Dear City Clerk Todd Stermer,

As a resident in Fresno, the housing crisis has only worsened and impacted myself and loved ones. The City of Fresno budget priorities must be grounded in our community's needs, demands, and experiences and must prioritize affordable and accessible housing.

The City of Fresno ranks #1 for the greatest rental rate increase in the country, and housing prices are rising faster than our wages.

We need inclusive housing policies and programs that temper rising costs and make it possible for young BIPOC and working families to live and work in Fresno. We must pass \$2 million for the Eviction Protection Program and find permanent funding solutions to keep people housed.

It's also time for the City of Fresno to enact solutions like rent control that will curb the growing power imbalance between corporate landlords and renters, and set us on a path towards housing for all and a more vibrant and healthy Fresno.

Sincerely,
Tammy Vang
