EXPLANATION: The State Guidelines for the implementation of the California Environmental Quality Act provide for the exemption of projects which will clearly have no significant effect on the environment. More specifically, Section 15061 (b) (3) of the CEQA Guidelines states: "...CEQA applies only to projects which have the potential for causing a significant effect on the environment. Where it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment, the activity is not subject to CEQA."

It has been determined that the above-referenced project falls within the purview of Section 15061 (b) (3) and is, therefore, exempt from CEQA.
