B. CALCULATIONS

COMMERCIAL AND INDUSTRIAL DEVELOPMENTS OR SUBDIVISIONS

On or about April 1 of each fiscal year, the City of Fresno (City) or its designee shall determine how many square feet of taxable area are in each assessor’s parcels within each commercial or industrial development or subdivision of CFD No. 9.

For commercial or industrial developments or subdivisions, the area to be taxed is the total area within each assessor’s parcels of the subdivision or development not designated as public right-of-way and is not to exceed the Maximum Special Tax identified for the development or subdivision in Section C, Table 1 below.

RESIDENTIAL SUBDIVISIONS

On or about April 1 of each fiscal year, the City or its designee shall determine how many residential units are built, or allowed to be built, on assessor’s parcels within CFD No. 9. For parcels of undeveloped property zoned for development of multi-family units, the number of residential units shall be determined by referencing the condominium plan, apartment plan, site plan or other development plan, or by assigning the maximum allowable units permitted based on the underlying zoning for the parcel. Once a multi-family building or buildings have been built on an assessor’s parcel, the City or its designee shall determine the actual number of residential units contained within the building or buildings, and the special tax levied against the parcel in the next fiscal year shall be calculated by dividing the Special Tax Requirement by the actual number of residential units not to exceed the Maximum Special Tax per residential unit identified for the subdivision in Section C, Table 1 below.

C. MAXIMUM SPECIAL TAX

The Maximum Special Tax (MST) applicable to each assessor’s parcel in CFD No. 9 shall be specific to each development, subdivision, subdivisions, or portion thereof within CFD No. 9. When additional property is annexed into CFD No. 9, the rate and method adopted for the annexed property shall reflect the MST for the development, subdivision, subdivisions, or respective portion thereof then annexed.

EXHIBIT B

The MST applicable to each development, subdivision, subdivisions, or portion thereof in CFD No. 9 shall be the rate that is created at the time of CFD No. 9 annexation expressly for the individual development, subdivision, subdivisions, or portion thereof being annexed to CFD No. 9 at that time. Beginning in January of each year, the MST will be adjusted upward annually by 2% or by the rise of the Construction Cost Index (CCI), if it exceeds 2%, for the San Francisco Region for the prior 12-month period (December through December) as published in the Engineering News Record, or published in a comparable index if the Engineering News Record is discontinued or otherwise not available. Each annual adjustment of the MST shall become effective on the subsequent July 1.

Subject to the maximum limit set by the MST, the Special Tax for the commercial, industrial or multi-family development or subdivision assessor's parcels is calculated by spreading the Special Tax Requirement to the total taxable square footage of the development or subdivision and then apportioned proportionately by area to the individual assessor's parcels within the development or subdivision or by the number of residential units as applicable.

The total Maximum Special Tax for Fiscal Year 2024-2025 for Annexation No. 59 of CFD No. 9 is identified in Table 1 below:

Table 1 Maximum Special Tax (Fiscal Year 2024-2025)	
<i>Final Parcel Map No.*</i>	<i>Total Maximum Special Tax for Services per Acre</i>
2004-36	\$2,444.58
*A Special Tax shall be levied on all assessor's parcels within an identified development or subdivision except excluded parcels as identified in Attachment 1.	

D. METHOD OF LEVY AND COLLECTION OF THE SPECIAL TAX

Commencing with Fiscal Year 2024-2025, the Special Tax shall be levied on all parcels of taxable property as follows:

- Step 1: Determine the Special Tax Requirement (as defined in Section A above) for the fiscal year in which the special tax will be collected;
- Step 2: Calculate the total special tax revenues that could be collected from taxable property within CFD No. 9 based on applying the Maximum

EXHIBIT B

Special Tax rates determined pursuant to Section C above to each parcel of taxable property in CFD No. 9;

If the amount determined in Step 1 is greater than or equal to the amount calculated in Step 2, levy the Maximum Special Tax set forth in Table 1 above on all parcels of taxable property in CFD No. 9;

If the amount determined in Step 1 is less than the amount calculated in Step 2, levy the Special Tax proportionately against all parcels of taxable property, *on a per acre basis*, up to 100% of the Maximum Special Tax for each subdivision as identified in Table 1, until the amount of the Special Tax levy equals the Special Tax Requirement for that fiscal year.

The Special Tax for CFD No. 9 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that CFD No. 9 may (under the authority of Government Code 53340), in any particular case, bill the taxes directly to the property owner off of the County of Fresno tax roll, and the Special Taxes will be equally subject to penalties and foreclosure if delinquent.

E. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Tax shall be levied on parcels that have been conveyed to a public agency, except as otherwise provided in City Law, and properties receiving a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code. In addition, no Special Tax shall be levied on excluded parcels or parcels that are determined not to be developable lots.
