The Engineer's Estimate for this expenditure is \$668,100. The contract price is 24% below the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation:

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The Blythe and Gates Traffic Signal Improvement Project will enhance safety for the motorists, cyclists, and pedestrians who travel through this intersection every day by signaling the existing intersection as well as correcting ADA accessibility deficiencies. The scope of work includes the construction of a new traffic signal system that will introduce protected left-turns for all directions of travel, remove and replace all existing return ramps, and place striping to create a bike lane at the intersection where a bike lane does not currently exist in the northbound direction. No additional right-of-way was needed to complete this project. The project is completely funded using SB1 Road Maintenance and Rehabilitation Account (RMRA) funds. The design phase of the project was initiated in FY21, the preliminary engineering design and project management was completed over 18 months by City of Fresno staff.
