WHEREAS, Rezone Application No. P22-00451 has been filed by Jennifer Clark, with the City of Fresno, to rezone property as depicted in the attached Exhibit "A"; and,

finds in accordance with its own independent judgment that there is no substantial evidence in the record that Rezone Application No. P22-00451 may have additional significant effects on the environment that were not identified in the Fresno General Plan Program Environmental Impact Report SCH No. 2019050005 (“PEIR”). In addition, pursuant to Public Resources Code, Section 21157.6 (b) (1), Council finds that no substantial changes have occurred with respect to the circumstances under which the PEIR was certified; and, that no new information, which was not known and not have been known at the time of the PEIR was certified as complete, has become available. Accordingly, the Council adopts the Rezone Application and Environmental Assessment No. P22-00451, dated May 18, 2022, a determination that the proposed project qualifies for the streamlined analysis set forth in the California Environmental Quality Act (CEQA) Guidelines Section 15183 (Projects Consistent with a Community Plan, General Plan, or Zoning).

SECTION 2. The Council finds the requested PI/cz (*Public and Institutional/conditions of zoning*) zone district is consistent with the Public/Quasi-public Facility planned land use designation of the Fresno General Plan, Bullard Community Plan, and the Fresno County Airport Land Use Compatibility Plan.

SECTION 3. The Council finds that the zone district of the real property described hereinbelow, located in the City of Fresno, and shown on the Official Zone Map of the City of Fresno, is rezoned from the PI/cz (*Public and Institutional/conditions of zoning*) zone district to the PI (*Public and Institutional/conditions of zoning*) zone district, as depicted in the attached Exhibit “A”.

SECTION 4. The following conditions of zoning shall replace the conditions of zoning previously recorded on the subject property and shall be recorded and put on file
