Request an Informative Workshop on Mayor Dyer's One Fresno Housing Strategy

Fresno, California is home to over half a million residents. Among these residents, many are grappling with housing issues that range from affordability to availability. Mayor Jerry Dyer's 'One Fresno Housing Strategy' was introduced with the aim of addressing these concerns and creating a city where everyone has access to affordable and decent housing. However, there has been limited communication about the progress of this plan.

We believe that as citizens of Fresno, we have a right to be informed about the initiatives that directly impact our lives and our community. We are therefore calling for an informative workshop from Mayor Dyer's administration which will update us on the current status and future plans of his 'One Fresno Housing Strategy'. This workshop should provide clear information about what steps have been taken so far under this plan, what challenges have been encountered, and how they are being addressed.

By signing this petition, you're urging Mayor Dyer's administration to prioritize transparency in their efforts towards improving housing in our city. Let your voice be heard; sign today!

We are therefore calling for an informative workshop from Mayor Dyer's administration which will update us on the current status and future plans of his 'One Fresno Housing Strategy'. This workshop should provide clear information about what steps have been taken so far under this plan, what challenges have been encountered, and how they are being addressed.

However, there has been limited communication about the progress of this plan.

We believe that as citizens of Fresno, we have a right to be informed about the initiatives that directly impact our lives and our community. We are therefore calling for an informative workshop from Mayor Dyer's administration which will update us on the current status and future plans of his 'One Fresno Housing Strategy'.
