The current contract pricing is 14% above the previous contract pricing. If the overage is greater than 10% or only one bid was received, give explanation:

The cost of retread tires has gone up. Many factors contribute to the increase in the cost of retread tires. This can be attributed to increases in raw materials, shipping costs, labor, and a reduction in the supply of tires casings.

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The Fleet Management Division is responsible for purchasing and maintaining tires for the City's fleet of vehicles. A combination of new and retread commercial tires are utilized for maintenance and repair.

Retread commercial truck tires are used tires (i.e., casings), which receive a new tread; however, casings are first inspected to ensure they are in suitable condition. The worn tread is buffed away, and a new tread is bonded to the casing in a manner similar to how a new tire is made. Tire retreading practices have improved to the point where retread tires perform similar to new tires. Retread tires are the preferred method to replacing worn tires as they
