---

Each bidder has agreed to allow the City sixty-four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Division at the latest by Monday, May 16, 2016, 5:00 P.M.

The Engineer's Estimate for this expenditure is \$382,000. The contract price is 12.7% above the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation:

The low bid is higher than the Engineer's Estimate due to the cost of materials being higher than expected and the traffic control for the project being more involved than originally planned.

**BACKGROUND OF PROJECT** (To be completed by Evaluating Department/Division. Explain need for project/equipment):

This project will extend the westbound Herndon Avenue right turn pocket at Blackstone Avenue from 100' to 400' to improve the flow of traffic along Herndon Avenue. Work includes constructing a concrete barrier rail, street reconstruction, concrete improvements, relocation of street lights, traffic signal modifications and other related work.
