The Engineer's Estimate for this expenditure is \$ 235,700.00. The contract price is 70% above the Engineer's Estimate. If the overage is greater than 10% or only one bid was received, give explanation:

Staff believes that the increase is due to the increase in materials, labor, and operating cost throughout the construction industry since the project initiated. The increase in the construction price has been evident on recent projects and existing issues with the supply-chain have been a major factor in the increased prices all over the construction marketplace.

BACKGROUND OF PROJECT (To be completed by Evaluating Department/Division. Explain need for project/equipment):
