Briefly explain your qualifications or areas of demonstrated expertise for this board or commission.

As a land use consultant, I bring experience in how land use patterns, zoning, and development decisions directly impact active transportation. I understand the importance of integrating walking, biking, and transit considerations into new projects, and I have experience working with developers, city staff, and community members to balance interests and achieve better outcomes. This perspective allows me to help the committee connect high-level transportation goals with the realities of implementation, ensuring Fresno grows in a way that supports safe, equitable, and sustainable mobility.
