

## **Five-Year Evaluation Subcommittee -April 20, 2026**

### **ADDENDUM:**

**FINDING: Fresno Municipal Code Section 7-1503(f) states: "It is the intent of the voters in adopting this ordinance that the expenditures made pursuant to this ordinance shall supplement the levels of spending made by the City of Fresno in Fiscal Year 2017-18 in the areas funded by this ordinance and the the additional expenditures shall not supplant the 2017-18 spending levels." Therefore, this subcommittee would like to receive more information on why City staff is limiting the spending level to General Fund expenditures and not include other non-measure P revenues expended for parks and cultural art programs by the City of Fresno and we recommend that compliance with the requirement of this section be verified by independent auditors in the Annual Comprehensive Financial Reports (ACFR) at the end of each fiscal year. Current format of expenditures data provided in the ACFR reports does not clearly identify this required City level of spending for comparison to the year 2017-18 as required.**
