Briefly explain why are you interested in serving on this board or commission?

I am interested in continuing to serve on the Fresno Metropolitan Flood Control District Board. I think it is important for members of our Fresno community who do not have financial interest or connections to development to participate in decisions related to infrastructure and development, especially as our city continues to grow. I have been a citizen of Fresno for over 15 years and have owned property in District 1 for over 10. I have no ties to development or real estate, other than in the home I own. Other than my interest in representing the people of Fresno in this capacity, I am interested in continuing to learn about and play a role in decision-making relating to water issues in the valley--especially as they affect regular citizens, and especially as we continue to see severe weather events.

Educational background, Schools Attended, Degrees and Certifications

San Joaquin College of Law, J.D. 2018 (Class Rank: #2) University of California, Santa Barbara - B.A., double major: Psychology and Political Science, with emphasis in International Relations

Briefly explain your qualifications or areas of demonstrated expertise for this board or commission.

I am local attorney who practices in federal court. I bring forth no special knowledge about flood control or water infrastructure but have learned a tremendous amount about the functions of the board and have made a reputation as a board member who is outspoken, asks questions, and pays close attention to Board business, while being respectful through the process.

Do you or an immediate family member have any professional or financial relationship that may present a potential conflict of interest for this board, commission or similar body?

Yes No
