The Engineer's Estimate for this expenditure is \$566,364. The contract price is 6% above the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation: N/A

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The design phase of the project was initiated in FY21, when the City Council approved a list of projects to receive SB1 RMRA funding. The preliminary engineering design, project management, and real estate services took approximately two years and was completed by City of Fresno staff.

The scope of the project includes the removal of the of the existing traffic signal poles and controller equipment and replacement with new infrastructure that accommodates the

protected left-turn phasing heads and signage for all directions of travel. ADA improvements will include removal and replacement of the ramps at the southwest and southeast corners of the intersection as well as reconstruction of the West Avenue median noses to provide an unobstructed path of travel in the crosswalks. This intersection serves Starr Elementary School as well as multiple residences in the immediate vicinity of the intersection. No additional Right-Of-Way was needed to complete this project, however, the Sierra and West Avenue frontages of Starr Elementary, which were never properly dedicated for street easement purposes, are being perfected with this project and with the participation and cooperation of Fresno Unified School District. Striping and signage will be replaced as necessary with no changes to the operation or layout of the intersection.

DEPARTMENT CONCLUSIONS AND RECOMMENDATION:

Award a contract in the amount of \$597,777.00 to Alfaro Communications Construction, Inc. of Compton, California, as the lowest responsive and responsible bidder.

Remarks:

Reject all bids. Reason:
