District 3

Home: _____ Mobile: _____
Primary Phone Alternative Phone

Briefly explain why are you interested in serving on this board or commission?

As a citizen of District 3, I feel it is my civic duty to participate in the betterment of the city. In having a degree in Graphic Design, I bring an element that both understands current and historical elements of design and architecture. This allows for me to understand what potential impacts items brought before this committee may have on the current built environment. As a district with a significant built environment, it is important to know how potential development will impact both the area and the people. District 3 has a highly diverse but disparate populations that must be considered when items come before this board. My interest is to make sure everyone has a voice on this committee in order to provide a response, fair, and just conversation for the entirety of District 3.

Educational background, Schools Attended, Degrees and Certifications
