---

Each bidder has agreed to allow the City sixty-four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Division at the latest by Monday, August 21, 2017 by 5:00 P.M.

The Engineer's Estimate for this expenditure is \$284,000.00. The contract price is 48.2% below the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation: (2)

**BACKGROUND OF PROJECT:** Pump Station 284 is located in the Bullard/Maroa area and is a critical well to supply water pressure during peak demands. The well casing has plugged over time and has lost nearly 75% of production capacity due to plugging. By rehabilitating this well we will increase production capacity from 600 GPM to 2,000 GPM.
