Terminal Expansion Locations

- The Food & Beverage location in the terminal expansion project will be a Mexican food concept. The Airports Department is actively researching the best concept for the location. The Airports Department will share the final concept with Council once it is determined.
- The News & Convenience location will be developed by HG Fresno Concessionaires JV (Hudson Group). Items available for sale in that location will mirror other locations within the terminal. They will also have a larger expanded international options for passengers utilizing the expansion gates. The Airports Department will share the final concept with Council once it is determined.
