Briefly explain why are you interested in serving on this board or commission?

As District Manager for Sierra Resource Conservation District (SRCD), the responsibility is to represent Fresno County in serving private land owners to meet their natural resource needs. The District's purpose is conservation of air, land, and water for today and the future. The work of the PARCS department to address the needs of urban residents with access to green space and outdoor recreation have significant alignment with the work of the Sierra RCD. Serving in this role helps identify and encourage opportunities for City Parks to enhance conservation in their work and provide partnerships and strategies with State and Federal investments in soil health, water and air quality. This role can also help optimize thoughtful integration with natural resource projects and agency work in the Valley and along the San Joaquin River.

Educational background, Schools Attended, Degrees and Certifications
