ENGINEER'S REPORT
OF CITY OF FRESNO LANDSCAPING AND
LIGHTING MAINTENANCE DISTRICT NO. 1
FISCAL YEAR 2025-2026

INTRODUCTION

This Engineer's Report is prepared for the Landscaping and Lighting Maintenance District No. 1 administered by the City of Fresno (City) for the district fiscal year FY 2025-2026. This report is prepared to meet the requirements of the California Streets and Highways Code Sections 22565 through 22574 which states "A report shall be prepared for each fiscal year for which the assessments are to be levied and collected to the costs of the improvements described in the report". This report for Landscaping and Lighting Maintenance District No. 1 (LLMD) includes the following required contents:

a) Plans and Specifications for the improvements.
b) An estimate of the costs of the improvements.
c) A diagram for the assessment district.
d) An assessment of the estimated costs of the improvements.
c) If bonds or notes will be issued pursuant to 22662.5, an estimate of their principal amount.

As of the date of this report, the costs for all improvements within the LLMD are for maintenance of landscapes only. During this fiscal year and since 1996, no new improvements have been added to the 145 districts within the LLMD. Therefore, there are no bonds or notes associated with any of the improvements. Also, since there is no new construction, there are no plans or specifications for improvements included in this report.

The report includes information about the location and size of the landscapes maintained by the district. Section 1 includes Table No. 1 listing the Tracts included in the LLMD including the year recorded, when the landscapes were accepted for maintenance by the City, the area of the landscape maintained, and the number of lots assessed within the district or equivalent district units (EDUs). Section 2 provides a description of the improvements for each tract including references to City of Fresno Street drawings for each maintained landscape. Section 3 includes information about changes to the district improvements and any parcel number changes that were noted in FY 2025-2026. Section 4 includes estimates of total costs to maintain the LLMD and each tract, as well as any carryover or deficit in each tract for FY 2025-2026. Section 5 details the proposed assessments and provides more detailed assessment diagrams; and, Section 8 details the recording history of the LLMD.

Section 1 - The boundaries of the District are described in Table No. 1

SECTION 3 - Changes to District

Typical changes to the district include changes to the improvements and/or changes in parcel numbers for selected lots within the districts.

There were no significant changes to the “Described Improvements” this year. The landscapes and irrigation systems maintained by the LLMD were accepted from 1984 through 1997. Therefore the vegetation is mature, and the irrigation components are showing signs of age. Over the years, most LLMD landscapes have suffered plant loss due to irrigation system issues and natural mortality of selected landscape types. These landscape removals were generally not re-planted due to lack of LLMD assessment funds for new plant materials. Also, minor irrigation repairs were completed using district funds.

Also, there were no noted changes to the APN numbers of properties included in the “existing assessments” for FY 2025-2026.

SECTION 4 – Estimate of Costs

A breakdown of the estimated cost of the maintenance, servicing, incidental expenses, and prior year adjustments in connection with City of Fresno Landscaping and Lighting Maintenance District No. 1 is described in Tables Nos. 2 and 3.

Table No. 2 includes a summary of district costs including direct and non-direct expenses. Direct expenses are costs that are charged directly to each of the 145 tracts in the LLMD. Non-Direct expenses are costs that are not charged to a specific tract. Table No. 3, included in Appendix B of this report, describes expenses and assessments on a tract-by-tract basis with the carry over or deficit for each tract estimated.

Direct expenses include landscape maintenance labor costs, irrigation water costs, and irrigation repair expenses. The direct labor includes field staff to clean debris, remove weeds, trim landscaping, and perform minor irrigation repair in the LLMD improvements. Utility costs are mostly metered water for irrigation, but also do include some costs for energy to run irrigation controllers.

Non-Direct expenses include labor for supervision of field personnel, administrative staff to post direct and indirect expenses, as well as costs to administer the district levy of assessments, prepare the engineer's report, and coordinate approval by City Council. Also, included in non-direct expenses are small tools for the field personnel that are not specific to a location, as well as office supplies in support of LLMD operations. Non-Direct expenses also include a minor amount of field labor, green waste, chemical herbicide, and utility costs that could not be directed to a specific tract.

Overall, the LLMD has been impacted most by the approval of California Proposition No. 218 in November of 1996. Prior to 1996, the Council could increase the assessments for maintenance annually to compensate for the increased cost of operations. However, after 1996 rates in the LLMD assessments have not been increased; so, the current assessments 18 years later are still based on 1996 maintenance costs.

The LLMD assessment revenue funded roughly four to six service cycles throughout the 78 acres along 30 miles of LLMD landscapes throughout the City during the FY 2025-2026 period. This is an improvement over service levels in past years. Although Public Utility Community Sanitation funds were needed to provide minimum basic service in past years, the additional funding was not utilized this year. These gains were accomplished by a combination of factors including: 1) drought conditions which reduced weed growth; and 2) efficiencies in staffing and completing LLMD work.

Although the service intervals provided minimum basic landscape services similar to the level the City provides for non-District landscapes; the level of service was not comparable to more recent Community Facilities District (CFD) landscapes which were formed and annexed after 1996. The CFDs have automatic rate escalators to keep up with operational costs and provide a higher level of service. Many of the CFD landscape are directly adjacent to LLMD landscapes and are in a better condition. Consequently, the City continues to receive complaints from LLMD district

households requesting CFD level services. However, none of these complaints were elevated to a formal request to raise rates and provide more frequent service similar to CFD locations.

It should be noted that the LLMD assessment funding does not provide any enhanced level of service; however, the continued efforts by City staff over the years to explore different service delivery methods has yielded an acceptable level of service using only LLMD funding. For the upcoming year, City staff has awarded a private landscape services contract to provide six maintenance cycles per year in about half of the LLMD locations. Also, City staff will attempt to improve all LLMD landscapes to four to six service cycles per year within the LLMD funding revenue and balance.

Although basic weed and clean services are being met, many landscapes are in need of major irrigation system rehabilitation and tree/shrub replacement efforts. The current lack of assessment growth limits the ability of the City to provide any such rehabilitation or replacement level service. Also, increases in labor costs, irrigation costs, etc. will increase in the coming years, so recent service gains are likely non-sustainable with the current level of funding. Again, this will require non-district funding to maintain minimum levels of service at some point in the future as it has in the past. This non-district funding is not guaranteed for the LLMD in future years as the assessment funding is, so it is not known if the subsidy will be available year-to-year as Citywide service priorities are reconsidered.

A special registered voter election would be required in order to increase the amount of the LLMD assessments. City staff is evaluating options and studying the rates needed for various levels of service. It is expected that these studies will lead to initiating an election process to increase special tax rates and fund more than just frequent basic cleaning service. This process will continue throughout the coming FY 2025/2026 LLMD fiscal year.

SECTION 5 - PROPOSED ASSESSMENTS

The City Engineer hereby assesses and apportions the total amount of the costs and expenses for the formation of the assessment district and the maintenance and servicing of landscaping and facilities upon the subdivisions of land liable therefore and benefitted thereby, all as is more particularly set forth in the assessment roll filed herewith, marked Table No. 4 included with this report in Appendix C, and incorporated herein. The numbers of said assessment roll correspond with the assigned numbers upon the parcels of land within said district in proportion to the estimated benefits to be received by each subdivision respectively, from the improvement. For a more particular description of said property, reference is made to the assessment diagram to be filed and of record in the office of the County Recorder of the County of Fresno.

SECTION 6 - ASSESSMENT DIAGRAM

The diagram entitled "ASSESSMENT DIAGRAM OF CITY OF FRESNO LANDSCAPING AND LIGHTING MAINTENANCE DISTRICT NO. 1, (PREVIOUSLY KNOWN AS CITY OF FRESNO ASSESSMENT DISTRICT NO. 89, RECORDED APRIL 27, 1983 IN BOOK 22 AT PAGES 26 AND 27, FRESNO COUNTY RECORDS) CITY OF FRESNO, COUNTY OF FRESNO, STATE OF CALIFORNIA", consisting of five (5) sheets, filed herewith, marked Exhibit "A", and hereby incorporated herein as though set forth in full, delineates the boundaries and dimensions of the respective subdivisions of land within said district as the same existed at the time of the passage of the Resolution of Intention, each subdivision of land within having been assigned a separate number upon said diagram.

SECTION 7 - RECAPITULATION OF ASSESSMENTS

A recapitulation of prior year assessments including actual maintenance costs and incidental expenses as incurred, are described in Table No. 3 included in Appendix B, attached hereto and incorporated herein as though set in full.

Dated this 1ST day of May, 2025.

Table No. 3
Summary of LLMD Costs by Tract

The following eight (8) pages include Table No. 3 as referenced in the Report. Table No. 3 provides a summary of all expenses (Direct and Indirect) and assessments for each tract in the LLMD for FY 2025-2026.

Note: Tracts groups with Peach Shading are all phases of the same formed District Tract and the costs and assessment are grouped for Carryover computation purposes. Also, note that the sum total of the Carryover/Deficit column does not match the total in Table No. 2 because Community Sanitation labor is included in this table.
