Each bidder has agreed to allow the City sixty-four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Division at the latest by Monday, October 8, 2018 by 5:00 P.M.

The Engineer's Estimate for this expenditure is \$150,000. The contract price is 0.2% below the Engineer's Estimate.

**BACKGROUND OF PROJECT** (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The Fresno/Clovis RWRf operates thirteen mesophilic anaerobic digesters. The digesters range in size from 860,000 to 1,870,000 gallons. The digesters are used in the treatment of the solids generated at the RWRf to eliminate the pathogens and volatile organic compounds. Over the period of approximately eight years these digesters accumulate debris associated with the treatment (i.e. solids consisting of sludge, sand, plastics and hair). This project will remove all the accumulated debris and inspect the interior surfaces for corrosion, wear, and structural stability for digester 5.
