Each bidder has agreed to allow the City sixty-four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Division at the latest by Monday, May 11, 2020, 5:00 P.M.

The Engineer's Estimate for this expenditure is \$420,000. The contract price is 10.5% below the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation:

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

Pump Station 60A will offset water production losses resulting from the recent and future destruction of multiple outdated wells in the area. The property for this project was previously acquired, and a new water supply well was recently constructed onsite. Well site improvements are required to complete the pump station and bring the existing well to an operational state. Site improvements will comply with the requirements of the associated Development Permit. This Pump Station will aid in ensuring appropriate levels of water service are attained in the area surrounding this site.
