COUNCILMEMBER REPORTS AND COMMENTS

Vice President Quintero asked the City Manager to pass his thanks to Lt. Salazar and his team at the South East police station for their response and continued follow up to homelessness and trash in the Sunnyside area. He stated the Department did a tremendous job and even called property owners to follow up.

Councilmember Soria welcomed Larry Salinas from CSUF and expressed her excitement that a local was the Executive Director of Government Relations.

Councilmember Soria reported on her visit to the CSUF Health and Human Service ("HHS") Department where she learned about resources, like free hearing exams, available to students and the public. Councilmember Soria hoped to partner with the HHS Department to provide services in District One through the Mobile Health Unit. She noted the HHS Department was going to have a lecture aimed at Latino families about communicative disorders such as deafness. The lecture was set for February 26 in the north gym from 7:30 A.M. to 1:00 P.M.

Councilmember Soria reported she held an evening of appreciation for her appointees on the District One Implementation Committee, Tower District Design Review Committee and B-PAC members. The event was held on February 1 and recognized the volunteers for their service to the community.

Councilmember Soria announced there would be a Mardi Gras parade in the Tower District on Sunday, February 7 at 1:00 P.M. She said the parade was usually very well attended and was always lots of fun. She noted she would be on her bike at the parade and invited everyone to attend.

Councilmember Soria announced she was in San Diego for the Latino Caucus League of Cities Executive Board retreat. She stated the retreat was productive and she expressed her excitement at being able to provide a Fresno perspective on the issues tackled by the board.

Councilmember Baines III asked that the meeting be adjourned in the memory of Armelia O. Harrison Green who recently succumbed to cancer after a long fight. Ms. Green was the aunt to District Three Chief of Staff Gregory Barfield.

Councilmember Baines III welcomed Larry Salinas from CSUF.

Councilmember Baines III noted he had received calls about lead in the city's water supply and asked the City Manager to comment. City Manager Rudd stated the case was isolated to the Woodward Lake area in northeast Fresno and said water was regularly tested throughout the City. He explained the problem was discovered to be rust from corrosion of galvanized pipes. He further explained that the discoloration was from the iron, not lead, and noted that lead would not leave discoloration in the water. He said the problem appeared to be associated with age of the pipeline somewhere between the affected homes water meter and taps. As a result of the testing on the discoloration issue, two homes tested were discovered to have lead levels above the approved threshold. Mr. Rudd stated the City was following up with the homeowners and additional tests would be conducted in the short term. He also said the source of the contamination was not believed to be the surface water treatment plant or the underlining infrastructure because the infrastructure was relatively new and he recalled that galvanized pipes and black iron were not used. He clarified that the northeast plant was shut down to eliminate it as a potential source of the contamination. Mr. Rudd stated the Department of Public Utilities and Water

Resource Board staff each suggested affected homeowners let the water run from the tap to purge the system before using it. He stressed the discoloration had nothing to do with lead, which was only discovered in two homes when testing on the discoloration issue. Mr. Rudd said people with concerns could reach out to the Public Utilities Department.

Communications and Public Affairs Director Standriff reiterated that the problem was isolated inside the affected homes and said the city system tested clean from the treatment plants and groundwater wells, through the pipes, through the street mains, and even from the meters into the house. Mr. Standriff said the City was checking to see if there was something in the corrosion chemical mixture from the surface water that could be accelerating corrosion. He noted that Public Utilities Director Esqueda asked people with concerns to contact him directly at 559-621-8610.

With regards to the water issue, Councilmember Baines III asked staff to ensure there would be an aggressive information campaign to all constituent bases, including the non-English speakers, through mainstream and ethnic media.

Councilmember Baines III noted there was a recent opinion piece in the Fresno Bee written by the consultant hired by the City to work on the Fresno Police Department Ethics review. He recalled that some of the statements in the opinion piece were factually incorrect. In particular, he noted the piece laid blame with the City Council for some of the problems with the Police Department. City Attorney Sloan stated Michael Josephson was hired to perform a survey to aid in ethics training in the Police Department and was not authorized to write the opinion piece. Mr. Sloan discussed his subsequent contact with Mr. Josephson. He explained that Mr. Josephson wrote the piece to correct the record based upon an earlier story. City Attorney Sloan informed Mr. Josephson that under the City's charter form of government, the Council would not be able to fix the operational issues of the Police Department. Mr. Josephson agreed with the City Attorney's assessment and offered to correct the statement. Councilmember Baines III wanted to reassure the public that the Council worked cooperatively with the administration with regards to the Police Department and noted that approximately 775 positions were authorized by Council in the previous city budget.

Councilmember Brand thanked Public Utilities Director Esqueda and his staff for their responsiveness to the recent city water issues in the news.

Councilmember Brand reiterated his previous request that trees at parks like Woodward and Roeding be given special attention for preservation during the drought. He noted that water from the reclamation center could be utilized to help preserve the irreplaceable trees that ranged from 20 to 50 years old.

Councilmember Soria asked for an update on the Parks Master Plan. City Manager Rudd stated that four proposals were received and he expected to bring a recommendation to Council around the first or second week of March.

[ID16-130](#) HEARING to consider Plan Amendment Application No. A-15-007, Rezone Application No. R-15-016 (also known as the “Zoning Map Update”), and related environmental finding filed by the Development and Resource Management Department Director pertaining to the following:

1. Adopt the environmental findings for Environmental Assessment No. A-15-007, R-15-016, an Addendum to Final Master Environmental Impact Report SCH No. 2012111015 (MEIR) certified by the Fresno City Council on December 18, 2014 for the Fresno General Plan and Development Code, pursuant to California Environmental Quality Act Guidelines Sections 15162 and 15164;
2. RESOLUTION - Approving Plan Amendment Application No. A-15-007 to amend the Fresno General Plan (Figure LU-1: Land Use and Circulation Map, and Figure LU-2: Dual Designation Diagram), the Bullard, Fresno High, McLane, Roosevelt, West Area, and Woodward Park Community Plans, the Tower District Specific Plan, the Fresno Yosemite Airport Land Use Compatibility Plan and the Sierra Sky Park Land Use Policy Plan, as described in Exhibit A (including errata indicated on Table 1); and

3. BILL - (for introduction and adoption) approving Rezone Application No. R-15-016 to update the Zoning Map of the City of Fresno by adopting the Proposed Zoning Map and Overlay District Map consistent with the City of Fresno General Plan Land Use and Circulation Map adopted on December 18, 2014, and as subsequently amended, as described in Exhibit B. All conditions of zoning will remain in effect.

The above hearing was called to order at 5:01 P.M. The item was introduced to Council by DARM Assistant Director Zack.

Upon call for public comment on this item, the following people addressed Council:

Jeffrey Reid for Robertson Property Group - would like the zoning of APN 456-030-15 at the southwest corner of Clovis and Olive Avenues to remain as CMX until the property owners come forward with development plans.

Doug Jensen for Jenko Farms - did not find out about the proposed rezoning of property at the southwest and southeast corners of Herndon and Hayes Avenues (APNs 504-090-30, 31, 32, 33 and 34) until Monday, February 1, 2016 and would like to see the zoning remain unchanged.

Ashley Werner of Leadership Counsel for Justice and Accountability - stated the Zoning Map Update would not satisfy the city's obligation under the 2008 housing element as well as state and federal housing element laws. The laws require sights be made available for affordable housing, including housing element program 2.1.6(a)

Loran Harding - stated the Zoning Map Update would diminish property values and damage the neighborhood at Browning and Valentine Avenues. He suggested neighbors might sue the city and elected officials to prevent a rezoning of the neighborhood.

Mark Kalchik - opposed to the lot size change for the University Portal neighborhood at Millbrook and Browning Avenues. He said the proposed medium density RS4 designation with 5,000 square foot lots was a misinterpretation of the General Plan and the neighbor should be re-zoned to RS3 with 9,000 square foot lots.

Doug Vagim - discussed arbitrary density changes and impacts to older neighborhoods. Suggested a baseline for new development rather than

language allowing within 10% of the neighborhood average because the 10% average would result in increases over time.

Dirk Poeschel for the Hudson Family Trust - asked that the 1 acre parcel on the corner of Clovis and Olive be designated for general commercial uses (C-5). Mr. Poeschel displayed a map that is now attached to File ID16-130.

Jeff Roberts of Granville Homes - Would like to continue using the Master Conditional Use Permit (application number C-04153) as a tool to define aspects of the Copper River Ranch project, a master planned community. Also stated that the bundle of applications referred to as number "9" in the list of plan amendments were no longer at issue due to a vote taken earlier in the day by Council.

Public comment was concluded at 5:40 P.M.

Senior Deputy City Attorney Kolluri clarified that Mr. Jensen, on behalf of Jenko Farms, was asking for something that would require a change in the land use designation which would require a further environmental review for the impacts of that change.

Councilmember Brand directed staff to perform an additional environmental review for the change requested for the Jenko Farms property at the southwest and southeast corners of Herndon and Hayes Avenues (APNs 504-090-30, 31, 32, 33 and 34). He stated the review should be at no cost to the property owner and the item should be back to council within 180 days.

City Manager Rudd clarified with staff that owners would have the right, under the non-conforming provisions, to reconstruct their homes as they existed, prior to the Zoning Map Update, in the event the home was destroyed.

Councilmember Brand motioned to amend the staff recommendation to continue the Hudson Family Trust property (1 acre parcel on the corner of Clovis and Olive) to allow for a plan amendment and rezone consistent with what the property owner requested. He stated the review should be at no cost to the property owner and the item should be back to council within 180 days. President Caprioglio seconded the motion.

Councilmember Soria and Director Clark clarified that if a member of the

public had a property that had been assigned a certain zoning prior to the General Plan effective date and that person wanted their land use designation to revert to what it was prior to updating the General Plan, then staff would review going back to the earlier land use designation to see if that reversion would come under the umbrella of the MEIR and would bring that back to Council for consideration at no charge to the applicant.

Councilmember Soria directed staff to send future notices in Spanish. Councilmember Soria also directed staff to change the city website to make the Zoning Map Update and the interactive zoning comparison map easier to find.

Vice President Quintero directed Assistant Director Zack to meet with him at a later date to discuss District Five.

President Caprioglio directed staff to work with Mr. Kalchik regarding updating his neighborhood to RS3 rather than to RS4 through a General Plan amendment.

President Caprioglio motioned to remove APN 456-030-15 from the proposed General Plan amendment. A-15-007 and application R-15-016 zone the property consistent with the adopted General Plan land use to CMX, Corridor Mixed Use. Councilmember Brand seconded the motion.

The above hearing was closed at 6:27 P.M.

Councilmember Brand motioned to approve the entire item as amended. Councilmember Olivier seconded the motion.

*BILL B-4 INTRODUCED AND ADOPTED AS
ORDINANCE 2016-4
RESOLUTION 2016-23 ADOPTED AS AMENDED*

On motion of Councilmember Brand, seconded by Councilmember Olivier, the above item was approved as amended. The motion carried by the following vote:
