- ☐ Ministerial - PRC § 21080(b)(1); CEQA Guidelines §15268
- ☐ Declared Emergency - PRC § 21080(b)(3); CEQA Guidelines §15269(a)
- ☐ Emergency Project - PRC § 21080(b)(4); CEQA Guidelines §15269(b) and (c)
- ☒ Categorical Exemption – Class 1/CEQA Guidelines §15301
- ☐ Statutory Exemption – PRC § _____

Reasons why project is exempt: Section 15301 (Class 1/Existing Facilities) of the CEQA Guidelines exempts from the provisions of CEQA, projects consisting of the operation, repair, maintenance, permitting, leasing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. Example include but are not limited to: Existing facilities of both investor and publicly owned utilities used to provide electric power, natural gas, sewerage, or other public utility services; and, Existing highways and streets, sidewalks, gutters, bicycle and pedestrian trails, and similar facilities (this includes road grading for the purpose of public safety).

The proposed vacation of the above-described land meets the criteria noted above. There is no substantial evidence in the record that any of the exceptions to these Categorical Exemptions, set forth in CEQA Guidelines, Section 15300.2 apply to this project. Therefore, no adverse environmental impacts will occur as a result of the proposed project.

**SUBJECT: PROPOSED VACATION OF SAN BENITO STREET BETWEEN "G" STREET
AND "G" AND "F" STREET ALLEY**

The vacation feasibility study you requested has been completed. Findings indicate the vacation proposal is feasible subject to the following conditions:

1. Louise Gilio of the City's Traffic Management Division requires that this vacation not proceed until the following concerns be addressed.
 - a) The applicant shall be responsible for the removal of all existing street improvements from the area proposed to be vacated;
 - b) The applicant shall be responsible for the installation of concrete curb, gutter, sidewalk and asphaltic paving as necessary across the vacated area to block public access to the vacated area.

If you have any questions, please contact Louise at (559) 621-8678.

2. The City's Public Utilities Department requires that an unobstructed Public Utility Easement be reserved over the entire proposed vacation area to have access to the existing sewer and water facilities. If you have any questions or concerns about the requirements please contact Tony Sanchez at (559) 621-8688.
3. PG&E has facilities within the area proposed to be vacated and requests that a public utility easement be reserved over the entire area proposed to be vacated to provide for their facilities. If you have any questions about this condition, please contact Mr. Chris Woods of PG&E at 263-5215. Public Works must receive written notification from PG&E if there is any change to this requirement.
4. AT&T requires that you provide an easement for their facilities as shown on their enclosed exhibit. This can be done by the dedication of a specific easement to them or by reserving a public utility easement from the vacation. If you have any questions, please contact Geneva McJunkin at A.T.&T. (559) 454-4697.
5. The Fresno Metropolitan Flood Control District (FMFCD) requires that you provide an easement for their facilities as shown on their enclosed exhibit. This can be done by the dedication of an exclusive easement to them or by reserving a public utility easement from the vacation. If you have any questions, please contact Gary Chapman of FMFCD at (559) 456-3292.

6. Sarah Aguila of Fresno's Wastewater Management Division requires that a 20 foot wide easement be reserved for maintenance of their facilities. Please see attached exhibit. If you have any questions, please contact Sarah Aguila at (559) 621-5267.
7. The City's Water Division has several requirements regarding the proposed vacation. Please see the attached letter. If you have any questions or concerns about the requirements please contact Robert Diaz at (559) 621-1623.
8. Comcast Cable requires that you provide an easement for their facilities within the area and access to their facilities in the alley adjacent to the subject area. This can be done by the dedication of a specific easement to them or by reserving a public utility easement allowing 24 hour access from the vacation. If you have any questions, please contact Michael Sue at (559) 455-4221.

We will also need: an 8.5" X 11" vicinity map for the City Council Staff Report showing the vacation area relative to the nearest main streets within a half mile with the title of: Attachment 1 Vicinity Map, an additional Exhibit "B" showing the reservation of a public utility easement, if not reserving the entire area

A processing fee in the amount of \$1,555.00 is required to cover the cost of administration and legal notices prior to continuing this process for City Council action. An Environmental Assessment (EA) for the entire project that accurately addresses the vacation is required to proceed with the vacation. If you do not have one, the EA application and fee should be submitted to the City of Fresno's Development & Resource Management Department (DARM). Mike Sanchez of DARM at 621-8040 can provide you with further information about the environmental assessment. Once the EA has been completed, please provide a copy to us.

For your information, the City of Fresno has only an easement interest in the subject area and the City has no legal authority to make a determination as to what portion of the underlying fee title to the vacated area may be added to adjacent properties.

The study done for this proposed vacation will expire in one year. Therefore, please notify this office by June 30, 2016 of your intention regarding the pursuit of this vacation.

Please contact me at 621-8681 or by email at Jason.Camit@fresno.gov if you have any questions.

Sincerely,

Jason A. Camit, PLS
Chief Surveyor
