As directed by your office, we have completed a 3% random sampling signature verification process, and from that examination I have determined the following facts regarding this petition:

Number of sections submitted:	<u>3,927</u>
Number of signatures submitted:	<u>35,189</u>
Number of signatures verified (3%):	<u>1,056</u>
Number of signatures found NOT sufficient in random sample: (Includes 0 duplicates)	<u>227</u>
Number of signatures found sufficient in random sample:	<u>829</u>

The random sampling method yielded a result of 117.9%, which equates to 27,623 signatures of the total amount submitted would be valid.
