Engineering Inspector
Public Works
City of Fresno

Subject: Substitution of Sub-Contractor

We were notified that our Sub-Contractor, Taylor Drilling that was listed as intended to provide the horizontal boring for the project has decided to no longer perform this type of work using the rigid conduit required by our contract. This has caused us to find/use another Sub-Contractor that does install rigid conduit required by our contract. Their contact information is: Jody Taylor with Taylor Drilling, 254 Nord Avenue, Bakersfield CA 93314, (661)-979-5537.

I have reviewed and verified per the Public Contract Code Section 4107-(a) (1) that Taylor Drilling refuses to execute a written contract for the scope of work specified because they no longer provide this type of work.

We are substituting the following Sub-Contractor that does and will install rigid conduit and meet our contract requirements. Their contact information is: Nelson Banuelos with VT Electric, 10825 Vernon Avenue Ontario, CA 91762, (562)-712-0980.

Sincerely,

Bill Williams
