The City shall not increase the scope of the Project except by modification of this Agreement which shall include an agreed upon increase in the Consultant's compensation.

(4) The Consultant shall make as many submittals as may be necessary or desirable to obtain the acceptance by the City and shall assist the City in applying for and obtaining from applicable public agencies any approval, permit, or waiver required by law, which assistance shall include, but not be limited to, making Project information available to the City.

Re-submittals, as necessary to obtain the acceptance by the City, shall be submitted to the City within twenty (20) calendar days from receipt of the City's comments unless an extension of time is approved in writing by the Director.

(c) Part Three. Construction Document Phase. After review and acceptance of the design development phase and issuance of a written Notice to Proceed with this Part Three:

(1) The Consultant shall prepare from the accepted design development documents, detailed plans and specifications setting forth the complete work to be done, and the materials, workmanship, finishes and equipment, fixtures, and site work required. The Consultant shall also prepare necessary bidding information, general and special conditions of the general construction contract, technical specifications of the general construction contract, and the bid proposal and general construction contract forms. Such documents shall be subject to the review and acceptance by the City. The Consultant shall cooperate with, assist, and be responsive to the City's Purchasing Manager in preparation of all documents including, without limitation, slip-sheeting final documents for printing when requested. The City's Standard Specifications must be used by the Consultant where possible. Final drawings shall be drawn, printed, or reproduced by a process providing a permanent record in black on vellum, tracing cloth, polyester base film, or high quality bond copy. Bid, general conditions, contract and bond document forms or formats regularly used by the City shall be used by the Consultant unless the Director determines they would be impractical for this Project. The Consultant shall be responsible for assuring that the special conditions, technical specifications and any other documents prepared by the Consultant are consistent with any documents regularly used by the City that are used for this Project.

(2) Upon request of the City, the Consultant shall provide the calculations used to determine the general construction contract quantities, and structural calculations for the purpose of obtaining any building permits.

(3) The Consultant shall make as many submittals as may be necessary or desirable to obtain the acceptance by the City and shall assist the City in applying for and obtaining from applicable public agencies any approval, permit, report, statement, or waiver required by law, which assistance shall include, but not be limited to, making Project information available to the City.

(4) The Consultant shall provide the City with two (2) sets of completed plans and one (1) sets of completed specifications for review and final acceptance by the City. Should the plans and specifications as submitted by the Consultant not be accepted by the City, the Consultant shall revise the plans and specifications as needed to obtain final acceptance at no additional cost to the City.

(5) After acceptance of final corrections, if any, the Consultant shall provide the City with one set of accepted reproducible tracings and bid

documents for the Project. In addition, the Consultant shall provide the City with one complete set of CAD/System disk files of drawings and complete disk files of specifications in the following format: Adobe PDF.

(6) The Consultant shall submit a final estimate of construction cost for review and acceptance by the City. Such estimate shall be calculated as of the date all general construction contract documents are delivered to the City in final form ready for reproduction and advertising. Such estimate shall include, but shall separately state, the cost of any add or deduct alternates, any work which may be let on a segregated basis, and any equipment, or fixtures which may be incorporated in or excluded from the general construction contract.

(7) In the event that the final estimate of construction cost exceeds the revised estimate of construction cost previously accepted, excluding therefrom any add alternate, any work which may be let on a segregated bid basis and any furnishings, equipment or fixtures which was identified in the final revised estimate in Part Two as that which may be excluded from the general construction contract, the City shall have the option of accepting or rejecting the final estimate. If the City elects to reject the final estimate, the Consultant shall at no additional cost to the City, make such design changes as may be necessary to reduce the final estimate so that it shall not exceed the revised estimate of construction cost previously accepted by the City.

(8) Services shall be undertaken and completed in a sequence assuring expeditious completion. All services shall be rendered and deliverables submitted within sixty (60) calendar days from the issuance of a Notice to Proceed for this Part unless an extension of time is approved in writing by the Director. Re-submittals, as necessary to obtain the acceptance by the City, shall be submitted to the City within twenty (20) calendar days from receipt of the City's comments unless an extension of time is approved in writing by the Director.

(d) Part Four. Bidding Phase. After review and acceptance of the construction document phase, the City's decision to proceed to bid shall constitute a written Notice to Proceed with this Part Four:

(1) The Consultant shall assist the City in obtaining bids. The Consultant shall not communicate with potential bidders regarding this Project without the express prior written authorization of the City's Purchasing Manager.

(2) The Consultant shall, within seven calendar days of any request by the City, expeditiously draft and promptly provide addendum as determined by the City to be reasonable or necessary for the bidding process.

(3) If the lowest responsible bid received for the general construction contract exceeds by 10% or more the final estimate of construction cost previously accepted by the City, excluding therefrom any add alternate, any work which may be let on a segregated bid basis and any furnishings, equipment or fixtures which are excluded from the general construction contract, the Consultant shall, within fourteen calendar days of any request by the City, revise the plans and specifications as may be necessary to stay within 10% of such final

estimate of construction cost, at no additional cost to the City provided such bid is received within 180 calendar days after completion of services in Section 1(c) of this Agreement. The Consultant shall also submit such revised plans and specifications, together with a new final estimate of construction cost, to the City for review and acceptance. This procedure, using the latest accepted final estimate of construction cost, shall, upon written notice to the Consultant from the Director, be repeated until an acceptable bid is received that does not exceed the accepted final estimate of construction cost by more than 10%.

(e) Part Five. Construction Phase and General Construction Contract Administration. The construction phase will begin with the award of the general construction contract, which shall constitute a written Notice to Proceed with this Part Five, and will terminate when a Notice of Completion is filed. Upon award of a general construction contract for the Project and under the direction of the Director through the City's designated Construction Manager for the Project:

(1) The Consultant shall attend the pre-construction conference and, if called upon by the City, act on the City's behalf in discussing the various aspects of the construction phase.

(2) The Consultant shall review and recommend in writing to the City acceptance or non-acceptance of shop drawings, equipment and material submittals of the general construction contractor as required by the general construction contract and applicable laws and regulations in a timely manner. The period for the Consultant review shall be as specified in the general construction contract, except if such period is not so specified, the period shall be as determined in the pre-construction conference as mutually agreed upon by the City, the Consultant and the general construction contractor.

(3) The Consultant shall, at intervals appropriate to the state of construction, familiarize itself with the progress and quality of the work and determine in general if the work is proceeding in accordance with the general construction contract documents, and keep the City informed of the progress of the work. In the event that the Consultant's visit to the site results in the discovery of any defect or deficiencies in the work of the general construction contractor, the Consultant shall immediately advise the City and document, in writing, the work the Consultant deems substandard, and make recommendations where appropriate to reject any work not conforming to the intended design or specifications. Based on the Consultant's best knowledge, information, and belief, the Consultant shall provide the City a general written assurance that the work covered by a payment application meets the standards in the general construction contract. As to technical aspects, the Consultant shall provide a written judgment of the acceptability of the work for payment applications and final acceptance, subject to the City's right to overrule the Consultant.

(4) Upon written request by the City, the Consultant shall render interpretations of the general construction contract documents necessary for the proper execution or progress of the work.

(5) Upon written request by the City, the Consultant shall render written recommendations on change orders, claims, disputes, or other questions arising out of the general construction contract, in a timely manner. Recommendations by the Consultant in favor of a change order that is consequently accepted by the City shall constitute approval by the Consultant who shall then approve the change order in writing. The Consultant shall not unreasonably withhold written approval in the event the City accepts a change order that the Consultant recommended to be rejected. In the event of any technical disputes, the Consultant shall provide the City with the Consultant's written interpretation of the contract documents. The period for the Consultant review shall be as specified in the general construction contract, except if such period is not so specified, the period shall be as determined in the pre-construction conference as mutually agreed upon by the City, the Consultant and the general construction contractor. If the City, the Consultant, and the respective general construction contractor are unable to mutually agree on such period for the Consultant review, then the City will make the determination and that determination will be final.

(6) Upon written request by the City, the Consultant shall provide such design and specification services as may be requested by the City to implement change orders necessary for clarification or interpretation of the general construction contract documents or which may have resulted from errors or omissions by the Consultant.

(7) Where change orders arise as a result of an increase in the scope of work or are due to unforeseeable conditions, the parties may modify this Agreement, which modification shall include an agreed upon increase in the Consultant's compensation.

(8) Upon written request of the City, the Consultant shall assist the City in the preparation of Progress Payment Estimates and other related construction reports.

(9) The Consultant shall provide the City with two sets of original as-grade plans wet-stamped and signed by the Consultant's Engineer of Record for the Project submitted for final approval by the City's Building and Safety Services Division of the Development and Resource Management Department on all projects located outside the Right of Way.

(10) The Consultant shall prepare Record Drawings by updating the accepted general construction documents in Part Three to reflect all changes or deviations that occurred during construction as reflected on or from each of the following: (i) the general construction contractor provided red-lined plans, (ii) those furnished by the City, (iii) the Consultant provided Request for Information responses, and (iv) any the Consultant bulletins, amendments or clarifications. The Consultant shall provide the City with one set of vellum Record Drawings for the Project within thirty (30) calendar days from receipt of red-lined field markups unless an extension of time is approved in writing by the Director. Re-submittals, as necessary to obtain the acceptance by the City, shall be submitted to the City

within twenty (20) calendar days from receipt of the City comments unless an extension of time is approved in writing by the Director. In addition, the Consultant shall provide the City with one complete set of CAD/System disk files of Record Drawings in the following format: AutoCAD and Adobe PDF.

2. The City's responsibilities. The City will:

(a) Provide, upon request and cooperation of the Consultant, access to, and make all provisions necessary to, enter upon public or private lands as required for the Consultant to perform such services and inspections as are required in development of the Project; provided, however, if the City is unable to obtain access to enter upon public or private lands, the Consultant shall not be relieved from performing its services as to those public and private lands that are accessible. If the Consultant notifies the City that a topographic survey is required by the Consultant in connection with the consulting services, then the City will be responsible for conducting the topographic survey.

(b) Manage and be responsible for all negotiations with owners in connection with land or easement acquisition and provide all required title reports and appraisals.

(c) With the exception of preparing correspondence required for design, hold all required special meetings, serve all public and private notices, receive and act upon all protests, and perform all services customarily performed by owners as are necessary for the orderly progress of the work and the successful completion of the Project, and pay all costs incidental thereto.

(d) Select the testing laboratory and pay the cost of borings, samplings, and other work involved in soils testing during construction.

(e) Conduct onsite inspection during construction to check quality and quantity of work as conditions warrant and be responsible for assuring that the general construction contractor carries out all construction work in accordance with the plans and specifications. However, this does not release the Consultant from its responsibility to make periodic site visits under Section 1(e) for the purpose of observing the work to determine its general conformity with the plans and specifications and reporting its findings to the City.

(f) Prepare all change orders during construction in cooperation with the Consultant.

(g) Prepare all Progress Payment Estimates in cooperation with the Consultant following its general assurance that the work covered by a payment application meets the standards in the general construction contract documents based upon the Consultant's best knowledge, information, and belief.

(h) Pay, or cause to be paid, plan check fees, conditional use permit fees and site plan review fees.

(i) Arrange for and pay, or cause to be paid, any fees associated with Environmental Impact Reports or Statements.

(j) Give reasonably prompt consideration to all matters submitted by the Consultant for acceptance to the end that there will be no substantial delays in the

Consultant's program of work. For an acceptance, approval, authorization, a request or any direction to the Consultant to be binding upon the City under the terms of this Agreement, such acceptance, approval, authorization, request or direction must be in writing, duly authorized by the City and signed on behalf of the City by the Director.

3. Compensation.

(a) The Consultant's sole compensation for satisfactory performance of all services required or rendered pursuant to this Agreement shall be a total fee of Six Hundred Twenty-Six Thousand (\$626,000), and a contingency amount not to exceed Sixty Thousand Dollars (\$60,000) for any additional work rendered pursuant to Subsection (d) below and authorized in writing by the Director. Such fees include all expenses incurred by the Consultant in performance of such services.

(b) Detailed statements shall be rendered monthly and will be payable in the normal course of City business. Such statements shall be for an amount no greater than that attributable to the part upon which the Consultant is then engaged as provided in Section 3(c) below.

(c) For purposes of determining the division of the total compensation to the Consultant as provided in Section 3(a) above, or should performance of any succeeding part not be authorized by the City as provided in Section 1 of this Agreement, it is agreed that the total compensation shall be allocated to the five parts of the Consultant's performance as follows: Part One - fifteen percent (15%), Part Two - twenty-five percent (25%), Part Three - thirty-seven and one-half percent (37.5%), Part Four - two and one-half percent (2.5%) and Part Five - twenty percent (20%). Prior to the award of a general construction contract for the Project, or should such contract not be awarded, the approved Parts as provided above shall be utilized for purposes of determining the fee due to the Consultant.

(d) The parties may modify this Agreement to increase or decrease the scope of services or provide for the rendition of services not required by this Agreement, which modification shall include an adjustment to the Consultant's compensation. Any change in the scope of services must be made by written amendment to the Agreement signed by an authorized representative for each party. The Consultant shall not be entitled to any additional compensation if services are performed prior to a signed written amendment. Subsequent to the date of completion of Part Three, changes due to Code revisions or enactments adopted after such date shall constitute additional work subject to this Section 3(d).

4. Termination, Remedies, Force Majeure, and Consolidation of Disputes.

(a) This Agreement shall terminate without any liability of the City to the Consultant upon the earlier of: (i) the Consultant's filing for protection under the federal bankruptcy laws, or any bankruptcy petition or petition for receiver commenced by a third party against the Consultant; (ii) seven calendar days' prior written notice with or without cause by the City to the Consultant; (iii) the City's non-appropriation of funds sufficient to meet its obligations hereunder during any City fiscal year of this Agreement, or insufficient funding for the Project; or (iv) expiration of this Agreement.

(b) Immediately upon any termination or expiration of this Agreement, The Consultant shall (i) immediately stop all work hereunder; (ii) immediately cause any and all of its subcontractors to cease work; and (iii) return to the City any and all unearned payments and all properties and materials in the possession of the Consultant that are owned by the City. Subject to the terms of this Agreement, the Consultant shall be paid compensation for services satisfactorily performed prior to the effective date of termination. The Consultant shall not be paid for any work or services performed or costs incurred which reasonably could have been avoided.

(c) In the event of termination due to failure of the Consultant to satisfactorily perform in accordance with the terms of this Agreement, the City may withhold an amount that would otherwise be payable as an offset to, but not in excess of, the City's damages caused by such failure. In no event shall any payment by the City pursuant to this Agreement constitute a waiver by the City of any breach of this Agreement which may then exist on the part of the Consultant, nor shall such payment impair or prejudice any remedy available to the City with respect to the breach.

(d) Upon any breach of this Agreement by the Consultant, the City may (i) exercise any right, remedy (in contract, law or equity), or privilege which may be available to it under applicable laws of the State of California or any other applicable law; (ii) proceed by appropriate court action to enforce the terms of the Agreement; and/or (iii) recover all direct, indirect, consequential, economic and incidental damages for the breach of the Agreement. If it is determined that the City improperly terminated this Agreement for default, such termination shall be deemed a termination for convenience.

(e) The Consultant shall provide the City with adequate written assurances of future performance, upon the request of the Director or designee, in the event the Consultant fails to comply with any terms or conditions of this Agreement.

(f) The Consultant shall be liable for default unless nonperformance is caused by an occurrence beyond the reasonable control of the Consultant and without its fault or negligence such as, acts of God or the public enemy, acts of the City in its contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, unusually severe weather, and delays of common carriers. The Consultant shall notify the Director or designee in writing as soon as it is reasonably possible after the commencement of any excusable delay, setting forth the full particulars in connection therewith, and shall remedy such occurrence with all reasonable dispatch, and shall promptly give written notice to the Director or designee of the cessation of such occurrence.

(g) The Consultant agrees that, notwithstanding any contrary provision in this Agreement, any dispute arising from or relating to this Agreement (including, without limitation, disputes based on contract, tort, equity or statute) may, at the City's option, be joined and consolidated with any other dispute or disputes arising from or relating to the Project so that all disputes arising from or relating to the Project may be resolved in a single proceeding. The Consultant hereby specifically waives any objection it may otherwise have to such joinder and consolidation and specifically consents to mediation, arbitration or any other dispute resolution mechanism, forum or proceeding necessary to effectuate the joinder and consolidation contemplated by this provision.

5. Confidential Information, Ownership of Documents and Copyright License.

(a) Any reports, information, or other data prepared or assembled by the Consultant pursuant to this Agreement shall not be made available to any individual or organization by the Consultant without the prior written approval of the City. During the term of this Agreement, and thereafter, the Consultant shall not, without the prior written consent of the City, disclose to anyone any Confidential Information. The term "Confidential Information" for the purposes of this Agreement shall include all proprietary and confidential information of the City, including but not limited to business plans, marketing plans, financial information, designs, drawings, specifications, materials, compilations, documents, instruments, models, source or object codes and other information disclosed or submitted, orally, in writing, or by any other medium or media. All Confidential Information shall be and remain confidential and proprietary in the City.

(b) Any and all original sketches, pencil tracings of working drawings, plans, computations, specifications, computer disk files, writings and other documents prepared or provided by the Consultant pursuant to this Agreement are the property of the City at the time of preparation and shall be turned over to the City upon expiration or termination of the Agreement or default by the Consultant. The Consultant grants the City a copyright license to use such drawings and writings. The Consultant shall not permit the reproduction or use thereof by any other person except as otherwise expressly provided herein. The City may modify the design including any drawings or writings. Any use by the City of the aforesaid sketches, tracings, plans, computations, specifications, computer disk files, writings and other documents in completed form as to other projects or extensions of this Project, or in uncompleted form, without specific written verification by the Consultant will be at the City's sole risk and without liability or legal exposure to the Consultant. The Consultant may keep a copy of all drawings and specifications for its sole and exclusive use.

(c) If the Consultant should subcontract all or any portion of the services to be performed under this Agreement, the Consultant shall cause each subcontractor to also comply with the requirements of this Section 5.

(d) This Section 5 shall survive expiration or termination of this Agreement.

6. Professional Skill. It is further mutually understood and agreed by and between the parties hereto that inasmuch as the Consultant represents to the City that the Consultant and its subcontractors, if any, are skilled in the profession and shall perform in accordance with the standards of said profession necessary to perform the services agreed to be done by it under this Agreement, the City relies upon the skill of the Consultant and any subcontractors to do and perform such services in a skillful manner and the Consultant agrees to thus perform the services and require the same of any subcontractors. Therefore, any acceptance of such services by the City shall not operate as a release of the Consultant or any subcontractors from said professional standards.

7. Indemnification. To the furthest extent allowed by law, the Consultant shall indemnify, hold harmless and defend the City and each of its officers, officials, employees, agents, and volunteers from any and all loss, liability, fines, penalties, forfeitures, costs and damages (whether in contract, tort or strict liability, including but not limited to personal injury, death at any time and property damage), and from any and all claims,

demands and actions in law or equity (including reasonable attorney's fees and litigation expenses and cost to enforce this agreement) that arise out of, pertain to, or relate to the negligence, recklessness or willful misconduct of the Consultant, its principals, officers, employees, agents, or volunteers in the performance of this Agreement.

If the Consultant should subcontract all or any portion of the services to be performed under this Agreement, the Consultant shall require each subcontractor to indemnify, hold harmless and defend the City and each of its officers, officials, employees, agents, and volunteers in accordance with the terms of the preceding paragraph.

This section shall survive termination or expiration of this Agreement.

8. Insurance.

(a) Throughout the life of this Agreement, the Consultant shall pay for and maintain in full force and effect all insurance as required in **Exhibit B**, which is incorporated into and part of this Agreement, with an insurance company(ies) either (i) admitted by the California Insurance Commissioner to do business in the State of California and rated no less than "A-VII" in the Best's Insurance Rating Guide, or (ii) as may be authorized in writing by the City's Risk Manager or designee at any time and in his/her sole discretion. The required policies of insurance as stated in Exhibit B shall maintain limits of liability of not less than those amounts stated therein. However, the insurance limits available to the City, its officers, officials, employees, agents, and volunteers as additional insureds, shall be the greater of the minimum limits specified therein or the full limit of any insurance proceeds to the named insured.

(b) If at any time during the life of the Agreement or any extension, the Consultant or any of its subcontractors/sub-consultants fail to maintain any required insurance in full force and effect, all services and work under this Agreement shall be discontinued immediately, and all payments due or that become due to the Consultant shall be withheld until notice is received by the City that the required insurance has been restored to full force and effect and that the premiums therefore have been paid for a period satisfactory to the City. Any failure to maintain the required insurance shall be sufficient cause for the City to terminate this Agreement. No action taken by the City pursuant to this section shall in any way relieve the Consultant of its responsibilities under this Agreement. The phrase "fail to maintain any required insurance" shall include, without limitation, notification received by the City that an insurer has commenced proceedings, or has had proceedings commenced against it, indicating that the insurer is insolvent.

(c) The fact that insurance is obtained by the Consultant shall not be deemed to release or diminish the liability of the Consultant, including, without limitation, liability under the indemnity provisions of this Agreement. The duty to indemnify the City shall apply to all claims and liability regardless of whether any insurance policies are applicable. The policy limits do not act as a limitation upon the amount of indemnification to be provided by the Consultant. Approval or purchase of any insurance contracts or policies shall in no way relieve from liability nor limit the liability of the Consultant, its principals, officers, agents, employees, persons under the supervision of the Consultant, vendors, suppliers, invitees, consultants, sub-consultants, subcontractors, or anyone employed directly or indirectly by any of them.

(d) If the Consultant should subcontract all or any portion of the services to be performed under this Agreement, the Consultant shall require each subcontractor/sub-consultant to provide insurance protection, as an additional insured, to the City and each of its officers, officials, employees, agents, and volunteers in accordance with the terms of this section, except that any required certificates and applicable endorsements shall be on file with the Consultant and the City prior to the commencement of any services by the subcontractor. The Consultant and any subcontractor/sub-consultant shall establish additional insured status for the City, its officers, officials, employees, agents, and volunteers by using Insurance Service Office (ISO) Form CG 20 10 11 85 or both CG 20 10 10 01 and CG 20 37 10 01 or by an executed manuscript company endorsement providing additional insured status as broad as that contained in ISO Form CG 20 10 11 85.

9. Conflict of Interest and Non-Solicitation.

(a) Prior to the City's execution of this Agreement, the Consultant shall complete a City of Fresno conflict of interest disclosure statement in the form as set forth in **Exhibit C**. During the term of this Agreement, the Consultant shall have the obligation and duty to immediately notify the City in writing of any change to the information provided by the Consultant in such statement.

(b) The Consultant shall comply, and require its subcontractors to comply, with all applicable (i) professional canons and requirements governing avoidance of impermissible client conflicts; and (ii) federal, state, and local conflict of interest laws and regulations including, without limitation, California Government Code Section 1090 et. seq., the California Political Reform Act (California Government Code Section 87100 et. seq.), the regulations of the Fair Political Practices Commission concerning disclosure and disqualification (2 California Code of Regulations Section 18700 et. seq.) and Section 4-112 of the Fresno Municipal Code (Ineligibility to Compete). At any time, upon written request of the City, the Consultant shall provide a written opinion of its legal counsel and that of any subcontractor that, after a due diligent inquiry, the Consultant and the respective subcontractor(s) are in full compliance with all laws and regulations. The Consultant shall take, and require its subcontractors to take, reasonable steps to avoid any appearance of a conflict of interest. Upon discovery of any facts giving rise to the appearance of a conflict of interest, the Consultant shall immediately notify the City of these facts in writing.

(c) In performing the work or services to be provided hereunder, the Consultant shall not employ or retain the services of any person while such person either is employed by the City or is a member of any city council, commission, board, committee, or similar City body. EXHIBIT A

SCOPE OF SERVICES

Consultant Service Agreement between City of Fresno (City) and Blair, Church & Flynn Consulting Engineers (Consultant)

South Peach Avenue Park

The CITY is planning to develop a new park at the location shown on attached Exhibit D. CONSULTANT understands that the park development will be phased, and that the CITY is currently moving forward with a project to construct Phase 1, which has a construction budget of approximately \$7.2 million. The final limits of Phase 1 work, and the types of amenities to be included will be decided after a programming process that will include working with stakeholders from the CITY and from the local community.

The CONSULTANT understands that the CITY wants to obtain an approved Site Plan for the entire project but then only proceed with construction of Phase 1 at the current time. Construction of the remaining phases will be completed in the future as funding becomes available. The construction drawings for those phases will be completed by separate agreement later and are not a part of this agreement.

The first task for the CONSULTANT will be to work with the stakeholder team to prepare a master development concept drawing that will be used in the initial community engagement meeting. This concept-level drawing will serve as a tool to stimulate conversation and involvement by interested community groups and individuals, and it will be the springboard for discussions about the types of active recreation, passive enjoyment, and support facilities that are the most desirable to the potential users. CONSULTANT will also begin the conversation about priorities, which of the proposed amenities is the most important, and what combination of improvements are desired in the first phase of the project.

Prior to the first community engagement meeting (and both subsequent meetings), an advertising campaign for the project will be started. This campaign will be two-pronged, consisting of both digital advertising and a mailed advertisement. The digital ad campaign will target an area encompassing a 4-mile radius around the proposed project, as well as Council District 5. This ad campaign will be released on the Meta (previously Facebook) platform and will be geotargeted to the residents encompassed in the defined area. The mailed advertisement will consist of a postage-paid, printed postcard with relevant survey and outreach information that will be mailed to residents within a 2-mile radius of the project site. The goal of this advertising campaign will be two-fold: to advise the surrounding residents on when and where they can attend the planned community engagement events, and to provide an opportunity for residents to complete a survey that will provide basic feedback to the project team on community priorities and needs.

Survey responses from community members will be tracked using two different methods: through a survey website that can be accessed from both the digital advertisements and the mailed advertisements; and a hard-copy review of all returned mailers with survey information filled out. The responses received will be compiled into one set of data, filtered for duplicate responses, and used to create a re-cap report for the project team. In parallel with the advertising campaign and using the input received from the first community engagement meeting and the CITY priorities and constraints, CONSULTANT will develop a revised, more detailed “Version 2” of the proposed overall Master Plan, including proposed phasing limits, to share with the CITY. At this point CONSULTANT will also provide a preliminary Opinion of Probable Construction Cost (OPCC) for Phase 1. After review with the CITY, any required revisions will be made to both the Phase 1 limits and the OPCC to keep the Phase 1 costs within the stipulated budget.

A second community engagement meeting will be held, at which CONSULTANT will present the proposed Master Plan and the Phase 1 plan. Based on input received at this meeting, CONSULTANT will again consult with the CITY and revise the Master Plan and Phase 1 plan as necessary to balance the needs and priorities of all the stakeholders, and to prepare a “Version 3” Master Plan, phasing limits and an updated Phase 1 OPCC.

Once “Version 3” of the Master Plan is complete, a third and final community engagement meeting will be held to present the finalized Master Plan and Phase 1 Plan to the community for their information.

Using the Master Site Plan resulting from this programming and community outreach effort, CONSULTANT will submit a project package, including planned phase limits, to the Design Review Committee (DRC) for review and comment. Revisions required by the DRC will be incorporated into the final Master Site Plan before it is submitted for entitlement review.

Because the project site zoning is already consistent with the proposed land use, CONSULTANT doesn't expect re-zoning or a Conditional Use Permit to be required. CONSULTANT assume that a Development Permit (DP) will be the appropriate entitlement vehicle for this project. Based on that assumption, CONSULTANT will prepare an DP submittal package that will include the Master Site Plan, building floor plans and elevations for all proposed buildings, and a Master Site Planting Plan with the proposed irrigation main line routing shown. These drawings, together with the DP application, will be uploaded to the City of Fresno's Planning & Development Department's FASTER portal for review and comment. Upon receiving DP review comments, the drawings will be revised and resubmitted for approval.

After DP approval is obtained, CONSULTANT will prepare a Phase 1 construction drawing package and submit it for plan check to the City of Fresno's Planning &

Department and other local Authorities Having Jurisdiction (AHJ's), such as Fresno Irrigation District, Fresno Metropolitan Flood Control District, and the railroad company. Comments received from the plan check process will be incorporated into revised plans that will be resubmitted for all required approvals.

Comments received from the plan check process will be incorporated into revised plans that will be resubmitted for all required approvals.

Coordination with the off-site project for the widening of Peach Avenue will be required. CONSULTANT will work collaboratively with both the Public Works Department and their engineer designing the Peach Avenue improvements to ensure that driveways and utility service laterals are installed by that project at locations where they are, or will be, needed for the proposed park improvements. It is assumed that all other off-site improvements, including but not limited to paving, curbs and gutters, wheelchair ramps, sidewalks, street lighting, sewer, water and storm drain facilities, applications for new PG&E service for street lighting, and relocation of franchise utilities will be provided by the off-site Peach Avenue project.

As part of providing electrical service to the park, CONSULTANT will prepare and submit the PG&E Rule 16 application for electrical service to the site.

CONSULTANT understands that the Storm Water Pollution Prevention Plan (SWPPP) will be prepared by others and that CONSULTANT will have no responsibilities for SWPPP preparation or implementation. Due to the size of the project, the San Joaquin Valley Air Pollution Control District (SJVAPCD) will require submittal of documents related to their Indirect Source Review (ISR) process. CONSULTANT will prepare and submit the required ISR documents, and the application fees will be paid directly by the CITY.

Scope of work includes Geotechnical Engineering investigations, including soil borings for any Phase 1 building structures, R-value testing for Phase 1 pavement design, and preparation of a soils report.

Site utility design will include all required utilities for a fully functional Phase 1 project, including sanitary sewer, domestic water, fire protection water to site fire hydrants, storm drainage, irrigation water, and electrical and lighting. It is assumed that no Phase 1 buildings will require gas service, fire sprinklers, or communications infrastructure. CONSULTANT will also create a schematic level master utility plan that shows how the future phases are envisioned to be served, and how that relates to the Phase 1 utility design. Offsite utility stub-outs to the site will be by others as part of the Peach Avenue project, but CONSULTANT will provide coordination to ensure that the types and sizes of service laterals are installed at the locations needed.

Upon request of the City, the Consultant shall immediately furnish City with a complete copy of any insurance policy required under this Agreement, including all endorsements, with said copy certified by the underwriter to be a true and correct copy of the original policy.
