*Bidder's proposal missing required document(s).

Each bidder has agreed to allow the City sixty-four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Division at the latest by Monday, October 02, 2023 5:00 P.M.

The Engineer's Estimate for this expenditure is **\$3,800,000**. The contract price is **7% below** the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation:

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

Various treatment processes at the Northeast Surface Water Treatment Facility (Facility) remove particulate matter from the raw water, which is directed to the Facility's sludge drying beds. Once particle settling occurs, the upper (clearer) waters are decanted and returned to the head of the facility for reprocessing. Once accumulated solids reach maximum levels, process waste streams are directed to another pond and the accumulated solids in the original pond are allowed to dry and are ultimately removed and taken to an approved landfill. The Facility's two northern ponds (Ponds 1 and 2) related to this award are earthen basins. The purpose of this project is to line Ponds 1 and 2 with concrete to reduce maintenance issues related to having earthen basins.
