The site plan for this single-family dwelling has not been reviewed by the Public Works Department. Issuance of the building permit does not constitute approval of paving concrete curbs, gutters, sidewalks, and driveway approaches in street or alley rights of way adjacent to the property. In accordance with Section 11-204, separate permits are required for such work which must be done in accordance with Section 11-206, 11-207, 11-208 and 13-110.107 of the Municipal Code and applicable City Standards. Issuance of a Certificate of Occupancy for the building is dependent upon prior satisfactory completion of required pavement and concrete work.

Permittee is especially cautioned to contact the City Traffic Engineer (621-8800) before forming and pouring slabs of foundation if it is desired to have more than one driveway approach or any driveway approach exceeding 24 feet in width measured at the property line.

PROJECTIONS

- A) 1-hour construction for projection less than 3'-0" from the property line.
- B) Construction not permitted less than 30" from the property line.
- C) Normal projections allowed to be 5" for each 1'-0" of required yard setback.
