The Capital Projects Oversight Board is a critical part of how the City of Fresno looks at and approves major public infrastructure expenditures. Everything from roads, to water lines, and other services that Fresnoans rely on everyday are overseen by this board. I would be very passionate in serving on this board and helping to ensure that the projects being proposed are maximizing the value of taxpayer dollars, along with providing the best service possible. Major Public Infrastructure is the glue that holds the community together and allows our economy to function, I would like to be a small part in helping the process.
