The Engineer's Estimate/Budget Allocation for this expenditure is \$587,000 and the contract price is 27% below the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation:

N/A

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The fire alarm system which monitors FAX facilities located at 2223 G Street was state-of-the-art when installed in the 1970s/80s. The system is now antiquated, requires significant maintenance and is in need of modernization to support current needs in the FAX yard and Americans with Disabilities Act requirements. The modernization will include a digital addressable fire alarm system which allows the Fire Department to more accurately respond to calls. Moreover, it will move the main fire alarm control panels into the FAX Administration Building, Bus Wash, and Maintenance Building, separating the fire alarm system from reliance on equipment located in the Municipal Service Center's Building A.
