BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The downtown area has seen rise to new businesses, government offices and restaurants causing a numerous influx of pedestrians to the area. To the south of the intersection is a parking garage, businesses and restaurants that require pedestrians cross busy Tulare Avenue to the north and south, subsequently causing traffic conflicts with vehicles that currently do not have a stop sign. This project seeks to alleviate these types of conflicts with dedicated pedestrian and traffic phases that a modern traffic signal provides.
