<i>Finding A:</i>	There are exceptional or extraordinary circumstances or conditions applicable to the property involved that do not apply generally to property in the vicinity and identical zoning classification, and that the granting of a Variance will not constitute a granting of a special privilege inconsistent with the limitations on the property in the vicinity and identical zone classifications;
a. There are conditions applicable to the property involved that do not apply generally to property in the vicinity and identical zoning classification such as the requirement of a screen wall. The granting of a Variance will not constitute a granting of a special privilege inconsistent with the limitations on the property in the vicinity and identical zone classifications. Other industrial sites within the area are able to request consideration of a similar variance requests. As each variance request is evaluated on a project by project basis, the circumstances of each request may vary, affecting granting or denial, but the opportunity is present.

- c. The granting of the variance will not be detrimental or injurious to property or improvements in the vicinity, and will not be detrimental to the public health, safety, general welfare, or convenience, nor the preservation and conservation of open space lands. The subject property is located in an industrial zone district and surrounded by similar uses. The granting of variance will provide additional screening to surrounding streets and properties, further reducing the potential for conditions which would be detrimental and injurious to the public health, safety and general welfare to surrounding properties. The portions of the wall bordering public streets are required to have a minimum landscaped setback of 10 feet, which will reduce the negative visual impact of the proposed over height wall.

<i>Finding D:</i>	The granting of the Variance will be consistent with the general purposes, objectives and intent of this Fresno Municipal Code, any applicable operative plan, and of the General Plan.

- d. The granting of a variance will be consistent with the general purposes and objectives of Fresno Municipal Code, the Fresno General Plan, Edison Community Plan and Fresno-Chandler Downtown Airport Specific Plan. A screen wall for the proposed land use is required to protect surrounding properties from negative impacts of general operations at the subject site. An increase in the height of the screen wall would promote the continuation of a permitted industrial use, protect the subject site from negative security concerns, as well as preserve the characteristics of the surrounding area.
