The Consultant being hired for the West Area Specific Plan EIR should be fully aware that the Citizens Advisory Committee voted on a land use plan that included a proposed "Sphere of Influence" modification for 160 acres bounded by W. Shields Ave. on the north, the W. Clinton Ave. alignment on the south, N. Grantland Ave. on the east, and N. Garfield Ave. on the west. This area is not reflected on the map that is included with this agenda item.

I support Councilmember Soria's position on priorities for the road repairs. It would be helpful to see the report generated from the pavement management system that details road conditions throughout the city. It would be interesting to see which sections of the city has the roads in the worst condition.
