1. Glick Corporation  
dba Asphalt Maintenance Company of CA  
1641 E. Tulare  
Visalia, CA 93292

\$696,886.00

---

Each bidder has agreed to allow the City sixty-four (64) days from date bids are opened to accept or reject their bid proposal. Purchasing requests that you complete the following sections and return this bid evaluation to the Purchasing Unit at the latest by Monday, April 11, 2022 5:00 P.M.

The Engineer's Estimate for this expenditure is \$609,950. The contract price is 14% above the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation: This project received only one bid and came in above the anticipated bid amount, both of which are likely the result of the project's limited scope of work and low dollar amount for a paving job combined with the abundance of work that is currently being performed throughout the Central Valley.

**BACKGROUND OF PROJECT** (To be completed by Evaluating Department/Division. Explain need for project/equipment):

The design phase of the project was initiated in FY21, shortly after the City of Fresno entered into an agreement with Corporation for Better Housing, A California nonprofit public benefit Corporation. The preliminary engineering design and project management was completed over 18 months by City of Fresno staff.

The scope of the project includes the installation of Class IV separated bicycle facilities along Van Ness Ave and Fulton Ave. from Belmont Ave. and to Weldon Ave., as well as along Van Ness Ave. and Maroa Ave. from Elizabeth St. to Weldon Ave. The scope of work includes construction of new Class IV bicycle facilities which will entail placement of new roadway striping and signage, installation of green methyl-methacrylate (MMA) to highlight areas of conflict between bicyclists and motor vehicles, and the installation of flexible post delineators to create the separated, protected space that defines a Class IV facility. No additional right-of-way was needed to complete this project.
