MEMORANDUM

DATE: October 6, 2022

TO: HONORABLE MAYOR JERRY DYER
COUNCIL PRESIDENT NELSON ESPARZA
COUNCILMEMBERS
WEST AREA STAKEHOLDERS

FROM: GEORGEANNE A. WHITE, City Manager *G. White*
CASEY LAUDERDALE, Planner, Planning and Development Department

SUBJECT: ADDITIONAL INFORMATION PROVIDED FOLLOWING THE
SEPTEMBER 29, 2022 WANSP WORKSHOP

The purpose of this Memorandum is to share additional information in response to questions and concerns shared at the September 29, 2022 workshop on the West Area Neighborhoods Specific Plan (WANSP). The information is organized by subject area as follows:

- A. Housing Capacity
- B. Regional Park
- C. Urban-Rural Interface
- D. Veterans Boulevard connection to SR 180
- E. Noticing of Land Use Changes
- F. Agricultural Mitigation
- G. Vehicle Miles Traveled (VMT)

A. Housing Capacity

With the co-adoption of the Mixed-Use Text Amendment (MUTA), the WANSP will result in a housing capacity gain of approximately 7,169 units over the existing General Plan. The reason for this gain is because MUTA adds 19,396 units of capacity, which exceeds the current deficit of 12,227 by 7,169.

General Plan (GP) Max Capacity	Specific Plan (SP) Max Capacity	Difference SP & GP	Specific Plan w/MUTA	Difference SP w/MUTA and GP
66,857	54,630	-12,227	74,026	+7,169

The land use vision for the WANSP incorporates three core principles: 1) follow a transect model to create a physical transition from urban to rural landscapes, 2) focus density and

in between the more intensive General Plan and the less intensive existing rural residential uses.

The resulting land use map had the following impacts:

- Reduction of density along the southwestern edge of the Plan Area to take away pressure from the Sphere of Influence and to facilitate a more fluid transition between the urban and rural landscape.
- Change from RMX and CMX along Shaw Avenue to NMX, to be more in-line with a town center versus a regional center.
- Gain of density in other areas closer to the existing city core to facilitate more orderly development in infill areas.

Housing Capacity Changes with MUTA

Housing Capacity Changes without MUTA

Because MUTA provides enough capacity to overcome the initial deficit, the co-adoption of the Plan with MUTA allows for compliance with SB 330, however the City Council can choose to add additional density through land use changes that can be included in the follow-up Plan Amendment. Staff recommends that any modifications made to the land use map undergo a community input process prior to the amendment returning to Council for adoption.

B. Regional Park

During the first phase of engagement it was clear that community members desired more park space and, beyond that, a landmark regional park for the West Area. The Steering Committee choose three general locations for a regional park to evaluate and score according to a set of criteria. The area that scored the highest was a location along Shaw Avenue. Because there was some debate amongst Committee members about the preferred location of the park (north versus south of Shaw) and because a regional park is to serve residents citywide, the Plan does not designate the park, but acknowledges

the highest scoring location as the preferred location and calls for a community input process to vet the site for official designation. See page 80 of the Plan for more information.

Please see *Attachment 1: Regional Park* for the Plan Narrative, Regional Park Options map, and Scoring Criteria.

The Regional Park designation could be also included per Council direction in the follow-up Plan Amendment. Should this occur, staff requests additional direction and resources to initiate community engagement activities.

C. Urban-Rural Interface

Specific Plan Policy LUH 5.1 carries over and modifies Policy W-1-e from the West Area Community Plan, which speaks to adding a transition space between new urban uses and farmland. Policy LUH 5.1, similar to its predecessor, suggests methods to provide this transition, but also includes existing rural residential uses, in response to feedback heard from Plan Area residents. One of the core values of the Plan is to see new development that respects agriculture and long existing rural residential development (see page 3 of the Specific Plan).

West Area Community Plan Policy W-1-e:

"When land proposed for urban development abuts actively farmed land that is (1) in an agricultural land conservation contract (including land that is outside the city's sphere of influence boundary); and/or (2) designated in the city's General Plan for continued agricultural use, the development project shall include design features which provide an agricultural/urban buffer as follows:

- building setbacks with fencing.
- designated open space (including, but not limited to, densely landscaped strips, full-width multi-use trails or bikeways, and permanent on-site flood control/drainage facilities).
- boundary streets."

West Area Neighborhoods Specific Plan Policy LUH 5.1:

"Consider updating the Development Code so that when land proposed for urban development abuts active farmland, planned farmland, or rural residential, the new project shall include and provide for the maintenance of one of the following design features to provide a rural/urban buffer:

- Provide landscaping and setbacks to fully obscure the new development's buildings and fences.
- Do not include fencing, or provide only see-through fencing no greater than four feet in height between the new development and the existing property.

- Provide open space such as edible gardens, landscaped walkways, trails or rain gardens to be no less than 30 feet in width.
- Locate boundary streets between the new and existing developments."

This policy would not create a loss of housing capacity because an already-required local street could be located to serve as the transition space or the new use could provide landscaping or different fencing materials that would not require a change to the layout of the new development. See page 126 of the Specific Plan for an illustration of all proposed transition space alternatives.

For this policy to be implemented, a subsequent update of the Development Code would be required, which would go through the required legislative process.

Example of existing condition:

This is a unique example of new development abutting a rural residential property both with and without a transition space. The development to the north (left side in each photo) has no transition space whereas the development to the south (right side in first photo) has a boundary street.

Below is another example of what a boundary street might look like. This example is located in north Kingsburg.

D. Veterans Boulevard connection to SR 180

Veterans Boulevard will ultimately end at Gettysburg Avenue. The City has plans to build Grantland Avenue to Shields Avenue as a four-lane arterial with a multipurpose trail. Shields Avenue to SR 180 is outside the Sphere of Influence and thus under County responsibility.

E. Noticing of Land Use Changes

Seven direct mailers were sent to property owners and residents (approximately 14,000 addresses) throughout the planning process. Included were two direct notices to property owners and residents whose land use is proposed to change under the Specific Plan. An additional notification was also sent to properties with land use change requests. Notices included maps and were translated into Spanish, Punjabi, and Hmong. Direct staff contact information was also provided for Spanish, Punjabi, and Hmong speakers.

Staff spoke with several people as a result of these mailings to help provide more information on the proposed changes and to advise on how to submit a response in support or in protest of the changes.

See Attachment 2: Land Use Change Notices for copies of the most recent notices.

Staff proposes adding a courtesy Plan Amendment, to be built into next year's budget, for six months after the Plan is adopted for any land owner who was unaware of the Specific Plan changes. We request, however, that any proposed changes have the opportunity to go through a community review process.

F. Agricultural Mitigation

Productive farmland is not just a matter of Statewide Importance, it is a matter of local importance as well, with Fresno County being consistently rated the number one producing agricultural county in the nation and the city of Fresno at the heart of it.

The Specific Plan and General Plan are both in recognition of this while upholding the requirements of the California Environmental Quality Act (CEQA). CEQA requires local jurisdictions to enact all feasible mitigation measures to reduce the loss of Farmland, thus the measures in the General Plan and Specific Plan call for standard mitigation for the loss of Important Farmland. What land qualifies as Important Farmland is determined through surveys conducted by the State Department of Conservation. The amount of land that that would be considered for mitigation is further determined through a widely accepted tool called the Land Use and Site Assessment (LESA), that examines more detailed and localized factors. These measures are similar to others within the San Joaquin Valley, where housing development has not been deterred. Mitigation may occur locally to continue supporting our regionally significant agricultural economy. Staff proposes that the definition of locally be limited to Fresno and Madera Counties.

See also Attachment 3: Important Farmland Maps.

G. Vehicle Miles Traveled (VMT)

The West Area plan anticipates an overall reduction in VMT. The decrease in VMT is the result of the proposed land use mix within the Plan Area. The retail and employment opportunities keep the VMT per capita lower than the County average, while the large number of dwelling units near the jobs allows employees to live close to work resulting in a VMT per employee that is lower than the County average today. See Chapter 3.14 of the EIR for more information.

While the EIR anticipates a reduction of overall VMT, individual projects within the West Area will still need to apply a project-level VMT analysis through the Fresno Council of Government's screening tools.

4.2.B | West Area Harvest Park

The proposal of a regional park for the West Area responds to a request from the Steering Committee, supported by members of the community, who desire additional recreation space. Some amenities on the community wish list include lighted athletic facilities, picnic tables and benches, paved trails, playgrounds with universally accessible equipment, an indoor gym, chess/checkers tables, tennis courts, a putting green, fitness equipment for adults and kids, a concert amphitheater, basketball courts, practice fields, and pickle ball courts.

Another potential feature of the park could be the incorporation of a demonstration farm or edible garden, integrated with a walk-through, open-air agricultural museum that showcases artifacts and interpretive signage that highlight the agricultural history of Fresno and the West Area. The scale of this “harvest park” component could be lower-intensity (ex. community garden), medium-intensity (ex. apple picking), or higher-intensity (ex. farm incubator). Should a component such as this be added, the park may also qualify as a special use park.

The Steering Committee suggested three potential locations for a flagship regional park (see [Map 4-2: Proposed Regional Park Location](#)):

Option A: in the most northern portion of the Plan Area;

Option B: at the southwest corner of Shields and Bryan Avenues;

Option C: on undeveloped land that extends from Parkway Avenue along both sides of the Herndon Canal.

From a list of 13 criteria, Option C scored the highest (see Appendix B for more information). This site is 74 acres in size and incorporates undeveloped land already planned for a community park while extending along and including the Herndon Canal to the undeveloped parcels south of the waterpark. This site would be connected to transit, would support the use of the canal as a trail, and has the potential for a shared use agreement with the waterpark’s parking lot. It is also situated in a location where there is a need for park space and where it is simultaneously cohesive with urban growth (as opposed to inadvertently spurring leapfrog development in a currently rural part of the Plan Area).

As this is proposed to be a regional park, this Plan affirms that its location, features, and amenities will need to be vetted through a citywide discussion.

Dear West Area Resident, Property Owner, or Business Owner,

This letter is to inform you that, after a multi-year planning process, the West Area Neighborhoods Specific Plan is ready for consideration by the Planning Commission and City Council.

The Specific Plan includes guiding principles, goals, and policies that will help direct future development in the West Area, to create healthy, vibrant, and connected communities. The Revised Public Draft is available at www.fresno.gov/westareaplan. The Plan proposes changes to the planned land use and zoning for some properties within the West Area. You are receiving this letter because your property or residence is anticipated to be affected (see page 5 for the proposed land use map).

Please note that businesses, land uses, and buildings which are legally established under current or older regulations may continue indefinitely. New regulations only apply to new construction and new businesses or uses. These protections are provided in Article 4 of the Citywide Development Code.

If you have any questions, please contact me at (559) 621-8515 or casey.lauderdale@fresno.gov. Please visit the Plan's webpage at www.fresno.gov/westareaplan for additional information and tools, such as the Interactive Slider Map (www.fresno.gov/westareaslidermap), where you can review the proposed changes on a parcel level.

Estimado Residente del Área Oeste, Dueño de una Propiedad o Dueño de un Negocio:

Esta carta es para informarle que, después de un proceso de planificación de varios años, el Plan Específico de Vecindarios del Área Oeste está listo para ser considerado por la Comisión de Planificación y el Concejo Municipal.

El Plan Específico incluye principios directivos, metas y políticas que ayudarán a dirigir el desarrollo futuro en el Área Oeste, para crear comunidades saludables, vibrantes y conectadas. El Borrador Público Revisado está disponible en www.fresno.gov/westareaplan. El Plan propone cambios en el uso del suelo planificado y la zonificación para algunas propiedades dentro del Área Oeste. Usted está recibiendo esta carta porque se anticipa que su propiedad o residencia se verá afectada (vea la página 5 para el mapa de uso de suelo propuesto).

Tenga en cuenta que las empresas, los usos de la tierra y los edificios que están legalmente establecidos según las regulaciones actuales o anteriores pueden continuar indefinidamente. La nueva normativa sólo se aplica a las nuevas construcciones y nuevos negocios o usos. Estas protecciones se proporcionan en el Artículo 4 del Código de Desarrollo de la Ciudad.

Si tiene alguna pregunta, comuníquese con nosotros al (559) 621-8038 o marisela.martinez@fresno.gov. Visite la página de internet del Plan en www.fresno.gov/westareaplan para obtener información y herramientas adicionales, como el Mapa Deslizante interactivo (www.fresno.gov/westareaslidermap), donde puede revisar los cambios propuestos a nivel de parcela.

Dear West Area Resident, Property Owner, or Business Owner,

Through the public comment period for the West Area Neighborhoods Specific Plan, a request was received for your property or residence to change its land use designation to something other than what is proposed by the current draft of the Plan (see maps provided on page 5).

Preliminary review of this request was provided by Planning staff, the Specific Plan Steering Committee, and (if applicable) the Council District Project Review Committee. For a list of their recommendations and additional information, please visit the plan webpage (www.fresno.gov/westareaplan).

You are invited to support, oppose, or remain neutral to the proposed change at the upcoming Planning Commission and City Council hearings (see dates below). You may also submit written comments, which will be provided to the Commissioners and Councilmembers, respectively. Please know that the City Council has the final authority to approve or deny this request.

Estimado Residente del Área Oeste, Dueño de una Propiedad o Dueño de un Negocio:

Durante el período de comentarios públicos para el Plan Específico de Vecindarios del Área Oeste, se recibió una solicitud para que su propiedad o residencia cambie su designación de uso de suelo a algo diferente a lo que propone el borrador actual del Plan (ver mapas en la página 5).

La revisión preliminar de esta solicitud estuvo a cargo del personal de Planificación, el Comité Directivo del Plan Específico y (si corresponde) el Comité de Revisión de Proyectos del Distrito del Concejo. Para obtener una lista de sus recomendaciones e información adicional, visite la página de internet del plan (www.fresno.gov/westareaplan).

Está invitado(a) a apoyar, oponerse o permanecer neutral al cambio propuesto en las próximas audiencias de la Comisión de Planificación y el Concejo Municipal (vea las fechas a continuación). Usted también puede someter comentarios por escrito, que se proporcionarán a los Comisionados y Concejales, respectivamente. Tenga en cuenta que el Consejo de la Ciudad tiene la autoridad final para aprobar o denegar esta solicitud.

Para preguntas o para enviar comentarios por escrito, comuníquese con Marisela Martínez por teléfono al (559) 621-8038 o por correo electrónico a marisela.martinez@fresno.gov.

Casey Lauderdale, Planificadora
División de Planificación a Largo Plazo

Tenga en cuenta que las empresas, los usos de la tierra y los edificios que están legalmente establecidos según las regulaciones actuales o anteriores pueden continuar indefinidamente. La nueva normativa sólo se aplica a las nuevas construcciones y nuevos negocios o usos. Estas protecciones se proporcionan en el Artículo 4 del Código de Desarrollo de la Ciudad.
