Each bidder has agreed to allow the City sixty-four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Division at the latest by Monday, May 21, 2018, 5:00 P.M.

The Engineer's Estimate for this project is \$ 400,000. The contract price is 70 % above the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation:

Approximately 90% of the project is located within Caltrans jurisdiction and therefore a Caltrans Encroachment Permit is required. The restrictions placed on the allowable hours of work as required by Caltrans increased the bid proposal line item for traffic control and the Public Works Department believes that this is the main reason for the escalation in the bid. Another contributing factor was the lack of interested bidders on the project. Public Works believes there was only one bidder due to the fact that there is a large number of developer and capital projects available for bidding in the Fresno area. As a result of there only being one bidder and the required traffic control, the bid received exceeded the project's budget allocation.

**BACKGROUND OF PROJECT**

The Friant Road Median Island Cap Restoration Project was initiated when the project was budgeted in the adopted FY 2017 Capital Budget by City Council. The project is funded with Community Sanitation Fees and UGM Major Street Zone A Developer Fees. The scope of work includes demolition of the existing asphalt median cap and installing stamped concrete median cap and median island landscaping and irrigation within the limits of this project. The landscaping and irrigation includes shrubs, tree planting, ground cover, and irrigation.
