I am requesting the Fresno City Council rejected the above reference item, because it does nothing to improve air quality in the area of impact, as well as, addressing long standing environmental justice issues faced by residents in South Fresno. Currently, Fresno has a AB 617 Steering Committee looking into and working on improving air quality in South Fresno (south of McKinley Avenue). However, this work can not be achieve if the City of Fresno continues to approve plans which increase pollution in the poorest communities. Continuing to do so can be link to early death in residents - it's that simple.
