is effective upon the effective date of the ordering document unless otherwise stated in Your order. If Your order was placed through the Oracle Store, the effective date is the date Your order was accepted by Oracle.

**Software Update License & Support** (or any successor technical support offering to Software Update License & Support, "SULS") acquired with Your order may be renewed annually and, if You renew SULS for the same number of licenses for the same Programs, for the first and second renewal years the fee for SULS, will not increase by more than 4% over the prior year's fees. If Your order is fulfilled by a member of Oracle's partner Program, the fee for SULS for the first renewal year will be the price quoted to You by Your partner; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees.

If You decide to purchase technical support for any license within a license set, You are required to purchase technical support at the same level for all licenses within that license set. You may desupport a subset of licenses in a license set only if You agree to terminate that subset of licenses. The technical support fees for the remaining licenses will be priced in accordance with the technical support policies in effect at the time of termination. Oracle's license set definition is available in the current technical support

policies. If You decide not to purchase technical support, You may not update any unsupported Program licenses with new versions of the Program.

**Transaction Services Client:** is defined as a device that is used to receive data from an external source to record a sales transaction (e.g., a device in a coffee shop that is used by customers to enter their sandwich orders). If multiplexing hardware or software (e.g., a TP monitor or a web server product) is used, this number must be measured at the multiplexing front end.

For the purposes of the Oracle Hospitality Symphony Transaction Services Program devices that are used to send property or revenue center configuration to an external source must be counted as Transaction Services Clients. For example, if a digital signage provider wants to display menu item information (e.g., price, name, etc.) on a menu board behind the counter and the menu board system requests that a device provides a list of the menu items and prices that are available for purchase, then that device must be licensed as Transaction Services Client.

#### Term Designation

**1, 2, 3, 4, 5 Year Terms:** A Program license specifying a 1, 2, 3, 4 or 5 Year Term shall commence on the effective date of the order and shall continue for the specified period. At the end of the specified period the Program license shall terminate.

**Licensing Rules for Oracle Technology Programs and Oracle Business Intelligence Applications**

**Failover:** Subject to the conditions that follow below, Your license for the Programs listed on the US Oracle Technology Price List, which may be accessed at <http://www.oracle.com/us/corporate/pricing/pricing-list/index.html>, includes the right to run the licensed Program(s) on an unlicensed spare computer in a failover environment for up to a total of ten separate days in any given calendar year (for example, if a failover node is down for two hours on Tuesday and three hours on Friday, it counts as two days). The above right only applies when a number of machines are arranged in a cluster and share one disk array. When the primary node fails, the failover node acts as the primary node. Once the primary node is repaired, You must switch back to the primary node. Once the failover period has exceeded ten days, the failover node must be licensed. In addition, only one failover node per clustered environment is at no charge for up to ten separate days even if multiple nodes are configured as failover. Downtime for maintenance purposes counts towards the ten separate days limitation. When licensing options on a failover environment, the options must match the number of licenses of the associated database. Additionally, when licensing by Named User Plus, the user minimums are waived on one failover node only. Any use beyond the right granted in this section must be licensed separately. In a failover environment, the same license metric must be used for the production and failover nodes when licensing a given clustered configuration.

**Testing:** For the purpose of testing physical copies of backups, Your license for the Oracle Database (Enterprise Edition, Standard Edition or Standard Edition One) includes the right to run the database on an unlicensed computer for up to four times, not exceeding 2 days per testing, in any given calendar year. The aforementioned right does not cover any other data recovery method - such as remote mirroring - where the Oracle Program binary files are copied or synchronized.

You are responsible for ensuring that the following restrictions are not violated:

- Oracle Database Standard Edition 2 may only be licensed on servers that have a maximum capacity of 2 sockets. When used with Oracle Real Application Clusters, Oracle Database Standard Edition 2 may only be licensed on a maximum of 2 one-socket servers. In addition, notwithstanding any provision in Your Oracle license agreement to the contrary, each Oracle Database Standard Edition 2 database may use a maximum of 16 CPU threads at any time. When used with Oracle Real Application Clusters, each Oracle Database Standard Edition 2 database may use a maximum of 8 CPU threads per instance at any time. If You purchase Named User Plus (NUP) licenses, You must maintain a minimum of 10 NUP per server.
- If you are licensing the Oracle database Program, you may not create or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of data formats included in or produced by that Program; the foregoing includes a prohibition on reverse engineering of code, data structures, file formats or memory formats included in or produced by that Program or use of any tools or products that have been derived from the reverse engineering of that Program or those data formats.
- Exadata Database In-Memory may only be used on Exadata Database Machines and Oracle Superclusters.
- Exadata Multitenant may only be used on Exadata Database Machines and Oracle Superclusters.
- WebLogic Server Standard Edition does not include WebLogic Server Clustering.
- Business Intelligence Standard Edition One can only be licensed on servers that have the ability to run a maximum of 2 sockets. The data sources for BI Server and BI Publisher are limited to the included Oracle Standard Edition One, one other database, and any number of flat file sources such as CSV, and XLS. You may use Oracle Warehouse Builder Core ETL to pull data from any number of data sources but You must use only the included Oracle Standard Edition One as the target database.
- Informatica PowerCenter and PowerConnect Adapters may not be used on a standalone basis or as a standalone ETL tool. The Informatica PowerCenter and PowerConnect Adapters may be used with any data source provided the target(s) are: (i) the Oracle Business Intelligence applications Programs (excluding Hyperion Enterprise Performance Management Applications), (ii) the underlying platforms on which the Oracle Business Intelligence Extended Edition Program, Oracle Business Intelligence Standard Edition One or associated components of those Business Intelligence applications Programs run, or (iii) a staging database for any of the foregoing. Informatica PowerCenter and PowerConnect Adapters may also be used where the Oracle Business Intelligence applications Programs (excluding Hyperion Enterprise Performance Management Applications) are the source and non-Oracle Business Intelligence application Programs are the target, provided, that users do not use Informatica PowerCenter and PowerConnect Adapters to transform the data.
- With respect to the Java SE Advanced and Java SE Suite Programs, You may not create, modify, or change the behavior of, or authorize Your users to create, modify, or change the behavior of, classes, interfaces, or subpackages that are in any way identified as "java", "javax", "sun" or "oracle" or any variation of the aforementioned naming conventions. The installation and auto-update processes for these Programs transmit a limited amount of data to Oracle (or its service provider) about those specific processes to help Oracle understand and optimize them. Oracle does not associate the data with personally identifiable information. You can find more information about the data Oracle collects at <http://oracle.com/contracts>. Additional copyright notices and license terms applicable to portions of the Programs are set forth at <http://oracle.com/contracts>.

- Programs that contain "for Oracle Applications" in the Program name are limited use Programs. These limited use Programs may only be used with "eligible" Oracle application Programs that contain the following prefixes in the Program name: Oracle Fusion, Oracle Communications\*, Oracle Documaker, Oracle Endeca\*, Oracle Knowledge, Oracle Media, Oracle Retail\*, Oracle Enterprise Taxation\*, Oracle Tax, Oracle Utilities\*, Oracle Financial Services\*, Oracle FLEXCUBE, Oracle Revelus, Oracle Vantas, Oracle Healthcare\*, Oracle Health Sciences, Oracle Argus, Oracle Legal, Oracle Insurance, Oracle Primavera, Oracle Hospitality, Oracle XBRI, and Oracle Kalata. For a list of excluded Programs please review the Applications Licensing Table, which may be accessed at <http://oracle.com/contracts>. Notwithstanding anything above, Oracle Business Intelligence Suite Extended Edition for Oracle Applications may only be used with "eligible" Oracle application Programs that contain "Oracle Fusion Human Capital Management" as a prefix in the Program name provided that the Oracle Fusion Human Capital Management Programs are the only Programs configured to run against the database instance Oracle Business Intelligence Suite Foundation Edition for Oracle Applications may also be used with the Oracle Product Information Management Analytics, Fusion Edition, Oracle Customer Data Management Analytics, Fusion Edition and Oracle Product Lifecycle Analytics Programs. Oracle Business Intelligence Suite Foundation Edition for Oracle Applications may also be used with the following Programs provided that the Oracle Fusion Applications are the only data source: Oracle Sales Analytics, Fusion Edition; Oracle Partner Analytics, Fusion Edition; Oracle Supply Chain and Order Management Analytics; Oracle Financial Analytics, Fusion Edition; Oracle Procurement and Spend Analytics, Fusion Edition; Oracle Human Resources Analytics, Fusion Edition and Oracle Project Analytics. Any use of limited use Programs containing "for Oracle Applications" by other Oracle applications or third party applications is not permitted.
- Oracle BPEL Process Manager Option for Oracle Applications may be used only to enable business processes, workflow interactions and approvals within eligible Oracle Applications. Workflow interactions between eligible Oracle Applications and other Oracle Applications or third party applications are allowed as long as they are enabled/initiated within the eligible Oracle Applications. Business Processes defined in BPEL are allowed as long as at least one of the services invoked from within the Business Process access an eligible Oracle Application either natively (via Web Services) or via an adapter.
- Oracle Business Intelligence Suite Foundation Edition for Oracle Applications may be used only to perform query, reporting and analysis against a transaction database, data warehouse or an Essbase OLAP cube if: (i) the transaction database is an eligible Oracle Applications transaction database itself or an extraction, in whole or in part, of an eligible Oracle Applications transaction database, without transformation (query, reporting and analysis against a transaction database that is not an eligible Oracle Applications transaction database requires a full use license of Oracle Business Intelligence Suite Foundation Edition); or (ii) the data warehouse is a pre-packaged eligible Oracle Applications data warehouse, with any customizations necessary to reflect customizations made in the eligible Oracle Applications, and restricted only to the eligible Oracle Applications sources (query, reporting and analysis against extensions to the data warehouse drawn from source systems not supported by the pre-packaged data warehouses require a full use license of Oracle Business Intelligence Suite Foundation Edition); or (iii) the dimensions of each Essbase OLAP Cube are sourced from eligible Oracle Applications.
- Oracle WebLogic Suite for Oracle Applications may be used only as an embedded runtime for eligible Oracle Applications or to deploy customizations to an eligible Oracle Application. The WebLogic global datasources or one of the WebLogic application datasources must be configured to access the schema of an eligible Oracle Application.

For the avoidance of doubt, examples of uses that are not permitted include, but are not limited to, the following: adding new jobs that support different applications, new schemas, or previously unsupported application modules.
- Oracle SOA Suite for Oracle Applications may be used only to enable integration, business processes, workflow interactions and approvals within eligible Oracle Applications. Workflow interactions between eligible Oracle Applications and other non-eligible Oracle Applications or third party applications are allowed as long as they are either initiated or terminated within eligible Oracle Applications. Usage of SOA composites (including but not limited to Rules, Mediator, XSLT transforms, BPEL processes, Spring components, Workflow services and OWSM security policies) is allowed as long as at least one of the services invoked from within each composite accesses an eligible Oracle Application either natively (via Web Services) or via an adapter and the invocation is part of a flow that is either initiated or terminated within eligible Oracle Applications. Oracle Service Bus (OSB) usage is allowed as long as each service deployed accesses an eligible Oracle Application either natively (via Web Services) or via an adapter.
- Oracle WebCenter Portal for Oracle Applications may be used only to surface eligible Oracle Application(s) and custom applications (collectively, "eligible applications"). Surfacing any third-party applications, including other applications from Oracle, requires a license for Oracle WebCenter Portal. Multiple eligible applications may be surfaced in a single portal instance provided that a WebCenter Portal for Oracle Applications license exists for each eligible application surfaced in the portal. WebCenter Portal for Oracle Applications may be used to integrate the various WebCenter services (e.g., wikis, blogs, and discussions) into an application context, as well as to build out custom workflows and notifications between the eligible application and WebCenter Portal components. The content management features of the Oracle WebCenter Portal for Oracle

- Applications Program may be used to store and manage documents created outside of the eligible application provided that such documents are related to the eligible application or to the application context.
- Oracle WebCenter Imaging for Oracle Applications may be used to create and modify imaging searches, to modify pre-packaged imaging application document types, and to create and modify input mappings to imaging applications. Oracle WebCenter Imaging for Oracle Applications may also be used to invoke web service application programming interfaces (API's) from Oracle Application workflows. Customization of the Oracle supplied integration jobs is allowed if necessitated by (i) customizations of the source application or of the target application or (ii) for performance tuning of the GoldenGate configuration. Oracle GoldenGate for Oracle Applications may not be used (i) for data replication to non-Oracle databases or (ii) by other Oracle applications or (iii) by third party applications for any type of data integration or replication purposes. For the avoidance of doubt, examples of other uses that are not permitted include, but are not limited to, the following: replicating data to non-Oracle databases (including MySQL), adding new source or target schemas, adding unsupported application modules to source or target schemas, supporting other replication topologies (e.g., active-active or multi-master) or adding anything not supplied by Oracle.
  - The license for the Hyperion Planning Plus Program includes a limited use license for the Oracle Essbase Plus, Hyperion Financial Reporting and Hyperion Web Analysis Programs. ## EXHIBIT E

### B. Hardware Composition

Your hardware order consists of the following items: operating system (as defined in your configuration), integrated software and all hardware equipment (including components, options and spare parts) specified on the applicable order. The hardware equipment or parts of it may be new or like new.

### C. Rights Granted

Upon Contractor's acceptance of your order, you have the non-exclusive, non-assignable, royalty free, perpetual (unless otherwise specified in your order with Contractor), limited right to use the programs and receive any services you ordered solely for your internal ordering activity operations and subject to the terms of these Hardware STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You may allow your agents and contractors (including, without limitation, outsourcers) to use the programs for this purpose and you are responsible for their compliance with these Hardware STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation in such use. For programs that are specifically designed to allow your customers and suppliers to interact with you in the furtherance of your internal business operations, such use is allowed.

You have the right to use the operating system delivered with the hardware subject to the terms of the license agreement(s) delivered with the hardware. Current versions of the license agreement(s) are located at <http://oracle.com/contracts>. You are licensed to use the operating system and any operating system updates acquired through technical support only as incorporated in, and as part of the hardware.

You have the limited, non-exclusive, royalty free, non-transferable, non-assignable right to use integrated software options that You separately order subject to the terms of these Hardware STCs, the applicable documentation and the Integrated Software Options License Rules; the Integrated Software Options License Rules are incorporated in and made a part of these Hardware STCs. You are licensed to use those integrated software options and any integrated software options updates acquired through technical support only as incorporated in, and as part of, the hardware. To fully understand Your license right to any integrated software options that You separately order, You need to review the Integrated Software Options License Rules. In the event of any conflict between the Hardware STCs and the Integrated Software Options License Rules, the Integrated Software Options License Rules shall take precedence.

You have the limited, non-exclusive, royalty free, non-assignable right to use integrated software delivered with the hardware subject to the terms of these Hardware STCs, including the Oracle License Definitions and Rules, the order, the contract and the program documentation. You are licensed to use such integrated software and any integrated software updates acquired through technical support only as incorporated in, and as part of the hardware.

The operating system and/or integrated software may include separate works, identified in a readme file, notice file, or the applicable documentation, which are licensed under open source or similar license terms; your rights to use the operating system and integrated software under such terms are not restricted in any way by these Hardware STCs. The appropriate terms associated with such separate works can be found in the readme files, notice files or in the documentation accompanying the operating system and integrated software.

For GPLv2, LGPLv2.1, GPLv3 and LGPLv3 licensed code received by you as binaries on physical media, if you would like to receive a copy of the source code ("source code") on media via postal service, submit your written request at <http://oss.oracle.com/systems-opensourcecode> >. Alternatively, you can mail your written request to Oracle Corporation, Attn: VP of Legal, Development and Engineering, 500 Oracle Parkway, MS-50P10, Redwood Shores, CA 94065. Your request should include the name and version number of the product, your name, your company name (if applicable), your return mailing address, and your email address. Certain source distributions require a fee for physical media. Should this be the case, you will be sent details on the cost and payment procedure via email. Your request must be sent within three (3) years of the date of Oracle's last delivery of the

## EXHIBIT E

applicable product. This offer only applies if you received your operating system and/or integrated software on physical media.

The hardware shall be installed in the country that you specify as the delivery location on your purchasing document or when your purchasing document does not indicate a ship to address, the location specified in the order.

### D. Ownership and Restrictions

Oracle or its licensors retain all ownership and intellectual property rights to the programs, the operating system, and integrated software. Oracle or its licensors retain all intellectual property rights to the hardware. Oracle retains all ownership and intellectual property rights to anything developed by Oracle and delivered under your order resulting from services. Unless otherwise stated in your order with Contractor, title to hardware, excluding the operating system, integrated software and any other programs, and risk of loss or damages to the hardware will pass from Oracle upon delivery in accordance with the relevant Incoterms 2010. Title to and ownership of the programs, the operating system and integrated software shall not pass to you or to a third party; title to and ownership of the programs, the operating system and integrated software shall remain with Oracle. You may make a sufficient number of copies of each program for your licensed use and one copy of each program media.

Third party technology that may be appropriate or necessary for use with some Oracle programs is specified in the program documentation or readme files or notice files. The parties acknowledge that the terms of the contract or these Hardware STCs do not apply to such third party technology.

The hardware is not specifically designed, manufactured, or intended for use as parts, components, or assemblies for the planning, construction, maintenance, or operation of a nuclear facility. Use of the hardware for these purposes is prohibited.

You acknowledge that to operate certain hardware your facility must meet a minimum set of requirements as described in the hardware documentation. Such requirements may change from time to time, as communicated by Oracle to you in the applicable hardware documentation.

You may not:

- use the programs in a rental, timesharing, subscription service, hosting or outsourcing capacity;
- remove or modify any program or hardware markings or any notice of Oracle's or its licensors' proprietary rights;
- remove any copyright notices or labels on the operating system or integrated software;
- make the programs, operating system, integrated software or materials resulting from the services available in any manner to any third party for use in the third party's business operations (unless such access is expressly permitted for the specific program license, operating system, integrated software or materials from the services you have acquired);
- cause or permit reverse engineering (unless required by law for interoperability), disassembly or decompilation of the operating system, integrated software, or programs (the foregoing prohibition includes but is not limited to review of data structures or similar materials produced by programs), operating system or integrated software;
- make copies of the operating system or integrated software except for archival purposes, to replace a defective copy, or for program verification; or
- disclose results of any program and/or hardware benchmark tests.

### E. Warranties, Disclaimers and Exclusive Remedies

For the sake of clarity, this is the Oracle manufacturer's warranty; nevertheless, it shall be accessed by you through the Contractor.

Oracle warrants that a program licensed to you will operate in all material respects as described in the applicable program documentation for one year from delivery (i.e. via physical shipment or electronic

## EXHIBIT E

download). You must notify Oracle of any program warranty deficiency within one year from delivery. **ORACLE DOES NOT GUARANTEE THAT (i) THE HARDWARE PRODUCTS, (ii) OPERATING SYSTEM AND INTEGRATED SOFTWARE, AND (iii) THE PROGRAMS WILL PERFORM ERROR-FREE OR UNINTERRUPTED, OR THAT ORACLE WILL CORRECT ALL HARDWARE PRODUCTS, OPERATING SYSTEM AND INTEGRATED SOFTWARE, AND PROGRAM ERRORS.**

Oracle provides a limited warranty ("Oracle Hardware Warranty") for (i) the hardware, (ii) the operating system and the integrated software and the integrated software options, and (iii) the operating system media, the integrated software media and the integrated software options media ("media", and (i), (ii) and (iii) collectively, "Hardware Items"). Oracle warrants that the hardware will be free from, and using the operating system and integrated software and integrated software options will not cause in the hardware, material defects in materials and workmanship for one year from the date the hardware is delivered to You. Oracle warrants that the media will be free from material defects in materials and workmanship for a period of 90 days from the date the media is delivered to You. You may access a more detailed description of the Oracle Hardware Warranty at <http://www.oracle.com/us/support/policies/index.html> ("Warranty Web Page"). Any changes to the Oracle Hardware Warranty specified on the Warranty Web Page will not apply to hardware or media ordered prior to such change. The Oracle Hardware Warranty applies only to hardware and media that have been (1) manufactured by or for Oracle, and (2) sold by Oracle (either directly or by an Oracle-authorized distributor). The hardware may be new or like new. The Oracle Hardware Warranty applies to hardware that is new and hardware that is like-new which has been remanufactured and certified for warranty by Oracle.

Oracle hardware products may be new or like new. The Oracle Hardware Warranty applies to hardware products that are new and hardware products that are like-new which have been remanufactured and certified for warranty by Oracle.

You may access a more detailed description of the limited hardware warranty at <http://www.oracle.com/us/support/policies/index.html> ("the warranty web page"). Any changes to the hardware warranty details specified on the warranty web page will not apply to hardware ordered prior to such change.

Parts or components which are replaced under the applicable warranty may not be new. Title in all defective parts which are removed from the hardware under applicable warranty shall transfer back to Oracle.

No warranty will apply to the hardware products, operating system, integrated software or media which has been:

- i. modified, altered or adapted without Oracle's written consent (including modification or removal of the Oracle/Sun serial number tag on the hardware);

- viii. used by parties appearing on the most current U.S. export exclusion list;
- ix. relocated to countries subject to U.S. trade embargo or restrictions;
- x. used remotely to facilitate any activities in the countries referenced in (viii) and (ix) above; or
- xi. purchased from any entity other than Oracle or an Oracle authorized reseller.

## EXHIBIT E

This Oracle Hardware Warranty does not apply to normal wear of the hardware products or media. The Oracle Hardware Warranty is extended only to the original purchaser or original lessee of the hardware product and may be void in the event that title to the hardware product is transferred.

Oracle also warrants that services will be provided in a professional manner consistent with industry standards. You must notify Oracle of any services warranty deficiencies within 90 days from performance of the deficient services.

To the extent not addressed in your order for the Hardware Products and media to which this Oracle Hardware Warranty applies, the following Limitations apply:

NEITHER ORACLE NOR YOU WILL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE ARISING OUT OF OR RELATED TO THIS WARRANTY HOWEVER THEY ARISE, WHETHER IN CONTRACT OR TORT, OR OTHERWISE.

YOUR EXCLUSIVE REMEDY AND ORACLE'S ENTIRE LIABILITY FOR BREACH OF WARRANTY SHALL BE: (A) THE REPAIR OR, AT ORACLE'S OPTION AND EXPENSE, REPLACEMENT OF THE DEFECTIVE PRODUCT, OR IF SUCH REPAIR OR REPLACEMENT IS NOT REASONABLY ACHIEVABLE, THE REFUND OF THE FEES PAID TO ORACLE FOR THE DEFECTIVE PRODUCT; OR (B) THE REPERFORMANCE OF THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS; OR, (C) IF ORACLE CANNOT SUBSTANTIALLY CORRECT THE DEFICIENCY IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS AND RECOVER THE FEES YOU PAID TO ORACLE FOR THE DEFICIENT HARDWARE-RELATED SERVICE OFFERINGS. TO THE EXTENT NOT PROHIBITED BY LAW, THESE WARRANTIES ARE EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS INCLUDING ANY WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

### F. Technical Support

Technical support consists of annual technical support services you may have ordered or will order for the programs and/or hardware, including support renewals. Support must be ordered pursuant to a valid End User License Agreement such as these Hardware STCs. With respect to technical support for software products, bug fixes, security fixes and any updates received shall be provided under the terms of the license agreement that You accepted upon ordering the programs.

If ordered, annual technical support (including first year and all subsequent years) for programs is provided under Oracle's technical support policies in effect at the time the services are provided. The technical support policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle policy changes will not result in a material reduction in the level of services provided for supported programs during the period for which technical support has been ordered. You should review the policies prior to entering into an order for the applicable services. You may access the current version of the technical support policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request. Software Update License & Support (or any successor technical support offering to Software Update License & Support, "SULS") acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your SULS fee for the first renewal year should you renew SULS for the same number of licenses for the same programs as contained in the original order; the fee for SULS for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the program is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you

## EXHIBIT E

decide to purchase technical support at a later date. Technical support for programs is effective upon shipment of tangible media or upon the effective date of the order if shipment of tangible media is not required.

If ordered, Oracle Hardware and Systems Support (including first year and all subsequent years) is provided under Oracle's Hardware and Systems Support Policies in effect at the time the services are provided. You agree to cooperate with Oracle and provide the access, resources, materials, personnel, information, and consents that Oracle may require in order to perform the services. The Oracle Hardware and Systems Support Policies, incorporated herein, are subject to change at Oracle's discretion; however, Oracle will not materially reduce the level of services provided during the period for which Oracle Hardware and Systems Support has been ordered. You should review the policies prior to entering into an order. You may access the current version of the Oracle Hardware and Systems Support Policies at <http://www.oracle.com/us/support/policies/index.html>. The technical support policies state that, "global customer support services and systems are not designed to accommodate special security controls that may be required to store or process certain types of sensitive data." Accordingly, as stated in the technical support policies, You agree not to submit any health, payment card, or other controlled or sensitive data that require protections greater than those specified in the Oracle Global Customer Support Security Practices to Oracle as part of any service request.

Oracle Hardware and Systems Support acquired with your order may be renewed annually through a reseller that is expressly authorized to distribute support renewals. The order with Contractor will specify your Oracle Hardware and Systems Support fee for the first renewal year should you renew Oracle Hardware and Systems Support for the same systems and same configurations as contained in the original order; your Oracle Hardware and Systems Support fee for the second renewal year will not increase by more than 4% over the prior year's fees. If you elect not to purchase technical support at the time that the hardware is ordered, then you may be required to pay reinstatement fees in accordance with Oracle's technical support policies in effect at the time of reinstatement if you decide to purchase technical support at a later date. Technical support for hardware is effective upon delivery of hardware or upon the effective date of the order if shipment of hardware is not required.

Invoices for technical support services shall be submitted by Contractor on a quarterly basis (unless otherwise specified in the order) after the completion of such period.

Notwithstanding anything in Oracle's technical support policies or Oracle's Hardware and Systems Support Policies to the contrary, you may discontinue support at the end of any current support term and, at any time thereafter, reinstate support by executing an order for such services with Contractor. If you decide to reinstate such support, you must pay a reinstatement fee. The reinstatement fee shall be the amount that would have been paid by the ordering activity for the past support period had such support not lapsed. In addition to the reinstatement fee described in the preceding sentence, you must pay the support fee for the new support period quarterly in arrears in accordance with the order. This technical support fee for the new support period is computed as follows: (i) if support lapsed, then the support fee for a twelve month support period shall be the last annual support fee you paid for the relevant program and/or hardware system; (ii) if you never acquired technical support for the relevant program and/or hardware system, then the annual support fee shall be the fee that would have been charged if support had been ordered originally for the relevant program and/or hardware system per Oracle's Support pricing policies in effect at the time of reinstatement. Renewal adjustments may be applied to the annual support fee described in (i) and (ii) above.

#### G. Intellectual Property Indemnification

If someone makes a claim against you or Oracle ("Recipient" which may refer to you or Oracle depending upon which party received the Material) that any information, design, specification, instruction, software, data, hardware or material ("Material") furnished by either you or Oracle ("Provider" which may refer to you or Oracle depending on which party provided the Material) and used by the Recipient infringes its intellectual property rights (including U.S. or foreign patent, trademark and copyright), the Provider will indemnify the Recipient against the claim to the extent permitted by law if the Recipient does the following:

## EXHIBIT E

- notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice of the claim;
- Gives the Provider control of the defense, with input from Recipient, and any settlement negotiations; and
- Gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated someone else's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material. If you are the Provider and such return materially affects Contractor's ability to meet its obligations under the relevant order (e.g., impairs Contractor's ability to perform due to a work statement, schedule or cost impact), then Contractor may, at its option and upon 30 days prior written notice, request termination of the order. . The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient, or if the Recipient continues to use the applicable Material after the end of the license to use that Material. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Oracle will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Oracle. Oracle will not indemnify you for infringement caused by your actions against any third party if the Oracle program(s) as delivered to you and used in accordance with the terms of the order and these Hardware STCs would not otherwise infringe any third party intellectual property rights. Oracle will not indemnify you for any infringement claim that is based on: (1) a patent that you were made aware of prior to the effective date of your order with Contractor (pursuant to a claim, demand, or notice); or (2) your actions prior to the effective date of your order with Contractor.

Notwithstanding the provisions of the paragraph above and with respect to hardware only, if Oracle believes or it is determined that the hardware (or portion thereof) may have violated a third party's intellectual property rights, Oracle may choose to either replace or modify the hardware (or portion thereof) to be non-infringing (while substantially preserving its utility or functionality) or obtain a right to allow for continued use, or if these alternatives are not commercially reasonable, Oracle may remove the applicable hardware (or portion thereof) and refund the net book value.

In the event that the Material is Separately Licensed Third Party Technology and the associated Separate Terms do not allow termination of the license, in lieu of ending the license for the Material, Oracle may end the license for, and require return of, the program associated with that Separately Licensed Third Party Technology and shall refund any program license fees You may have paid to Oracle for the program

For claims related to hardware, if you are a current subscriber to Oracle technical support services for the operating system (e.g., Oracle Premier Support for Systems, Oracle Premier Support for Operating Systems or Oracle Linux Premier Support), then for the period of time for which you are/were a subscriber to the applicable Oracle technical support services (i) the phrase "Material" under this section shall include the operating system and the integrated software and (ii) the phrase "program(s)" in this section is replaced by the phrase "program(s) or the operating system or integrated software (as applicable)" (i.e., Oracle will not indemnify you for your use of the operating system and/or integrated software when you are/were not a subscriber to the applicable Oracle technical support services). Notwithstanding the foregoing, with respect solely to the Oracle Linux operating system, Oracle will not indemnify you for Materials that are not part of the Oracle Linux covered files as defined at <http://www.oracle.com/us/support/library/enterprise-linux-indemnification-069347.pdf>.

## EXHIBIT E

This section provides your and Oracle's exclusive remedy for any infringement claims or damages.

- H. NEITHER PARTY SHALL BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR ANY LOSS OF PROFITS, REVENUE, DATA, OR DATA USE. CONTRACTOR'S MAXIMUM LIABILITY FOR ANY DAMAGES ARISING OUT OF OR RELATED TO AN ORDER ISSUED PURSUANT TO THESE HARDWARE STCs, WHETHER IN CONTRACT OR TORT, OR OTHERWISE, SHALL BE LIMITED TO THE AMOUNT OF THE FEES YOU PAID CONTRACTOR UNDER THE RELEVANT ORDER, AND IF SUCH DAMAGES RESULT FROM YOUR USE OF PROGRAMS, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES, SUCH LIABILITY SHALL BE LIMITED TO THE FEES YOU PAID CONTRACTOR FOR THE DEFICIENT PROGRAM, HARDWARE, OPERATING SYSTEM, INTEGRATED SOFTWARE OR SERVICES GIVING RISE TO THE LIABILITY.

I. Other

1. You may not assign orders or give or transfer the programs, the operating system, the integrated software and/or any services or an interest in them to another individual or entity. If you grant a security interest in the programs, the operating system, the integrated software and/or any services deliverables, the secured party has no right to use or transfer the programs, the operating system, the integrated software and/or any services deliverables, and if you decide to finance your acquisition of hardware, programs and/or any services, you will follow Oracle's policies regarding financing which are at <http://oracle.com/contracts>. The foregoing shall not be construed to limit the rights you may otherwise have with respect to the Linux operating system, third party technology or separate works licensed under open source or similar license terms.
2. In entering into an order under the contract, you agree and acknowledge that you have not relied on the future availability of any hardware, program or updates. However, (a) if you order technical support, the preceding sentence does not relieve Oracle of its obligation to provide such technical support under the relevant order, if and when available, in accordance with Oracle's then current technical support policies, and (b) the preceding sentence does not change the rights granted to you for any program licensed under the order, per the terms of these Hardware STCs.
3. **Accessibility**  
The extent to which an Oracle product is, prior to any customizations, capable of providing comparable access to individuals with disabilities consistent with the applicable provisions of the Architectural and Transportation Barriers Compliance Board standards set out in 36 CFR Part 1194 (known as 'Section 508') effective as of June, 2001, or the Revised version in Appendix A (known as 'Revised Section 508') effective as of January, 2018 and the Web Content Accessibility Guidelines (WCAG) version 2.0 level AA, respectively, is indicated by the dependencies, comments and exceptions (some of which may be significant, if any) noted on the applicable Voluntary Product Accessibility Templates (VPAT) available at [www.oracle.com/us/corporate/accessibility](http://www.oracle.com/us/corporate/accessibility) for each product, when they are used in accordance with Oracle's associated documents and other written information, and provided that any assistive technologies and any other products used with them properly interoperate with them. In the event that no VPAT is available for a particular Oracle product, please contact the Oracle Accessibility Program Office at [accessible\\_ww@oracle.com](mailto:accessible_ww@oracle.com). In some cases, the outcome may be that a product is still being evaluated for accessibility, may be scheduled to meet accessibility standards in a future release, or may not be scheduled to meet accessibility standards at all. Oracle customers may call Oracle Support at 1.800.223.1711. Hearing-impaired customers in the U.S. who wish to speak to an Oracle Support representative may use a telecommunications relay service (TRS). Information about the TRS is available at <http://www.fcc.gov/cgb/consumerfacts/trs.html>, and a list of telephone numbers is available at <https://www.fcc.gov/general/telecommunications-relay-services-directory>. International hearing-impaired customers should use the TRS at +1.605.224.1837. An Oracle Support engineer will respond to technical issues according to the standard service request process. Oracle cannot make any commitments about future product directions, including plans to address accessibility or the

## EXHIBIT E

availability of VPATs. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements or any other such representations regarding or related to accessibility shall apply to the Oracle products provided under these Hardware STCs.

**4. Internet Protocol version 6 (IPv6)**

Prior to any customizations, the Oracle product(s) and service(s) to be delivered pursuant to the contract are capable of accommodating Internet Protocol version 6 (IPv6) solely to the extent defined and noted in the relevant product/service documentation available at [oracle.com](http://oracle.com). Please note that such capabilities are subject to the dependencies, comments and exceptions (some of which may be significant, if any) noted in such documentation, and require that Oracle product(s) and service(s) are used in accordance with Oracle's associated documents and other written information and that any other products properly interoperate with them. If no relevant product/service documentation is found addressing IPv6, then Oracle makes no representations as to the capabilities of the product/service in question to accommodate IPv6. Oracle cannot make any commitments about future product directions, including plans to address IPv6. Product direction remains at the sole discretion of Oracle. No other terms, conditions, statements, requirements or any other such representations regarding or related to IPv6 shall apply to the Oracle products and services to be delivered pursuant to these Hardware STCs.

5. Export laws and regulations of the United States and any other relevant local export laws and regulations apply to the programs and hardware (including any integrated software and operating system(s)). You agree that such export laws govern your use of the programs (including technical data), hardware (including any integrated software and operating system(s)) and any services deliverables provided under your order, and you agree to comply with all such export laws and regulations (including "deemed export" and "deemed re-export" regulations). You agree that no data, information, program, hardware (including any integrated software and operating system(s)) and/or materials resulting from services (or direct product thereof) will be exported, directly or indirectly, in violation of these laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology. You shall include the following notice on packing lists, commercial invoices, shipping documents and other documents involved in the transfer, export or re-export of the programs and hardware (including any integrated software and operating system(s)): "These commodities, technology, software, or hardware (including any integrated software and operating system(s)) were exported in accordance with U.S. Export Administration Regulations and applicable export laws. Diversion contrary to applicable export laws is prohibited."
6. Oracle, as the owner of the intellectual property of the program licenses and the technical support services, is a third party beneficiary of the contract and the orders for Oracle products issued pursuant to the contract, but does not assume any of the Oracle authorized reseller's obligations thereunder.
7. The Uniform Computer Information Transactions Act does not apply to these Hardware STCs nor any order placed pursuant to them.
8. You understand that the Contractor and Oracle's business partners, including any third party firms retained by you to provide computer consulting services, are independent of Oracle and are not Oracle's agents. Oracle is not bound by any acts of any such entity, unless the entity is providing services as an Oracle subcontractor under an engagement ordered directly with Oracle.
9. You may order trial programs, or Oracle may include additional programs with your order with Contractor which you may use for trial, non-production purposes only. You may not use the trial programs to provide or attend third party training on the content and/or functionality of the programs. You have 30 days from the delivery date to evaluate these programs. If you decide to use any of these programs after the 30-day trial period, you must obtain a license for such programs from Oracle or an authorized distributor. If you decide not to obtain a license for any program after the 30 day trial period, you will cease using and delete any such programs from your computer.

## EXHIBIT E

- systems. Programs licensed for trial purposes are provided "as is" and Oracle does not provide technical support or offer any warranties for these programs.
10. Oracle may include additional programs on the hardware (e.g., Exadata Storage Server software). You are not authorized to use those programs unless you have a license specifically granting you the right to do so; however, you may use programs for trial, non-production purposes for up to 30 days from the date of delivery provided that such use is subject to the terms for trial programs in the contract, including these Hardware STCs.
  11. Unless otherwise agreed in an order, upon 45 days written notice and no more than once annually, Oracle may audit your use of the programs. You agree to cooperate with Oracle's audit, provide reasonable assistance and access to information. Any such audit shall not unreasonably interfere with your normal business operations. Oracle shall comply with reasonable security and safety rules, policies, and procedures ("security rules") while performing any such audit, provided that such security rules are applicable to the performance of the audit; you make such security rules available to Oracle prior to the commencement of the audit; and such security rules do not modify or amend the terms and conditions of the contract or the applicable order. You shall be responsible for paying any underpaid fees related to use of the programs. Contractor may assign its right to audit your use of the programs to Oracle. If the Contractor assigns its right to audit your use of the programs to Oracle, then Oracle shall not be responsible for any costs incurred by either you or Contractor in cooperating with the audit.
  12. Upon termination of a program license, you are required to discontinue use and destroy or return to the Contractor all copies of the programs and program documentation associated with the terminated license.
  13. Source code may be delivered as part of the standard delivery for particular programs, operating system or integrated software; all such source code is subject to the terms of these Hardware STCs, including the Oracle License Definitions and Rules, the applicable order, the contract and the applicable program documentation.
  14. Oracle's Applications Licensing Table in effect as of the effective date of your order and is incorporated herein as Exhibit A. You may access the current version of the Applications Licensing Table at <http://oracle.com/contracts>.
  15. Oracle's License Definitions and Rules; Oracle's Integrated Software Options License Definitions, Rules, and Metrics; and Terms for Oracle Solaris are incorporated herein. You may access the current versions of these documents at <http://oracle.com/contracts>.
  16. If any provision herein or document incorporated by reference into these Hardware STCs, including the License Definitions and Rules and terms included and/or referenced therein, contains a provision (a) allowing for the automatic termination of your technical support services; or (b) allowing for the automatic renewal of services and/or fees, then, such terms shall not apply.
  17. Products and Service Offerings deliverables are not designed for or specifically intended for use in nuclear facilities or other hazardous applications. You agree that it is Your responsibility to ensure safe use of Products and Service Offerings deliverables in such applications.

**Note:** The terms and conditions contained herein only apply to the clients or customers of Mythics who procure professional services under this contract. These terms and conditions do not apply to Maricopa County.

**Warranty** – Mythics warrants that the services will be provided in a professional manner consistent with industry standards. Client must notify Mythics of any warranty deficiencies within ninety (90) calendar days from performance of the services.

THIS WARRANTY IS EXCLUSIVE AND THERE ARE NO OTHER EXPRESS OR IMPLIED WARRANTIES OR CONDITIONS, INCLUDING WARRANTIES OR CONDITIONS OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. FOR ANY BREACH OF THE WARRANTY, CLIENT'S EXCLUSIVE REMEDY, AND MYTHICS' ENTIRE LIABILITY, SHALL BE THE RE-PERFORMANCE OF THE DEFICIENT SERVICES, OR IF MYTHICS CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THE RELEVANT SERVICES AND RECOVER THE FEES PAID TO MYTHICS FOR THE DEFICIENT SERVICES.

**Standard of Conduct** - In rendering services under this Agreement, Mythics shall conform to the highest professional standards of work and business ethics. Mythics shall not use time, materials, or equipment of the Client without the prior written consent of the Client.

**Payment Terms** - All payments from Client to Mythics are due in full within thirty (30) days after receipt of a valid invoice. If any portion of a bill has not been paid, except for items disputed by the Client, within the sixty (60) day period, interest at the rate of twelve percent (12%) per annum, compounded monthly, of all owed amounts, shall automatically be added to the amount owed. If any balance remains outstanding seventy-five (75) days following the date of the invoice, Mythics may terminate this Agreement or any portion thereof. Termination of this Agreement or any portion thereof pursuant to this provision shall not release Client from any of its obligations hereunder.

**Indemnification** - Mythics covenants to fully indemnify, save and hold harmless Client, its officers, employees, and agents ("Indemnitees") against all liability, damage, loss, claims, demands and actions of any kind on account of personal injuries (including, without limiting the foregoing, workers' compensation and death claims), or property loss or damage of any kind, which arise out of or are in any manner connected with, or are claimed to arise out of or be in any manner connected with services or products provided by Mythics under this agreement which may be attributed to negligence by Mythics.

**Intellectual Property Rights** - All drawings, models, designs, formulas, methods, documents and tangible items prepared for and submitted to the Client by Mythics in connection with the services

rendered under this Agreement shall belong exclusively to the Client and shall be deemed to be works made for hire (the "Deliverable Items"). To the extent that any of the Deliverable Items may not, by operation of law, be works made for hire, Mythics hereby assigns to the Client the ownership of copyright or mask work in the Deliverable Items, and the Client shall have the right to obtain and hold in its own name any trademark, copyright, or mask work registration, and any other registrations and similar protection which may be available in the Deliverable Items. Mythics agrees to give the Client or its designees all assistance reasonably required to perfect such rights.

Notwithstanding the foregoing, Client acknowledges that, as part of performing the Services, Mythics may utilize proprietary software, ideas, concepts, know-how, tools, models, processes, methodologies and techniques that have been originated or developed by Mythics or that have been purchased by or licensed to Mythics (collectively, the "Mythics' Proprietary Materials"), including enhancements, modifications or additions that have been developed while Mythics has been performing the Services under this Agreement. Mythics grants the Client a perpetual, non-exclusive, worldwide, non-transferable license to use Mythics' Proprietary Materials in connection with the Deliverables or the Services. Client agrees that Mythics shall retain sole and exclusive right, title and interest in and to Mythics' Proprietary Materials.

**IP Indemnification** - If a third party makes a claim against you ("Recipient"), that any information, design, specification, instruction, software, data, or material ("Material") furnished by Mythics ("Provider"), and used by the Recipient infringes its intellectual property rights, the Provider, at its sole cost and expense, will defend the Recipient against the claim and indemnify the Recipient from the damages, liabilities, costs and expenses awarded by the court to the third party claiming infringement or the settlement agreed to by the Provider if the Recipient does the following:

- Notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice the claim, (or sooner if required by applicable law);
- gives the Provider sole control of the defense and any settlement negotiations; and
- gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated a third party's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund any fees the Recipient may have paid to the other party for it and any unused, prepaid technical support fees you have paid for the license. The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim

**MYTHICS™**

could have been avoided by using an unaltered current version of the Material which was provided to the Recipient. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Mythics will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Mythics. Mythics will not indemnify you for infringement caused by your actions against any third party if the program(s) as delivered to you and used in accordance with the terms of this agreement would not otherwise infringe any third-party intellectual property rights. Mythics will not indemnify you for any claim that is based on: (1) a patent that you were made aware of prior to the effective date of this agreement (pursuant to a claim, demand or notice); or (2) your actions prior to the effective date of this agreement. This section provides the parties' exclusive remedy for any infringement claims or damages.

**Limitation of Liability** - UNDER NO CIRCUMSTANCES SHALL EITHER PARTY BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, REVENUE, DATA, USE, OR SAVINGS) INCURRED BY EITHER PARTY, OR ANY THIRD PARTY, WHETHER IN AN ACTION IN CONTRACT OR TORT, EVEN IF THE OTHER PARTY OR ANY OTHER PERSON HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. MYTHICS' TOTAL LIABILITY UNDER THIS AGREEMENT, FOR ANY CAUSE OF ACTION WHATSOEVER, SHALL BE LIMITED TO THE AMOUNT OF FEES PAID BY CLIENT UNDER THE APPLICABLE STATEMENT OF WORK FROM WHICH SUCH LIABILITY ARISES.

**Confidential Information** - In performing consulting services under this Agreement, Mythics may be exposed to and will be required to use certain "Confidential Information" (as hereinafter defined) of the Client. Mythics agrees that Mythics will not, and Mythics' employees, agents or representatives will not, use, directly or indirectly, such Confidential Information for the benefit of any person, entity or organization other than the Client, or disclose such Confidential Information without the written authorization of the President of the Client, either during or after the term of this Agreement, for as long as such information retains the characteristics of Confidential Information.

"Confidential Information" means information, not generally known, and proprietary to the Client or to a third party for whom the Client is performing work, including, without limitation, information concerning any patents or trade secrets, confidential or secret designs, processes, formulae, source codes, plans, devices or material, research and development, proprietary software, analysis, techniques, materials or designs (whether or not patented or patentable), directly or indirectly useful in any aspect of the business of the Client, any vendor names, client and supplier lists, databases, management systems and sales and marketing plans of the Client, any confidential secret development or research work of the Client, or any other confidential information or proprietary aspects of the business of the Client. All information which Mythics

**MYTHICS™**

acquires or becomes acquainted with during the period of this Agreement, whether developed by Mythics or by others, which Mythics has a reasonable basis to believe to be Confidential Information, or which is treated by the Client as being Confidential Information, shall be presumed to be Confidential Information.

**Non-Solicitation** - To the extent permitted by law, it is expressly agreed that neither Party will directly solicit, hire, consult, or otherwise contract with any employee(s) of the other Party who are associated with the investigation / marketing efforts and subsequent proposals, and/or contract/subcontract efforts called for under this Agreement during the course of this Agreement for a period of one (1) year thereafter without prior written consent of the other Party. This shall not prohibit one Party from hiring any employee of the other Party who responds to (i) routine employment solicitations, or open house or job fair events, or (ii) widely distributed announcements of job openings.

**Disputes** - Disputes under this agreement shall be referred to the appropriate Client president, or their designee, and Mythics' president, or their designee, thirty (30) days before either party may commence formal proceedings; provided however, that this provision shall not restrain either party from seeking injunctive or equitable relief.

When seeking to resolve a dispute, the party's designated executives shall consider the types and impacts of the disputed matters, the effect of the dispute on the Program and Client's success as awardee, the cost to both parties of resolving the dispute and the practical effects on the business of each party resulting from the resolution or failure to resolve any such dispute.

In the event that the designated executives are unable to resolve a dispute in the required time or longer, if extended by the mutual agreement of the parties, either party may then submit the matter for formal proceedings which may include litigation or alternate dispute resolution.

Unless otherwise agreed to at the Order level, in the event litigation is necessary to enforce any provision of or resolve any dispute arising out of this Agreement, the Parties agree that any proceeding relating to or arising from the Agreement shall be heard and litigated exclusively in a state or federal court located in the County or City of Virginia Beach, Commonwealth of Virginia. Each party hereto consents to the personal jurisdiction in any such action brought in any such court, consents to service of process by registered mail upon each party's designated legal counsel and waives any objection to venue in any such courts and any claim that any such court is an inconvenient forum. During this process, each party will continue performing its obligations under this agreement.

**Governing Law** - Unless otherwise agreed to at the Order level, this Agreement shall be governed and construed in accordance with the laws of the Commonwealth of Virginia without giving effect to such State's principles of conflicts of laws and the laws of the United States of America. Any claim or cause of action arising out of or connected with this Agreement shall be brought

**MYTHICS™**

exclusively in the Circuit Court of the City of Virginia Beach, Virginia or in the Federal Court in the Eastern District of Virginia, Norfolk Division. The parties' consent to submit to the personal jurisdiction of such courts and waive any and all objections to such jurisdiction and venue.

**Modification** - No modification, termination or attempted waiver of this Agreement, or any provision thereof, shall be valid unless in writing signed by the party against whom the same is sought to be enforced.

**Force Majeure** - Neither party shall be liable to the other for any loss, claim or damage as a result of any delay or failure in the performance of any obligation hereunder, directly or indirectly caused by or resulting from: acts of the government; acts of God; acts of third persons; strikes, embargoes, delays in the mail, transportation and delivery; power failures and shortages; fires; floods; epidemics, pandemics and unusually severe weather conditions; or other causes which do not result from the fault or negligence of such party.

**Article IV – Confidentiality, Indemnity and Limitation of Liability**

1. **Confidentiality.** In performing consulting services under this Agreement, Mythics may be exposed to and will be required to use certain "Confidential Information" (as hereinafter defined) of the Client. Mythics agrees that Mythics will not, and Mythics' employees, agents or representatives will not, use, directly or indirectly, such Confidential Information for the benefit of any person, entity or organization other than the Client, or disclose such Confidential Information without the written authorization of the President of the Client, either during or after the term of this Agreement, for as long as such information retains the characteristics of Confidential Information.

"Confidential Information" means information, not generally known, and proprietary to the Client or to a third party for whom the Client is performing work, including, without limitation, information concerning any patents or trade secrets, confidential or secret designs, processes, formulae, source codes, plans, devices or material, research and development, proprietary software, analysis, techniques, materials or designs (whether or not patented or patentable), directly or indirectly useful in any aspect of the business of the Client, any vendor names, client and supplier lists, databases, management systems and sales and marketing plans of the Client, any confidential secret development or research work of the Client, or any other confidential information or proprietary aspects of the business of the Client. All information which Mythics acquires or becomes acquainted with during the period of this Agreement, whether developed by Mythics or by others, which Mythics has a reasonable basis to believe to be Confidential Information, or which is treated by the Client as being Confidential Information, shall be presumed to be Confidential Information.

2. **Indemnification.** Mythics covenants to fully indemnify, save and hold harmless Client, its officers, employees, and agents ("Indemnitees") against all liability, damage, loss, claims, demands and actions brought by a third party of any kind on account of 1) personal injuries (including, without limiting the foregoing, workers' compensation and death claims), or 2) property loss or damage of any kind, which arise out of or are in any manner connected with, or are claimed to arise out of or be in any manner connected with services or products provided by Mythics under this agreement which may be attributed to negligence or willful misconduct by Mythics.

In the event an indemnifiable event arises, the Indemnatee shall do the following:

- a. Notifies Mythics promptly in writing, as soon as practicable, but not later than 30 days after the Indemnitee receives notice the claim, (or sooner if required by applicable law);
- b. gives the Mythics sole control of the defense and any settlement negotiations; and
- c. gives the Mythics the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the aforementioned requirements are not met, and such action or inaction on the part of the Indemnitee unreasonably hinders or harms Mythics' ability to adequately defend against such claims, Mythics shall be alleviated from its indemnification obligations and the Indemnitee(s) shall have waived there right to seek such Indemnification. Client may, at any time and for any reason, elect to retain counsel and participate in the defense at its own expense.

3. **Intellectual Property Indemnification.** If a third party makes a claim against you ("Recipient"), that any information, design, specification, instruction, software, data, or material ("Material") furnished by Mythics ("Provider"), and used by the Recipient infringes its intellectual property rights, the Provider, at its sole cost and expense, will defend the Recipient against the claim and indemnify the Recipient from the damages, liabilities, costs and expenses awarded by the court to the third party claiming infringement or the settlement agreed to by the Provider if the Recipient does the following:

- a. Notifies the Provider promptly in writing, not later than 30 days after the Recipient receives notice the claim, (or sooner if required by applicable law);
- b. gives the Provider sole control of the defense and any settlement negotiations; and
- c. gives the Provider the information, authority, and assistance the Provider needs to defend against or settle the claim.

If the Provider believes or it is determined that any of the Material may have violated a third party's intellectual property rights, the Provider may choose to either modify the Material to be non-infringing (while substantially preserving its utility or functionality) or obtain a license to allow for continued use, or if these alternatives are not commercially reasonable, the Provider may end the license for, and require return of, the applicable Material and refund any fees the Recipient may have paid to the other party for it and any unused, prepaid technical support fees you have paid for the license. The Provider will not indemnify the Recipient if the Recipient alters the Material or uses it outside the scope of use identified in the Provider's user documentation or if the Recipient uses a version of the Materials which has been superseded, if the infringement claim could have been avoided by using an unaltered current version of the Material which was provided to the Recipient. The Provider will not indemnify the Recipient to the extent that an infringement claim is based upon any information, design, specification, instruction, software, data, or material not furnished by the Provider. Mythics will not indemnify you to the extent that an infringement claim is based upon the combination of any Material with any products or services not provided by Mythics. Mythics will not indemnify you for infringement caused by your actions against any third party if the program(s) as delivered to you and used in accordance with the terms of this agreement would not otherwise infringe any third-party intellectual property rights. Mythics will not indemnify you for any claim that is based on: (1) a patent that you were made aware of prior to the effective date of this agreement (pursuant to a claim, demand or notice); or (2) your actions prior to the effective date of this agreement. This section provides the parties' exclusive remedy for any infringement claims or damages.

4. **Limitation of Liability.** UNDER NO CIRCUMSTANCES SHALL EITHER PARTY BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOST PROFITS, REVENUE, DATA, USE, OR SAVINGS) INCURRED BY EITHER PARTY, OR ANY THIRD PARTY, WHETHER IN AN ACTION IN CONTRACT OR TORT, EVEN IF THE OTHER PARTY OR ANY OTHER PERSON HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES. EXCEPT FOR A VIOLATION OF THE CONFIDENTIAL INFORMATION SECTION BELOW, MYTHICS' TOTAL LIABILITY UNDER THIS AGREEMENT, FOR ANY CAUSE OF ACTION WHATSOEVER, SHALL BE LIMITED TO THE AMOUNT OF FEES PAID BY CLIENT UNDER THE APPLICABLE STATEMENT OF WORK FROM WHICH SUCH LIABILITY ARISES.

#### **Article V – Representations and Warranty**

1. **Representations.** Mythics hereby represents it is a business appropriately registered and in good standing in the applicable jurisdiction and has not been disbarred, recommended for disbarment or otherwise subject to any disciplinary action that would prevent Mythics from fulfilling its obligations under this Agreement.

Mythics has also not previously assumed any obligation(s) inconsistent with those undertaken by Mythics pursuant to this Agreement.

2. **Warranty.** In rendering services under this Agreement, Mythics' work shall be performed in a good and workmanlike manner by fully qualified personnel, in conformance with the applicable Statement of Work, and in accordance with generally accepted industry standards. Any deliverables shall conform in material respect to the applicable Statement of Work, and deliverables shall not knowingly contain viruses, worms, trojan horses, or other destructive or malicious devices or codes. Mythics shall not use time, materials, or equipment of the Client without the prior written consent of the Client. For the avoidance of doubt, a fully executed Statement of Work shall constitute the necessary consent of the client to use time, materials or equipment of the Client in accordance with the applicable Statement of Work.

THIS WARRANTY IS EXCLUSIVE AND MYTHICS MAKES NO WARRANTIES (AND EXPRESSLY DISCLAIM ANY AND ALL SUCH WARRANTIES), WHETHER EXPRESS, IMPLIED, STATUTORY, OR OTHERWISE, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT, OR FITNESS FOR A PARTICULAR PURPOSE. FOR ANY BREACH OF THE WARRANTY, CLIENT'S EXCLUSIVE REMEDY, AND MYTHICS ENTIRE LIABILITY, SHALL BE THE RE-PERFORMANCE OF THE DEFICIENT SERVICES, OR IF MYTHICS CANNOT SUBSTANTIALLY CORRECT A BREACH IN A COMMERCIALY REASONABLE MANNER, YOU MAY END THE RELEVANT SERVICES AND RECOVER THE FEES PAID TO MYTHICS FOR THE DEFICIENT SERVICES.

#### **Article VI – Performance Conditions**

1. **Client Obligations.** In order to deliver the Services in accordance with the applicable Statement of Work, Mythics necessarily relies on the client for full and timely cooperation, support and information. As such, this section sets forth the Client's obligations in that regard. Additional obligations may be identified in the applicable Statement of Work, if deemed necessary or appropriate by Mythics. Any failure by Client to fulfill the obligations set forth in this provision may result in the need for a Change Order, due to increased cost or time necessary to perform the Services in the applicable Statement of Work, or as provided for in the terms of this Agreement, termination of the Services.
  - a. Client shall be responsible for the cost of obtaining any necessary background checks or clearances for Mythics personnel.
  - b. Client shall provide Mythics access to the business, client, and technical information and facilities necessary to perform its contractual obligations.
  - c. Client shall be responsible for coordinating with other organizations, contractors, and/or Third-Party Vendors to obtain any necessary information in a commercially reasonable time in order to prevent delays in Mythics' performance.
  - d. Client shall ensure appropriate personnel are available in a timely manner to meet with Mythics, as necessary, to allow Services to be performed in accordance with the applicable Statement of Work or to address any matters of concern.
  - e. Unless otherwise addressed in the Statement of Work, Client shall ensure that all relevant in scope Client Systems are up to date with patching and are on the most recent patching cycle at the time of project commencement.
  - f. Client shall allow Mythics to install and have full access to the Client Systems' tools necessary for fulfillment of the Services.
  - g. Client shall provide Mythics with the IT resources necessary to install, configure, and run the automation tools necessary to perform the Services.
  - h. Client shall provide Mythics with detailed and current change management policies and procedures, in a commercially reasonable amount of time prior to the commencement of any Services, to allow for full review and compliance.
  - i. Client shall be responsible for all negotiations with hardware, software, or other vendors, or any other contractual relationship between the Client and Third Parties. Mythics, at the request of Client, may provide suggestions regarding optimal product or vendor selection.
  - j. Client shall, during the term of this agreement, be responsible for Client IT infrastructure, including its physical hardware, network connectivity, and on-premises and cloud based

environments, and shall ensure that equipment within the Client IT infrastructure (i) originates from an authorized source, and is not counterfeit or otherwise adulterated; (ii) is supported by the Third Party vendor of such equipment; (iii) is stored and maintained in an appropriate physical location that meets such vendor's guidelines; and (iv) remains free from environmental influences and conditions that may hinder or impair performance.

- k. Client shall, during the term of this Agreement, ensure that Client Software (i) originates from an authorized source and is not counterfeit or otherwise adulterated; (ii) is properly licensed or the subject of a current subscription agreement; and (iii) remains supported by its vendor and has not been deprecated.
  - l. Client shall ensure that the Client Systems are protected by information security controls consistent with good practice and applicable law, including (i) a licensed, up to date and vendor supported (a) server based antivirus solution that covers servers, desktops, notebooks/laptops, email and all other relevant components of the Client Systems; (b) server based backup solution that can be monitored and that will send notifications on job failures and successes; and (c) hardware firewall between the Client's internal network and the Internet; (ii) secure encryption of wireless data traffic in the Client environment; and (iii) other requisite physical, technical and administrative controls.
  - m. Client shall, in accordance with good practice, maintain requisite Client IT Services other than those provided by Mythics in connection with the Services detailed in the Statement of Work.
  - n. Unless otherwise provided for in the applicable Statement of Work, Client shall be responsible for testing and installing necessary updates (and upgrades) to the Client Systems in accordance with good practice.
  - o. Client shall be solely responsible for the content of all data and information the Client, or its Third-Party vendors, post to the Client Systems.
  - p. Client shall bear the costs associated with the fulfillment of its responsibilities under this section, unless otherwise provided for in the applicable Statement of Work.
  - q. Client shall be responsible for obtaining and maintaining the necessary insurance policies to cover all its Client owned hardware, software and systems, Property, Personnel and Premises, and any Third Party owned equipment contractually requiring such coverage.
  - r. Client shall ensure that it complies with the requirements and restrictions set forth in the Portal Use and Conditions section in this Agreement.
2. **Change Orders.** The Parties recognize that various factors may warrant a request by a Party for a proposed change in the nature or scope the Services or in the nature or components of the Client Systems (each such requested change, a "**Proposed Change Order**").

Client shall be entitled, at any time and in its discretion, to request a Proposed Change Order with respect to the then-current Services and/or the then-current Client Systems. Upon receipt of a request for a Proposed Change Order, Mythics shall promptly prepare and present a Proposed Change Order to the Client that will include the proposed amount of any necessary increase (or decrease) in the cost of performance resulting from the requested change; and any other material impacts on its performance under the applicable Statement of Work.

Mythics shall be entitled to submit, as may be necessary or desirable, Proposed Change Orders to address a failure by the Client to meet its obligations as outlined in this Agreement or in the applicable Statement of work; inaccuracies in an Initial Systems-Identification; or other good and sufficient cause. In its Proposed Change Order, Mythics shall identify the reasons for its proposal, and the Fees associated with the change in Services or Client Systems.

Promptly upon submission of a Proposed Change Order, the Parties shall meet to negotiate in good faith a resolution to the issues presented in the Proposed Change Order, including equitable adjustments (either increases or decreases) in applicable Fees. Upon mutual acceptance of a Proposed Change Order (as submitted or as may be revised during the good faith negotiations), the Parties shall execute a formal change order reflecting the subject matter and conditions of their negotiations (each a "**Change Order**") and attach it to the applicable Statement of Work. Upon execution, the services specified in the Change Order shall be deemed to be "Services" under the applicable Statement of Work.

A failure to agree upon a Proposed Change Order submitted by the Client shall relieve Mythics from proceeding in performance of the Client's Proposed Change Order. A failure to agree upon a Proposed Change Order submitted by Mythics, or on a modification required by a Change in Law, shall, upon good cause shown, relieve Mythics from continuing to provide the affected Service; provided any associated Fees are equitably reduced to account for the reduction in Services, and Mythics shall reflect such reduction in subsequent invoices for the affected Service.

3. **Stop Work Orders.** Client may, at any time, by delivery of a written Stop Work Order to Mythics, require Mythics to stop any or all of the Work, for thirty (30) calendar days after the Stop Work Order is delivered to Mythics, and for any further period to which the parties may agree. Upon receipt of the Stop Work Order, Mythics will immediately comply with its terms and take reasonable steps to minimize the costs incurred to Client during the applicable Stop Work period. Within thirty (30) calendar days after a Stop Work Order is delivered to Mythics, or within any mutually agreed extension of that period, Client will either cancel the Stop Work Order or terminate the Work, as provided in the Termination clause herein. If a Stop Work Order is cancelled, or the period of the Stop Work Order or any extension thereof expires, Mythics will resume Work. Upon resumption of work, Mythics shall not be required to assign the same personnel to the project. Additionally, Client shall make an equitable adjustment in the delivery schedule, the Contract Amount, or both, if a. the Stop Work Order increased Mythics' costs or the time required for performance; and b. Mythics asserts its right to an equitable adjustment within thirty (30) calendar days after the end of the applicable Stop Work period. If a Stop Work Order is not cancelled and the Work covered by the Stop Work Order is terminated other than for cause, Client shall allow Mythics to invoice for reasonable costs resulting from the Stop Work Order.
4. **Deliverables.** If applicable, Mythics shall prepare and provide to Client the reports, documentation, system configurations, root cause analyses, and other materials and/or information as identified in the applicable Statement of Work for delivery by Mythics to the Client (each a "**Deliverable**"). For the sake of clarity, any Statement of Work billed on a Time and Materials ("T&M") basis, shall not include any Deliverables unless expressly identified and agreed to in the applicable Statement of Work.
  - a. **Form of Deliverables.** Deliverables will be provided in English, formatted per Mythics' guidelines, substantially free of errors, and at a level of detail that is good and sufficient for a person with technical proficiency in the target technology.
  - b. **Acceptance of Deliverables.** For a period of ten (10) business days after delivery, or such longer period as may be provided under the applicable Statement of Work (the "**Evaluation Period**"), the Client shall be entitled to review and test a Deliverable to determine whether it complies with such Statement of Work (the "**Acceptance Criteria**"). If the Deliverable meets the Acceptance Criteria in material respects, the Client shall accept the Deliverable and notify Mythics accordingly. If Client does not provide a response to Mythics' by the end of the Evaluation Period, the deliverable shall be deemed accepted. If the Deliverable does not comply with Acceptance Criteria in material respects, the Client shall notify Mythics during the Evaluation Period, and provide information and assistance to demonstrate the non-compliance. Mythics shall then remedy the non-compliance, at no additional charge. If the Client does not so notify Mythics during the Evaluation Period of the non-conformance, the Deliverable shall be deemed accepted.
5. **Intellectual Property Rights.**
  - a. **To Client.** Subject to the terms and conditions of this Agreement, Mythics hereby grants to Client, under Mythics' Intellectual Property Rights and during and after the Term, a non-exclusive, sublicensable, transferable, irrevocable, perpetual, paid-up, worldwide right and license to copy, distribute, modify, perform, use, and otherwise exploit any Deliverables.
  - b. **To Mythics.** Subject to the terms and conditions of this Agreement, Client hereby grants to Mythics, during the Term only, a limited, non-exclusive, non-transferable, non-sublicensable license to access and use Client Data and Mythics-Managed Systems, solely for the purpose of fulfilling its obligations to the Client under this Agreement, and for no other purpose.
  - c. **Ownership Rights.** Except for the rights expressly granted under this Article, each Party retains sole ownership and control of its intellectual property rights, including, without limitation, to any proprietary software or methodologies. To the extent the Client provides Mythics feedback, enhancement requests, recommendations, or other information that is generally applicable to managed services, Mythics shall have a paid-up license during and after the Term to use such information in connection with its managed services.

6. **Portal Use and Conditions.** If the Services outlined in the applicable Statement of Work require the Client to use Mythics' Managed Services Portal, the Client shall comply with this provision. The Managed Services Portal (also referred to as the "Client Portal", "CMP software" or "software"), is a proprietary technology (patent pending) leveraged in the provision of the Services and is provided to customer on an "AS IS" basis. Mythics grants to Client a non-exclusive, non-sublicensable, non-transferable, limited license to use the software. Mythics shall retain all rights to the software. By utilizing the software, Client agrees that it will not engage in, or allow any party to engage in, any reverse engineering or reconfiguration of the software. Additionally, Client agrees that it will only use the software for its intended purpose and any violation of this provision shall constitute a material breach of Client's obligations under this Agreement and may result in Mythics disabling Client's access to the software and/or termination of this Agreement in whole or in part. As the software is being offered on an "AS IS" basis, Mythics makes no other warranties, express or implied, and hereby disclaims all implied warranties, including any warranty of merchantability and warranty of fitness for a particular purpose.
7. **Insurance.** Shall be in compliance with those set forth in the requirements of the master US Communities agreement between Mythics and Maricopa County.

## **Article VII - Term and Termination**

1. **Term.** The term for any Services performed shall be defined in the applicable Statement of Work.
2. **Termination for Non-Appropriations.** In the event no funds are appropriated for this Agreement, or any Statement(s) of Work issued pursuant to this Agreement, upon providing written notice to Mythics, Client shall have the right in the applicable fiscal year to terminate this Agreement or the Statement(s) of Work impacted by the lack of appropriated funds without penalties of any sort.
3. **Termination for Cause.** In the event that a Party is in material breach of any obligation under this Agreement, the non-breaching Party may terminate this Agreement for cause after first:
  - a. providing the breaching Party with written notice of the breach (a "**Notice of Breach**") and
  - b. providing thereafter a thirty (30) business day opportunity to cure beginning on the date of receipt by the alleged breaching Party or Parties of the Notice of Breach, provided that if the breaching Party has commenced a cure of the material breach during such cure period and is diligently pursuing such cure, then the breaching Party shall have an additional thirty (30) business days to complete such cure. The Parties may mutually agree to extend the cure period beyond the additional thirty (30) business days.

If the breaching Party does not render a cure within the applicable cure period, or within a mutually agreed upon extended period of time, this Agreement shall be deemed terminated as of the expiration of such applicable cure period.

4. **Termination of Individual Statement(s) of Work.** Where a non-breaching Party has the right to terminate this Agreement due to a material breach of a Statement of Work, it may in its discretion terminate this Agreement or the Statement of Work affected by the material breach. Any Statement(s) of Work that are not terminated shall continue in full force and effect under this Agreement.
5. **Termination for Insolvency.** To the extent permitted by law, in the event a Party shall make an assignment for the benefit of creditors or shall have a petition in bankruptcy filed for or against it that is not dismissed within sixty (60) calendar days, the other Party shall have the right to immediately terminate this Agreement.
6. **Termination by Mutual Agreement.** The Parties may, at any time, agree in writing to terminate this Agreement or any Statement(s) of Work issued pursuant to this Agreement.
7. **Termination for Convenience.** Mythics may, at any time and upon providing thirty (30) business days written notice to Client, terminate this Agreement without cause.
8. **Effect of Termination.**
  - a. **Cessation of Services and Access.** Upon expiration or termination of this Agreement (subject to the partial termination process set under the subsection titled, Termination of Individual Statement(s) of Work)):
    - i. Mythics shall cease providing the Services;

- ii. Mythics shall disable Client's access to any Client Portals;
    - iii. the Client shall disable Mythics' access to any other Client Systems and Mythics shall not exercise or seek to exercise access privileges to such Client Systems; and
    - iv. each Party shall return the other Party's Confidential Information or certify in writing to its destruction.
  - b. **Return of Equipment.** Within 30 days of the expiration or termination of this Agreement, Mythics will return to Client the materials, supplies, equipment, and other items provided or paid for by Client (if any), to the extent not yet fully consumed by Mythics in the performance of the Services.
9. **Unpaid Fees Upon Termination.** Termination of this Agreement for any reason shall not excuse the Client's obligation to pay in full any and all undisputed amounts that have accrued, nor shall termination by Mythics' result in a refund of Fees paid.

4. **Waiver of Breach.** The waiver by a party of a breach of any provision of this Agreement by the other party shall not operate or be construed as a waiver of any other or subsequent breach by the party in breach.
5. **Order of Precedence.** In the event of any inconsistencies or conflicts between the terms and conditions herein and other contract documents, the following order or precedence shall be used to determine the which terms will supersede:

When seeking to resolve a dispute, the party's designated executives shall consider the types and impacts of the disputed matters, the effect of the dispute on the Program and Client's success as awardee, the cost to both parties of resolving the dispute and the practical effects on the business of each party resulting from the resolution or failure to resolve any such dispute. In the event that the designated executives are unable to resolve a dispute in the required time or longer, if extended by the mutual agreement of the parties, either party may then submit the matter for formal proceedings which may include litigation or alternate dispute resolution. In the event litigation is necessary to enforce any provision of or resolve any dispute arising out of this Agreement, the Parties agree that any proceeding relating to or arising from the Agreement shall be heard and litigated exclusively in a state or federal court, having appropriate jurisdiction over such matters, located in the Client's state of incorporation or business operations. Each party hereto consents to the personal jurisdiction in any such action brought in any such court, consents to service of process by registered mail upon each party's designated legal counsel and waives any objection to venue in any such courts and any claim that any such court is an inconvenient forum. During this process, each party will continue performing its obligations under this Agreement.

8. **Governing Law.** This Agreement shall be governed and construed in accordance with the laws of the Client's state of incorporation or business operations without giving effect to such State's principles of conflicts of laws and the laws of the United States of America.
9. **Partial Invalidity.** In case any one or more of the provisions contained herein shall, for any reason, be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other provisions of this Agreement, but this Agreement shall be construed as if such invalid, illegal or unenforceable provision or provisions had never been contained herein.
10. **Changes in Law.** In the event that Mythics is wholly or partially prevented from or hindered in providing one or more Services by a change in applicable law (or changes in the interpretation or enforcement thereof by a governmental authority with requisite jurisdiction) (each a "**Change in Law**"), then Mythics shall not be obligated to deliver the affected Services; and the Parties shall treat the Change in Law as a Proposed Change Order and proceed in accordance with the requirements for Change Orders contained herein.
11. **Force Majeure.** Neither Party shall be liable to the other for any loss, claim or damage as a result of any delay or failure in the performance of any obligation hereunder, directly or indirectly caused by or resulting from: acts of the government; acts of God; acts of third persons; strikes, embargoes, delays in the mail, transportation and delivery; power failures and shortages; fires; floods; epidemics, pandemics and unusually severe weather conditions; or other causes which do not result from the fault or negligence of such Party.

### **Insurance and Indemnity**

#### **INDEMNIFICATION**

To the furthest extent allowed by law, VENDOR shall indemnify, hold harmless and defend CITY and each of its officers, officials, employees, agents and volunteers from any and all loss, liability, fines, penalties, forfeitures, costs and damages (whether in contract, tort or strict liability, including but not limited to personal injury, death at any time and property damage) incurred by CITY, VENDOR or any other person, and from any and all claims, demands and actions in law or equity (including reasonable attorney's fees, litigation expenses and cost to enforce this agreement), arising or alleged to have arisen directly or indirectly out of performance of this Contract. VENDOR'S obligations under the preceding sentence shall apply regardless of whether CITY or any of its officers, officials, employees, agents or volunteers are passively negligent, but shall not apply to any loss, liability, fines, penalties, forfeitures, costs or damages caused by the active or sole negligence, or the willful misconduct, of CITY or any of its officers, officials, employees, agents or volunteers.

If VENDOR should subcontract all or any portion of the work to be performed under this Contract, VENDOR shall require each subcontractor to indemnify, hold harmless and defend CITY and each of its officers, officials, employees, agents and volunteers in accordance with the terms of the preceding paragraph.

This section shall survive termination or expiration of this Contract.

#### **INSURANCE REQUIREMENTS**

(a) Throughout the life of this Agreement, VENDOR shall pay for and maintain in full force and effect all insurance as required herein with an insurance company(ies) either (i) admitted by the California Insurance Commissioner to do business in the State of California and rated no less than "A-VII" in the Best's Insurance Rating Guide, or (ii) as may be authorized in writing by CITY'S Risk Manager or his/her designee at any time and in his/her sole discretion. The required policies of insurance as stated herein shall maintain limits of liability of not less than those amounts stated therein. However, the insurance limits available to CITY, its officers, officials, employees, agents and volunteers as additional insureds, shall be the greater of the minimum limits specified therein or the full limit of any insurance proceeds to the named insured.

(b) If at any time during the life of the Agreement or any extension, VENDOR or any of its subcontractors fail to maintain any required insurance in full force and effect, all services and work under this Agreement shall be discontinued immediately, and all payments due or that become due to VENDOR shall be withheld until notice is received by CITY that the required insurance has been restored to full force and effect and that the premiums therefore have been paid for a period satisfactory to CITY. Any failure to maintain the required insurance shall be sufficient cause for CITY to terminate this

Agreement. No action taken by CITY pursuant to this section shall in any way relieve VENDOR of its responsibilities under this Agreement. The phrase "fail to maintain any required insurance" shall include, without limitation, notification received by CITY that an insurer has commenced proceedings, or has had proceedings commenced against it, indicating that the insurer is insolvent.

(c) The fact that insurance is obtained by VENDOR shall not be deemed to release or diminish the liability of VENDOR, including, without limitation, liability under the indemnity provisions of this Agreement. The duty to indemnify CITY shall apply to all claims and liability regardless of whether any insurance policies are applicable. The policy limits do not act as a limitation upon the amount of indemnification to be provided by VENDOR. Approval or purchase of any insurance contracts or policies shall in no way relieve from liability nor limit the liability of VENDOR, vendors, suppliers, invitees, contractors, sub-contractors, subcontractors, or anyone employed directly or indirectly by any of them.

Coverage shall be at least as broad as:

1. The most current version of Insurance Services Office (ISO) Commercial General Liability Coverage Form CG 00 01, providing liability coverage arising out of your business operations. The Commercial General Liability policy shall be written on an occurrence form and shall provide coverage for "bodily injury," "property damage" and "personal and advertising injury" with coverage for premises and operations (including the use of owned and non-owned equipment), products and completed operations, and contractual liability (including, without limitation, indemnity obligations under the Agreement) with limits of liability not less than those set forth under "Minimum Limits of Insurance."
2. ## Quality and Project Management Approach

Mythics recognizes the importance of quality and the controls required to ensure consistent, repeatable high-quality results on all of our client engagements. As such, we undertook an extensive internal effort to analyze, document, and formalize a Mythics Quality Management System (QMS). Our QMS was designed around industry-leading standards (PMI), and covers all aspects of our services organization, from properly scoping and responding to opportunities, into the management and execution of programs, and continues through project close-out and reporting activities.

In 2018, Mythics received ISO 9001:2015 certification through the successful execution of our QMS, and we have maintained this accreditation through external audits ever since. This quality management certification and standard demonstrates our organization's commitment to quality assurance, control and management. It also confirms our team uses thoroughly defined and proven processes to deliver high-quality solutions to our clients.

Mythics Consulting also has experts on staff that are Agile Certified Scrum Masters (CSM), Project Management Professionals (PMP) and ITIL certified. ## 1. Background

The City of Fresno is undertaking a strategic initiative to re-establish full Oracle support for its PeopleSoft HCM applications and get current on the latest application release. To enable this, the City is re-licensing its PeopleSoft HCM applications with Oracle to resume ongoing support and maintenance. This step is necessary to transition from third-party support (previously provided by Rimini Street) back to Oracle support, which includes access to ongoing updates, security patches, and regulatory compliance releases.

As part of this broader effort, the City of Fresno is also migrating its PeopleSoft environments to Oracle Cloud Infrastructure (OCI). The move to OCI will modernize the City's hosting platform, improve performance and scalability, and allow the City to take advantage of Oracle's cloud-native tools for environment automation, lifecycle management, and disaster recovery.

Together, the re-licensing and OCI migration reflect the City's long-term commitment to maintaining a stable, secure, and well-supported PeopleSoft environment, fully aligned with Oracle's roadmap and best practices.

### 1.1 PeopleSoft HCM 8.9 to 9.2 Modernization Program Overview

The City of Fresno currently operates a shared PeopleSoft server infrastructure, where multiple environments—such as Production, Sandbox, QA, and Development—run on shared hardware. This setup creates challenges related to performance isolation, patching schedules, and change management. Much of the current infrastructure is built on legacy Solaris 10 hardware, with one server running on Windows Server 2012.

The first phase of the PeopleSoft 9.2 Modernization Program will include the migration of PeopleSoft HCM applications to Oracle Cloud Infrastructure (OCI). The migration to OCI will enable the City to transition to a modern, cloud-based architecture utilizing a combination of Oracle Database as a Service (DBaaS), Oracle Linux, and Microsoft Windows virtual machines. This modernization eliminates aging platforms, improves system supportability, and aligns with Oracle's current best practices for PeopleSoft deployments.

Each PeopleSoft HCM environment will be provisioned on its own dedicated virtual machine, ensuring better performance isolation, environment stability, and scalability. The move will enable the City to take full advantage of Oracle's native automation, backup, and lifecycle management tools in the cloud.

In parallel to the Phase 1 OCI migration, the City will upgrade existing PeopleSoft HCM 8.9 applications to the latest PeopleSoft 9.2 release that includes the latest available PeopleTools and PUM image versions. The "get current" application upgrade will enable the City to reestablish access to full Oracle Support and regain access to regular Oracle software updates, security patches, and regulatory compliance updates. Mythics will evaluate all existing PeopleSoft customizations, including Rimini Street custom objects, and work collaboratively with the City to de-customize and move to delivered functionality where feasible. Together, the PeopleSoft upgrade, OCI migration, and de-customization

efforts will modernize the City's ERP infrastructure, eliminate technical debt, and operate PeopleSoft in a more secure, scalable, and supportable environment.

The Phase 1 scope of work additionally includes updates to the PeopleSoft HCM Chart of Accounts (COA) structure. Due to the replacement of PeopleSoft Financials with Tyler Financials, the City implemented a new Chart of Accounts (COA) structure and values within the new Financials system. Rather than updating the legacy PeopleSoft Financials COA setups in PeopleSoft HCM with the Tyler structure and values, a crosswalk was created to translate values on the Payroll transaction accounting interface between the two systems. The delivered PeopleSoft Payroll accounting process and interface to PeopleSoft Financials was also replaced with a custom process and interface for Tyler Financials. The effort to design and update the PeopleSoft HCM system with a new structure and values has been included in the Phase 1 scope. It is recommended that these changes are implemented as staggered Phase 1 deployment (Phase 1.b) related to the broader upgrade to 9.2 and migration to OCI (Phase 1.a). The exact timing and deployment methodology will be finalized during the initial planning and design phase of the Program.

Phase 2 of the PeopleSoft 9.2 Modernization Program includes the new implementation of PeopleSoft ePerformance and eCompensation modules. Additional optimization scope for Benefits Administration and core HR will be evaluated for Phase 2 based on the prioritization of Phase 1 scope and ability to implement within the required timelines.

In addition to the Mythics' professional services, this proposal includes the Oracle Cloud Infrastructure Bill of Materials and the required PeopleSoft application licenses. Further details on each component are provided below.

## **1.2 Oracle Cloud Infrastructure – Bill of Materials**

The Oracle Cloud Infrastructure (OCI) resources required to support the City of Fresno's PeopleSoft environment are outlined in the Bill of Materials (BOM) provided under Mythics Quote ID CL-CoF-OCI-FY26. This BOM reflects the estimated set of OCI services and quantities necessary to support all PeopleSoft environments (Development, QA, Sandbox, and Production), assuming each environment is running 100% of the time.

The BOM is included as "Appendix B" to this Statement of Work. The City will be invoiced based on actual usage and consumption of OCI resources, not the estimated values listed in the BOM.

## **1.3 PeopleSoft Applications – Bill of Materials**

The Bill of Materials established under Mythics Quote Estimated Number LS-CF-061825 shows the Oracle PeopleSoft licenses and associated Software Update License & Support, purchased under the Enterprise Employee perpetual licensing metric. The scope of the PeopleSoft licenses included in this engagement reflects the functional requirements of the City's PeopleSoft environment. Detailed licensing information is provided in "Appendix D" of this agreement.

## 2. Services and Deliverables Scope

This SOW outlines the key services and work products to be provided by Mythics. Aligned with the understanding and objectives stated above, Mythics will provide the following services based on the functional and technical scope detailed below. The scope of this SOW covers all stages of Mythics' standard implementation methodology as described below. Mythics' implementation methodology will be applied to each phase of the PeopleSoft HCM 9.2 Modernization Program.

### 2.1 Methodology and High-Level Scope of Services

Mythics approaches ERP and business transformation projects with a standard methodology that consists of the following stages.

**Initialize and Conceive** – Builds project foundation by clearly defining the project objectives, scope, and schedule while establishing the project organization structure, tools, and processes and mobilizing the extended project team.

**Design** – Begins with series of workshops that result in detailed design requirements and specifications for business processes, system configuration, and development. The design stage typically culminates in demonstrations or a Conference Room Pilot to validate the solution prototype.

**Develop** – Results in final system configuration, business processes, and completed technical development as inputs for system testing.

**Test** – Includes various cycles of testing and quality assurance including Unit, System, Integration, Regression, User Acceptance, and Parallel. The output of the Test stage results in a Production ready environment with critical go-live defects resolved.

**Deploy** – Final stage prior to go-live where deployment and training plans are finalized and executed including communications, end-user training, and migration to production.

**Operate & Review** – New system and processes are monitored and supported to ensure solution is working as designed. Check points are conducted to identify issues and validate that resolutions are provided. Lessons learned are documented and project closed.

## **2.2 Project Management**

Mythics recommends that the client appoint a Project Manager to work with the Mythics Project Manager. The Mythics project manager will work closely with your Project Manager to ensure that schedules coincide with the needs of the project and that any changes or issues are promptly brought to the team's attention for resolution.

Implementation of projects of this nature require a strong management approach grounded in proven industry standards. Mythics' project management approach incorporates prior project lessons learned as well as standard project management best practices as codified by the Project Management Institute's (PMI) Project Management Body of Knowledge (PMBOK). Our approach is based on the five key PMI process groups:

- Initiating,
- Planning,
- Executing,
- Monitoring and Controlling, and
- Closing.

The Mythics Project Manager reports to the Mythics Consulting executive team and ensures all of the procedures and processes below are applied to the project and its delivery. By following this formal and proven process, a continuous and standardized project management procedure is utilized throughout the various tasks assigned to this project.

## **Staffing Plan**

Mythics Oracle certified specialists will be chosen based on their area(s) of expertise and core corporate capabilities. These individuals typically make up our project management team and key technical personnel.

Mythics hires high quality professionals by offering excellent benefits and programs; a challenging and fun work environment; clearly defined career planning, advanced education, technical training, and leadership development with career advancement opportunities; and performance recognition and incentive programs. We continually monitor and enhance programs to attract, retain, and develop highly skilled, informed, and motivated personnel committed to achieving both business and personal excellence in an ethical and productive environment.

Mythics pays close attention to staff retention and understands the importance of workforce stability. Whether we are placing an existing employee or hiring new staff, we look for highly motivated professionals that are passionate about the new position. Retention efforts begin during our interview and hiring processes, where we ensure we have a solid match before we make an offer. For this project, we will assemble a team of proven Mythics members that are all committed to delivering a successful implementation. Mythics will commit to maintaining the assigned project team throughout the implementation and post go live period, barring unforeseen circumstances outside of our control. Should project positions become vacant, we will work with the Client Project Team to identify suitable resources to fill open positions.

## **Status Reporting**

The Mythics PM will be responsible for tracking and reporting the status of the project. This is accomplished through a series of meetings and reports as detailed in the Communications plan. The status will be delivered on a weekly basis to the customer's leadership team in the form of a one-page executive update (see below). This executive update will provide a concise project status built around the work completed, upcoming work, milestone status and risks/issues. The information in the weekly status report will be aggregated from several project artifacts, including the Project Plan, Project Schedule, Risk/Issue Register and Action Item tracker.

Mythics will provide a project manager to oversee the Mythics execution of the project. Our PM will

- Create Project Schedule and Project Plan
- Develop Communication plan.
- Manage Scope, Schedule, and Budget
- Track progress against schedule
- Manage risk and project execution.

- Setup initial compartments, users, and roles in the environment
- Setup limited cloud administrator role to be utilized by project team.
- Register and validate CSI# with My Oracle Support

Once the tenancy has been set up, Mythics will provide up to four (4) weeks of support to plan and design the fundamental services required to effectively migrate, run, and manage the applications in the OCI environment. Mythics will bring to the project an initial reference architecture design for a

PeopleSoft deployment on OCI. Through a series of workshops and discovery, Mythics will tailor this reference architecture to the needs of The City of Fresno. The full workshop agenda will be finalized by the project delivery team, but typical workshops include:

## 2.5 PeopleSoft Application Migration

Mythics will migrate the On-Premises PeopleSoft application to OCI. This will be accomplished through several migration iterations as we build out each environment identified in the environment snapshot. Mythics will refine its steps and approach with each migration applying lessons learned and documenting our steps and procedures in a run book. The run book will be utilized in the final production migration. Specific migration plans will be detailed by the delivery team, but typical steps include:

- **Database Migration.** Mythics will migrate the database utilizing standard Oracle tools such as Data Pump, Data Guard or RMAN Duplicate. Specific tooling will be based upon uptime requirements and at the discretion of the project team.
- **App Tier Migration.** Mythics will migrate the PeopleSoft App Tier using such tools as rsync or PeopleSoft Cloud Manager. This will include web tier, app tier and any associated application tier environments.

## 4. Program Timeline

The following graphic provides a high-level estimated timeline for Phase 1 of the PeopleSoft HCM 9.2 Modernization Program. Phase 1 scope is estimated to begin in December of 2025 and is dependent on contract execution. The Phase 1 go-live date will be planned and selected upon completion of the design requirements fit/gap analysis and implementation scope prioritization. The exact go-live date will be confirmed and adjusted based on scope, resource availability, and key project dependencies during delivery. Decisions regarding the implementation scope, approach, and resources will impact the target go-live date.

The exact timing and duration of the Phase 2 implementation will be planned and determined during Phase 1. The first Benefits open enrollment period in PeopleSoft 9.2 is estimated to begin in May 2027 with benefit electives going into effect on July 1, 2027.

## 5. Assumptions

Mythics has made every effort to accurately assess and estimate the required consulting services. As no discovery effort is ever holistically exhaustive, a summary of assumptions made by Mythics in assembling this Statement of Work is below. If any assumptions prove to be invalid during delivery, adjustments to schedule, scope, or budget outlined herein may be required to complete the Description of Services.

1. Most project work will be performed remotely by Mythics. A limited travel budget has been provided to allow core Mythics team members to travel and work onsite at client facilities during critical project activities.
2. Client maintains an active support contract with Oracle for upgrades
3. Client will provide the following project support resources as identified during project scoping meetings.
  - Dennis Jones (DBA/Sysadmin/PM) (Minimum: 50% allocation) – PM on upgrade
  - Sanjay Patteson (DBA/Sysadmin/Developer/Analyst) (Minimum: 50% allocation) – PM/Tech lead on upgrade
  - Michael Hindes (Developer/Analyst) (Minimum: 50% allocation) - Developer
  - Pending PAIV recruitment (Minimum: 25% allocation) – TBD utility (functional/tech development)
  - Pending DBA recruitment (Minimum: 50% allocation) – Sys Admin / DBA (Sanjay's open position)
  - Raymond Jin (API Developer/Analyst) (Minimum: 25% allocation) - Integrations
4. Client will designate a Project Sponsor(s) who are leader(s) within the organization. Project Sponsor(s) will be available to validate decisions, resolve risks and issues, and identify key personnel who must be consulted throughout the project delivery.
5. Client will appoint a project Steering Committee, which will be comprised of management and leaders of the company and include Mythics representatives. The Steering Committee will be actively involved in the project and meet regularly to address an agenda (e.g., status updates, risks, issues, decisions, and resource needs) collaboratively developed by Client and Mythics. The frequency and duration of the meeting may increase during critical times of the project.
6. Members of the Steering Committee will be reasonably available to meet regularly throughout the project at dates and times scheduled and agreed upon in advance.
7. Parallel Payroll Testing requirements:

A minimum of three (3) payroll parallel tests will be completed as part of the system validation process to ensure accuracy, consistency, and compliance of payroll processing in the upgraded PeopleSoft 9.2 environment. Parallel tests shall replicate end-to-end payroll processing using live production data from the current 8.9 environment. The final test cycle shall include:

  - First Pay Period of the Month
  - Second Pay Period of the Month
  - Third Pay Period of the Month

At a minimum, each parallel test must include the following components:

  - Gross-to-Net Payroll Calculation Comparison, which will validate that all earnings, deductions, taxes, and net pay amounts match the current production results.
  - Time & Labor and Absence Integration Validation to ensure accurate integration and processing of time entries and leave balances.

- Retroactive Pay, Off-Cycle, and Exception Scenarios including representative test cases to validate special payroll scenarios.
- Reporting and Audit Trail Verification to confirm that payroll reports, audit logs, and reconciliation outputs are consistent with current standards.

Successful completion of all three parallel tests, with documented sign-off from the City of Fresno, shall be a prerequisite for go-live readiness.

8. Functional Parity between Peoplesoft 8.9 to 9.2 will be maintained, at a minimum, for the existing modules (Core HR, Base Benefits, Payroll, Time & Labor, Absence Management) during the upgrade project. The implementation of new modules and/or functionality (Benefits Administration, ePerformance, eCompensation) is considered separate from the functional parity assurance and shall be governed by their respective implementation design scope, deliverables, and acceptance criteria
9. Client will maintain on premise technical infrastructure (such as hardware, software, and network) needed to complete project work. Unplanned outages or downtime that impact project work will necessitate a change order.
10. Client is responsible for on-premises network configuration and testing. Requests for Mythics assistance with OnPrem to OCI network troubleshooting will necessitate a change request.
11. Client will coordinate any downtime required of existing systems.
12. Client will be responsible for organizational change management activities including but not limited to corporate communications, business process changes, or policy changes.
13. Client business leaders and SMEs will support organization change management and communications by understanding changes that impact their departments, benefits to the organization, and assist the project team in delivering communications to their employees.
14. Client will provide timely access to IT and business personnel to support project activities. Requests for access to Subject Matter Experts ("SMEs") and other staff will be provided by Mythics in advance with appropriate lead time and addressed by Client in a timely manner to support the project schedule.
15. Client will provide Mythics access to technical resources, information, and facilities necessary to execute the services in this Statement of Work. Client will provide Mythics with remote access, such as VPN, SSH, RDP, etc. as needed.
16. The standard features and functionality of Oracle products are working as they have been designed. If bugs are found with the software, it may affect the timeline and estimated fees.
17. Client HCM business processes do not require significant re-engineering for the upgrade from 8.9 to 9.2 other than taking advantage of new functionality in the updated system.
18. Client will maintain annual technical support for the Oracle software and hardware throughout the term of the services.
19. The Mythics professional working day is eight hours, including reasonable time for meals. Mythics understands that occasions arise during client engagements that require a longer or shorter working day. Mythics will not extend engagements when delays result from Client inability to meet stated prerequisites prior to an engagement, nor when delays result from Client personnel not being available to provide required support.
20. Client and Mythics will be responsive to inquiries and requests so that the planned project schedule can be met according to plans.

21. Client will assign resources (SMEs) with a thorough understanding of the business environment, policies and procedures, business practices, and systems and data in relevant areas impacted by the project.
22. Client will be responsible for managing any third-party resources and applications and ensure that support is available to provide input in a timely manner, according to the work plan or other project communication channels.
23. Client will provide timely access to functional, technical, and testing documentation related to current reports, interfaces, extensions (customizations) and reports including any narratives, process flows, technical architectures, specifications/programming, and application data models as required by the project objectives and scope.

26. Mythics is responsible for Mythics resources and having them available to the project per the timeline presented by Mythics and approved by Client.

## 6. Out of Scope Items

1. Re-write of benefits carrier integrations within PeopleSoft. All existing benefit carrier integrations will remain in Personify.
2. New third party system interfaces with the exception of required changes to Personify integration to accommodate open enrollment within PeopleSoft HCM.

## 7. Change Management

Mythics has made every attempt to accurately estimate time required to successfully complete the project. Both parties acknowledge and agrees that if either causes impediments, complications, or requested changes in scope that the length of the project and associated price could be impacted. Examples of valid impediments, complications, and changes in scope consist of (but are not limited to):

- Client initiated delay where Client is not prepared to allow Mythics to begin work on the agreed upon start date thus resulting in additional cost to Mythics for resources that have been sent to Client site but cannot begin the Services.
- Mythics initiated delay where Mythics is not prepared to begin work on the agreed upon start date thus resulting in additional hardware costs for the Client or resulting in loss of resource availability.
- Client provided information necessary for timely delivery by Mythics is not accurate.

- Delays or problems associated with third party telecommunication equipment. (This includes, but is not limited to, cabling, servers, routers, hubs, and switches managed or installed by third parties.)
- Malfunctioning hardware.
- Inability to access equipment or personnel that are required to complete the project.
- Conflicts or incompatibilities associated with the installation of hardware or software installed by Mythics.
- Client increases the scope of services requiring additional labor, hardware, software, materials, or other direct costs.
- Errors made by Mythics during the design, OCI infrastructure build, and/or production/non-production migration phases that increases the scope of services or results in the need for additional time.

If any change(s) from impediments, complications, or changes in the scope of services cause an increase or decrease in the price or level of effort of the SOW, or the time required for the performance of any part of the work to be accomplished hereunder, whether or not such work is specifically identified in the written change, then the price, delivery schedules and other affected provision(s), if any, as applicable, shall be equitably adjusted and shall be modified in writing by an authorized representative of both parties in substantially the same form as Mythics' Change Order Form, available upon request. Each Change Order shall be governed by the terms of this SOW and shall reference the effective date of this SOW. In the event of a conflict in the terms and conditions of this SOW and the terms and conditions of a Change Order the latter shall take precedence.

### **Change Control Management**

Change Management will ensure that all proposed changes are defined, reviewed, and agreed upon so they can be properly implemented and communicated to all stakeholders. This approach will also ensure that only changes within the scope of this project are approved and implemented.

The Change Management approach consists of three areas:

- Ensure changes are within scope and beneficial to the project
- Determine how the change will be implemented
- Manage the change as it is implemented

The Change Management process has been designed to make sure this approach is followed for all changes. By using this approach methodology, the Project Team will prevent unnecessary change from occurring and focus its resources only on beneficial changes within the project scope.

The Change Control Process will follow the organizational standard change process for all projects. The Mythics project manager will collaborate with the client on all change requests but has overall responsibility for executing the change management process for each change request.

1. Identify the need for a change (Stakeholders) – Change requestor will submit a completed change request form to the project manager.
2. Log change in the change request register (Project Manager) – The project manager will keep a log of all submitted change requests throughout the project's lifecycle.

3. Evaluate the change (Project Manager, Team, Requestor) – The project manager will conduct a preliminary analysis on the impact of the change to risk, cost, schedule, and scope and seek clarification from team members and the change requestor.
4. Submit change request to CCB (Project Manager) – The project manager will submit the change request, as well as the preliminary analysis, to the CCB for review.
5. Obtain Decision on change request (CCB) – The CCB will discuss the proposed change and decide whether or not it will be approved based on all submitted information.
6. Implement change (Project Manager) – If a change is approved by the CCB, the project manager will update and re-baseline project documentation as necessary.

The Change Control Board (CCB) is the approval authority for all proposed change requests pertaining to the Project. The purpose of the CCB is to review all change requests, determine their impacts on the project risk, scope, cost, and schedule, and to approve or deny each change request. The following chart provides a list of the CCB members:

Position	CCB Role
Project Sponsor	CCB Chair –
Project Manager	CCB Co-Chair
Project Technical Lead	CCB Co-Chair
Project Operations Lead	CCB Co-Chair

As change requests are submitted to the Mythics Project Manager by the project team/stakeholders, the Project Manager will log the requests in the change log and the CCB will convene every other Friday to review all change requests. For a change request to be approved, all CCB members must vote in favor. In the event more information is needed for a particular change request, the request will be deferred and sent back to the requestor for more information or clarification. If a change is deemed critical, an ad hoc CCB meeting can be called in order to review the change prior to the next scheduled bi-weekly CCB meeting.

The following are the roles and responsibilities for all change management efforts related to the Project:

**Project Sponsor:**

- Approve all changes to budget/funding allocations
- Approve all changes to schedule baseline
- Approve any changes in project scope
- Chair the CCB

**Project Manager:**

- Receive and log all change requests from project stakeholders
- Conduct preliminary risk, cost, schedule, scope analysis of change prior to CCB

- Seek clarification from change requestors on any open issues or concerns
- Make documentation revisions/edits as necessary for all approved changes
- Participate on CCB

#### **Project Team / Stakeholders**

- Submit all change requests on standard organizational change request forms
- Provide all applicable information and detail on change request forms
- Be prepared to address questions regarding any submitted change requests
- Provide feedback as necessary on impact of proposed changes

## **8. Escalation Process:**

The escalation process enables the project team to consult with sponsors, seeking assistance in addressing complex/pervasive issues that are out of scope and/or difficult for the project team to address. The process will consist of the following:

- **Identification:** The risk/issue will be documented and cataloged in the risk register by the Mythics Project Manager (PM) or Clients Point of Contact (POC).
- **Validation:** The PM and POC will validate the issue and attempt to address the issue collaboratively. Unresolved issues can be escalated to project sponsors by both the PM and POC.
- **Review and Decision:** The project sponsors will discuss and respond with a decision, within a reasonable amount of time after receiving the issue. The PM and POC will work with the project team to determine impact to scope, cost, schedule, resources, and report to the sponsors of expected impacts.
- **Implementation:** The PM will work with the team to incorporate the changes and update the project plan.

## **9. Managed Service**

Mythics will provide OCI Managed Service for the environment that was migrated. Services include:

- Proactive Monitoring
- Incident Management
- Incident Resolution
- Security Patching

Mythics and the City will mutually determine the start date for Managed Services, which is estimated to begin approximately 10 months (~ June 2026) from the commencement of the project.

#### **Environment Snapshot:**

Managed Services pricing is based on the number of virtual machines and databases being monitored. The current pricing that is presented covers monitoring for **10 virtual machines** and **4 Databases**. Pricing can be adjusted accordingly if the scope of the environment is increased or decreased.

## Monitoring as a Service

Mythics will provide monitoring services of your environment listed in the environment snapshot 24 hours a day, 7 days a week, 365 days a year to identify nonstandard activity (“Event”). Our monitoring service is a combination of reactive automated monitoring through the use of Oracle Enterprise Manager and proactive monitoring of key database logs, backups, etc.

### Monitoring Setup

Mythics will work with your team in obtaining appropriate access to configure your existing Oracle Enterprise Manager environment or the OCI alerting and notification framework to monitor the items listed in the environment snapshot. Mythics will configure monitoring and alert thresholds per our best practices and integrate alert output with our ticketing system and Management Portal. Through our configuration Mythics and the client will:

- Implement Mythics standardized OEM / OCI configuration and automation tools
- Reduce unnecessary alerting and quiet noisy systems
- Correlate alerts to reduce redundant notifications
- Multiple alerting channels through email, phone, text

### Incident Management

Mythics uses Opsgenie to manage incidents/alerts. Opsgenie allows flexibility in:

- The creation of Multiple Alerting Channels
- Creating Alert Enrichment
- Creating Custom Alert Actions
- Alert Customization and Classification
- Alert Lifecycle Tracking
- Alert & Notification Policies
- Heartbeats

Each event that causes an unplanned interruption or exceeds an alert threshold shall be referred to as an incident (“Incident”). For each incident, Mythics will

- Receive, acknowledge, and validate the Incident.
- Categorize the Incident based upon the Mythics Severity Level definitions. The definitions of Mythics’ Severity Levels are outlined below
- Create an Incident ticket in the Portal for Incidents assigned as Severity 1 or Severity 2
- Mythics will use reasonable efforts to notify the Client contact of a Severity 1 or Severity 2 Incidents within **30 minutes** of detection of such incidents
- Report and manage the volume of incidents through our portal.
- For Production environments identified in the environment snapshot Mythics will begin resolution services, for Non-Prod Mythics will for the ticket

details to the appropriate client staff for resolution. Client may resolve or may choose to use On Demand services to resolve.

## **Incident Resolution**

Mythics will address Incidents and Problems resulting from the items in the Environment Snapshot assigned to Incident Resolution Services (see table 3). A Mythics Support Consultant (“SC”) will be assigned to you for the duration of the services and is responsible for working with your SDM to facilitate the following services

b. Resolution Services for Production Environments – Mythics will provide the following Resolution Services for the production environments identified in the Environment Snapshot 24 hours a day, 7 days a week, 365 days a year.

c. Incident Resolution – After notifying you of an Incident, Mythics will manage the remediation and closure of the Incident and applicable Support Requests with Oracle Support. Mythics may contact your third-party support providers for collaboration on Incident Resolution

- Change Management – Mythics will coordinate and execute, as required, management of all updates, parameters changes, provisioning activities and adding and/or removing components as they apply to the items in the Environment Snapshot
- Problem Management – Mythics will analyze Incidents to identify the root cause of a single Incident or multiple Incidents (“Problem”). Mythics will create a Problem ticket in the Portal, coordinate the remediation of the Problem, and provide recommendations for corrective action for the avoidance of the applicable Problem in the future.

## **Patching as a Service**

### **Database Cloud Service and OS Patching**

Mythics will provide patching services to provide bi-annual patching for both the databases and operating systems. Mythics utilizes a structured approach to patching based upon Oracle best practices and our overall managed services experience. For each patch and patch cycle Mythics will:

#### **Review the Patch**

The Mythics team will review the release notes of the patch and validate that the patch is applicable to the environment and that the application supports the patch by checking vendor certification matrix.

#### **Schedule Downtime**

The Mythics team will work with the client to schedule downtime to apply the patch in the environment.

**Develop Communication Plan.**

A key component of Mythics patching methodology is a communication plan. It is important to keep key stakeholders informed of the progress of patch. Mythics provides communication through updates to our customer portal and patching ticket. Our Service Delivery Manager provides updates via email as key components of the patching plan are completed.

**Create Patch Plan.**

Mythics will create a patch plan for each patch that needs to be applied to an environment. The patch plan generally consists of:

- Pre-Patch activities. Activities that need to occur before the patching begins, such as applying any prerequisites, manual scripting and/or configurations.
- Notification/Communication plan. The Mythics team will create a detailed communication plan containing details on who needs to be notified and when through each stage of the patching process.
- Patch activities. This will be the detailed list of steps that will be executed upon through the patching process. This list of activities will include dates, times, required resources and estimated duration for each activity.
- Testing activities. As part of the patch planning, Mythics will work with customer to determine what testing activities need to take place, timeframes for testing and testing responsibilities. The customer will be required to perform any necessary application testing.
- Backout procedures. Our patching plans include steps to retract the patch if necessary or if something goes wrong during the patching process.
- Post Patch Activities. Activities and actions that need to be performed once the patching is complete.

**Apply the Patch.**

Once the scheduled down time, communication plans and patch plans have been developed and approved, Mythics will apply the patch in the designated environment.

**Notify client.**

Upon completion of the patch, Mythics will perform a smoke test to ensure environment stability and rectify any unexpected results of the patch application to the environment. Once the smoke test is completed, Mythics will notify the customer that patching has been successfully completed and any customer testing may commence.

Mythics will review Oracle Quarterly Security patch advisories for notifications that address security vulnerabilities.

**Administrative Services**

As part of our Managed Services offering, Client will have access to several administrative and operational items critical to the Managed Services solution. These are described as follows:

### **Service Delivery Manager**

Mythics includes a Service Delivery Manager (SDM) as part of our Managed Services engagement. The SDM is the primary client point of contact throughout the period of performance and ensures delivery excellence through managing projects, driving issues to resolution, tracking service tickets and metrics, and helping direct the technical team responsible for delivering the services to our customers.

### **Service Desk**

Mythics will provide access to our Service Desk, a client-specific portal for requesting service and tracking incidents. This is the primary method of contacting Mythics to use the provided OnDemand Hours. The service desk provides a central trouble ticketing system for incident reporting (alongside 24 x 7 phone support), a centralized client architecture and infrastructure repository and a Mythics activity journal for live views into any client activity.

Access to the Service Desk will be provided to up to five key individuals at the client (more can be allowed if needed). The Service Desk allows seamless tracking of client incidents and is customized to display client environment information in dropdown boxes (information is collected during the initial deployment phase). The Service Desk Portal will issue alert emails to both the client and Mythics' contacts assigned to the engagement. Additionally, this Service Desk is used as a repository of information collected over time about the Client database environment. This information may be later used in subsequent time-study reporting to improve system performance and as a repository for frequently asked questions specific to Client systems. All system information and documentation collected during the implementation phase of the project will be made available to the Client team in the Service Desk.

### **Knowledge Base**

A knowledge base is a repository for “how-to” and troubleshooting information. Knowledge Bases are commonly used by IT Support teams to store and access critical documentation to increase efficiency and collaboration and optimize troubleshooting and service restoration. Mythics will create a dynamic knowledge base of important client environment, background and process information. Mythics' Knowledge Base will drive the following:

- Immediate access to a documented solution, and relevant search results.
- Ability to create new articles quickly
- Automated organization of content
- Communication around key document updates, additions and deletions

### **Managed Services Project Team**

The Mythics Managed Services team includes individuals with expertise across a variety of technical, management and key industry disciplines, such as ITIL, Oracle Database, Fusion Middleware, Engineered Systems and more. Your services include access to each of these individuals at the appropriate time, and as such, our entire team should have access to your environments and all information pertaining to them.

You will have a primary account team involved in all aspects of our relationship. The dedicated points of contact for your team are listed below:

- **Service Delivery Manager (SDM)**
  - Client's Primary contact throughout the MMS contract.
  - Coordinates all the maintenance activities and is responsible for sending periodic reports
  - Ensures routine data maintenance and monitoring activities are performed thoroughly and all emergency requests are handled efficiently
  - Handles all escalations and Monthly meetings
  - Front-line client satisfaction
- **Manager of Technical Delivery**
  - Manages technical resources when assigned by SDM
  - Coordinates staffing for major maintenance events
  - Conducts training events for Mythics and client personnel when necessary
  - Delivers key escalation support for technical issues
- **Executive Sponsor**
  - Escalation support and client satisfaction
  - Strategic partnership building and guidance

### **Service Allocations**

The managed services subscription includes up to 40 (forty) hours of administrative effort per month. This allocation is a sizing assumption intended to capture the routine level of effort associated with the environment. Actual demand may vary. Under-utilization will not reduce the fixed fee, and additional services will be treated as overages. Adjustments to this allocation may be made by mutual agreement if requirements materially change. For clarity, unutilized monthly service hours do not accrue, bank, or roll over to subsequent months.

### **Managed Services Term and Renewal**

The initial term of this Agreement shall be 36 (thirty-six) months from the Effective Date ("Initial Term"). Upon expiration of the Initial Term, this Agreement shall automatically continue on a month-to-month basis under the same terms and conditions unless and until either party provides written notice of its intent to terminate or until the parties execute a new agreement.

### Funded Allocation Model and Additional Fees for Any Increased Usage/Capacity End User Terms

As described in the Oracle PaaS and IaaS Universal Credits - Service Descriptions document available at <http://www.oracle.com/contracts>, the following terms apply to your Oracle PaaS and IaaS Universal Credits.

Under the "Funded Allocation Model", Oracle allows You the flexibility to fund an annual amount to Oracle as specified in the "Funded Allocation Value" in Your order, which is to be applied towards the future usage of eligible Oracle IaaS and PaaS Cloud Services specified in the rate card attached to Your order or as seen in the Cloud Portal provided such Cloud Services are available in production release when ordered, at the fees specified in the rate card. The total Funded Allocation Value of Your order is reflected in the "Funded Allocation Value" column and the applicable Services Period for that value will be as specified in Your order. Oracle will invoice you monthly in arrears based on your actual usage for the prior month at the rates for each activated Oracle IaaS and PaaS Cloud Service as defined in Your order.

**Please note:** by issuing an order in reference to this quote you represent that you are authorized to commit to a funded allocation model payment structure **\*\*INCLUDING OVERAGE PAYMENTS\*\*** as described below and this obligation shall supersede any contradictory buyer terms as a fundamental requirement of the type of licensing priced on this quote.

### Overage

If, at the end of any month during the Services Period, You have exceeded the Funded Allocation Value, You must provide additional funding for Your usage, or You must cease to use the applicable Cloud Services. If you have exceeded the Funded Allocation Value and You have not ended Your use of the Services, You will be subject to overage fees. Oracle will invoice the Oracle Partner for the excess usage of the Oracle IaaS and PaaS Cloud Service at the Overage Unit Net Price specified in the rate card of Your order or as seen in the Cloud Portal; Oracle will send invoices for the additional usage to the Oracle Partner at the Billing Contact provided to Oracle by the Oracle Partner. The Oracle Partner is responsible for all additional usage fees and such fees shall be payable to Oracle as stated in the applicable Oracle invoice. If You placed Your order for Funded Allocation Value through an Oracle Partner and the corresponding order between Oracle and the Oracle Partner provides that You will be invoiced by Oracle, then You acknowledge that Oracle will invoice You for Your excess usage. You shall ensure that Your order with the Oracle Partner indicates whether You agreed to be invoiced by Oracle for Your excess usage in this manner. You may set quotas, alerts and use other monitoring tools within the Cloud Portal to assist You in managing and tracking Your usage.

### Additional Services

If Oracle adds additional service offerings to the list of eligible Oracle IaaS and PaaS Cloud Services within Your Cloud Services Account during the Services Period, You may activate and use those service offerings and the discount will be applied based on the Cloud Service category discount specified in the rate card attached to Your order or as seen in the Cloud Portal. The development, release, and timing of any future features, functionality or service offerings remains at the sole discretion of Oracle Corporation.

### Replenishment of Account at End of Services Period

If you are continuing to use services after the end of the Services Period specified in Your order and You have not extended the Services period and increased the Funded Allocation Value for use of eligible Oracle IaaS and PaaS Cloud Services, You will be charged for the actual usage of all services that You activate and/or have activated within Your Cloud Services Account based on Oracle's then current price list for such services, which can be found at [https://cloud.oracle.com/en\\_US/upricing](https://cloud.oracle.com/en_US/upricing). Upon extending the term of the Services Period and increasing the amount of the Funded Allocation Value through a new order or modification of Your existing order, You will receive the Cloud Services category discounts specified in the rate card attached to Your new order or modification of the existing order or as seen in the Cloud Portal.

**Roving Edge Parts.** Roving Edge Infrastructure parts are limited-availability parts. This order is not eligible for any Roving Edge Infrastructure products or services, even if a Roving Edge part number is specified in the Rate Card of this order or seen in the Cloud Portal.

### No Auto-Renewal

termination, will be deleted from Your Discount account. You may access any Discount obtained pursuant to this section through electronic dashboard(s) in Your Oracle Cloud Portal ("dashboards").
