1. Avison Construction, Inc. Street Address City, State Zip	\$828,450.00
2. Dawson-Mauldin LLC. Street Address City, State Zip	\$866,475.00
3. American Paving Co. Street Address City, State Zip	\$1,200,949.00

Each bidder has agreed to allow the City sixty-four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Division at the latest by Monday, April 10, 2023 5:00 P.M.

The Engineer's Estimate for this expenditure is \$755,970. The contract price is 9.6% above the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation:

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The design phase of the project was initiated in FY23, shortly after City Council approved the budget. The engineering design and project management took a little over one year and was completed by City of Fresno staff.

The scope of the project includes the removal and replacement of two large traffic signal poles and cabinet equipment at this intersection to provide protected left-turn movements along Teague Avenue. Other technology improvements include installation of a video detection system that will better accommodate cyclists, and wireless communication will be extended to the traffic signal at Cedar and Nees to provide access to this signal from the Traffic Operations Center. Other improvements proposed include reconstruction of all four returns, including the ramps, to bring them up to current ADA standards, median noses adjustments on Cedar Avenue to provide pedestrians a direct line of travel across the intersection, installation of Class II bike lanes all the way to the intersection that will also be

enhanced with green paint to make these conflict areas more visible. The project will also upgrade the crosswalk markings within the intersection to the City's current high-visibility standard. These proposed improvements will create a positive impact for all roadway users by improving the safety of this intersection for pedestrians, cyclists, and drivers alike. No right-of-way acquisition was needed for these improvements. Public Works staff performed all survey and engineering and prepared the construction documents for the project.

DEPARTMENT CONCLUSIONS AND RECOMMENDATION:

Award a contract in the amount of \$ 828,450 to Avison Construction, Inc.
as the lowest responsive and responsible bidder.
