PROCUREMENT BACKGROUND:

The State of Washington released the RFP for Public Safety Communication Equipment, Services and Solutions, on November 16, 2020. The Sourcing Team conducted evaluations and met as a Team multiple times between February 1st and February 26th to discuss each phase of the evaluation process and reached consensus regarding which Bidders would advance to the next phase. On April 26-30, 2021, the Team met to finalize the evaluation and make award recommendations.

PRICING:

Pricing structure is based on % off Manufacturer Suggested Retail Price (MSRP) which remains constant for the contract term.

KEY BENEFITS

- Being able to execute PAs easily for a variety of public safety communications equipment to promote end-user competition.
- Streamlined procurement process.
- The possibility to integrate total solutions approach to problems.
- Facilitation of multijurisdictional investment in interoperable communications infrastructure by enabling system compatibility.
- Supports end of fiscal year purchasing

Responses were evaluated based on the following Evaluation Criteria:

The Solicitation for allowed for multiple vendors to be awarded within each category or sub-category based on a phased evaluation approach. Bidders achieving 70% of the total technical/performance points available, advanced to the Price evaluation. The Vendors whose combined total points equal to or greater than 70% of the highest Bidder total combined points, received an award for that category/sub-category.

SCORING INFO:

Responses were scored according to the RFP's Evaluation Criteria as per Section 3.1
