BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The Maple Cycle Track Improvements was initiated in FY19 when the City allocated Measure C and CSU Fresno funds to begin the design of the improvements. The grant funds for construction were obligated and the project was budgeted in the adopted FY20 Capital Budget by City Council. Preliminary engineering design and project management took approximately two years.

The scope of the project includes restriping the majority of Maple Avenue, from Shaw Avenue to Gettysburg Avenue, to provide a Class IV bike lane along this segment. Along with the restriping of Maple Avenue, physical barrier will be installed between the bike lane and roadway vehicles. Green Methyl Methacryalte will also be placed along the bike lane at all potential bike and vehicle conflicts. Right of way was not needed for this job. Public Works Department staff prepared general construction documents for the project.

DEPARTMENT CONCLUSIONS AND RECOMMENDATION:

Award a contract in the amount of \$184,882 to Glick corporation as the lowest responsive and responsible bidder.

Remarks:

Reject all bids. Reason:
